Stephanie and Ed, thanks for framing a user-friendly one-pager for non-healthcare businesses and organizations including city agencies.

Tomas: FYI.

Susan: for review/approval, we will post once approved.

David

David: The one that I sent was supposed to be for those workers that may be hired to clean a patient's room at home or family members cleaning a patient's room. This was the task given to me at the end of January by Tomas.

3rd document is meant for MUNI, BART, facilities per Tomas' e-mail today. Restaurants and bars are required to keep hard surfaces clean and sanitized with bleach and water solution, iodine solution or quaternary ammonia solution per code.

Have a great weekend everyone!

Stephanie

Dr Deflagrate sounds catchy!

I'd like to get these onto our letterhead and post on our website (sorry that it hasn't happened already). I think there are 3 versions, correct me if needed.

- for healthcare settings (based on this <https://www.cdc.gov/coronavirus/2019->

[nCoV/hcp/infection-control.html](https://www.cdc.gov/nCoV/hcp/infection-control.html) and Ed's environmental controls document, attached)

- caring for PUI at home – I think that's what the document you sent, stephanie, is meant for – we should appropriately label it as the general public does not need to do all that – needs some more discussion as to who it's targeted toward.
- for non-healthcare businesses or organizations serving the public (<https://www.cdc.gov/coronavirus/2019-ncov/specific-groups/guidance-business-response.html> plus your info on disinfectants) – I'd like to get clear on just which group(s) this applies to.

I'm also attaching a 3rd document - "CLEANING-BUSINESSES" - my DRAFT mockup of how the simplest of the 3 scenarios would look once published. PLEASE REVIEW.

- QUESTION: Which audiences does this address, and which does it not address? Does it include restaurants and bars?

All will have to go through Info Officer Review once we're happy with them. We can start with the easiest one first

Thanks,
David

To: Cushing, Stephanie (DPH) <Stephanie.Cushing@sfdph.org>; Stier, David (DPH) <david.stier@sfdph.org>

Subject: For Discussion: RE: [Event COVID-19] Guidelines on environmental disinfection

CDC's February 12 *"Interim Guidance for Businesses and Employers to Plan and Respond to Coronavirus Disease 2019 (COVID-19), February 2020"* states:

Perform routine environmental cleaning:

- Routinely clean all frequently touched surfaces in the workplace, such as workstations, countertops, and doorknobs. Use the cleaning agents that are usually used in these areas and follow the directions on the label.
- **No additional disinfection beyond routine cleaning is recommended at this time.**
- Provide disposable wipes so that commonly used surfaces (for example, doorknobs, keyboards, remote controls, desks) can be wiped down by employees before each use.

Because we KNOW that agencies are going to insist on using a disinfectant we could add:

Neither the CDC nor SFDPH recommends that additional or special disinfection protocols or products be used at this time. If an agency or business chooses to purchase a new or different disinfectant for COVID-19, consideration should be given to purchasing one for which:

- i) the manufacturer has stated "has demonstrated effectiveness against viruses similar to COVID-19 / 2019-nCoV on hard non-porous surfaces".
- ii) (If no product with that statement is available) A product which has a human coronavirus claim on the label.

Always use disinfectants in accordance with label instructions, paying attention to required wet contact time.

Thoughts? - Ed

Subject: [Event COVID-19] Guidelines on environmental disinfection

You may already have this information ready:

City agencies are asking for clear guidelines on environmental disinfection (buses, BART, facilities, etc.)

This is a great opportunity to provide uniform, high-quality guidance that is easy to implement across the city.

What are the best materials to provide? Do we need to develop something user-friendly?

Tomas

Subject: FDA Warns Against Coronavirus-themed Phishing Emails
Date: Friday, February 21, 2020 2:30:40 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

If your email program has trouble displaying this email, [view it as a web page](#).

February 21, 2020

Dear Colleagues,

Please be aware that malicious cybercriminals are attempting to leverage interest and activity in the coronavirus to launch coronavirus-themed phishing emails.

These phishing emails contain links and downloads for malware that can allow them to take over healthcare information technology (IT) systems and steal information. Victims who interact with malicious links or attachments may expose their systems, networks, and valuable information. At least one campaign is pretending to send emails from the Centers for Disease Control and Prevention, and target Americans and other English-speaking victims with attached notices regarding infection-prevention measures for the disease. We have also observed that some phishing attempts claim new information and updates regarding

new cases of infection in recipients' areas.

As always, it is vital for government computer users to verify the validity of links before clicking on them and immediately report any suspected phishing examples to your IT administrators.

Below are additional links for the novel coronavirus (COVID-19) information.

Subject: COVID-19 -- Quick updates from today's CDC call
Date: Friday, February 21, 2020 2:02:07 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hi All

Quick updates from today's call...

- On today's CDC state/local/partner call (previously referred to as the F-11 call), they explained that these calls will continue on wed/fri at 3 est, and t will be open to state/local HDs and national partners. It is my understanding that you all should have invited to this call by now (or at least someone in your HD). If not, let me know, and we can also raise with Jose Montero next week. Chris Cosmos clarified that this wed/fri call will be "tactical" in nature.
- Key piece of info from today's call is that CDC is changing how they count cases. There will be one count for those repatriated and another for those picked up through US public health surveillance. As of today, those case counts are 21 and 13 respectively.
- Monday will continue to be a broader partner call (2 pm est) and this Monday (when many of us will be together here in DC) will focus on stigma/bullying.

Have a good weekend and safe travels to those of you heading this way.

Chrissie

Subject: RE: DPH Risk Matrix and PUI Housing Requirements
Date: Friday, February 21, 2020 1:04:52 PM
Attachments: [Housing Options By Risk Tiers Grid - draft 5.docx](#)

Hi all, please see below for the approved language around desired housing characteristics (it is also copy-pasted into the matrix). The larger matrix document outside the language below has not been finalized but I think what folks on this chain are looking for primarily are guidance around housing characteristics. Please let me know if you have further questions.

Thanks,
Rita

Desired housing characteristics to prevent COVID-19 spread in homes and residential communities, for persons that DPH determines need to be provided separate housing:

- Private room with a private bathroom
- Ventilation requirements for separate housing are not described in current CDC COVID-19 guidance (as of 2/21/2020).
- In the 2003 SARS epidemic, the order of preference for acceptable ventilation systems for home isolation of patients under investigation for, or confirmed to have SARS^[1]:
 1. Rooms with individual ventilation systems (e.g., room or window fan coil units that do not recirculate to other parts of the building)
 2. Facility with a non-recirculating ventilation system that permits redirection of the air flow from corridors and public areas into patient rooms.
- If (1) and (2) above are not feasible, then any facility that can offer private room with private bathroom. Trailer homes would be a preferred solution.

