

## OVERVIEW

The study was conducted for CNN by SSRS utilizing a hybrid sampling methodology. SSRS is an independent research company. Surveys were obtained via web (n=699) and phone (n=202) from **October 13-18, 2022** with a representative sample of n=901 registered voters who live Michigan. The margin of sampling error for total registered voters is +/- **4.2** at the 95% confidence level. The design effect is **1.65**. For results among the n=651 likely voters, the margin of sampling error is +/- **4.9**. More information about SSRS can be obtained by visiting [www.ssrs.com](http://www.ssrs.com).

## EMBARGOED FOR RELEASE: Monday, October 24 at 12:00 p.m.

### NOTE ABOUT RESULTS

Unless otherwise noted, results beginning with the August 3-6, 2017 survey and ending with the April 21-26, 2021 survey are from polls conducted by SSRS via telephone only. For more information about other trend data included in this topline, please see the "More on Methodology" section at the end of this document.

Results beginning with the March 31-April 2, 2006 survey and ending with the April 22-25, 2017 survey are from telephone surveys conducted by ORC International. Results before March 31, 2006 are from telephone surveys conducted by Gallup.

Question text noted in parentheses was rotated or randomized. Values less than 0.5 percent are indicated by an asterisk (\*).

### NOTE ABOUT CROSSTABS

Surveys were conducted among a representative sample of the adult registered voters, age 18 or older, of Michigan. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum N=125 unweighted cases. Results for subgroups with fewer than N=125 unweighted cases are not displayed and instead are denoted with "**SN**" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

G1MI. If the election for Governor were held today and the candidates were (Gretchen Whitmer, the Democrat), and (Tudor Dixon, the Republican), who would you be more likely to vote for?

G1aMI. If the election for Governor were being held today, as of today, do you lean more toward:

G1MI/G1AMI COMBO TABLE

	Gretchen Whitmer, the Democrat	Tudor Dixon, the Republican	Neither	Other	No opinion
<b>Likely voters</b>					
October 13-18, 2022	52%	46%	2%	*	*
<b>Registered voters</b>					
October 13-18, 2022	55%	41%	3%	1%	1%

**(Registered voters who have already picked a candidate, N=863)**

G2. Is your mind made up about who you will vote for in the race for Governor, or is it possible you would change your mind?

Climate change	7%
Gun policy	5%
Immigration	4%
Crime	3%
Another issue	2%
No opinion	*

Q6. Would you say that economic conditions in Michigan are: **[FIRST TWO RESPONSES ROTATED IN ORDER FOR HALF/IN REVERSE ORDER FOR HALF]**

	Getting better	Getting worse	Staying about the same	No opinion
<b>Likely voters</b>				
October 13-18, 2022	13%	61%	26%	1%
<b>Registered voters</b>				
October 13-18, 2022	13%	58%	29%	*

Q7. How confident are you that votes in Michigan will be accurately cast and counted in this year's election?  
**[RESPONSES ROTATED IN ORDER FOR HALF/IN REVERSE ORDER FOR HALF]**

	NET Very/ Some- what confident	Very confident	Some- what confident	NET Just a little/ Not at all confident	Just a little confident	Not at all confident	No opinion
<b>Likely voters</b>							
October 13-18, 2022	<b>66%</b>	43%	23%	<b>34%</b>	12%	21%	*
<b>Registered voters</b>							
October 13-18, 2022	<b>68%</b>	41%	28%	<b>31%</b>	13%	19%	<b>1%</b>

Q8. Earlier this year, the Supreme Court overturned the Roe vs. Wade decision and ruled that women do not have a constitutional right to an abortion. Does that decision make you feel: **[FIRST FOUR RESPONSES ROTATED IN ORDER FOR HALF/IN REVERSE ORDER FOR HALF]**

	Happy	Satisfied, but not happy	Dis- satisfied, but not angry	Angry	It doesn't matter to me	No opinion
<b>Likely voters</b>						
October 13-18, 2022	21%	9%	18%	41%	10%	1%
<b>Registered voters</b>						
October 13-18, 2022	17%	10%	21%	41%	11%	1%

V9. How motivated, if at all, would you say you are about voting in this year's election?

	Extremely motivated	Very motivated	Somewhat motivated	Not too motivated	Not at all motivated	No opinion
<b>Likely voters</b>						
October 13-18, 2022	83%	14%	3%	*	0%	0%
<b>Registered voters</b>						
October 13-18, 2022	57%	23%	14%	3%	2%	*

## MORE ON METHODOLOGY

A total of n=901 registered voters who live in Michigan were surveyed by web and telephone nationwide using a hybrid sample methodology, including the SSRS Opinion Panel, a nationally representative panel of U.S. adults ages 18 or older recruited using probability-based sampling techniques, and registration-based sample containing either a telephone number or an email address. All adults living in Michigan who were contacted via the SSRS Opinion Panel were invited to participate. All potential respondents were then screened for age, state of residence, and voter registration prior to administering the survey. Surveys were conducted in English and Spanish.

Results for the full sample have a margin of sampling error of +/- 4.2 percentage points. Results for the sample of 651 likely voters have a margin of sampling error of +/- 4.9 percentage points.

Among the entire sample, 33% described themselves as Democrats, 30% described themselves as Republicans, and 38% described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect Census figures for the state's registered voters for gender, age, education, and race/ethnicity. The sample was also weighted for National Election Poll (NEP) region. The sample was weighted among self-reported 2020 voters for recalled 2020 vote within NEP regions. The benchmark for recalled 2020 vote was taken from county-level National Election Pool (NEP) presidential election results provided by CNN. Finally, the full sample was calibrated to self-reported party ID using a benchmark extracted from the RBS sample, after independently weighting the RBS sample on demographics and recalled vote.

Surveys were conducted among a representative sample of the adult registered voters, age 18 or older, of Michigan. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum N=125 unweighted cases. Results for subgroups with fewer than N=125 unweighted cases are not displayed and instead are denoted with "SN" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.
