Re: Freedom of Information Act Requests NGC 22-328 and NGC 22-329

Dear Ms. Stoneman:

This responds to two Freedom of Information Act (FOIA) requests you submitted to the National Archives and Records Administration (NARA) on February 22, 2022, assigned the tracking numbers NGC 22-328 and NGC 22-329, respectively.

Both requests related to the 15 boxes containing Presidential records that NARA received from Mar-A-Lago in January of 2022. As set forth in the requests, American Oversight is seeking NARA records that would “shed light on what documents NARA retrieved from former President Donald Trump and the circumstances under which they were retrieved.” More specifically, NGC 22-328 seeks emails between NARA officials and representatives of former President Donald Trump related to the 15 boxes, and NGC 22-329 seeks emails sent from a list of designated NARA officials that contain any of the 16 search terms that you provided.

NARA has received more than 50 FOIA requests seeking records related to the 15 boxes of materials received from former President Trump’s residence in Mar-a-Lago. To respond most efficiently to these overlapping requests, NARA is processing all related requests in the same manner: identifying categories of records that are commonly requested and organizing its searches and responses by those categories of records. When NARA completes processing of a category of records, it will simultaneously issue a response to all requesters who asked for records pertaining to that subject matter and will post any non-exempt records or discretionary releases in NARA’s Electronic FOIA Library/Reading Room (the “Reading Room”), at the landing page located at <https://archives.gov/foia/15boxes>.

“Category 1,” as organized by NARA, refers to all emails between NARA officials and representatives of former President Trump related to the 15 boxes as of March 31, 2022.

“Category 2” refers to emails from NARA to external entities other than Trump representatives related to the 15 boxes as of March 31, 2022.

AMERICAN *www.archives.gov*  
OVERSIGHT

NARA located 309 pages of records responsive to Category 1. Without conceding that the materials are non-exempt, NARA is making a discretionary decision to release 11 of those pages to you and other applicable requesters. Of those 11 pages, NARA is releasing 9 in full and two in part (with information redacted under exemption (b)(6)). The 11 pages have been posted today in the Reading Room. The rest of the pages are being withheld in full, subject to exemptions (b)(5)(287 pages), (b)(6)(298 pages), (b)(7)(A)(295 pages), (b)(7)(C)(295 pages), and (b)(7)(E)(21 pages).

NARA located 1,303 pages of emails responsive to Category 2. Without conceding that the materials are non-exempt, NARA is making a discretionary decision to release 54 of those pages to you and other applicable requesters. Of those 54 pages, 39 are being released in full, and 15 are in part with redactions under (b)(6) and (b)(7)(E) of the FOIA. The 54 pages have been posted today in the Reading Room. The rest of the pages are shielded from disclosure under exemptions (b)(5)(1,249 pages), (b)(6)(1,187 pages), (b)(7)(A)(1,073 pages), (b)(7)(C)(966 pages), and (b)(7)(E)(386 pages).

Exemption (b)(5) was asserted to protect NARA's deliberations with Trump's representatives, Congress, and other federal agencies. Release would have a chilling effect on those deliberations, inhibiting the relationships and cooperation needed for compliance with the Presidential Records Act, 44 U.S.C. §§ 2202-2209.

Exemption (b)(6) was asserted to protect the release of information, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Many of the records you requested were compiled in relation to active law enforcement proceedings and efforts.

Exemption (b)(7)(A) was asserted to withhold records compiled for law enforcement purposes, the disclosure of which could reasonably be expected to interfere with enforcement proceedings.

Exemption (b)(7)(C) was asserted to withhold records compiled for law enforcement purposes, the disclosure of which could reasonably be expected to constitute an unwarranted invasion of personal privacy.

Exemption (b)(7)(E) was asserted to protect law enforcement information related to techniques and procedures that, if disclosed, could reasonably be expected to risk circumvention of the law.

This response completes processing of all 1,612 pages of records responsive to Categories 1 and 2 and is an interim response to your FOIA requests. NARA will reach out to you when it completes processing of the other records you are seeking. Please contact United States Department of Justice Attorney Kevin Wynosky with any questions.

---

Pat, Mike, Scott:

As the EOP continues to transfer the electronic Trump Presidential records into our custody, we have come upon several problems that we need your help in resolving. We have already been working with Scott to address various issues with respect to capturing Presidential records on social media accounts; his assistance has been very helpful, although some problems remain that will likely require further follow up with you.

There are also now certain paper/textual records that we cannot account for. We therefore need your immediate assistance to ensure that NARA receives all Presidential records as required by the Presidential Records Act.

For example, the original correspondence between President Trump and North Korean Leader Kim Jong-un were not transferred to us; it is our understanding that in January 2021, just prior to the end of the Administration, the originals were put in a binder for the President, but were never returned to the Office of Records Management for transfer to NARA. It is essential that these original records be transferred to NARA as soon as possible.

Similarly, the letter that President Obama left for President Trump on his first day in office has not been transferred; since that letter was received by President Trump after his term commenced, it is a Presidential record – note that all of NARA's other Presidential Libraries maintain the original copy of similar letters, and it is necessary that this one be provided to us as well.

It is also our understanding that roughly two dozen boxes of original Presidential records were kept in the Residence of the White House over the course of President Trump's last year in office and have not been transferred to NARA, despite a determination by Pat Cipollone in the final days of the Administration that they need to be. I had also raised this concern with Scott during the final weeks.

We know things were very chaotic, as they always are in the course of a one-term transition. This is why the transfer of the Trump electronic records is still ongoing and won't be complete for several more months. But it is absolutely necessary that we obtain and account for all original Presidential records.

Please let us know as soon as you can how we can get these issues resolved.