Subject: DPH Risk Matrix and PUI Housing Requirements

Morning Israel,

I'll be touching base with our colleagues at HSA (Doris) and HSH (Dylan) this morning at 10, about the housing requirements for those needing to self-quarantine for 14 days, but currently live in SROs.

Is it possible to get the risk matrix prior to that meeting, so we can use it a guide for the discussion?

Thanks,
Lisa

Subject: RE: San Francisco/CDPH/CDC COVID-19 call
Date: Friday, February 21, 2020 12:07:09 PM

Hi Julie,

I'm from the COVID-19 Healthcare Infection Control Team. We'd like to have a call today to discuss some initial actions that can be taken while we await the results of the repeat testing. This is mainly to help plan for the possibility that an investigation of the healthcare facilities where the PUI worked is needed. We can see how our discussion goes and decide whether it would be helpful to have additional calls over the next couple of days. I will defer to others from CDC to see if they can answer your questions about the indeterminate result of the OP specimen.

Thanks,
Alice

Subject: RE: San Francisco/CDPH/CDC COVID-19 call

Dear colleagues,

Can you provide more information about the purpose of these daily calls? This individual seems unlikely to be a true positive given no clear exposure, the NP swab that was tested initially was negative, and there was a problem with specimen labeling for the OP specimen only which appeared to lead to a delay in testing - can CDC provide additional information about the OP specimen with

the indeterminate result? Was there in fact a delay in testing b/c of issues with specimen labeling? What is the status of the repeat testing of the indeterminate specimen?

We have collected specimens on this individual and will be sending them to CDC today. The patient remains in home isolation.

Thanks,
Julie

Week in Review

[man lying on couch sick](#)

What to Do If You Have Flu

Most people with the flu have mild illness and do not need medical care or antiviral drugs. If you get sick with flu symptoms, in most cases, you should stay home and avoid contact with other people except to get medical care.

[Signs & Symptoms of Flu >](#)

[En Español >](#)

Travel Health Insurance

If you are planning an international trip, you should consider getting travel insurance to cover yourself against accidents or illness while you're abroad. Even if you already have medical insurance back home, it may not cover you when traveling outside the United States, or if it does cover you that coverage may not be enough.

[Types of Insurance to Consider When Travelling >](#)

Rubella Vaccination

Rubella is a contagious disease caused by a virus. It is also called "German measles," but it is caused by a different virus than measles. For some people—especially pregnant women and their unborn babies—rubella can be serious. Make sure you and your child are protected from rubella by getting vaccinated on schedule.

Subject: DPH Risk Matrix and PUI Housing Requirements

Morning Israel,

I'll be touching base with our colleagues at HSA (Doris) and HSH (Dylan) this morning at 10, about the housing requirements for those needing to self-quarantine for 14 days, but currently live in SROs.

Is it possible to get the risk matrix prior to that meeting, so we can use it a guide for the discussion?

Thanks,
Lisa

CCSF Health and Human Services Branch:

- The San Francisco Department of Public Health continues to coordinate with partner agencies to monitor the COVID-19 (novel coronavirus-2019) situation.

CCSF Community Branch:

- Nothing significant to report.

Domestic and International News:

AT&T, Facebook pull out of major SF conferences due to coronavirus fears

Citing concerns for the safety of its employees, AT&T Cybersecurity pulled out of the RSA Conference, a major digital security conference at San Francisco's Moscone Center, days before the event is set to kick off. Last week IBM also pulled out of the event over coronavirus concerns. Both were conference sponsors. The announcement posted on the conference's coronavirus update page said registration will open as planned on Saturday. The conference is scheduled for Feb. 24-28. "Since our last update, the number of individuals, including those from AT&T Cybersecurity, who have canceled their registration is approximately 1.2 percent of the total number of expected attendees," RSA wrote on its website. Organizers wrote that six of nine companies from China scheduled to participate in the conference had

canceled due to travel restrictions from China and that the remaining three will have booths staffed with U.S. workers. Facebook Gaming and the social network's Oculus virtual reality unit also announced Thursday they would not attend the Game Developers Conference set to take place in San Francisco in mid-March. Facebook had previously said it would cancel its Global Marketing Summit planned for next month in San Francisco. The event was scheduled to have about 5,000 attendees and would have generated \$11 million in spending in the city.

Driver hits two homeless men sleeping by bus stop in San Francisco

SAN FRANCISCO - San Francisco police are investigating a hit-and-run crash in the Mission District on Friday where two homeless people were hurt at a bus stop. It happened Thursday about 11:30 p.m. near 13th and Mission Street. Witnesses say a driver's car hit the men, who may have been sleeping at the bus shelter and then sped away. Megan Sue Belafonte was nearby in a tent. "I was laying in my tent and I heard an acceleration and I heard it hit an object when I was coming out," Belafonte said. "I realized the object was the trash can and the trash can hit the bus stop and the two people that were in it." There is no word on the two people who were hit, and it's believed the driver was detained at 18th Street and South Van Ness.

Toxic groundwater forces closure of Oakland high school

OAKLAND — McClymonds High School is closed indefinitely after a chemical linked to increased cancer risk was found in groundwater below the West Oakland campus. School was canceled Thursday and officials do not expect to resume class until next week, or until tests show the chemical did not seep into the air inside classrooms, posing a much greater health threat to the school's nearly 400 students than contamination in water or soil. The extent of the risk is unknown, although Oakland Unified School District leaders said the issue was not found in the school's drinking water. The district is calling on state regulators to help trace the origin of the contamination, which they said is caused by a chemical known as trichlorethylene, or TCE. The chemical, typically used as an industrial solvent, is classified as a "known human carcinogen," and long-term exposure has been linked to myriad health complications, including liver damage and cancer. "It's not a problem to be in the groundwater — the problem for us would be if it's venting above ground in our buildings," Oakland Unified School District spokesman John Sasaki said at a press conference Thursday. "The community's health and wellbeing is paramount for all of us. We want to make sure the proper testing is done in the entire neighborhood."

Situation Report - Situation Report - Update - COVID-19 (#14)

Department of Emergency Management
Division of Emergency Services

02-20-2020 - 18:41:27

Change Since Last Situation Report:

Situation Update:

- **International data:**

- 76,204 confirmed cases; 75,004 cases in mainland China; 2,242 deaths in mainland China
- 1,200 confirmed cases outside of China across 28 countries/regions. *(total includes 621 cases on the Diamond Princess cruise ship docked at Yokohama, Japan)*

<!--[if !supportLists]-->• <!--[endif]-->Source:

<https://gisanddata.maps.arcgis.com/apps/opsdashboard/index.html#/bda7594740fd40299423467b48e9ecf6>

<!--[if !supportLists]-->◦ <!--[endif]-->NOTE: Information may vary as events and reporting are rapidly evolving.

