[REDACTED]

1 **E. YARON**
2 A. My employer is Fox News Channel.
3 **Q. How long have you worked for Fox**
4 **News Channel?**
5 A. I've worked for Fox for
6 approximately 16, 17 years.
7 **Q. What is your current job title?**
8 A. I'm a booking producer for Tucker
9 Carlson's program.
10 **Q. How long have you been a booking**
11 **producer for Tucker Carlson?**
12 A. About five years.
13 **Q. What are your job**
14 **responsibilities as a booking producer?**
15 A. I book guests on the show, sir.
16 **Q. To whom do you report?**
17 A. I report to Justin Wells, my
18 executive senior producer and there are other
19 members of the team.
20 **Q. Who are those other members of**
21 **the team that you report to?**
22 A. One of them is Alex McCaskill who
23 is an editorial manager. Abby Grossberg is a
24 senior producer. I think that's about it.
25 **Q. And were those the same people**

1 **E. YARON**

2 **you reported to in late 2020?**

3 A. In late 2020, I was working -- my
4 manager at the time was Kelly McNally, who is
5 no longer on the team. She is in another
6 role at Fox. Abby Grossberg was not there.

7 **Q. Does anyone report to you?**

8 A. No, sir.

9 **Q. Did anyone report to you in late**
10 **2020?**

11 A. No, sir.

12 **Q. What is the legal name of the**
13 **corporate entity that employees you?**

14 MR. SKOKNA: Object to the form.

15 A. I'm not -- I think it's Fox News
16 Media, maybe. I don't know.

Trump still talking legal actions but in calmer voice.

Everything seems to be moving to Biden and if Trump becomes a sore loser we should watch Sean especially and others don't sound the same.

Not there yet, but a danger.

Turkey on now with Fox and Friends sounds pretty sensible. If Biden holds Az, Nevada, Georgia and Pa very hard to credibly cry foul everywhere.

Love to hear likely House numbers.

Pelosi majority halved?

Finally got Fox on here and nice to see plenty of breaks! Yesterday CNN had none. But so biased as to be unwatchable!

For four years we listen to unsupported allegations of a conspiracy by a foreign government to interfere with our presidential election... that Russia stole the election of 2016 implanting their Russian asset Donald trump as president of the United States. For four years we were told trump was a putin puppet ... a Russian asset. And that we must do everything to get rid of him. Almost on a daily basis the democrat minstrels in congress put on their conspiracy show as congressman like Adam Schiff boldly pontificated about real evidence... evidence they had seen with their own eyes... evidence that required Donald trump be gone because America and democracy were at stake.

Never ever... not once did we see a scintilla of evidence, never. We were supposed to take it all on faith. They put the president and the country through hell as the work of congress was halted and as the media everyday reminded us we were getting closer and closer to the big Russian reveal that fizzled much like rob Mueller did when he testified there was nothing.

And then the minstrels took another show down to the sub-basement of the capitol where the minstrels regaled each other with fantasies of foreign interference in their medieval star chamber.

But now come the president's lawyers pointing to an organized criminal enterprise... a conspiracy by democrats especially in cities controlled and corrupted by democrats. Come the president's lawyers with allegations of a company called dominion which started in Venezuela with Cuban money and with the assistance of smartmatic they allege are capable through a back door of flipping votes through software. Come the president's lawyers alleging that American votes in a presidential election are actually counted in foreign countries.

The media has no interest in any of this but I do and you should as well. 73 million Americans voted for Donald

trump. We took seats in the house they said would be won in the democrat blue wave that never came and so far we have held the senate. They say the risk of giving false hope should be enough to stop us. I say the risk of not looking at what is staring us in the face is too great to go forward.

The president's lawyers offered evidence by way of affidavits which I told you last week as a judge from a legal perspective are sworn statements of individuals signed under penalty of perjury. These sworn statements are factual allegations part of virtually every lawsuit. It's how you start a case. Lawyers have indicated that they have 250 affidavits under oath... people ready to testify... people ready to face the hate that the left has inflicted upon us from day one. And you know what I'm talking about let's not kid ourselves there's not a lot of violence going on because they believe they got their way. I believe the only important thing is making sure that lady justice gets her way. Consequences be damned. Rudy Giuliani made clear yesterday that democrat cities were targeted by crooked democrats who stole votes. These were cities where they were comfortable with corruption, where political corruption ran through the bloodlines of cities like Pittsburgh, Philadelphia, Detroit.

