QRMANTIAL. Congress is considering legislation called the Respect for Marriage Act which would affirm that marriage for same-sex couples is settled law. This law would remove any uncertainty for gay and lesbian Americans that their marriages could be undermined or voided in the future and would guarantee their legal marriages will continue to be treated as equal under the law.

Knowing this, if your Senator voted for the Respect for Marriage Act, would you be more likely to support, less likely to support, or would this vote have no impact on your support for your senator?

**Respect for Marriage Act Alaska Survey -- August 22-31, 2022**

QMESS2. Since marriage for same-sex couples has been the law of the land, over one million individuals have been joined in marriage in the United States. The Respect for Marriage Act will remove any uncertainty for these families who could see their marriages delegitimized if this act is not passed.

**Respect for Marriage Act Alaska Survey -- August 22-31, 2022**

QMESS3. People of faith may disagree on same-sex marriage, and religious and personal freedoms will remain protected by the Religious Freedom Restoration Act. The Respect for Marriage act maintains the status quo and no church or religious leader would be forced to consecrate a marriage against their religious or personal beliefs.