- **National (U.S.) data:**

- People under Investigation (PUI) in the United States
 - Positive: 15
 - Negative: 412
 - Pending: 52
 - Total: 479
 - Source: U.S. Centers for Disease Control & Prevention (<https://www.cdc.gov/coronavirus/2019-ncov/cases-in-us.html>)

<!--[if !supportLists]-->◦ <!--[endif]-->There are no confirmed cases in San Francisco, but an asymptomatic person who was evacuated from the Diamond Princess cruise ship in Japan to Travis Air Force Base is currently being treated at a San Francisco hospital.

- The risk of COVID-19 in California remains low.
- **There are no recommendations to cancel events.**

<!--[if !supportLists]-->• <!--[endif]-->**We are in flu season. The San Francisco Department of Public Health (DPH) recommends that persons with symptoms stay home from work, school and social gatherings. Practice hand-washing precautions. It is not too late to get the flu vaccine.**

SFDPH Activities:

- On 02/19/2020 SFDPH hosted a conference call with six major SF University and College systems to provide information and guidance on managing return travelers from China that may need follow up.
- SFDPH DOC is identifying reporting needs and requirements for SF return traveler data, to guide analysis and provide a comprehensive picture of the ongoing and completed work.
- SFDPH is utilizing data from incoming clinical consultation calls to guide prioritization of site visits and outreach to community clinics, healthcare facilities, and hospitals in SF. This includes facilities in the SFDPH Safety Net and external and/or private facilities.
- SFDPH Primary Care clinics are universally screening their return traveler patients in clinic and are reporting readiness to safely manage potential COVID-19 PUI cases.
- SFDPH has identified a need to align efforts on quarantine clearance requests from the SF community and employers.
- SFDPH Public Information Office is focusing on highlighting the work that the DOC is doing to contact and support returning travelers from China in partnership with CDC and CDPH.
- SFDPH is coordinating with DEM and HSH via the EOC to assess options for returning travelers from China who live in congregate settings such as SROs

Public Information:

- SFDPH and the San Francisco Department of Emergency Management (DEM) continue to operate the Joint Information Center to develop and disseminate accurate, timely, relevant and accessible public information about COVID-19 (Novel Coronavirus). The Joint Information Center is developing to expand to include additional regular members from other city agencies.
- Public Information Objectives:
 - <!--[if !supportLists]-->1. <!--[endif]-->Rumor Control
 - <!--[if !supportLists]-->2. <!--[endif]-->Engagement with the Chinese and Asian Pacific Islander community
 - <!--[if !supportLists]-->3. <!--[endif]-->Keeping Public Information up-to-date
- DPH and DEM have announcement plans should a San Francisco resident contract COVID-19. The Office of Civic Engagement and Immigrant Affairs (OCEIA) has conducted translation of these materials in all threshold languages.
- DPH and DEM will conducted a conference call on Thursday, February 20 with California Resilience Alliance to provide guidance and preparedness information about COVID-19 for large employers in San Francisco.
- DPH and DEM conducted the regular elected official conference call briefing. Conference calls are conducted every Monday and Thursdays.
- DPH and DEM Public Information Officers (PIOs) continue to respond to media inquiries and prioritize Chinese language media. Public messaging also highlights ongoing preparedness work for possible COVID-19 cases in San Francisco in the future.
- 311 has received about 462 inquires on COVID-19 since January 27, 2020.
- Updated factsheets remain available at www.sfdph.org and www.sf72.org.

WHO (World Health Organization) Response

- China has revised their guidance on case classification for COVID-19, removing the classification of “clinically diagnosed” previously used for Hubei province, and retaining only “suspected” and “confirmed” for all areas, the latter requiring laboratory confirmation. Some previously reported “clinically diagnosed” cases are expected to be discarded over the coming days as laboratory testing is conducted and some are found to be COVID-19-negative

CDC

- On February 19, 2020, CDC issued travel guidance for Hong Kong, recommending that travelers practice usual

precautions.

- For operational coordination and information sharing, visit WebEOC (<https://sfvem.org>) under Incident Name: **2020-01-21 2019 Covid-19** (formerly 2020-01-21 2019-nCoV). Note - WebEOC is password protected.

Situation Summary:

- CDC is closely monitoring an outbreak of respiratory illness caused by COVID-19 that was first detected in Wuhan City, Hubei Province, China and which continues to expand.
- Chinese health officials have reported thousands of infections with COVID-19 in China, with the virus reportedly spreading from person-to-person in many parts of that country.
- Infections with COVID-19, most of them associated with travel from Wuhan, also are being reported in a growing number of international locations, including the United States.

SFDPH DOC COVID-19 Situation Status Report (02/20/20)

Status: Yellow
Outlook: Worsening
Need: None

of Cases/Deaths

Worldwide: 76,199 Cases / 2,247 Deaths (*John Hopkins CSSE, link below*)
US: *15 Cases (CDC excluding 14 Cases from Diamond Princess Cruise Ship) / 0 Deaths
CA: 8 Cases / 0 Deaths
SF: 0 Cases

Updates and Response:

SFDPH

Summary of actions

- A suspected case of novel coronavirus (COVID-19) from Travis Air Force Base is being treated in a San Francisco hospital. The individual has no symptoms but tested positive for the virus in Japan and was brought to San Francisco from Travis Air Force Base in Fairfield, where they were quarantined after disembarking a cruise ship.
- On 02-19-2020 SFDPH hosted a conference call with six major SF University and College systems to provide information and guidance on managing return travelers from China that may need follow up.
- SFDPH DOC is identifying reporting needs and requirements for SF return traveler data, to guide analysis and provide a comprehensive picture of the ongoing and completed work.
- SFDPH is utilizing data from incoming clinical consultation calls to guide prioritization of site visits and outreach to community clinics, healthcare facilities, and hospitals in SF. This includes facilities in the SFDPH Safety Net and external and/or private facilities.
- SFDPH Primary Care clinics are universally screening their return traveler patients in clinic and report readiness to safely manage potential COVID-19 PUI cases.
- SFDPH has identified a need to align efforts on quarantine clearance requests from the SF community and employers.
- Public Information Office is focusing on emerging questions from the community about the quarantine process for congregate living settings (Single Room Occupancy units, multi-family homes, etc.).
- SF Mayor, London Breed, will send letter to the RSA cybersecurity conference to 45k participants, reinforcing that risk for COVID-19 remains low.

