

MBTA Monthly Speed Restrictions Report - January 2023

(Active Restrictions as of 01/31/2023)

		Restriction Distance (miles)	Restricted Track Pct	Restriction Count
Total Restricted miles		8.7 mi	6.5%	70
	Blue Line	0.0 mi	0.0%	0
	Orange Line	2.9 mi	13.1%	24
	Red Line	3.8 mi	9.1%	27
	Mattapan Line	0.5 mi	10.1%	3
	Green Line B	0.2 mi	2.7%	3
	Green Line C	0.0 mi	0.4%	1
	Green Line D	0.0 mi	0.1%	1
	Green Line E	0.2 mi	3.7%	2
	Green Line, Medford, Union & Trunk	1.0 mi	7.3%	9

Category	Definition
Track	Defects or abnormal track characteristics are necessitating slower speeds. Most speed restrictions fall into this category.
Power	Defects or abnormal conditions in power assets are necessitating slower speeds.
Signals	Defects or abnormal conditions in signal assets are necessitating slower speeds.
Structural	Defects or abnormal conditions in structural assets are necessitating slower speeds.
Construction	As a direct effect of construction, speeds must be reduced. E.g. track settling after construction, slow-downs due to proximity to work zone
Weather	Weather conditions are necessitating slower speeds. E.g. sometimes extreme changes in temperature, wind, or precipitation might necessitate reduced speeds.
Vehicle	An issue with the vehicles is necessitating restricting the speed in certain areas. E.g. Enhanced Station Stopping

WONDERLAND 

Data as of 01/31/2023

KEY

**25 MPH
Restriction**

**18 MPH
Restriction**

**10 MPH or lower
Restriction**

Service Suspended

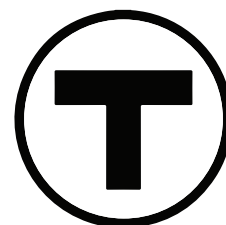

Markers indicate the presence of a speed restriction at any point between two stops, not necessarily that the entire distance between stops is under restriction. In cases where there are multiple restrictions, slowest restriction is represented.

*No Blue Line speed restrictions
as of 01/31/2023*
