OVERVIEW

The study was conducted for CNN via web and telephone on the SSRS Opinion Panel, a nationally representative panel of U.S. adults ages 18 or older recruited using probability-based sampling techniques. SSRS is an independent research company. Surveys were obtained **October 26-31, 2022** with a representative sample of n=**1,508** respondents. The margin of sampling error for total respondents is +/- **3.2** at the 95% confidence level. The design effect is **1.57**. For results among the n=**1,290** registered voters, the margin of sampling error is +/- **3.4**. For results among the n=**992** likely voters, the margin of sampling error is +/- **3.8**. More information about SSRS can be obtained by visiting www.ssrs.com.

EMBARGOED FOR RELEASE:
Wednesday, November 2 at 6:00 a.m.

NOTE ABOUT RESULTS

Unless otherwise noted, results beginning with the August 3-6, 2017 survey and ending with the April 21-26, 2021 survey are from polls conducted by SSRS via telephone only. For more information about other trend data included in this topline, please see the "More on Methodology" section at the end of this document.

Results beginning with the March 31-April 2, 2006 survey and ending with the April 22-25, 2017 survey are from telephone surveys conducted by ORC International. Results before March 31, 2006 are from telephone surveys conducted by Gallup.

Question text noted in parentheses was rotated or randomized. Values less than 0.5 percent are indicated by an asterisk (*).

NOTE ABOUT CROSSTABS

Surveys were conducted among a representative sample of the adult population, age 18 or older, of the United States. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum N=125 unweighted cases. Results for subgroups with fewer than N=125 unweighted cases are not displayed and instead are denoted with "**SN**" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

A1. Do you approve or disapprove of the way Joe Biden is handling his job as president?
A1cDK. If you had to choose, do you lean more toward approving or disapproving of the way Joe Biden is handling his job as president?

Likely Voters	Approve	Disapprove	No opinion
October 26-31, 2022	42%	58%	0%
Sept. 3-Oct. 5, 2022	46%	54%	0%

Registered Voters	Approve	Disapprove	No opinion
October 26-31, 2022	41%	59%	0%
Sept. 3-Oct. 5, 2022	44%	55%	*

^QUESTION WORDING for trends may reference "next year's election" or "this year's election" depending on the year of the poll.

* Asked of a half sample

Q5. Which of the following issues will be **most** important to you when you decide how to vote for Congress?
[RESPONSES SHOWN IN RANDOM ORDER; 'ANOTHER ISSUE' ALWAYS SHOWN LAST]

Likely Voters	October 26-31, 2022
The economy and inflation	51%
Abortion	15%
Voting rights and election integrity	9%
Gun policy	7%
Immigration	6%
Climate change	4%
Crime	3%
Another issue	3%
No opinion	*

Registered Voters	October 26-31, 2022
The economy and inflation	51%
Abortion	15%
Gun policy	8%
Voting rights and election integrity	7%
Immigration	6%
Climate change	5%
Crime	4%
Another issue	3%
No opinion	*

(Registered voters who selected a prelisted issue that will be most important when they decide how to vote for Congress, N=1246)
Q6A. Which do you trust **more** to handle [Q5 RESPONSE]? **[FIRST TWO RESPONSES ROTATED IN ORDER FOR HALF/IN REVERSE ORDER FOR HALF]**

Likely Voters	The Democratic Party	The Republican Party	Neither	No opinion

MORE ON METHODOLOGY

A total of n=**1,508** adults were surveyed via web and phone on the SSRS Opinion Panel, a nationally representative panel of U.S. adults ages 18 or older recruited using probability-based sampling techniques. Surveys were conducted in English and Spanish.

Results for the full sample have a margin of sampling error of +/- 3.2 percentage points. Results for the sample of 1,290 registered voters have a margin of sampling error of +/- 3.4 percentage points. Results for the sample of 992 likely voters have a margin of sampling error of +/- 3.8 percentage points.

Among the entire sample, **33%** described themselves as Democrats, **32%** described themselves as Republicans, and **35%** described themselves as independents or members of another party.

The entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, population density, civic engagement, and voter registration, and Pew Research Center's NPORS figures for religious affiliation and frequency of internet use. The sample was also weighted for self-reported party identification. The benchmark for party identification was taken from CNN's national poll conducted by SSRS via web and phone from September 3-October 5, 2022, which implemented a full probability design via Address-Based Sampling (ABS).

Surveys were conducted among a representative sample of the adult population, age 18 or older, of the United States. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum n=125 unweighted cases. Results for subgroups with fewer than n=125 unweighted cases are not displayed and instead are denoted with "**SN**" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

NOTE ON TRENDS

All included trend points were based on surveys conducted using probability-based sampling methods. Some surveys included as trend points in this document were conducted using different methodologies, or with different combinations of sponsors. Unless otherwise noted, results beginning with the August 3-6, 2017 survey and ending with the April 21-26, 2021 survey are from polls conducted by SSRS via telephone only. Here are more details on the methodology behind each CNN poll conducted by SSRS using other methods.

Address-Based Sampling	Probability Panel: Web + Phone	Probability Panel: Web only
August 3-September 7, 2021	November 1-4, 2021	March 25-26, 2019
January 10-February 6, 2022	December 8-12, 2021	September 21-22, 2020
June 13-July 13, 2022	January 13-18, 2022	October 7-11, 2021
September 3-October 5, 2022	April 28-May 1, 2022	February 23-26, 2022
	October 26-31, 2022	May 3-5, 2022
		July 22-24, 2022

Results beginning with the March 31-April 2, 2006 survey and ending with the April 22-25, 2017 survey are from telephone surveys conducted by ORC International. Results before March 31, 2006 are from telephone surveys conducted by Gallup.