-

CDC-

- On February 19, 2020, CDC issued travel guidance for Hong Kong, recommending that travelers practice usual precautions. <https://wwwnc.cdc.gov/travel/notices/watch/coronavirus-hong-kong>
- CDC reported U.S. testing data: 412 negative PUIs; 52 Pending PUIs.
- <https://www.cdc.gov/coronavirus/2019-ncov/hcp/index.html>

WHO (World Health Organization)-

China has revised their guidance on case classification for COVID-19, removing the classification of “clinically diagnosed” previously used for Hubei province, and retaining only “suspected” and “confirmed” for all areas, the latter requiring laboratory confirmation. Some previously reported “clinically diagnosed” cases are expected to be discarded over the coming days as laboratory testing is conducted and some are found to be COVID-19-negative.

- <https://www.who.int/health-topics/coronavirus>

CDPH (California Department of Public Health)-

- CDPH announced that 16 laboratories, including the Viral and Rickettsial Disease Laboratory in Richmond, CA, will provide more rapid results than currently available and help to inform public health action and medical care for people who may have been exposed to novel coronavirus. Results from the Centers for Disease Control and Prevention currently take between two to seven days. The Public Health Department lab anticipates it will be able to conduct testing, and report results, within two days of specimen receipt.
- <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/Immunization/nCOV2019.aspx>

Johns Hopkins Data Dashboard (real time updates, data sources- WHO, CDC, NHC, and DXY.)

International data:

- 76,199 confirmed cases globally
- 74,999 confirmed cases in mainland China
- 1,200 confirmed cases outside of China across 29 countries.
- 2,144 deaths in mainland China + 9 additional deaths in 7 countries outside of China (Philippines, Hong Kong, Taiwan, Japan, South Korea, France, Iran).
- 2 deaths from Diamond Princess Cruise Ship.

National (U.S.) data:

- No new confirmed cases reported in the U.S. within the last 24 hours.
- <https://gisanddata.maps.arcgis.com/apps/opsdashboard/index.html#/bda7594740fd40299423467b48e9ecf6>

NOTE: Information may vary as events and reporting are rapidly evolving.

2020 State of the ImmUnion Report

Vaccinate Your Family: The next generation of every Child By Two ([VYE](#)), has just released their fourth annual [State of the ImmUnion \(SOTI\) report](#). The 2020 report examines how strong our defenses truly are against vaccine-preventable diseases and what we can do, as public health advocates and legislators, to make our country stronger and more resilient in the face of disease outbreaks and other emerging health threats.

We encourage you to download and read through this well designed and useful report today. Please share widely throughout your network and with state and local policymakers as appropriate.

Highlights include

- Quick reference guide to vaccine safety and oversight
- Data and analysis of outbreaks experienced in 2019
- Impact of vaccine preventable diseases throughout the United States
- Strategies for ensuring that children and adults have access to vaccines

We encourage you to tag them in your post: @VaccinateYourFamily on Facebook, @Vaccinateyourfamily on Instagram, and @Vaxyourfam on Twitter and [all social media images are available on their Facebook page](#).

2020 Childhood, Adolescent and Adult Immunization Schedules

The Centers for Disease Control and Prevention have released the 2020 adult and child/adolescent immunization schedules which can be found on their [updated website](#).

2020 Immunization Schedules :

- [Recommended Immunization Schedule for Child and Adolescents, ages 18 years or younger, 2020](#)

- [Recommended Immunization Schedule for Adults, ages 19 years or older, 2020](#)
- [Additional immunization-related resources for Health Care Providers](#)

The design of the schedules allows for easy access to information and a broader range of immunization schedule-related materials, including resources for health care providers, vaccine safety, resources for parents and adults. Please promote the availability of the 2020 immunization schedules through your networks.

Coronavirus Disease 2019 (COVID-19)

This is an emerging, rapidly evolving situation and CDC will provide updated information as it becomes available, in addition to updated guidance.

CDC and CDPH are closely monitoring the outbreak of Coronavirus Disease 2019 (COVID-19), a respiratory illness caused by a novel (new) coronavirus first identified in Wuhan, Hubei Province, China. Visit these web pages for the most current information.

[CDPH information on coronavirus](#)

Preteen Vaccine Week (PVW) March 1- 7, 2020

PVW is an annual California observance. First started in 1999 to create awareness about the Hepatitis B vaccination school law requirement, the observance has evolved to promote the concept of preteen doctor visits and draw attention to the importance of immunizations for preteens.

For more great ideas, download

the **Preteen Vaccine Week 2020**
Campaign Kit.

FAQ on ACIP Shared Clinical Decision Making Recommendations

The CDC has issued a list of frequently asked questions (FAQs) to provide clarity on the Advisory Committee on Immunization Practices' (ACIP) shared clinical decision-making recommendations and guidance and implementation considerations for the Shared Clinical Decision Making (SCDM) recommendations.

You can find these FAQs at: <https://www.cdc.gov/vaccines/acip/acip-scdm-faqs.html>

Subject: Statement to convention customers on coronavirus precautions

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hello Rachael,

At the request of our soon-incoming convention customers, we are preparing messaging for their attendees to reassure them that San Francisco is not at risk for the coronavirus. A draft is below.

Please take a look and let me know if anything needs to be added or changed on this statement.

We hope to get this to the customer today.

Many thanks,
Laurie Armstrong Gossy

To RSA Attendees:

San Francisco is looking forward to hosting RSA attendees and exhibitors on February 24-28. This annual event creates inspiration and critical connections for the many thousands of people who gather in San Francisco to attend this landmark industry event.

With the recent media attention on the **new** coronavirus, we want you to know that, according to the [San Francisco Department of Public Health](#), "There are zero confirmed cases of novel coronavirus in San Francisco residents, and the risk to the general public is low." **The Health Department is actively preparing and will make an announcement if the situation here changes. Meanwhile, they recommend that everyone practice common sense prevention such as frequent hand washing in order to prevent illness.**

We also want to assure you that the official agencies are being extremely proactive to keep visitors and residents safe and healthy. We are in frequent contact with experts at the following departments:

- [The Centers for Disease Control and Prevention](#) is constantly updating information about the novel corona virus.
- [The San Francisco Department of Public Health](#) is providing updated information about prevention and control of the virus.
- [The Department of Homeland Security](#) is providing updated information related to travel restrictions and enhanced screening procedures for travelers going between China and the U.S.
- At [San Francisco International Airport](#), the Centers for Disease Control (CDC) are conducting health screenings for eligible international arriving passengers, and providing guidance on necessary health measures.
- [The Moscone Center](#) is following recommendations set forth in the U.S. EPA's Emerging Pathogen Policy regarding cleaning disinfectants effective against the Novel Coronavirus (2019-nCoV).

We are excited to welcome you to San Francisco.

Sincerely,

Joe D'Alessandro

CCSF Community Branch:

- Nothing significant to report.

