Storrs, CT 06269-1006

Dear Mike,

The purpose of this letter is to confirm the Office of Health Strategy's position on the draft Technology Assessment Report of UConn's Core Data Analytics Solution. The report was developed at the request of the Health Information Technology Officer last year. My office did not review the draft report prior to its limited circulation and as you know, we had concerns with the draft report. Because of these concerns, the report was not finalized or published, nor will it be.

I hope this letter serves to quell your concerns about my agency's position on the draft technology assessment report.

Best regards,

Victoria Veltri, JD, LLM  
Executive Director
