Just checking in about this. I do see that the Senator supports and is in fact the lead sponsor of the [Luke and Alex School Safety Act](#), which is an idea for best practices for school safety backed by parents of two students slain

best practices for school safety backed by parents of two students slain in the school shooting in Parkland, Florida. But I still am hoping to learn more about the "number of common sense improvements to background checks and guns laws," that you say he supports.

Can you tell me more about these?

Dear Ms. Henning:

I am a journalist in Madison hoping to get more information from you about something I read is a [recent article](#) in the Wisconsin State Journal:

In a statement Friday, Johnson spokesperson Alexa Henning said, "The senator did not blame CRT on mass shootings," before adding his [interview transcript](#).

"The senator has supported a number of common sense improvements to background checks and guns laws," she said.

I am interested in obtaining this statement and more information about the gun-law improvements the Senator does support. Could you help me out?
