Rehearsal will start with a meeting at the back of the room at the tech table to hand off any last-minute digital/audio materials and review the run of show for your segment. Everyone has a 40-minute window so you should get a full 20 minutes on the stage to rehearse if not more. It will be a hard stop at the end of your time slot to clear the room in prep for the next group.

If anyone drops out before rehearsal day the last person on the schedule will move into their slot.