Domestic and International News:

Suspect, 1 other found dead after 9 people killed in Germany

HANAU, Germany (AP) — A man suspected of fatally shooting nine people in the German city of Hanau was found dead at his home early Thursday, hours after the attacks in and outside two hookah lounges, police said. Officers also found another body at the same address, police said. Police gave no details of the suspected gunman but said “there are currently no indications of further perpetrators.” They did not give details of his possible motive or how he died, or specify why they believe “with a high degree of probability” that he was the assailant. The number of dead in the shootings Wednesday evening rose to nine, a police statement said. German news agency dpa reported, citing unnamed security officials, that a written claim of responsibility and a video were found and are being examined by police.

Paradise residents still trying to recover from devastating Camp Fire

PARADISE, Calif. (KRON) – It's been more than a year since the deadly Camp Fire that nearly wiped out the entire town of Paradise. The aftermath left thousands without homes and many still in the rebuilding process. More than 18,000 homes and structures were destroyed. Many people moved out of Paradise, for those who stayed are still trying to recover. "This was the garage here and then our bedroom was here in the corner, the grandparents there," Jacob Jones said. Jacob Jones lost almost everything in the Camp Fire. "Both sides were just walls of fire," Jones said. It was around 6:30 in the morning on November 8, 2018, when the Camp Fire tore through Paradise, virtually wiping out the town. A devastating wildfire. 85 people lost their lives, that number expected to rise from those suffering from medical complications. Block after block, reduced to rubble, tens of thousands lost their homes. "There's trailers everywhere," Jones said. "People are still living in tents, people are living in cars and there's still people in shelters after the fire. Dirt lot now and that's kind of what the whole town is."

<https://www.kron4.com/news/california/paradise-residents-still-trying-to-recover-from-devastating-camp-fire/>

In Hong Kong, the coronavirus outbreak is deepening the political divide from the 2019 protests

In a video widely circulated earlier this month, a crowd of people swarm a cart of toilet rolls in a Hong Kong supermarket, pushing, shoving, and even elbowing each other out of the way for the coveted goods. Rumors had spread that toilet paper supply would be cut off due to new border closures with mainland China, implemented in an effort to contain the novel coronavirus outbreak. The government's reassurances and calls for order went unheeded as millions of residents, gripped by fear and suspicion, descended on stores citywide to panic buy. The novel coronavirus, which originated in Wuhan, China, was first detected in Hong Kong on January 22. Since then, there have been 62 confirmed cases and two deaths in the city. The numbers are far lower than in mainland China, where at least 1,868 people have died so far -- but Hong Kong carries the memories of the deadly Severe Acute Respiratory Syndrome (SARS) outbreak in 2003, and people aren't taking any chances. Face masks have sold out practically everywhere, panicked residents have barricaded themselves at home -- and political tensions from the 2019 protests have roared back to life. Hong Kong had barely begun returning to normal after more than six months of often violent unrest when the outbreak hit. Now, lingering resentments have collided with the virus to create a perfect storm -- a divided society that can't come together, facing a public health crisis that demands a unified response and a paralyzed government caught in the middle.

<https://www.cnn.com/2020/02/18/asia/hong-kong-coronavirus-protests-intl-hnk/index.html>

Situation Report - Situation Report - Update - COVID-19 (#12)

Department of Emergency Management
Division of Emergency Services

02-19-2020 - 16:57:17

Change Since Last Situation Report:

Situation Update:

- **International data:**
 - 75,283 confirmed cases; 74,188 cases in mainland China; 2,009 deaths in mainland China
 - 1,095 confirmed cases outside of China across 28 countries/regions. (*total includes 621 cases on the Diamond Princess cruise ship docked at Yokohama, Japan*)
- **National (U.S.) data:**
 - 15 total confirmed cases in the USA
 - There are no confirmed cases in San Francisco
 - The risk of COVID-19 in California remains low.
- **There are no recommendations to cancel events.**
- <https://gisanddata.maps.arcgis.com/apps/opsdashboard/index.html#/bda7594740fd40299423467b48e9ecf6>
 - *NOTE: Information may vary as events and reporting are rapidly evolving.*
- **We are in flu season. The San Francisco Department of Public Health (DPH) recommends that persons with symptoms stay home from work, school and social gatherings. Practice hand-washing precautions. It is not too late to get the flu vaccine.**

SFDPH Activities:

- SFDPH is focused on working with as well as addressing concerns and providing preventative measures to Chinese community groups, commerce, businesses, schools, and media outlets.
- Site visits to SF hospitals continue. DPH is providing consultation according to CDC/CDPH guidance to facilities regarding: level of preparedness of the hospital and EMS systems.
- SFDPH is conferring with SF colleges and universities to provide COVID-19 guidance.
- SFDPH developed a COVID-19 clinical intake form and check list to provide step-by-step guidance when evaluating patients who may have COVID-19, with a goal of preventing the spread of infection and expediting investigation.
- A Hospital FAQ for visitors and patients is currently in development.
- Initial hospital site visits have been completed.
- SFDPH is continuing to reach out to returning asymptomatic travelers from China, to remind them to self-quarantine for 14 days and contact their provider and SFDPH if they develop fever, cough or shortness of

breath in the interim. The data systems and protocols for this follow up are being assessed and refined.

- SFDPH hosted an informational conference call and Q&A with college and university partners on 2/19/2020 at 2:00 p.m.

Public Information:

- The World Health Organization (WHO) has renamed Novel Coronavirus to COVID-19 and has asked others to refer to the virus in this manner. Public information will work to introduce this term in future materials.
- SFDPH and the San Francisco Department of Emergency Management (DEM) continue to operate the Joint Information Center to develop and disseminate accurate, timely, relevant and accessible public information about COVID-19 (Novel Coronavirus).
- Public Information Objectives:
 1. Rumor Control
 2. Engagement with the Chinese and Asian Pacific Islander community
 3. Keeping Public Information up-to-date
- DPH and DEM continue to finalize announcement plans should a San Francisco resident contract COVID-19. The Office of Civic Engagement and Immigrant Affairs (OCEIA) has conducted translation of these materials in all threshold languages.
- DPH and DEM will conduct a conference call tomorrow with California Earthquake Resiliency Staff to provide guidance and preparedness information about COVID-19.
- DPH and DEM Public Information Officers (PIOs) continue to respond to media inquiries and prioritize Chinese language media.
- 311 has received about 462 inquiries on COVID-19 since January 27, 2020.
- Singtao radio interview was conducted today with SFDPH, OEWD and SFDEM representatives to promote CoVid-19 public health safety messaging and encourage community to support Chinatown's local economy.
- SFDPH and SFDEM will attend and support a Chamber of Commerce led Chinatown community meeting at 2pm to address CoVid-19 inquiries.
- Updated factsheets remain available at www.sfdph.org and www.sf72.org.

