Dear Epoch Times Editor,

Political Prisoner for 93 days

Thank you for your quick response and for returning my picture. Enclosed is my story as a FBI Whistleblower and Jan 6th Political Prisoner. It is currently approx 3am and I have been writing for hours in hopes of getting this to you in time for your Jan 6th Coverage. It would be a great honor to read my story in your paper, but more importantly the people need to know the truth. I apologize that it is hand written, but needless to say, as an inmate my resources are very limited. You are the first and only paper this story has been provided to, althought I do hope to submit it to other papers in the near future. I trust the Epoch Times, therefore I wanted you to have the first opportunity to review it and hopefully print it. Because it is hand written and my only copy, regardless of whether you use it or not, could you please mail it back. I plan to have it typed up and edited, but because of time, I wanted to get it to you ASAP. I've also included a photo if you choose to add it. I've never submitted a story to a paper, so please excuse my inexperience. I understand you likely get thousands of request to run stories, so I certainly ~~understand~~ understand if mine is not able to make it to print, but I do think it is important and my fight is real. Not just for me but for the over 6000+ political prisoners being held as well. America needs to know what they are facing. Again, thank you for this opportunity and I will pray I see my story in your paper soon! De Oppresso Liber! Liberty or Death!

Please mail to home as I may be

Jeremy Brown

My name is Jeremy Brown. I am a 20 year retired US Army Special Forces Combat Veteran. On January 5th and 6th, 2021, I was in our Nation's Capitol as part of an all volunteer Protective Detail tasked with providing security for organizers and speakers at a legally permitted political rally. On September 30th, 2021, I was arrested at my home in Tampa, FL by approximately 30 to 40 heavily armed Federal Agents and Local Law Enforcement. They came in such force ~~in~~ in order to service a misdemeanor arrest warrant for being in an "unauthorized area". These were no ordinary agents, but agents working as part of the FBI's Joint Terrorism Task Force (JTTF). Oddly, in the 9 months prior to this day, I had never been contacted or questioned by any investigators about this case and the arrest warrant and search warrant had only been granted a day prior. This, despite ~~several~~ numerous members of my Protective Detail being arrested many months prior. While this may sound a little strange to you, I know exactly why this happened.

On December 9th, 2020 the exact same Joint Terrorism Task Force (JTTF) Agents that arrested me, attempted to recruit me as a Confidential Informant (CI). Their "pitch" was intended to gauge my interest in infiltrating law abiding citizen groups that had no criminal history and certainly were not designated "Terrorist Groups". Having a healthy mistrust of Federal Law Enforcement, I recorded the entire "personal meet" as we would refer to it on a battlefield. Of course, I declined to pursue any offer from the Agents and went on my way. A few weeks later, while standing next to the Presidential Stage that waited for President Trump's address, I was called

by ~~the~~ the exact same JTTF Agent. I explained where I was and what I was doing, so on Jan 6th, 2021, they were well aware of my location and purpose for being there. On the 7th of Jan, I texted that same agent with a video of the murder of the unarmed, female Air Force Veteran, Ashli Babbitt, by a Capitol Police Officer and told him "here is a contact report for you!" He acknowledged watching the video with a "WOW..." That was the last ~~the~~ direct communication I had with that agent or the JTTF, even though I made multiple attempts to email them. That is, until the day they arrested me, 9 months later.

In the days and weeks that followed ~~the~~ the events of Jan 6th, I was disgusted and appalled at the blatant lies that were coming from the media, Politicians and the Department of Justice. In particular, it was the FBI Director, Chris Wray's testimony on the House floor that made me realize I had to go public with what I knew. I contacted a friend of mine that had a voice in independant media and asked if he would be willing to help me go public. Brandon Gray, who is a true American Patriot, was ALL-IN! On March 5th, 2021 he conducted a 2 hour interview of me that fully exposed the recording of the JTTF recruitment and my professional assessment of what I believed it meant. That interview can be seen in its entirety at JustAnotherChannel.com under the title "Green Beret Vs FBI". I went public to counter the false narrative and expose the truth to the American People. I knew I was making myself a target of the FBI, but I swore an oath to the US Constitution, so the choice to

Speak out was an easy one.

That interview was seen by millions of people and I subsequently conducted well over 30 other interviews on my story. For weeks following, Americans trolled the Twitter page of the FBI Field Office in Tampa by posting the interview on their page. I know they saw it because people would post it, the FBI would remove it then others would repost it. This went on for a while. So, they were well aware that their failed CI recruit ~~was~~ was now an outspoken "whistle blower" exposing the FBI's actions prior to Jan 6th. However, as I suspected would happen, time went on and the public's interest in the story faded, especially since not one major media outlet covered it. It seemed that the tried and true media tactic of "ignoring me into oblivion" was going to serve the FBI well, once again. NOT SO FAST!

