Agent Hawkins,

I will wait for some scheduled time from Mr. Sussman. As we are working for them. I must have him involved in every conversation.

Thanks
Chris

Any word on when we can have this call? I have several that would like to jump on. Also, DHS is ready to assist your victims and may be on the call. They will be interested on how best to plug into your gaps or create a synergistic composition of redundancy.

Adrian,

We will schedule a call this week. We will need to coordinate schedules with Mr. Sussman, one of my analysts, and someone from the IT team for the DNC. That way we can cover all of this in one call.

I am at Blackhat this week, but can break out for this when needed.

SCC_0000343

Michael, we should likely work around your schedule.

Thanks
Chris

Mr. Scott,

In addition to below, we are attempting to establish venue. What would help in regards to this is a statement of the location of all hacked servers. If there were a listing of compromised servers and their location, that'd be perfect. Else, if all examined systems were located in the DC office location, we can say that as well (for both DNC and DCCC).

We need something factual and definate, please. Not general or ambiguous.

Mr. Scott,

Are you guys aware of the DNC analytics program that was presumably hacked?

We'll probably want to get more information regarding the specifics (name of the program, vulnerability that was targeted within the program, nature of the email address stored within the program -- since these are often used for additional targeting, etc).

SCC_0000344

I cc'd a Jason Lowder (CyD), since we're getting the question from our HQ managers.

v/r,

Adrian

All,

I wanted to let you know that I will be transitioning from CrowdStrike and my duties will be passed to another highly capable member of our team. Chris Scott, our Director for Remediation will be taking over the engagement and will be your principal point of contact. His contact information is in the CC line as well as below.

I thought it would be a good idea to connect all of you with him so when you guys here some valuable intel you can quickly get the information exchange up and running and get some execution as fast as possible.

It has been a pleasure to work with you all. As a company we are dedicated to the mission ensuring the integrity of the US democratic establishment and take great pride in our work with you. I wish you the best and please let me know if there is anything you need from me.

Chris,

In the To line is the team of FBI agents I have been working with throughout the engagement. They have passed some valuable information our way and have been an integrated part of our success.

Best Regards,

Robert S. Johnston