Thanks,  
Gary

COMMITTEE ON OVERSIGHT AND REFORM

2157 RAYBURN HOUSE OFFICE BUILDING

WASHINGTON, DC 20515-6143

MAJORITY (202) 225-5051  
MINORITY (202) 225-5074

February 24, 2022

The Honorable David S. Ferriero  
Archivist of the United States  
National Archives and Records Administration  
700 Pennsylvania Avenue, N.W.  
Washington, D.C. 20408

Dear Mr. Ferriero:

The Oversight Committee is seeking additional documents about former President Donald Trump's removal of classified documents and presidential records from the White House, President Trump's attempt to destroy records by tearing them into pieces, and other presidential records from the Trump Administration that are missing. In response to a request from the Committee, the National Archives and Records Administration (NARA) provided new details of what appear to be the largest-scale violations of the Presidential Records Act since its enactment. I am deeply concerned that former President Trump may have violated the law through his intentional efforts to remove and destroy records that belong to the American people. This Committee plans to get to the bottom of what happened and assess whether further action is needed to prevent the destruction of additional presidential records and recover those records that are still missing.

On February 9, 2022, the Committee sought information related to the 15 boxes of presidential records recovered from the former president's Mar-a-Lago residence and recent reports that Mr. Trump attempted to destroy documents while serving as president.<sup>1</sup> On February 18, 2022, you sent two letters constituting a partial response and identifying significant potential violations of the Presidential Records Act and other federal laws governing the preservation of federal records, but you did not provide all the information the Committee requested.<sup>2</sup>

<sup>1</sup> Letter from Chairwoman Carolyn B. Maloney, Committee on Oversight and Reform, to David S. Ferriero, Archivist of the United States (Feb. 9, 2022) (online at <https://oversight.house.gov/sites/democrats.oversight.house.gov/files/2022-02-09.CBM%20to%20Ferriero-NARA%20re%20Trump%20Mar-a-Lago%20FINAL.pdf>).

<sup>2</sup> Letter from David S. Ferriero, Archivist of the United States, to Chairwoman Carolyn B. Maloney, Committee on Oversight and Reform (Feb. 18, 2022) (responding in part to the Committee's February 9, 2022, letter) (online at [www.archives.gov/files/foia/ferriero-response-to-02.09.2022-maloney-letter.02.18.2022.pdf](http://www.archives.gov/files/foia/ferriero-response-to-02.09.2022-maloney-letter.02.18.2022.pdf)); Letter from David S. Ferriero, Archivist of the United States, to Chairwoman Carolyn B. Maloney, Committee on Oversight and Reform (Feb. 18, 2022) (describing the Trump Administration's failure to capture social media records) (online at [www.archives.gov/files/foia/ferriero-letter-to-maloney-on-trump-presidential-records-on-social](http://www.archives.gov/files/foia/ferriero-letter-to-maloney-on-trump-presidential-records-on-social)).

Your response confirmed that “NARA has identified items marked as classified national security information within the boxes” recovered at Mar-a-Lago, and that “NARA staff has been in communication with the Department of Justice” regarding this discovery. In response to the Committee’s request for an inventory of the contents of the 15 boxes, you stated the inventory should be completed by February 25 and that the Committee could request the inventory under Section 2205(2)(C) of the PRA.<sup>3</sup>

Your response also provided concerning new information about Mr. Trump’s destruction or attempted destruction of documents while serving as president. You stated that following press reports in 2018 that President Trump was tearing up records, NARA wrote to the Deputy Counsel for the President requesting information and that “[t]he White House Counsel’s Office indicated that they would address the matter.” However, you wrote that after this incident, “NARA learned that additional paper records that had been torn up by former President Trump were included in the records transferred to us.” You also wrote that White House staff had “taped together some of the torn-up records” but that “a number of other torn-up records that were transferred had not been reconstructed by the White House.”<sup>4</sup>

Your response also indicated that the Trump Administration failed to preserve other presidential records, and that NARA is continuing to search for missing records from the Trump Administration. You explained:

NARA has identified certain social media records that were not captured and preserved by the Trump Administration. NARA has also learned that some White House staff conducted official business using non-official electronic messaging accounts that were not copied or forwarded into their official electronic messaging accounts, as required by section 2209 of the PRA.<sup>5</sup>

On February 18, 2022, you also sent me a detailed description of the Trump Administration’s failure to capture and preserve presidential records on social media platforms. Among other information, your letter indicated that:

- The Trump Administration failed to adequately capture and preserve all tweets that the former president posted in the course of his official duties, including deleted tweets, despite being warned by NARA as far back as March 2017;
- The Trump Administration failed to preserve deleted content from the former president’s other social media accounts, and failed to preserve the former president’s Facebook, Instagram, and SnapChat accounts after he was suspended or banned from those platforms;

<sup>4</sup> Letter from David S. Ferriero, Archivist of the United States, to Chairwoman Carolyn B. Maloney, Committee on Oversight and Reform (Feb. 18, 2022) (responding in part to the Committee’s February 9, 2022, letter) (online at [www.archives.gov/files/foia/ferriero-response-to-02.09.2022-maloney-letter.02.18.2022.pdf](http://www.archives.gov/files/foia/ferriero-response-to-02.09.2022-maloney-letter.02.18.2022.pdf)).

<sup>5</sup> *Id.*

- The Trump Administration appears to have failed to preserve the former president's direct or private messages on social media accounts; and
- The Trump Administration failed to capture presidential records from the Twitter accounts of seven White House aides, including Ivanka Trump, Mark Meadows, Peter Navarro, and others.<sup>6</sup>

The information in your response suggests that former President Trump and his senior aides may have repeatedly violated the Presidential Records Act and other federal laws, which could severely impact the preservation of records from the Trump Administration. The Committee needs additional documents and information uniquely available from NARA to investigate the full extent of this conduct and determine what additional steps, including potential legislative reforms, may be needed to ensure the preservation of presidential records for the American people.

