**Special Interests:**  
The launching of new and innovative industries in Alaska, and the releasing of the creative potential of all Alaskans (you can't have one without the other).

## Position Statement

I am not a career politician, but am an ordinary person much like yourself that sees the need to get up and do something other than just sitting around complaining. Serious issues face us today.

There is unconstitutional erosion of our freedoms coming from Washington DC, along with blatant misdirection, and misreporting of incoming State revenues in Juneau during both "good times" and "bad."

On these, and all challenges facing a society; all methods to deal with them fall into 1 of 2 categories.

1) Expanding freedom to solve the problem.

Or

2) Restricting freedom for a solution.

Human rights can not be created or destroyed, only transferred. An ongoing and unabated transference of personal power to government power always results in a "Final Solution" that is grotesquely worse than the original issue.

I will always favor your freedom and creativity to live your life, and face challenges. In the expansion of freedom, Alaskan self-reliance is key. I, along with my Lt. Will conduct a full audit of all the State's finances. Also, because the State has no legitimate State Seal, a legitimate Seal will be established and used to authenticate an honest directing and reporting of the State's incomes and asserts along dropping oppressive restrictions that have no constructive purpose.

Working together we can have a self-sufficient Alaska free of communist mandates (search communist manifesto 10 planks, it may surprise you) from within and from without. Your money and your freedom. Foremost and always.
