

Contracts For Aug. 19, 2022

AIR FORCE

General Electric Co., GE Edison Works, Cincinnati, Ohio, has been awarded an indefinite-delivery/indefinite-quantity contract with a program ceiling of \$975,000,000 for technology maturation and risk reduction activities through design, analysis, rig testing, prototype engine testing, and weapon system integration. The contract is for the execution of the prototype phase of the Next Generation Adaptive Propulsion program and is focused on delivering capability enabling propulsion systems for future air dominance platforms and digitally transforming the propulsion industrial base. Work will be performed in Cincinnati, Ohio, and is expected to be complete by July 11, 2032. This award is the result of a request for proposal. Air Force Life Cycle Management Center, Wright-Patterson Air Force Base, Ohio, is the contracting activity (FA8626-22-D-0010).

Raytheon Technologies Corp., Pratt & Whitney Engines, East Hartford, Connecticut, has been awarded an indefinite-delivery/indefinite-quantity contract with a program ceiling of \$975,000,000 for technology maturation and risk reduction activities through design, analysis, rig testing, prototype engine testing, and weapon system integration. The contract is for the execution of the prototype phase of the Next Generation Adaptive Propulsion program and is focused on delivering capability enabling propulsion systems for future air dominance platforms and digitally transforming the propulsion industrial base. Work will be performed in East Hartford, Connecticut, and is expected to be complete by July 11, 2032. This award is the result of a request for proposal. Air Force Life Cycle Management Center, Wright-Patterson Air Force Base, Ohio, is the contracting activity (FA8626-22-D-0002).

The Boeing Co., St. Louis, Missouri, has been awarded an indefinite-delivery/indefinite-quantity contract with a program ceiling of \$975,000,000 for technology maturation and risk reduction activities through design, analysis, rig testing, prototype engine testing, and weapon system integration. The contract is for the execution of the prototype phase of the Next Generation Adaptive Propulsion program and is focused on delivering capability enabling propulsion systems for future air dominance platforms and digitally transforming the propulsion industrial base. Work will be performed in St. Louis, Missouri, and is expected to be complete by July 11, 2032. This award is the result of a request for proposal. Air Force Life Cycle Management Center, Wright-Patterson Air Force Base, Ohio, is the contracting activity (FA8626-22-D-0003).

Lockheed Martin Corp., Lockheed Martin Aeronautics Co., Palmdale, California, has been awarded an indefinite-delivery/indefinite-quantity contract with a program ceiling of \$975,000,000 for technology maturation and risk reduction activities through design, analysis, rig testing, prototype engine testing, and weapon system integration. The contract is for the execution of the prototype phase of the Next Generation Adaptive Propulsion program and is focused on delivering capability enabling propulsion systems for future air dominance platforms and digitally transforming the propulsion industrial base. Work will be performed in Palmdale, California, and is expected to be complete by July 11, 2032. This award is the result of a request for proposal. Air Force Life Cycle Management Center, Wright-Patterson Air Force Base, Ohio, is the contracting activity (FA8626-22-D-0004).

Northrop Grumman Systems Corp., Northrop Grumman Aeronautics Systems, Palmdale, California, has been awarded an indefinite-delivery/indefinite-quantity contract with a program ceiling of \$975,000,000 for technology maturation and risk reduction activities through design, analysis, rig testing, prototype engine testing, and weapon system integration. The contract is for the execution of the prototype phase of the Next Generation Adaptive Propulsion program and is focused on delivering capability enabling propulsion systems for future air dominance platforms and digitally transforming the propulsion industrial base. Work will be performed in Palmdale, California, and is expected to be complete by July 11, 2032. This award is the result of a request for proposal. Air Force Life Cycle Management Center, Wright-Patterson Air Force Base, Ohio, is the contracting activity (FA8626-22-D-0005).
