Jim,

Amy was simply passing a message to you from Hillary for America (also a client of our firm) that they would like to meet with the FBI to discuss potential or actual breaches into HFA's network. This would not be a meeting to discuss the DNC breach and any details regarding that breach would not be discussed at the meeting. Does that make sense?

Michael

I'm adding Michael for clarity..

I am more referring not to our breach but of your willingness to give general information to political operations about any info

SCC_0000210

you can share about the threats out there in general to help them evaluate their own system etc..
Was in no way a briefing about our specific incident.
Does that make more sense, I apologize if I wasn't being clear..

I think what would probably be best is for you to touch base with Michael Sussmann and make a determination on what you'd like and to whom you want information shared with. We are happy to participate in a briefing with either the DNC and/or Crowd Strike. The DNC is a victim of a crime and we generally do not disclosure information about the nature of the computer intrusion to other parties. I do recognize HFA and other Democratic campaigns could very well be impacted by the DNC matter and as such I am comfortable with participating in a briefing. Just want to make sure you are fully on-board with that and we talk about how much information is disclosed.

Hillary for America

I believe other committees may be interested as well but so far they were the most interested if possible