The Committee on Oversight and Reform is the principal oversight committee of the House of Representatives and has broad authority to investigate "any matter" at "any time" under House Rule X. The Committee has legislative jurisdiction over the Presidential Records Act and the Federal Records Act and has a long history of conducting oversight related to compliance with these laws.<sup>7</sup>

For all these reasons, pursuant to the Presidential Records Act,<sup>8</sup> please provide by March 10, 2022:

1. A detailed description of the contents of the boxes recovered from Mar-a-Lago, including any inventory prepared by NARA of the contents of the boxes, and identification of any items that are classified and the level of classification including, if necessary, a classified index;

## House of Representatives

COMMITTEE ON OVERSIGHT AND REFORM

2157 RAYBURN HOUSE OFFICE BUILDING

WASHINGTON, DC 20515-6143

MAJORITY (202) 225-5051  
MINORITY (202) 225-5074  
<https://oversight.house.gov>

February 9, 2022

The Honorable David S. Ferriero  
Archivist of the United States  
National Archives and Records Administration  
8601 Adelphi Road  
College Park, MD 20740-6001

Dear Mr. Ferriero:

The Committee is seeking information about the 15 boxes of presidential records that the National Archives and Records Administration (NARA) recently recovered from former President Trump's Mar-a-Lago residence. I am deeply concerned that these records were not provided to NARA promptly at the end of the Trump Administration and that they appear to have been removed from the White House in violation of the Presidential Records Act (PRA). I am also concerned by recent reports that while in office, President Trump repeatedly attempted to destroy presidential records, which could constitute additional serious violations of the PRA.

The PRA preserves the records made by a sitting president, while giving legal ownership of those records to the American people.<sup>1</sup> Congress enacted the PRA in response to President Nixon's attempts to destroy presidential records during the Watergate scandal.

President Trump is required not only to preserve presidential records, but to turn them over to the National Archives at the end of his presidential term. The PRA specifically states:

Upon the conclusion of a President's term of office, or if a President serves consecutive terms upon the conclusion of the last term, **the Archivist of the United States shall assume responsibility for the custody, control, and preservation of, and access to, the Presidential records of that President.**<sup>2</sup>

On February 7, 2022, the *Washington Post* reported that former President Trump improperly removed 15 boxes of records from the White House and transported them to his Mar-a-Lago residence. These boxes reportedly contained correspondence and letters from world leaders, including correspondence with North Korean leader Kim Jong-un, and a letter President

<sup>1</sup> See 44 U.S.C. §§ 2201–2209.

<sup>2</sup> 44 U.S.C. § 2203(g)(1) (emphasis added).

Obama left for his successor.<sup>3</sup> The records recovered from Mar-a-Lago also reportedly include several newspaper clippings. A previous Committee investigation revealed that President Trump wrote notes on press clippings, which could mean that even those clippings were likely presidential records.<sup>4</sup>

On February 5, 2022, it was reported that while in office, former President Trump “tore up briefings and schedules, articles and letters, memos both sensitive and mundane.”<sup>5</sup>

Removing or concealing government records is a criminal offense punishable by up to three years in prison. Former National Security Advisor Sandy Berger, for example, was prosecuted for taking classified documents from NARA.<sup>6</sup> Former President Trump and his senior advisors must also be held accountable for any violations of the law. Republicans in Congress obsessively investigated former Secretary of State Hillary Clinton for her use of a private email server for official communications. Former President Trump’s conduct, in contrast, involves a former president potentially violating a criminal law by intentionally removing records, including communications with a foreign leader, from the White House and reportedly attempting to destroy records by tearing them up.

In order for the Committee to examine the extent and impact of former President Trump’s violations of the PRA, please provide responses to the following requests by February 18, 2022:

1. Did NARA ask the representatives of former President Trump about missing records prior to the 15 boxes being identified? If so, what information was provided in response?
2. Has NARA conducted an inventory of the contents of the boxes recovered from Mar-a-Lago?
3. Please provide a detailed description of the contents of the recovered boxes, including any inventory prepared by NARA of the contents of the boxes. If an inventory has not yet been completed, please provide an estimate of when such an inventory will be completed.

4. Are the contents of the boxes of records recovered by NARA undergoing a review to determine if they contain classified information? If so, who is conducting that review and has any classified information been found?
5. Is NARA aware of any additional presidential records from the Trump Administration that may be missing or not yet in NARA's possession?
6. What efforts has NARA taken, and is NARA taking, to ensure that any additional records that have not been turned over to NARA are not lost or destroyed?
7. Has the Archivist notified the Attorney General that former President Trump removed presidential records from the White House? If not, why not?
8. Is NARA aware of presidential records that President Trump destroyed or attempted to destroy without the approval of NARA? If so, please provide a detailed description of such records, the actions taken by President Trump to destroy or attempt to destroy them, and any actions NARA has taken to recover or preserve these documents.

The Committee on Oversight and Reform is the principal oversight committee of the House of Representatives and has broad authority to investigate "any matter" at "any time" under House Rule X. In addition, House Rule X states that the Committee on Oversight and Reform has jurisdiction to "study on a continuing basis the operation of Government activities at all levels, including the Executive Office of the President."

An attachment to this letter provides additional instructions for responding to the Committee's request. If you have any questions regarding this request, please contact the Oversight Committee staff at (202) 225-5051.

Thank you for your prompt attention to this matter.

