Dear Marco

As we speak yesterday I make brief presentation to one of mi customers : the gendarmerie royale (service de la police judiciaire ) it is like your carabinieri.

They are very interested by your products and specially for mobile .

They want to have demo in morocco in the beginning or the end of April.

And whit the demo I am sure that we can push for the others products.

I try to call you but your office tell me that you are in meeting. I will call you leather.

Best regards