WHO Response:

- WHO is working with an international network of statisticians and mathematical modelers to estimate key epidemiologic parameters of COVID-19.
- Online courses have been added to the OpenWHO platform:
 - Critical Care of Severe Acute Respiratory Infections
 - Health and safety briefing for respiratory diseases – ePROTECT

CDC

- CDC is creating a booklet for arriving travelers to record temperatures and symptoms, to replace current CDC temperature logs. CDC is expecting to release the booklet by the end of February 2020.

- For operational coordination and information sharing, visit WebEOC (<https://sfvem.org>) under Incident Name: **2020-01-21 2019 Covid-19** (*formerly 2020-01-21 2019-nCoV*). Note - WebEOC is password protected.

Situation Summary:

- CDC is closely monitoring an outbreak of respiratory illness caused by COVID-19 that was first detected in Wuhan City, Hubei Province, China and which continues to expand.
- Chinese health officials have reported thousands of infections with COVID-19 in China, with the virus reportedly spreading from person-to-person in many parts of that country.
- Infections with COVID-19, most of them associated with travel from Wuhan, also are being reported in a growing number of international locations, including the United States.

Updates and Response:

SFDPH

Summary of actions

- SFDPH is focused on working with Chinese community groups, commerce, businesses, schools, and media outlets, addressing concerns and providing preventative measures to the community.
- Site visits to SF hospitals continue. DPH is providing consultation to facilities re: level of preparedness of the hospital and EMS, according to guidance.
- SFDPH conferring with SF colleges & universities to provide COVID-19 guidance.
- SFDPH developed a COVID-19 clinical intake form and check list to provide step-by-step guidance when evaluating patients who may have COVID-19, with a goal of preventing the spread of infection and expediting investigation. <https://www.sfcdcp.org/infectious-diseases-a-to-z/coronavirus-2019-novel-coronavirus/coronavirus-2019-information-for-healthcare-providers/>
- A Hospital FAQ for visitors and patients is currently in development.

[General FAQs](#)

CDC-

- CDC is creating a booklet for arriving travelers to record temperatures and symptoms, to replace current CDC temperature logs. CDC is expecting to release the booklet by the end of February 2020.
- CDC reported U.S. testing data: 412 negative PUIs; 52 Pending PUIs.
<https://www.cdc.gov/coronavirus/2019-ncov/hcp/index.html>

WHO (World Health Organization)-

- WHO is working with an international network of statisticians and mathematical modelers to estimate key epidemiologic parameters of COVID19.
- Online courses have been added to the OpenWHO platform:
 - Critical Care of Severe Acute Respiratory Infections
 - Health and safety briefing for respiratory diseases – ePROTECT
<https://www.who.int/healthacademy/courses/en/>
<https://www.who.int/health-topics/coronavirus>

CDPH (California Department of Public Health)-

- CDPH is polling regions re: their inventory of Personal Protective Equipment (PPE).
- CDPH announced that 16 laboratories, including the Viral and Rickettsial Disease Laboratory in Richmond, CA, will soon be able to perform COVID-19 testing.

- CDPH reported 02/18/20 CA testing data: 172 persons tested; 8 confirmed cases; 147 negative results; 10 pending results
- <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/Immunization/nCOV2019.aspx>

Johns Hopkins Data Dashboard (real time updates, data sources- WHO, CDC, NHC, and DXY.)

International data:

- 75,283 confirmed cases globally
- 74,188 confirmed cases in mainland China
- 1,017 confirmed cases outside of China across 29 countries.
- 2,006 deaths in mainland China + 8 additional deaths in 6 countries outside of China (Philippines, Hong Kong, Taiwan, Japan, France, Iran).
- 2 new confirmed cases in Iran.

National (U.S.) data:

- No new confirmed cases reported in the U.S. within the last 24 hours.

CCSF Health and Human Services Branch:

- The San Francisco Department of Public Health continues to coordinate with partner agencies to monitor the COVID-19 (novel coronavirus-2019) situation.

CCSF Community Branch:

- Nothing significant to report.

Domestic and International News:

Coronavirus Has U.S. Cities Stretching to Monitor Self-Quarantined Americans

Public-health officials in the U.S. are striving to keep tabs on thousands of Americans who have quarantined themselves at home after returning from mainland China to curtail the new coronavirus, adding to an epidemic response that is straining already-stretched local departments. More than 5,400 people had been asked to self-quarantine in California alone as of Feb. 14, according to the California Department of Public Health. Hundreds more are self-quarantining in Georgia, Washington state, Illinois, New York and other states. Public-health officials are following directions from the Centers for Disease Control and Prevention and the State Department to supervise these people, but many steps are being developed on the fly. States are using a variety of techniques to track people from calling in volunteers to make phone calls, to sending text messages and using electronic registries. These people are separate from the Americans who are under stricter federal quarantine, including those housed at four U.S. air bases and the 328 who were recently evacuated from the Diamond Princess cruise ship. Those groups

arrived from locations where the virus was rapidly spreading, whereas the people self-monitoring at home are thought to be at lower risk of having been exposed to it.

Huge locust outbreak in East Africa reaches South Sudan

JUBA, South Sudan (AP) — The worst locust outbreak that parts of East Africa have seen in 70 years has reached South Sudan, a country where roughly half the population already faces hunger after years of civil war, officials announced Tuesday. Around 2,000 locusts were spotted inside the country, Agriculture Minister Onyoti Adigo told reporters. Authorities will try to control the outbreak, he added. The locusts have been seen in Eastern Equatoria state near the borders with Ethiopia, Kenya and Uganda. All have been affected by the outbreak that has been influenced by the changing climate in the region. The situation in those three countries “remains extremely alarming,” the U.N. Food and Agriculture Organization said in its latest Locust Watch update Monday. Locusts also have reached Sudan, Eritrea, Tanzania and more recently Uganda. The soil in South Sudan’s Eastern Equatoria has a sandy nature that allows the locusts to lay eggs easily, said Meshack Malo, country representative with the FAO. At this stage “if we are not able to deal with them ... it will be a problem,” he said. South Sudan is even less prepared than other countries in the region for a locust outbreak, and its people are arguably more vulnerable. More than 5 million people are severely food insecure, the U.N. humanitarian office says in its latest assessment, and some 860,000 children are malnourished.

180 coronavirus evacuees released from Travis Air Force Base after quarantine

Officials said 180 coronavirus evacuees who were flown to Travis Air Force Base in Solano County, Calif., earlier this month were released on Tuesday following the completion of their 14-day quarantine. The evacuees, who arrived from Wuhan, China, have “been medically cleared,” and “pose no health risk” to the surrounding community, the Centers for Disease Control and Prevention (CDC) said. Their release comes on the same day that another group that was being housed at Miramar Marine Corps Air Station in San Diego was sent home. The two groups had arrived to the U.S. on State Department-chartered flights from Wuhan, which is considered the coronavirus epicenter. “Later this week, all remaining people recently returned from Wuhan, China, via State Department-chartered flights are anticipated to complete their 14-day quarantine,” the CDC press release said. The health agency noted that newly arrived evacuees who were flown to the base from Japan after they were removed from the Diamond Princess cruise ship have been kept separate from the other quarantined groups.