Sincerely,

  
Carolyn B. Maloney

## Responding to Oversight Committee Document Requests

1. In complying with this request, produce all responsive documents that are in your possession, custody, or control, whether held by you or your past or present agents, employees, and representatives acting on your behalf. Produce all documents that you have a legal right to obtain, that you have a right to copy, or to which you have access, as well as documents that you have placed in the temporary possession, custody, or control of any third party.
2. Requested documents, and all documents reasonably related to the requested documents, should not be destroyed, altered, removed, transferred, or otherwise made inaccessible to the Committee.
3. In the event that any entity, organization, or individual denoted in this request is or has been known by any name other than that herein denoted, the request shall be read also to include that alternative identification.
4. The Committee's preference is to receive documents in electronic form (i.e., CD, memory stick, thumb drive, or secure file transfer) in lieu of paper productions.
5. Documents produced in electronic format should be organized, identified, and indexed electronically.
6. Electronic document productions should be prepared according to the following standards:
  - a. The production should consist of single page Tagged Image File ("TIF"), files accompanied by a Concordance-format load file, an Opticon reference file, and a file defining the fields and character lengths of the load file.
  - b. Document numbers in the load file should match document Bates numbers and TIF file names.
  - c. If the production is completed through a series of multiple partial productions, field names and file order in all load files should match.
  - d. All electronic documents produced to the Committee should include the following fields of metadata specific to each document, and no modifications should be made to the original metadata:

BEGDOC, ENDDOC, TEXT, BEGATTACH, ENDATTACH, PAGECOUNT, CUSTODIAN, RECORDTYPE, DATE, TIME, SENTDATE, SENTTIME, BEGINDATE, BEGINTIME, ENDDATE, ENDTIME, AUTHOR, FROM, CC, TO, BCC, SUBJECT, TITLE, FILENAME, FILEEXT, FILESIZE, DATECREATED, TIMECREATED, DATELASTMOD, TIMELASTMOD,

INTMSGID, INTMSGHEADER, NATIVELINK, INTFILPATH, EXCEPTION, BEGATTACH.

7. Documents produced to the Committee should include an index describing the contents of the production. To the extent more than one CD, hard drive, memory stick, thumb drive, zip file, box, or folder is produced, each should contain an index describing its contents.
8. Documents produced in response to this request shall be produced together with copies of file labels, dividers, or identifying markers with which they were associated when the request was served.
9. When you produce documents, you should identify the paragraph(s) or request(s) in the Committee's letter to which the documents respond.
10. The fact that any other person or entity also possesses non-identical or identical copies of the same documents shall not be a basis to withhold any information.
11. The pendency of or potential for litigation shall not be a basis to withhold any information.
12. In accordance with 5 U.S.C. § 552(d), the Freedom of Information Act (FOIA) and any statutory exemptions to FOIA shall not be a basis for withholding any information.
13. Pursuant to 5 U.S.C. § 552a(b)(9), the Privacy Act shall not be a basis for withholding information.
14. If compliance with the request cannot be made in full by the specified return date, compliance shall be made to the extent possible by that date. An explanation of why full compliance is not possible shall be provided along with any partial production.
15. In the event that a document is withheld on the basis of privilege, provide a privilege log containing the following information concerning any such document: (a) every privilege asserted; (b) the type of document; (c) the general subject matter; (d) the date, author, addressee, and any other recipient(s); (e) the relationship of the author and addressee to each other; and (f) the basis for the privilege(s) asserted.
16. If any document responsive to this request was, but no longer is, in your possession, custody, or control, identify the document (by date, author, subject, and recipients), and explain the circumstances under which the document ceased to be in your possession, custody, or control.
17. If a date or other descriptive detail set forth in this request referring to a document is inaccurate, but the actual date or other descriptive detail is known to you or is otherwise apparent from the context of the request, produce all documents that would be responsive as if the date or other descriptive detail were correct.

18. This request is continuing in nature and applies to any newly-discovered information. Any record, document, compilation of data, or information not produced because it has not been located or discovered by the return date shall be produced immediately upon subsequent location or discovery.
19. All documents shall be Bates-stamped sequentially and produced sequentially.
20. Two sets of each production shall be delivered, one set to the Majority Staff and one set to the Minority Staff. When documents are produced to the Committee, production sets shall be delivered to the Majority Staff in Room 2157 of the Rayburn House Office Building and the Minority Staff in Room 2105 of the Rayburn House Office Building.
21. Upon completion of the production, submit a written certification, signed by you or your counsel, stating that: (1) a diligent search has been completed of all documents in your possession, custody, or control that reasonably could contain responsive documents; and (2) all documents located during the search that are responsive have been produced to the Committee.

Dear Madam Chairwoman:

I write in response to your letter of February 9, 2022, in which you asked a number of questions relating to “the 15 boxes of presidential records that the National Archives and Records Administration (NARA) recently recovered from former President Trump’s Mar-a-Lago residence.” Please see our responses to each of your questions:

1. Did NARA ask the representatives of former President Trump about missing records prior to the 15 boxes being identified? If so, what information was provided in response?

Answer: NARA had ongoing communications with the representatives of former President Trump throughout 2021, which resulted in the transfer of 15 boxes to NARA in January 2022.

2. Has NARA conducted an inventory of the contents of the boxes recovered from Mar-a-Lago?

Answer: NARA is in the process of inventorying the contents of the boxes.

3. Please provide a detailed description of the contents of the recovered boxes, including any inventory prepared by NARA of the contents of the boxes. If an inventory has not yet been completed, please provide an estimate of when such an inventory will be completed.

Answer: NARA staff are in the process of inventorying the contents of the boxes, which we expect to complete by February 25. Because the records in the boxes are subject to the Presidential Records Act (PRA), any request for information regarding the content of the records will need to be made in accordance with section 2205(2)(C) of the PRA.

