

Statement to Go Public from KIA West Edmonton

We always try to meet and exceed our customers' expectations and are committed to working with each and every customer to meet their needs.

The unprecedented volatility in the marketplace – caused principally by supply chain issues beyond the ability of any dealership or single manufacturer to control – has created uncertainty across our industry. We are proud that our dealership operates in a manner consistent with the industry practice and AMVIC guidelines and rules. We are in good standing with AMVIC.

Jason Coueslan
General Sales Manager
KIA West Edmonton
