Jennifer,

Has WFO had any further contact with DNC regarding the legitimacy of the documents being released by Guccifer? SF-

FBI-DWS-05-0002576
SCO-011607

Cyber (copied) – is looking at the Guccifer stuff for us.

We will need to coordinate with the DNC attorney (**Michael A. Sussmann, telephone: 202-654-6333**), and ask them for an update regarding the document review and to arrange either a meeting or call to discuss the same. We need their assistance in helping us to determine if the documents being released are legitimate in part or whole.

Would WFO be the link to the DNC attorney or would you prefer we have SF reach out and keep your folks in the loop? I'm trying to balance task saturating your team for things not related to your "cyber work" while also keeping your team updated.

Thanks,

Christian

Good Morning,

Per AD Trainor's request, here is the link that the Politico blurb had with regards to Guccifer2.0. It links to a document that this actor claims was taken directly from the DNC servers. AD Trainor requested that this item be reviewed and provided to the DNC for their confirmation that it is an actual document they had in their position.

The person going by the name [Guccifer 2.0](#) has leaked the alleged Democratic plan to counter the Republican convention.

Very Respectfully,

George W. Leyh