4. Are the contents of the boxes of records recovered by NARA undergoing a review to determine if they contain classified information? If so, who is conducting that review and has any classified information been found?

Answer: NARA has identified items marked as classified national security information within the boxes.

5. Is NARA aware of any additional presidential records from the Trump Administration that may be missing or not yet in NARA's possession?

Answer: NARA has identified certain social media records that were not captured and preserved by the Trump Administration. NARA has also learned that some White House staff conducted official business using non-official electronic messaging accounts that were not copied or forwarded into their official electronic messaging accounts, as required by section 2209 of the PRA. NARA has already obtained or is in the process of obtaining some of those records.

6. What efforts has NARA taken, and is NARA taking, to ensure that any additional records that have not been turned over to NARA are not lost or destroyed?

Answer: NARA has asked the representatives of former President Trump to continue to search for any additional Presidential records that have not been transferred to NARA, as required by the Presidential Records Act.

7. Has the Archivist notified the Attorney General that former President Trump removed presidential records from the White House? If not, why not?

Answer: Because NARA identified classified information in the boxes, NARA staff has been in communication with the Department of Justice.

8. Is NARA aware of presidential records that President Trump destroyed or attempted to destroy without the approval of NARA? If so, please provide a detailed description of such records, the actions taken by President Trump to destroy or attempt to destroy them, and any actions NARA has taken to recover or preserve these documents.

Answer: In June 2018, NARA learned from a press report in Politico that textual Presidential records were being torn up by former President Trump and that White House staff were attempting to tape them back together. NARA sent a letter to the Deputy Counsel to the President asking for information about the extent of the problem and how it is being addressed. The White House Counsel's Office indicated that they would address the matter. After the end of the Trump Administration, NARA learned that additional paper records that had been torn up by former President Trump were included in the records transferred to us. Although White House staff during the Trump Administration recovered and

taped together some of the torn-up records, a number of other torn-up records that were transferred had not been reconstructed by the White House.

Dear Mr. Passantino:

A June 11, 2018, article in Politico, entitled “Meet the guys who tape Trump’s papers back together,” states that two former White House employees were responsible for taping together textual documents that were torn up by President Trump. To the extent that this Politico article and related news stories is accurate in the assertion that documents were torn up and that these items are Presidential records as defined in the Presidential Records Act (PRA), I am writing to request information on how the White House is addressing this issue.

The Politico article states that “White House aides realized early on that they were unable to stop [President] Trump from ripping up paper after he was done with it and throwing it in the trash or on the floor, according to people familiar with the practice. Instead, they chose to clean it up for him, in order to make sure that the president wasn’t violating the law.” The article goes on to state that, “[d]espite the president’s apparent disregard of the Presidential Records Act, sources said, aides around him have tried to take an overly inclusive approach to what would be considered a presidential record.”

In accordance with the requirements of the PRA and our mutual interest in ensuring that all Presidential records are properly managed, preserved, and available for transfer to the National Archives at the end of the Administration, please let us know the extent of the problem and how it is being addressed. For example: How many records have been torn up? Have any records been destroyed or were in a state that they cannot be recovered? What steps are taken to recover any records that have been torn up? Is training about the requirements of the PRA and as it applies to this issue provided to White House personnel who may encounter the problem, including in the Oval Office and the residence? Is there a protocol to copy or scan all records, including correspondence, before they are presented to the President? NARA would also be happy to provide guidance on best practices for restoring damaged records.

Dear Madam Chairwoman:

I write to you pursuant to my authority under section 2203(e) of the Presidential Records Act (PRA), as amended (44 U.S.C. §§ 2201-2209), which establishes that I may “request the advice” of the appropriate committees of the House and the Senate when I consider that a proposed disposal of Presidential records by the incumbent President “may be of special interest to the Congress” or that “consultation with the Congress regarding the disposal of these particular records is in the public interest.” While this provision specifically applies to disposals proposed by the incumbent President, the National Archives and Records Administration (NARA) has always interpreted it to apply to disposals of Presidential records of which I was not informed.

Under the PRA, all Presidential records automatically transfer to NARA’s legal custody when the President leaves office. With respect to the Trump Presidential records, the legal transfer took place on January 20, 2021. However, it is not uncommon for there to be a delay before NARA takes physical custody of all of the records. The complex technical work needed to transfer hundreds of terabytes of electronic records, coupled with a one-term transition, meant that the physical transfer could not be completed between the Presidential election and Inauguration Day. It took until November 2021 for NARA to receive all of the electronic Trump Presidential records.

Included among the Trump Presidential electronic records are those created on social media platforms. NARA recognizes that social media records are a relatively recent phenomenon, that capturing records on social media platforms is an evolving process, and that different platforms pose different issues with respect to how records are defined and managed.

By this letter, I am advising you that the Trump Administration did not fully capture, and therefore NARA did not receive, all of the Presidential records created by President Trump and White House staff that were posted on social media platforms, as summarized in more detail below:

Ferriero Letter to Maloney on Trump Presidential Records on Social Media 02\_18\_2022\_21gued.qocx.pdf

- Early in the Trump Administration, questions were raised about President Trump's use of his personal Twitter account to conduct official government business and whether deleted tweets were being captured and preserved as Presidential records. In March 2017, NARA advised the Trump Administration that it should capture and preserve as Presidential records all tweets that the President posts in the course of his official duties, whether on his personal @realDonaldTrump account or on the official @POTUS account, including those tweets that were subsequently deleted. As I reported in a March 30, 2017, letter to Senators Claire McCaskill and Tom Carper, NARA was "informed by White House officials that they [were], in fact, doing so."

