ATTACHMENT A-6 (Eastman Person)

Property to be searched

The person of John Eastman and the area within his immediate control, including any clothing, garments, bags, or personal effects. Eastman is a white male, approximately 62 years old. He is approximately 5'7" tall and weighs approximately 165 lbs. A photograph of Eastman is attached below.

ATTACHMENT B-1 (Person)

Particular Things to be Seized

Any electronic or digital devices—including cell phones, USB devices, iPads, and computers identified in the affidavit—and all information in such devices.

After seizing the device(s), law enforcement intends to transport the device(s) to Washington, D.C, or to the DOJ-OIG forensic laboratory in Northern Virginia. The investigative team will not review the contents of the device(s) until further order of a court of competent jurisdiction. If a forensic extraction or manual screen capture of the contents of the device(s) occurs during execution of the search warrants, the contents will not be reviewed by the investigative team until further order of a court of competent jurisdiction.

During the execution of the search of the authorized places, law enforcement personnel are also specifically authorized to obtain from the Subjects (but not any other individuals present at the time of execution of the warrant) the compelled display of any physical biometric characteristics (such as fingerprint/thumbprint, facial characteristics, or iris display) necessary to unlock any device(s) requiring such biometric access subject to seizure pursuant to this warrant for which law enforcement has reasonable suspicion that the aforementioned person(s)' physical biometric characteristics will unlock the device(s), to include pressing fingers or thumbs against and/or putting a face before the sensor, or any other security feature requiring biometric recognition of any of the devices, for the purpose of attempting to unlock the device(s)'s security features in order to search the contents as authorized by this warrant.

While attempting to unlock the device by use of the compelled display of biometric characteristics pursuant to this warrant, law enforcement is not authorized to demand that the aforementioned person(s) state or otherwise provide the password or identify the specific

biometric characteristics (including the unique finger(s) or other physical features), that may be used to unlock or access the device(s). Nor does the warrant authorize law enforcement to use the fact that the warrant allows law enforcement to obtain the display of any biometric characteristics to compel the aforementioned person(s) to state or otherwise provide that information. However, the voluntary disclosure of such information by the aforementioned person(s) is permitted. To avoid confusion on that point, if agents in executing the warrant ask any of the aforementioned person(s) for the password to any device(s), or to identify which biometric characteristic (including the unique finger(s) or other physical features) unlocks any device(s), the agents will not state or otherwise imply that the warrant requires the person to provide such information, and will make clear that providing any such information is voluntary and that the person is free to refuse the request.
