Matt,

The University Communications folks (who I really wanted to see this) are tied up until mid-afternoon on Friday. Would you be able to come by AFTER Wake Forest? Would you be able to be back in Raleigh around 4pm? If that's too tight of a time schedule, I understand.

Thanks,

Jack

Jack,

Any progress on a meeting this Friday. Happy to make something work.

Yes I can. I am on schedule at 1pm at wake forest. Could we do something around 10am?

Matt,

I'm very interested. I'm trying to get consensus for three or four departments on our campus to chip in on the financing. Not everyone is on board yet - some of the other units have been looking at different products. The Geo-fence that I mentioned that we have set up through the fusion center is through Geo-feedia. I'm trying to get Athletics, Student Affairs and University Communication to partner with me on your product. Would you be able to stop by this Friday and do an in-person demo? Some of the other attendees were dropped last week when you had to re-connect the web presentation.

Thanks

Jack

Chief,

Just left you a VM. Want to check in to see about next steps with Social Sentinel. I am meeting with Wake Forest on Friday and thought we could combine that with NC State. Looking forward to continuing our discussions.

Regards,

Matt Baker
