

**AFFIDAVIT OF SPECIAL AGENT CASEY ANDERSON IN SUPPORT OF
A CRIMINAL COMPLAINT AGAINST JEREMY DAVID HANSON**

I, Casey Anderson having been first duly sworn, do hereby depose and state as follows:

Introduction and Agent Background

1. I am a Special Agent with the Federal Bureau of Investigation (“FBI”) and have been so employed since September of 2019. I am assigned to the Springfield, Massachusetts Resident Agency of the FBI’s Boston Division, where I am responsible for conducting investigations related to violations of federal laws, including interstate threats and hate crimes. My participation in these investigations has included using confidential informants and cooperating witnesses; executing search and arrest warrants; conducting victim and witness interviews; reviewing communication records and content; and conducting electronic and physical surveillance.

2. I respectfully submit this Affidavit in support of a Criminal Complaint charging that on or about October 2, 2021 through October 8, 2021, in the District of Massachusetts and elsewhere, Jeremy David Hanson (“Hanson”) did transmit in interstate commerce communications containing a threat to injure the person of another, in violation of Title 18, United States Code, Section 875(c) (Threatening Interstate Communications) (the “Subject Offense”).

3. The facts set forth in this Affidavit come from my personal observations and/or review of records and other evidence, my training and experience, and information obtained from other agents and witnesses. This Affidavit includes only those facts I believe are necessary to establish probable cause for the requested Criminal Complaint and does not include all of the facts uncovered during the investigation. Unless otherwise specified, all statements are in sum and substance, all dates are approximate, and all amounts are approximate.

The Subject Offense

4. Title 18, United States Code, Section 875(c) states: “Whoever transmits in interstate or foreign commerce any communication containing any threat to kidnap any person or any threat to injure the person of another, shall be fined under this title or imprisoned not more than five years.” 18 U.S.C. § 875(c).

Probable Cause That Hanson Committed The Subject Offense

5. As set forth below, I have probable cause to believe that between October 2-8, 2021, Hanson committed violations of the Subject Offense.

Merriam-Webster, Inc.

6. According to its website,¹ Merriam-Webster, Inc. (“Merriam-Webster”) is America's foremost publisher of language-related reference works. In addition to its award-winning dictionary site at www.Merriam-Webster.com, the company offers a diverse array of print and digital language references, including Merriam-Webster’s Collegiate® Dictionary, Eleventh Edition, which is America’s best-selling desk dictionary, and the online Merriam-Webster Unabridged, which is the successor to its famed Webster’s Third New International Dictionary. Merriam-Webster maintains its headquarters in Springfield, MA and additional offices in New York, NY. The company was founded in 1831 as a book-selling operation in Springfield, and has been in continuous operation since then.

7. Merriam-Webster’s web site contains a “Contact Us” page in which individuals can submit communications online at <https://www.merriam-webster.com/contact-us/email?auto=buying>. The “Contact Us” page permits users to input their name, e-mail address, technical information, and other information, and then to select a button (“Send To Merriam-

Webster”) that will communicate this information to the company. The “Contact Us” page on Merriam-Webster.com uses a fillable form that generates an email to the Merriam-Webster customer service team that is populated by the text placed in the fillable form. Because the fillable form generates the email, the email account listed in the email section of the message received by the customer service team may not be an active email address. Likewise, the username entered in the fillable form may not correlate to a username registered with Merriam-Webster.com.

8. Merriam-Webster’s website also features its online dictionary, the Merriam-Webster.com Dictionary, which is regularly updated and revised. The dictionary also contains engagement features specifically designed for the digital user, including a feature that permits users to comment on the dictionary’s content and word choices.

9. As set forth in greater detail below, between October 2-8, 2021, Merriam-Webster received various threatening communications submitted through its website’s “Contact Us” page and in the comments section for the Merriam-Webster dictionary webpages that corresponded to the word entries for “Girl” and “Woman.” The registered user listed for these communications was *@anonYmous*. In addition, *@anonYmous* posted additional comments on the Merriam-Webster website, including opinions about certain controversial topics and comments demonstrating bias against specific gender identities. *@anonYmous* posted these bias statements on the comments section for the Merriam-Webster dictionary webpages corresponding to the word entries for “Boy,” “Girl,” “Female,” and “Trans Woman.” Some statements expressed hostility toward different gender identities and some threatened bodily harm to people.

10. On October 7, 2021, Merriam-Webster’s executive management became aware of the threatening communications. On October 8, 2021, after Merriam-Webster’s executive management learned of additional, more direct threats, Legal Counsel for Merriam-Webster

reported the threats to the FBI. As a result of the threats, executive management for Merriam-Webster closed its in Springfield and New York, and these offices remained closed for approximately five business days.

It is absolutely sickening that Merriam-Webster now tells blatant lies and promotes anti-science propoganda. There is no such thing as “gender identity.” The imbecile who wrote this entry should be hunted down and shot.

