Good morning Rodney,

WFO/CY-3 received email from DNC Atty. Sussmann late last night regarding an extortion message received by the Hillary Campaign threatening DDOS attacks beginning 08/08/2016 if ransom is not paid. I will forward the message (green side) to you for visibility and potential action given the apparent cyber criminal nature of the threat.

As you may be aware, my squad has national security equities tied in with nation state intrusion matters touching the DNC/DCCC/Hillary for America, etc. Please keep us looped in on any efforts you folks intend to do (thanks!). I provided ECOU threat managers (SSA James Cheeks and SSA Michael Burnham) with the information and sounds like they will make appropriate coordination with MCCU.

My squad is out-of-pocket this morning attending a meeting at CyD.

Thank you.

Jennifer
