An Open Letter Supporting Sen. John Cornyn And Gun Safety Measures

We, the undersigned, are Conservatives, mostly from Texas and our friends from other States, outdoor and gun enthusiasts. We vote for Republican Senators. We believe in the Second Amendment. Like many, we are struggling for good answers to our current problem of gun violence in America.

We are grateful that our Senator John Cornyn is leading efforts to address the recent tragedies in Uvalde and elsewhere across our great Country. He's the right man to lead this bipartisan effort, as he has demonstrated throughout his career.

We are especially encouraged that Senator Cornyn is focusing on two vital ways to improve gun safety: Red flag laws and expanding background checks.

Most law enforcement experts believe these measures would make a difference. And recent polls of fellow conservatives suggest that there is strong support for such gun-safety measures.

We are also hopeful that the momentum building for those two changes may also spur consideration of raising the age to purchase a gun to 21, which we believe is another important step in curbing gun violence.

Thank you, John Cornyn. We stand with you and support your efforts!

In the few days since Uvalde, our group has organized and our numbers are growing. Republican voters from Texas and beyond, gun enthusiasts, conservatives willing to take a fresh look at the causes of gun violence, willing to try new ways and new technologies to improve gun safety and better fight the incidences of mass killings and street homicides. The issues are very complicated and demand thoughtful non-political solutions. There are many of us across these great United States. We are organizing. Please join us.