Since the end of the administration, we have learned that the White House initially used a manual process to capture tweets that were deleted from @realDonaldTrump and @POTUS by copying them from non-governmental organizations that were capturing them, such as Propublica and Factba.se. The White House did not begin using the vendor ArchiveSocial to automate the capture of tweets and other social media records in real-time until January 2018. Moreover, @realDonaldTrump was not enrolled until August 2018 and the tool stopped capturing @realDonaldTrump in April 2020. The official @POTUS was enrolled in February 2018 and remained connected throughout the rest of the administration.

When properly implemented, ArchiveSocial captures all versions of content as it appears on the platforms, along with any changes, such as deleted or edited content, changes to an account profile, and direct or private messages. However, it cannot capture such changes retroactively. If a social media account is not enrolled or subsequently becomes disconnected from ArchiveSocial, any changes, including deleted or modified posts, cannot be captured.

The Twitter account @realDonaldTrump was disconnected from ArchiveSocial in April 2020. A key feature of ArchiveSocial is that it sends automated alerts to the account owners/system administrators every three to five days to remind them to reconnect any disconnected accounts. The tool also displays information about the account status in the dashboard. This account was not re-enrolled.

When White House officials brought this problem to our attention near the end of the administration, Twitter had permanently suspended @realDonaldTrump. NARA contacted Twitter directly to ask if it retained the account data between April 20th and the account's suspension. Twitter provided us with a copy of the available account data. However, it did not include previously deleted tweets, which are not retained by the company. Accordingly, we were unable to obtain a complete set of these Presidential records from the Trump Administration or Twitter. While we do have access to copies of deleted tweets collected by other non-governmental sources, we do not consider them as official Presidential records and cannot ensure the completeness of their captured account data.

- The Trump White House did not take any steps to capture deleted content from any Trump Administration social media account other than @realDonaldTrump or @POTUS prior to enrolling them with ArchiveSocial. As with @realDonaldTrump, many other Trump Administration social media accounts were not enrolled until the summer or fall of 2018, even though these accounts were active for over a year prior to enrollment, during which time deleted or modified Presidential record content was not captured. Other accounts were not enrolled until just prior to the end of the administration.
- The ArchiveSocial tool included the ability to capture direct messages that may have been used on the platforms, but the Trump Administration opted not to enable capture of direct messages, and was unable to report whether direct messaging was actually used on any of the platforms by the account holders.
- NARA identified seven Twitter accounts that we think contain presidential record information, but were not captured by the Trump Administration. These accounts belonged to Andrew Giuliani, Chad Gilmartin, Ivanka Trump, Kayleigh McEnany, Kellyanne Conway, Mark Meadows, and Peter Navarro. After the end of the administration, NARA obtained the publicly available tweets from these accounts in order to supplement its archival collection.
- In January 2021, administration officials advised NARA that two social media accounts they thought contained Presidential record content were not enrolled in ArchiveSocial and could not be retroactively enrolled as they had been suspended by the platforms. These accounts were Donald J. Trump on Facebook and @realDonaldTrump on Instagram. NARA endeavored to work with Facebook, which operates Instagram, to obtain access to the accounts, but Facebook was not able to provide access.
- SnapChat was used by the Trump Administration (@realdonaldtrump and @whitehouse), which advised NARA that it was capturing content posted to the platform. NARA has not yet been able to locate any SnapChat content in the records transferred to us. SnapChat ultimately banned President Trump from the platform, and it is not possible to see any previous content. SnapChat advised NARA that the Trump Administration used the @whitehouse account approximately five times during four years. However, the administration regularly used the @realdonaldtrump account. News reports indicate that the account had 1.5 million followers on the platform. We do not know whether direct messaging was enabled on the account. We are not able to determine to what extent @realdonaldtrump SnapChat contained unique Presidential records as compared to content duplicative from other platforms, or purely campaign related information, which would not have been a Presidential record.

Please let me or my staff know if you have questions or would like to discuss this issue further.

Sincerely,

Dear Mr. Ferriero:

The Oversight Committee is seeking additional documents about former President Donald Trump's removal of classified documents and presidential records from the White House, President Trump's attempt to destroy records by tearing them into pieces, and other presidential records from the Trump Administration that are missing. In response to a request from the Committee, the National Archives and Records Administration (NARA) provided new details of what appear to be the largest-scale violations of the Presidential Records Act since its enactment. I am deeply concerned that former President Trump may have violated the law through his intentional efforts to remove and destroy records that belong to the American people. This Committee plans to get to the bottom of what happened and assess whether further action is needed to prevent the destruction of additional presidential records and recover those records that are still missing.

On February 9, 2022, the Committee sought information related to the 15 boxes of presidential records recovered from the former president's Mar-a-Lago residence and recent reports that Mr. Trump attempted to destroy documents while serving as president.<sup>1</sup> On February 18, 2022, you sent two letters constituting a partial response and identifying significant potential violations of the Presidential Records Act and other federal laws governing the preservation of federal records, but you did not provide all the information the Committee requested.<sup>2</sup>

Ferriero, Archivist of the United States, to Chairwoman Carolyn B. Maloney, Committee on Oversight and Reform (Feb. 18, 2022) (describing the Trump Administration's failure to capture social media records) (online at [www.archives.gov/files/foia/ferriero-letter-to-maloney-on-trump-presidential-records-on-social](http://www.archives.gov/files/foia/ferriero-letter-to-maloney-on-trump-presidential-records-on-social)).