Situation Report - Situation Report - Update - COVID-19 (#12)

Department of Emergency Management
Division of Emergency Services

02-18-2020 - 20:06:05

Change Since Last Situation Report:

Situation Update:

- **International data:**
 - 75,155 confirmed cases; 74,142 cases in mainland China; 2,002 deaths in mainland China
 - 1,013 confirmed cases outside of China across 28 countries/regions. *(total includes 542 cases on the Diamond Princess cruise ship docked at Yokohama, Japan)*
- **National (U.S.) data:**
 - 29 total confirmed cases in the USA
 - There are no confirmed cases in San Francisco
 - The risk of COVID-19 in California remains low.
- **There are no recommendations to cancel events.**
- <https://gisanddata.maps.arcgis.com/apps/opsdashboard/index.html#/bda7594740fd40299423467b48e9ecf6>
 - *NOTE: Information may vary as events and reporting are rapidly evolving.*
- **We are in flu season. The San Francisco Department of Public Health (DPH) recommends that persons with symptoms stay home from work, school and social gatherings. Practice hand-washing precautions. It is never too late to get the flu vaccine.**

SFDPH Activities:

- Progress has been made as SFDPH continues its outreach to return travelers from China requiring follow up.
- SFDPH DOC is activating a "Community Branch" to perform outreach, provide education and deliver

guidance to communities, community-based organizations and the general public.

- SFDPH Laboratories are preparing to start COVID-19 testing, but will not receive the testing reagent supplies from the CDC until next week at the earliest.
- SFDPH conducted a bed poll with SF hospitals over the weekend to assess readiness to support regional partners if needed.
- Public Information Office is creating an informational poster re: infection prevention techniques. The poster will be translated into 4 languages.
- Messaging is being created to prepare residents in the event of a confirmed COVID-19 case in SF.
- SFDPH is working with major employment agencies and organizations to organize a call to provide information on various protocols and escalation of response and messaging.

Public Information:

- The World Health Organization (WHO) has renamed Novel Coronavirus to COVID-19 and has asked others to refer to the virus in this manner. Public information will work to introduce this term in future materials.
- SFDPH and the San Francisco Department of Emergency Management (DEM) continue to operate the Joint Information Center to develop and disseminate accurate, timely, relevant and accessible public information about COVID-19 (Novel Coronavirus).
- Public Information Objectives:

<!--[if !supportLists]-->1. <!--[endif]-->Rumor Control

<!--[if !supportLists]-->2. <!--[endif]-->Engagement with the Chinese and Asian Pacific Islander community

<!--[if !supportLists]-->3. <!--[endif]-->Keeping Public Information up-to-date

- SFDPH and DEM continue to finalize announcement plans should a San Francisco resident contract COVID-19. The Office of Civic Engagement and Immigrant Affairs (OCEIA) has conducted translation of these materials in all threshold languages.
- SFDPH, San Francisco International Airport (SFO) and DEM conducted a conference call with Moscone Center Staff at the request of the City Administrator's Office. The purpose of the meeting was to provide guidance to convention and meeting planners having events at the Moscone Center.
- SFDPH and DEM Public Information Officers (PIOs) continue to respond to media inquiries and prioritize Chinese language media.
- 311 has received 400 inquires on COVID-19 since January 27, 2020.
- Singtao radio will conduct an interview with SFDPH, OEWD and SFDEM representatives to promote COVID-19 public health safety messaging and encourage community to support Chinatown's local economy.
- SFDPH and SFDEM will attend and support a Chamber of Commerce led Chinatown community meeting at 2pm to address COVID-19 inquiries.
- Updated factsheets remain available at www.sfdph.org and www.sf72.org.

WHO Response:

- WHO is currently gathering and assessing the needs of Member States for critical items such as Personal Protective Equipment (PPE).
- WHO started dispatching COVID-19 testing kits for 56 countries. As of 17 February, 37 shipments have been dispatched to 34 countries and three regional offices.

- For operational coordination and information sharing, visit WebEOC (<https://sfvem.org>) under Incident Name: **2020-01-21 2019 Covid-19** (*formerly 2020-01-21 2019-nCoV*). Note - WebEOC is password protected.

Situation Summary:

- CDC is closely monitoring an outbreak of respiratory illness caused by COVID-19 that was first detected in Wuhan City, Hubei Province, China and which continues to expand.
- Chinese health officials have reported thousands of infections with COVID-19 in China, with the virus reportedly spreading from person-to-person in many parts of that country.
- Infections with COVID-19, most of them associated with travel from Wuhan, also are being reported in a growing number of international locations, including the United States.

Hello Mesfin,

Please note that the staff are working to get you the information that you requested. Unfortunately we will need some more time as a large portion of the staff have been activated to our local response to the coronavirus. We also have a key staff member that worked on the data table out on medical leave until the end of the week.

Thank you so much for your patience and understanding. Please contact me if you have any other questions.

Subject: QA Feedback on Project PrIDE Aggregate Data

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hi Amanda, Israel and SF PrIDE Colleagues,

Thank you very much for submitting your final cross-jurisdictional M&E data. We appreciate the hard work your team put into implementing your Project PrIDE activities and in collecting and reporting your program data. As promised, we have completed our quick review of your cross-jurisdiction program data and have attached with this e-mail our quality assurance (QA) feedback. The feedback is structured along the data tables starting with Table A-1. Please review and provide the following as applicable:

- **Clarification or Confirmation:** Most of our QA feedback comes in the form of asking you to confirm (yes or no; agree or disagree; etc.) our reading of your data or to provide a brief explanation or clarification on data-related issues for which we need a little more information.
- **Revision and Re-submission:** In very few cases, we have asked you to correct an error or an inconsistency we have found in the data tables. Some errors/inconsistencies may be fixed by just providing us with revised numbers on the feedback form and in some cases, it may require you to revise the entire table and re-submit along with the feedback form.
- **Completion and Submission:** In some cases, required tables were not completed. In those cases, we have asked you to use previously provided excel reporting templates to provide your program data.

Please complete and send the feedback form along with any revised tables no later than COB **Wednesday February 19, 2020.**

Please do not hesitate to contact me or Shaliondel if you have any questions.

Thank you for your cooperation.

Sincerely,

Mesfin

[Coastal Region 02182020 COVID-19 Report Update.docx](#)

Afternoon,

You may already receive this report, so apologies in advance if so.

