

# Marquette Law School Poll: June 14 - 20, 2022

## Registered voters

This file contains **registered voter** crosstabulations of each non-demographic question with variables for sex, age, education, income, party identification with leaning independents, party identification without leaners, marital status, race and ethnicity, religious service attendance, religious affiliation, born again or evangelical identification, political ideology, and region of the state. To calculate the numeric size of a response, multiply the percent by the subsample size, indicated in the “n” column. **Statistics for very small samples (such as “Don’t Know” responses) have very high margins of error and should be disregarded.**

## Q1: Follow politics

**Some people seem to follow what's going on in politics most of the time, whether there's an election going on or not. Others aren't that interested. Would you say you follow what's going on in politics most of the time, some of the time, only now and then, or hardly at all?**
