Re: **State v. Kenneth A. Hudson**
Outagamie Case No. 00-CF-403
Your File No. 06-028

Dear Mr. Cain,

Following your review of my letter, dated today's date, and attachments, you called me to state your categorical opinion that the KPD video equipment was without any self-erase capability and was "fully incapable" of erasing a video by itself in any manner, including by activation of the "rewind function."

We further understand that I will be using your opinion in support of any post-conviction claims which we might file.

Very truly yours,

JAMES REBHOLZ
Attorney at Law