12. On October 8, 2021, at 11:17 a.m. EDT, Merriam-Webster received a threat posted on the comments section for the Merriam-Webster dictionary webpages corresponding to the word “Girl” at <https://www.merriam-webster.com/dictionary/girl>. The post read:

The Walt Disney Co. Threat

62. According to information received from Walt Disney Co. (“Disney”), on March 10-11, 2022, its Chief Executive Officer (“CEO”) received two threats by email.

63. The CEO received the March 10, 2022 email from DestroyWokeCorporations@mail.com – *i.e.*, one of the associated e-mail accounts for Killallmarxisttrannyteachers@usa.com, the email account used for the UNT threat. The email subject read: “I am going to assassinate you and shoot up your corporate headquarters for promoting the horrific transgender ideology to children.” The body of the email read:

You Marxist corporatists are the enemies of America. You are controlled by the Democrats and the tranny mafia, and I will kill you and your entire family for promoting transgender child abuse. I know where you live, you evil sack of shit.

64. The CEO received the March 11, 2022 email from DestroyWokeCorporations@usa.com. The email subject line read: “I am going to shoot up and

bomb your headquarters for being a bunch of pedophile faggots who foist transgender ideology onto children.” The body of the email read:

You are a sickening, spineless woke corporation, and you all deserve to die. The only way to stop the destruction of America by woke corporations is through terrorism.

65. The header information for both e-mails identified the sender’s IP address as 98.149.110.214, which, I believe based upon my training, experience, and knowledge of the case, was assigned to Charter Communications subscriber Lauren Zack on March 10, 2022.

66. On March 16, 2022, at approximately 12:42 p.m. CST, Disney received a bomb threat by telephone from an apparently male voice using phone number (562) 370-3416. The caller stated:

Hey, I just learned that your company supports the transgender agenda and wants to brainwash children with gender ideology. So, just to let you know, I’ve left multiple pipe bombs at your corporate headquarters. See ya.

67. Opensource information identified Verizon Wireless as the service provider for the phone number (562) 370-3416. Verizon was unable to locate subscriber information for the number, but confirmed the use of the number related to a cellular tower in Los Alamitos, CA and identified the actual service provider as a Verizon subsidiary called Lively Jitterbug Communications (“Lively”). According to Lively records, the account for (562) 370-3416 was registered to Jeremy Hanson at _____ Road.

The USA Today / U.S. Department of Health and Human Services Threat

68. On March 21, 2022, USA Today, a member of a conglomeration of News Media

companies overseen by Gannett Co., Inc., and headquartered in Virginia, notified the FBI that on March 18, 2022, threat it received via Formstack. Formstack is a workplace productivity platform used by USA Today to submit corrections or suggested changes to USA articles.

69. According to the report, USA Today received the threat from an individual with the user name “Death to Leftist Journalists” who provided the email address DestroyWokeCorporation@usa.com – *i.e.*, the same email used for the Disney threat on March 11, 2022. The communication read:

I am going to shoot up and bomb your offices for being a lying fake news rag that declared a man “woman of the year.” Then, I will assassinate that freak Richard Levine and blow up the HHS.

70. Representatives from Gannett Co., Inc., informed investigators that USA Today recently named Rachel Lavine, a transgender woman who is an Assistant Secretary of Health and Human Services for the Biden Administration, as one of its Women of the Year. Richard Lavine was the name used by Rachel Lavine prior to Lavine’s gender transition.⁴

The Eau Claire (Wisconsin) Area School Board Threat

71. On March 21, 2022, the President of the Eau Claire (Wisconsin) Area School District (“ECASD”) received a threat against a school board meeting via the ECASD contact form on its website. The contact’s name listed on the contact form was “Kill All Marxist Teachers.” The email listed on the contact form was Death2Marxists@gmail.com – *i.e.*, the same email address listed in the threatening communication sent via the Merriam-Webster “Contact Us” page. The message stated:

⁴ As of March 27, 2022, Gannett Co., Inc., has been unable to provided IP information on the sender due to the use of Formstack. The investigation into the threat against USA Today continues.

I am going to kill you and shoot up your next school-board meeting for promoting the horrific, radical transgender agenda. It's now time to declare war on you pedos [sic]. I am going to kill you and your entire family.

72. The method used to submit the ECASD threat was also similar to the use of the fillable form on the "Contact Us" page on MerriamWebster.com. ECASD information technology personnel identified IP address 98.149.110.214 as logged on to the ECASD contact form when the message was sent. Based upon my training, experience, and knowledge of the case, I believe that at the time of the threat, Charter Communications assigned this IP address to its Lauren Zack. The company that manages the ECASD website also captured device information for the user who sent the threat from IP address 98.149.110.214. The device information is as follows: PlayStation 4 (Mozilla/5.0 (PlayStation; PlayStation 4/9.04) using AppleWebKit/605.1.15 (KHTML, like Gecko) Version/14.0 Safari/605.1.15).

73. On March 14, 2020, Zack told FBI investigators in a telephone call that the only digital device that Hanson could access was his Sony PlayStation.

Conclusion

74. Based on the information described above, I have probable cause to believe that on or about October 2-8, 2021, in the District of Massachusetts and elsewhere, Hanson committed violations of the Subject Offense, in violation of 18 U.S.C. § 875(c).
