I made it very clear you would be wise to not speak to this group. You have zero obligation to get in the weeds with these snakes. They aren't honorable so it's very unfair to you and us.

The "Fellowship" members are already upset about Sen Coons comments and what they see as defaming of the Coe legacy. Heard today "the new group is just throwing us under the bus".

More stories and more slander will only lead to more division. There is no "deadline". Don't be bullied by the far right or the far left please.