Your response confirmed that “NARA has identified items marked as classified national security information within the boxes” recovered at Mar-a-Lago, and that “NARA staff has been in communication with the Department of Justice” regarding this discovery. In response to the Committee’s request for an inventory of the contents of the 15 boxes, you stated the inventory should be completed by February 25 and that the Committee could request the inventory under Section 2205(2)(C) of the PRA.<sup>3</sup>

Your response also provided concerning new information about Mr. Trump’s destruction or attempted destruction of documents while serving as president. You stated that following press reports in 2018 that President Trump was tearing up records, NARA wrote to the Deputy Counsel for the President requesting information and that “[t]he White House Counsel’s Office indicated that they would address the matter.” However, you wrote that after this incident, “NARA learned that additional paper records that had been torn up by former President Trump were included in the records transferred to us.” You also wrote that White House staff had “taped together some of the torn-up records” but that “a number of other torn-up records that were transferred had not been reconstructed by the White House.”<sup>4</sup>

Your response also indicated that the Trump Administration failed to preserve other presidential records, and that NARA is continuing to search for missing records from the Trump Administration. You explained:

NARA has identified certain social media records that were not captured and preserved by the Trump Administration. NARA has also learned that some White House staff conducted official business using non-official electronic messaging accounts that were not copied or forwarded into their official electronic messaging accounts, as required by section 2209 of the PRA.<sup>5</sup>

On February 18, 2022, you also sent me a detailed description of the Trump Administration’s failure to capture and preserve presidential records on social media platforms. Among other information, your letter indicated that:

- The Trump Administration failed to adequately capture and preserve all tweets that the former president posted in the course of his official duties, including deleted tweets, despite being warned by NARA as far back as March 2017;
- The Trump Administration failed to preserve deleted content from the former president’s other social media accounts, and failed to preserve the former president’s Facebook, Instagram, and SnapChat accounts after he was suspended or banned from those platforms;

<sup>4</sup> Letter from David S. Ferriero, Archivist of the United States, to Chairwoman Carolyn B. Maloney, Committee on Oversight and Reform (Feb. 18, 2022) (responding in part to the Committee’s February 9, 2022, letter) (online at [www.archives.gov/files/foia/ferriero-response-to-02.09.2022-maloney-letter.02.18.2022.pdf](http://www.archives.gov/files/foia/ferriero-response-to-02.09.2022-maloney-letter.02.18.2022.pdf)).

<sup>5</sup> *Id.*

- The Trump Administration appears to have failed to preserve the former president's direct or private messages on social media accounts; and
- The Trump Administration failed to capture presidential records from the Twitter accounts of seven White House aides, including Ivanka Trump, Mark Meadows, Peter Navarro, and others.<sup>6</sup>

The information in your response suggests that former President Trump and his senior aides may have repeatedly violated the Presidential Records Act and other federal laws, which could severely impact the preservation of records from the Trump Administration. The Committee needs additional documents and information uniquely available from NARA to investigate the full extent of this conduct and determine what additional steps, including potential legislative reforms, may be needed to ensure the preservation of presidential records for the American people.

The Committee on Oversight and Reform is the principal oversight committee of the House of Representatives and has broad authority to investigate “any matter” at “any time” under House Rule X. The Committee has legislative jurisdiction over the Presidential Records Act and the Federal Records Act and has a long history of conducting oversight related to compliance with these laws.<sup>7</sup>

For all these reasons, pursuant to the Presidential Records Act,<sup>8</sup> please provide by March 10, 2022:

1. A detailed description of the contents of the boxes recovered from Mar-a-Lago, including any inventory prepared by NARA of the contents of the boxes, and identification of any items that are classified and the level of classification including, if necessary, a classified index;

2. In addition, pursuant to the Presidential Records Act,<sup>9</sup> the Committee requests that you produce by March 17, 2022, the following documents from the records of President Donald Trump's Executive Office of the President (EOP) in your possession, custody, or control:

1. Documents and communications received, prepared, or sent between January 20, 2017, and January 20, 2021, by employees or officials of EOP or any of its components, offices, or directorates, relating to the use of personal messaging accounts for official business;

4. Documents and communications received, prepared, or sent between January 20, 2017, and January 20, 2021, by employees or officials of EOP or any of its components, offices, or directorates, relating to White House employees or contractors finding paper in a toilet in the White House, including the White House residence;

5. Documents and communications received, prepared, or sent between January 20, 2017, and January 20, 2021, by employees or officials of EOP or any of its components, offices, or directorates, relating to missing records; and
6. Documents and communications received, prepared, or sent between January 20, 2020, and January 20, 2021, by employees or officials of EOP or any of its components, offices, or directorates, relating to determinations of whether to transfer records to NARA.

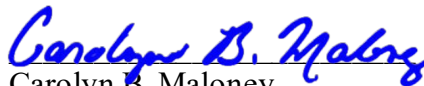

For requests 1 through 6, please prioritize producing records from the following custodians: Pat Cipollone; John Kelly; Nicholas Luna; Derek Lyons; Don McGahn; Mark Meadows; Stefan Passantino; Robert Porter; Reince Priebus; and Madeleine Westerhout.

7. Documents and communications received, prepared, or sent between January 20, 2017, and January 20, 2021, by employees or officials of EOP or any of its components, offices, or directorates, relating to the preservation or destruction of records from social media accounts, including direct messaging on social media accounts.