Wanted to share this time around however, because of the below update for Napa County (which you may already be aware of):

- Queen of the Valley took in two (2) patients from TAFB at 0300 on 02/18/20.
 - One (1) patient has been confirmed positive, the other has been symptomatic and needs to be retested.
 - County Public Health is still trying to get further background information from CDC on these two patients.
 - County Public Health is working with County PIO and Queen of the Valley to get public messaging out this afternoon.

Thanks,
Lisa

CCSF Public Safety Branch:

- Nothing significant to report.

CCSF Health and Human Services Branch:

- The San Francisco Department of Public Health continues to coordinate with partner agencies to monitor the COVID-19 (novel coronavirus-2019) situation.

CCSF Community Branch:

- Nothing significant to report.

Domestic and International News:

Air Force officials: Coronavirus patients will not stay at Fairfield base

The group of coronavirus patients whisked to Travis Air Force Base in Fairfield late Sunday after evacuating a Japanese cruise ship did not linger for long at the California military facility. While the base opened its gates for uninfected passengers who had been quarantined aboard the cruise ship, military officials said they would not be treating coronavirus patients at the airfield. Instead, the infected people were transported by the State Department to medical facilities in California and Nebraska. "None of the passengers currently on the installation have tested positive for (coronavirus) or are symptomatic," Travis officials said in a statement Monday. "If any passenger displays symptoms, they will be transported to an off-base hospital for containment and specialized care." In all, 328 Americans were evacuated from the Diamond Princess cruise ship, 177 of whom went to Travis. Seven of those had been diagnosed with the

virus, and three more were isolated for feverish conditions during the flight. Four people who tested positive for coronavirus, but have not yet presented symptoms, were taken to health care facilities near the base, a State Department official said.

Hospital workers in Santa Clara County to rally against staffing shortages

SANTA CLARA COUNTY, Calif. (KRON) – Hospital workers in Santa Clara County on Tuesday will gather to rally against staffing shortages. Valley Medical Center employees say the staffing shortage causes increased wait times for patients. This comes months after the labor agreement between the county and the workers' union expired. Today's rally will happen at noon at Valley Medical Center in San Jose.

<https://www.kron4.com/news/bay-area/hospital-workers-in-santa-clara-county-to-rally-against-staffing-shortages/>

Despite coronavirus fears, San Francisco expects record number of cruise ships in 2020

This year was supposed to be huge for the San Francisco cruise industry. More ships than ever before — 117, up from 85 last year — are calling at the port. But the pall cast by the coronavirus over the cruise industry may affect the city. Vessels come here primarily from other U.S. ports, as well as from Mexico and Canada, and the Port of San Francisco doesn't expect any ships to stay away. Nonetheless, the virus is preoccupying travelers — especially since a cruise ship stationed off Japan has had hundreds of passengers infected and far more stuck in quarantine. The 117 cruise calls scheduled for the city this year involve 32 vessels from 19 cruise lines. Many of the ships return to the city several times. The Carnival Miracle, which is set to make its maiden voyage to San Francisco in March, plans to make a total of 28 calls in San Francisco, accounting for much of the increase the city will see this year. The ship usually departs from Long Beach and heads to Hawaii and Mexico. Port officials are monitoring the coronavirus situation, which has caused many travelers to cancel vacations and cruise companies' stocks to tank, but they say that so far they expect no decrease in passengers.

<https://www.sfchronicle.com/business/article/SF-expects-record-number-of-cruise-ships-in-2020-15063202.php>

The City & County of San Francisco (CCSF) Department of Emergency Management's Duty Officer Program compiles and disseminates this product in order to maintain situational awareness among public safety partners.

CCSF Alert is owned and operated by the City and County of San Francisco. To change the way you receive CCSF Alerts, contact your Department's Disaster Preparedness Coordinator.

Happy Presidents Day!

Let me know if you are getting the below from CDC, it says it goes out to the SHOs and I've been told that you all are getting what the SHOs do... It is both a daily and a weekly. I'm happy to forward both or either.

I will also be forwarding the NACCHO weekly digest that we mentioned in the Friday email, but for some reason I didn't get it Friday... So stay tuned!

Happy Presidents Day!

Let me know if you are getting the below from CDC, it says it goes out to the SHOs and I've been told that you all are getting what the SHOs do... It is both a daily and a weekly. I'm happy to forward both or either.

I will also be forwarding the NACCHO weekly digest that we mentioned in the Friday email, but for some reason I didn't get it Friday... So stay tuned!

Chrissie

Subject: Re: If you get calls from family members of hospitalized passengers from the Diamond Princess

CAUTION: External Email. Proceed Responsibly.

Most of the CDC pages have a button you can click on that says “other languages” (on my phone) or shows Chinese characters (on my computer) and if you click on it, it turns all the information to Chinese. See:

<https://www.cdc.gov/coronavirus/2019-nCoV/index.html>

Dear Kathleen;

I gave a talk to members of the Chinese community about coronavirus in Ventura County on Saturday morning. One of the things they mentioned to me was that there was a paucity of information written in Chinese characters. If that is not true, could you please point me in the direction of where I can find the information about coronavirus. If it is true, would you please create such written information for Chinese audiences? Please get back to me as their leadership is waiting for guidance. Thanks.

Bob Levin
Health Officer
Ventura County

Subject: If you get calls from family members of hospitalized passengers from the Diamond Princess

Some of you have received calls from worried family members of people who were on the Diamond Princess and are now hospitalized in Japan for COVID-19. Dr. Julie Vaishampayan provided the following information. Family members with questions about U.S. citizens who were on the ship and are now hospitalized should contact the US embassy in Japan by email (USGShipContact@state.gov) or phone (+81) 03-3224-5000.

Subject: Re: If you get calls from family members of hospitalized passengers from the Diamond Princess
Date: Monday, February 17, 2020 3:33:58 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Most of the CDC pages have a button you can click on that says “other languages” (on my phone) or shows Chinese characters (on my computer) and if you click on it, it turns all the information to Chinese. See:

<https://www.cdc.gov/coronavirus/2019-nCoV/index.html>

Dear Kathleen;

I gave a talk to members of the Chinese community about coronavirus in Ventura County on Saturday morning. One of the things they mentioned to me was that there was a paucity of information written in Chinese characters. If that is not true, could you please point me in the direction of where I can find the information about coronavirus. If it is true, would you please create such written information for Chinese audiences? Please get back to me as their leadership is waiting for guidance. Thanks.

Bob Levin
Health Officer
Ventura County

Subject: If you get calls from family members of hospitalized passengers from the Diamond Princess

Some of you have received calls from worried family members of people who were on the Diamond Princess and are now hospitalized in Japan for COVID-19. Dr. Julie Vaishampayan provided the following information. Family members with questions about U.S. citizens who were on the ship and are now hospitalized should contact the US embassy in Japan by email (USGShipContact@state.gov) or phone (+81) 03-3224-5000.