In mid June, a major investigative article was released by Darrin Beady of Revolver. News that provided new evidence, insight and connected the dots of FBI involvement in potential staging of the events of Jan 6th. The article also exposed FBI ties to another "plot" that had FBI fingerprints all over it. The fake Michigan Governor kidnapping plot seemed to be a dress rehearsal for Jan 6th by targeting another Pro-Constitutional Government group and claiming they were crazed "Far-Right Milita". Problem was, most of the "players" have turned out to be FBI Informants or actual agents. Ooopsie! This sparked new interest in my story and in late June through August, I did a new round of interviews. These new interviews were

done with fresh perspective and a better understanding of the "Big Picture", provided by 7 months of additional investigations, reports, public outcry and personal videos and accounts.

I spoke the truth about my firsthand ~~experience~~ ^{account} and gave my professional opinions based on 20 years of Special Operations experience, some of which was working with the JTTF and other similar agencies on foreign soil. This clearly got the attention of the FBI and almost immediately, friends of mine began being contacted by the FBI, some of who were questioned and threatened with being charged with crimes. Was the topic of discussion the events of Jan 6th? Nope. They wanted details about Jeremy Brown. My only sister was personally contacted on her new cell phone number by the very agent that was in the recorded recruitment meeting. He didn't call her to ask questions about Jan 6th, he called to tell her the FBI/DHS was "concerned" I had been "radicalized" and that I may be "suicidal". Now, keep in mind, our younger brother had taken his own life in late 2018 and my sister and mother took this extremely hard. When my sister told me this, I attempted to contact this agent via his official Government email multiple times in hopes of addressing his concerns, but I received no response.

In mid September, my girlfriend of nearly 8 years and I sold her home in preparation for our retirement plan of becoming full time RVers. We were gonna hit the open road with our 2 Australian Shepherds, Liberty and Ranger, and explore the beauty of America and visit friends and family.

This plan started with the purchase of our 1st RV in October of 2020, well before the FBI came into our lives. The sale was to be finalized on Oct 2nd. The Joint Terrorism Task Force had other plans for us.

On Sept 30th, the day ~~to~~ before my 47th birthday and 3 days prior to the close on the sale of our home, I received an early morning phone call from that same agent. With a fake "Hey Buddy" tone, he left a voicemail stating he had heard we were moving and just wanted to see how I was doing. Of course, I did not return the call, but I did send the voicemail recording to numerous friends and warned them that "they" were probably coming to get me soon. Later that afternoon at approx. 4pm they came, right before we were leaving to donate clothes and housewares to the Salvation Army.

With what my girlfriend estimated to be between 15 to 20 vehicles, a swarm of tactical vest clad Federal Agents surrounded our property and arrested me standing next to her in her van while I stood in our driveway. Without even reading me my rights, they handcuffed me and put me in their unmarked SUV. Along with the misdemeanor arrest warrant, the ATF was there with a search warrant for our property and RV. Clearly, when you are accused of being in a "restricted area" nearly 1000 miles away, 9 months prior, the ATF needs to show up to conduct a search. Despite requests, multiple times to see any of the warrants I should have been served with they repeatedly refused to show any of them, claiming they were "too many pages". After only a few minutes,

I was whisked away by the very same 2 Agents that just 11 months earlier wanted me to work with them and proclaimed on the recording that I was a "zero out of ten" when describing how ~~big~~ much of a concern I was for them.

Meanwhile, back at my home, the FBI and ATF spent 5 1/2 hours searching our property and RV. That's 3 times longer than the 90 minutes the Government claims they spent securing and clearing the US Capitol Grounds on Jan 6th. After this "exhausting" search, they only managed to find a single inventory sheet of property that they felt was worthy of siezing. On that list were legal weapons that belonged to my girlfriend and were just recently purchased, legal ammo and military gear and manuals that were never even in DC. Most disturbing of all all was they siezed my 5x8ft American Flag that I flew regularly behind our RV. How dare a US Special Forces Retiree have an American Flag?

As I write this account on Dec 30th, 2021, it marks my 92nd day of being held in the maximum security section of the Pinellas County Jail as a FBI Whistleblower and Political Prisoner. To date, these are the crimes the FBI and Dept of Justice are guilty of committing under Title 18 US Code, Section 242, Deprivation of Rights under Color of Law.

- ① Violations of Article 1 of the Bill of Rights by criminalizing Free Speech and peaceful assembly for attending a permitted rally on Public Grounds.
- ② Violations of Article 2 of the Bill of Rights by passing and enforcing unconstitutional gun laws that violate the letter and intent of the "shall not be infringed" clause.