He described election night numbers going in the favor of Donald trump but by the next morning with absurd increases in Biden votes many reflected in ballots that came in on trucks at 4 in the morning specifically in Detroit where 100,000 ballots and everyone for Biden with no down ticket vote. In atlanta a sworn affidavit under penalty of perjury the affiant a fulton county observer says that she observed many boxes of absentee and mail in ballots being counted "many of the boxes of ballots had voted for 100% biden and 0% for trump. The ballots appear to be perfectly filled out as if they were pre-printed with the presidential candidate selected." Another declarant who holds dual doctorates in economics and engineering from Stanford states that Georgia uses dominion voting systems which has a history of technical glitches that have not been fixes and in atlanta these software glitches have effected roughly 80,000 absentee mail in ballots. There were many puzzling incidents across state lines including Georgia where surging of votes for biden were observed at odd hours of the morning of November 4th. I also have a declaration of an individual of the genesis of dominion software utilized by those whose purpose is to gain and keep power by changing the free will of the people. He is an individual with extensive training in military and academic formations... a direct witness to the creation and operation of an electronic voting system in the conspiracy between the company known as smartmatic and the leaders of conspiracy with the Venezuelan government. On November 4th biden received a batch of 134886 votes at 630 in the morning. In Wisconsin the day after the election biden received a dump of 143000 votes at 3:42. The upshot in the graphs is stunning. It suggests there was a pause and then a filling in for the needed votes to win. How did he know this? He knew it through affidavits, those sworn statements where you can actually go to jail if you don't tell the truth. Interesting, how Adam Schiff and democrats can lie to us for years with literally no consequence to them but American citizens who face the disdain, hatred and the threats of others in cases like these, essentially putting everything on the line. I

know I prosecuted cases where witnesses put themselves in the line of fire simply because they saw or heard something that was incredibly dangerous to speak of but about which they chose to speak. Two individuals and one Dominion employee signed affidavits and yet there is a hue and cry by the media to see these affidavits many of them are already on file in the lawsuits across the country but many of these witnesses seek protection and therefore their safety until the time it is necessary to testify must be guarded. Does anyone really believe that they are exaggerating when they say they are in fear. Does anyone really think that the group that brought us hysteria, division, and chaos for four years while Donald Trump was president and now is unusually calm wouldn't react to a narrative different from the only one they are comfortable with.

I ask you what is the problem in seeking to confirm that this election had no irregularities why have we found thousands of ballots after the election was called, why were observers not allowed to watch which was their legal right and additionally to make sure that everything was done correctly. As an aside on November 5th I tweeted that there were complaints of voter fraud where is the FBI and the DOJ. The tweet was removed because some or all of the content is disputed and might be misleading. I asked my friend Jackie to tweet the same thing – her tweet was not removed, leading me to believe that it's got nothing to do with algorithms and that censorship of individual people is in full play.

Why was there an overnight popping of vote tabulation that cannot be explained. Rudy Giuliani, Sidney Powell and Lin Wood will be here to further elaborate on their cases but the issue now is are there enough trend lines to overturn an election in an individual state? Can a court overthrow thousands of votes because of instances of fraud or over voting? How can we assess whether the provisional ballots should be counted in other words a voter shows up to vote and is told he or she has already voted by way of a mail in ballot how do we handle that? How do we handle the judges in Pennsylvania, secretary of state in Georgia who unilaterally changed the election law without the appropriate legislative authority.

For four years we listen to unsupported allegations of a conspiracy by a foreign government to interfere with our presidential election... that Russia stole the election of 2016 implanting their Russian asset Donald trump as president of the United States. For four years we were told trump was a putin puppet ... a Russian asset. And that we must do everything to get rid of him. Almost on a daily basis the democrat minstrels in congress put on their conspiracy show as congressman like Adam Schiff boldly pontificated about real evidence... evidence they had seen with their own eyes... evidence that required Donald trump be gone because America and democracy were at stake.