1. In complying with this request, produce all responsive documents that are in your possession, custody, or control, whether held by you or your past or present agents, employees, and representatives acting on your behalf. Produce all documents that you have a legal right to obtain, that you have a right to copy, or to which you have access, as well as documents that you have placed in the temporary possession, custody, or control of any third party.
2. Requested documents, and all documents reasonably related to the requested documents, should not be destroyed, altered, removed, transferred, or otherwise made inaccessible to the Committee.
3. In the event that any entity, organization, or individual denoted in this request is or has been known by any name other than that herein denoted, the request shall be read also to include that alternative identification.
4. The Committee's preference is to receive documents in electronic form (i.e., CD, memory stick, thumb drive, or secure file transfer) in lieu of paper productions.
5. Documents produced in electronic format should be organized, identified, and indexed electronically.
6. Electronic document productions should be prepared according to the following standards:
  - a. The production should consist of single page Tagged Image File ("TIF"), files accompanied by a Concordance-format load file, an Opticon reference file, and a file defining the fields and character lengths of the load file.
  - b. Document numbers in the load file should match document Bates numbers and TIF file names.
  - c. If the production is completed through a series of multiple partial productions, field names and file order in all load files should match.
  - d. All electronic documents produced to the Committee should include the following fields of metadata specific to each document, and no modifications should be made to the original metadata:  
  
BEGDOC, ENDDOC, TEXT, BEGATTACH, ENDATTACH, PAGECOUNT, CUSTODIAN, RECORDTYPE, DATE, TIME, SENTDATE, SENTTIME, BEGINDATE, BEGINTIME, ENDDATE, ENDTIME, AUTHOR, FROM, CC, TO, BCC, SUBJECT, TITLE, FILENAME, FILEEXT, FILESIZE, DATECREATED, TIMECREATED, DATELASTMOD, TIMELASTMOD,

INTMSGID, INTMSGHEADER, NATIVELINK, INTFILPATH, EXCEPTION,

7. Documents produced to the Committee should include an index describing the contents of the production. To the extent more than one CD, hard drive, memory stick, thumb drive, zip file, box, or folder is produced, each should contain an index describing its contents.
8. Documents produced in response to this request shall be produced together with copies of file labels, dividers, or identifying markers with which they were associated when the request was served.
9. When you produce documents, you should identify the paragraph(s) or request(s) in the Committee's letter to which the documents respond.
10. The fact that any other person or entity also possesses non-identical or identical copies of the same documents shall not be a basis to withhold any information.
11. The pendency of or potential for litigation shall not be a basis to withhold any information.
12. In accordance with 5 U.S.C. § 552(d), the Freedom of Information Act (FOIA) and any statutory exemptions to FOIA shall not be a basis for withholding any information.
13. Pursuant to 5 U.S.C. § 552a(b)(9), the Privacy Act shall not be a basis for withholding information.
14. If compliance with the request cannot be made in full by the specified return date, compliance shall be made to the extent possible by that date. An explanation of why full compliance is not possible shall be provided along with any partial production.
15. In the event that a document is withheld on the basis of privilege, provide a privilege log containing the following information concerning any such document: (a) every privilege asserted; (b) the type of document; (c) the general subject matter; (d) the date, author, addressee, and any other recipient(s); (e) the relationship of the author and addressee to each other; and (f) the basis for the privilege(s) asserted.
16. If any document responsive to this request was, but no longer is, in your possession, custody, or control, identify the document (by date, author, subject, and recipients), and explain the circumstances under which the document ceased to be in your possession, custody, or control.
17. If a date or other descriptive detail set forth in this request referring to a document is inaccurate, but the actual date or other descriptive detail is known to you or is otherwise apparent from the context of the request, produce all documents that would be responsive as if the date or other descriptive detail were correct.

18. This request is continuing in nature and applies to any newly-discovered information. Any record, document, compilation of data, or information not produced because it has not been located or discovered by the return date shall be produced immediately upon subsequent location or discovery.
19. All documents shall be Bates-stamped sequentially and produced sequentially.
20. Two sets of each production shall be delivered, one set to the Majority Staff and one set to the Minority Staff. When documents are produced to the Committee, production sets shall be delivered to the Majority Staff in Room 2157 of the Rayburn House Office Building and the Minority Staff in Room 2105 of the Rayburn House Office Building.
21. Upon completion of the production, submit a written certification, signed by you or your counsel, stating that: (1) a diligent search has been completed of all documents in your possession, custody, or control that reasonably could contain responsive documents; and (2) all documents located during the search that are responsive have been produced to the Committee.

Dear Madam Chairwoman:

I write to acknowledge receipt of your letter of February 24, 2022, "seeking additional documents about former President Donald Trump's removal of classified documents and presidential records from the White House, President Trump's attempt to destroy records by tearing them into pieces, and other presidential records from the Trump Administration that are missing."

On February 28, 2022, my staff met with your staff to discuss your request for both operational and Presidential records from the National Archives and Records Administration. My staff explained how the process works for obtaining access to records under section 2205(2)(C) of the Presidential Records Act, which includes NARA's ability to search for responsive records over the four years of the Trump Administration and the requirement under our regulations (36 C.F.R. 1270.44) and Executive Order 13499 to provide notification to the representatives of the incumbent and former Presidents.

My staff will continue to keep your staff apprised of our progress in responding to your request.

Sincerely,

DAVID S. FERRIERO  
Archivist of the United States

Dear Madam Chairwoman:

I write in response to your letter of February 24, 2022, to Archivist of the United States David S. Ferriero, “seeking additional documents about former President Donald Trump’s removal of classified documents and presidential records from the White House, President Trump’s attempt to destroy records by tearing them into pieces, and other presidential records from the Trump Administration that are missing.”

With respect to your request for information about the contents of the 15 boxes that NARA received from President Trump’s Mar-a-Lago residence or about any reviews conducted by other federal agencies, based on our consultation with the Department of Justice, we are unable to provide any comment. Please contact Christina Calce at DOJ’s Office of Legislative Affairs if you have any questions on this issue.

NARA did not receive any written responses from Stefan Passantino or other White House officials to our June 14, 2018, letter to the Trump Administration or our follow-up queries.

NARA did not send any other letters to the Trump Administration related to the Presidential Records Act that we have not already provided to the Committee. In addition to the June 14, 2018, letter that we provided to you on February 18, 2022, we provided you with five letters to the Trump Administration regarding the disposal of Presidential records on January 5, 2021.