- ③ Violations of Article 4 of the Bill of Rights by deceptively obtaining an unreasonable and illegal search warrant by lying to the issuing Judge. When asked by me and my girlfriend to produce the warrants at the time of arrest, they refused to produce them. One agent was even recorded stating, "We don't know what we are looking for, yet." They should look for a copy of the Constitution and read it.
- ④ Violations of Article 5 of the Bill of Rights by not reading me my rights prior to arrest and questioning. They are currently still depriving me of my life, liberty and property without due process of law.
- ⑤ Violations of Article 6 of the Bill of Rights by making sure nothing is speedy, attempting to deny me access to any of the evidence against me, by denying my right to a public trial by claiming everything is "sensitive" or "highly sensitive", yet leaking information to media outlets such as the "Daily Beast" who had my search warrant before I did. They are denying me the right to "face my accusers" by citing numerous "unnamed witnesses", many likely to be FBI Informants. ~~es~~ Because I am locked away in jail, I do not have complete access to witnesses in my favor and all my contact with legal counsel is on monitored systems. So far, I have been denied access to my Attorney 6 times because of "COVID".
- ⑥ Most egregious are the violations of Article 8 of the Bill of Rights by denying me bond ~~to~~ and keeping me locked in maximum security for over 3 months and counting.

All of these ~~illegal~~ acts by the FBI and DoJ are meant to silence me and keep me from exposing their lies and corruption. Their fake charges and overzealous arrest was meant to intimidate not only me, but also the American People. They think that this illegal imprisonment will break my will ~~and~~ and allow them to coerce me into pleading to a crime I did not commit or that will bolster their false narrative of Jan 6th. But how did we get here?

As a nation we have taken our eyes off the prize of Liberty and lost our way. Our families, our neighborhoods, our churches, our schools and our Nation has fallen into an Evil trap of complacency. We have trusted "someone else" to solve every issue. We can deny it or even blame our neighbors, but each of us is guilty. If we hope to restore our liberty, our families and our Republic we are gonna need God's help to face this evil head on.

There is nothing new under the sun and we must look back at our history for answers to the question, "Where does this lead?" Or "How does this end?" What are the outcomes of un-checked, un-restrained tyranny? The poet Martin Niemöller speaks of the horror of Nazi Germany. Aleksandr Solzhenitsyn recounts the terror of Soviet Russia. Whether it is Mao's China or the tribal slaughters that plague Africa, evil always finds a way to creep into power, then subject humans to bondage and death. How? Because "the only thing necessary for evil to triumph is for good men to do nothing." — Edmund Burke

But that same history reveals to us the solutions

to this human cycle of Liberty and Bondage. How far will tyranny push? "As far as you let it." Those are the words of Thomas Jefferson in response to that question. "How do we push back?" you may be asking. Mr. Jefferson had an answer for that as well. "It does not take a majority, but an Irrate and Tireless minority, keen on setting brushfires of Liberty in the souls of men." As I sit here in my jail cell being denied justice and my Constitutionally protected, God given Rights, I wonder, "is anyone Irrate or Tireless enough to save our Republic?" Will our children and our children's children wonder what it was like to be free? If you're reading this, are you Irrate? Tireless? Are you willing to risk it all to set brushfires of Liberty in the souls of men? Are you willing to risk anything? Or, will we just wait for some other "good man" to come along and do that "something"? The time to look in the mirror and answer that question is NOW! Trust me, the time to fight is NOT after the Tyrant locks you in a jail cell.

Here is the GOOD news. GOD promises us he will give us victory over evil whenever and wherever it raises its ugly head, but ONLY if we stand up, face it head on and rebuke it with faith AND action. Look at the example of young David. When the evil warrior Goliath stood daily on the battle line, threatening, taunting and mocking King Saul's people, they all stood by in fear and did nothing, asking themselves, "How can we defeat this warrior, he is bigger, stronger and more powerful than us? Who can challenge him?" It was young David, a boy, who believed in GOD's promise of protection. A young boy

that stepped forward to face the giant warrior. David wasn't even big enough to wear the King's armor, but he had courage and faith in what was right. When will we find our courage to face our Giants? When ^{will} we speak up and take action to stand against ~~tyranny~~ tyranny. We can no longer stand to the side like cowards asking, "Who will stand and fight this Giant?" We must be Americans that say, "Here I am. SEND ME!"

My name is Jeremy Brown and I am a January 6th Political Prisoner being held ~~in~~ in the very country I spent my entire adult life defending at the highest level I could achieve. As a Green Beret I am trained and prepared for this and as an American, I was born for this. I will fight til my dying breath before I surrender one letter of my liberty. I am only one man, but if I'm the only man, so be it! But I know there are millions like me and so I ask you, are you ready to light brushfires of Liberty in the souls of men? Then don't do nothing! De Oppresso Liber!