Never ever... not once did we see a scintilla of evidence, never. We were supposed to take it all on faith. They put the president and the country through hell as the work of congress was halted and as the media everyday reminded us we were getting closer and closer to the big Russian reveal that fizzled much like rob Mueller did when he testified there was nothing.

And then the minstrels took another show down to the sub-basement of the capitol where the minstrels regaled each other with fantasies of foreign interference in their medieval star chamber.

But now come the president's lawyers pointing to an organized criminal enterprise... a conspiracy by democrats especially in cities controlled and corrupted by democrats. Come the president's lawyers with allegations of a company called dominion which started in Venezuela with Cuban money and with the assistance of smartmatic they allege are capable through a back door of flipping votes through software. Come the president's lawyers alleging that American votes in a presidential election are actually counted in foreign countries.

The media has no interest in any of this but I do and you should as well. 73 million Americans voted for Donald trump. We took seats in the house they said would be won in the democrat blue wave that never came and so far

we have held the senate. They say the risk of giving false hope should be enough to stop us. I say the risk of not looking at what is staring us in the face is too great to go forward.

The president's lawyers offered evidence by way of affidavits which I told you last week as a judge from a legal perspective are sworn statements of individuals signed under penalty of perjury. These sworn statements are factual allegations part of virtually every lawsuit. It's how you start a case. Lawyers have indicated that they have 250 affidavits under oath... people ready to testify... people ready to face the hate that the left has inflicted upon us from day one. And you know what I'm talking about let's not kid ourselves there's not a lot of violence going on because they believe they got their way. I believe the only important thing is making sure that lady justice gets her way. Consequences be damned. Rudy Giuliani made clear yesterday that democrat cities were targeted by crooked democrats who stole votes. These were cities where they were comfortable with corruption, where political corruption ran through the bloodlines of cities like Pittsburgh, Philadelphia, Detroit.

He described election night numbers going in the favor of Donald trump but by the next morning with absurd increases in Biden votes many reflected in ballots that came in on trucks at 4 in the morning specifically in Detroit where 100,000 ballots and everyone for Biden with no down ticket vote. In atlanta a sworn affidavit under penalty of perjury the affiant a fulton county observer says that she observed many boxes of absentee and mail in ballots being counted "many of the boxes of ballots had voted for 100% biden and 0% for trump. The ballots appear to be perfectly filled out as if they were pre-printed with the presidential candidate selected." Another declarant who holds dual doctorates in economics and engineering from Stanford states that Georgia uses dominion voting systems which has a history of technical glitches that have not been fixes and in atlanta these software glitches have effected roughly 80,000 absentee mail in ballots. There were many puzzling incidents across state lines including Georgia where surging of votes for biden were observed at odd hours of the morning of November 4th. I also have a declaration of an individual of the genesis of dominion software utilized by those whose purpose is to gain and keep power by changing the free will of the people. He is an individual with extensive training in military and academic formations... a direct witness to the creation and operation of an electronic voting system in the conspiracy between the company known as smartmatic and the leaders of conspiracy with the Venezuelan government. On November 4th biden received a batch of 134886 votes at 630 in the morning. In Wisconsin the day after the election biden received a dump of 143000 votes at 3:42. Dear Mrs. Powell, Mr. Fitton, and Mr. Dobbs:

I was told to email you the following pieces of information:

You're probably already aware of voting irregularities in a number of states, which have one common thread: Dominion Voting Systems.

Don't you find it curious that Nadeam Elshami, Nancy Pelosi's longtime Chief of Staff is a key executive there, and that Richard Blum, Senator Feinstein's husband, is not only a significant shareholder of that company, but in Avid Technologies as well?

As a point of reference...back in 2009, Diebold sold their election machines division. An anti-trust suit was immediately filed that conveniently ensured that, in 2010, Dominion Voting Systems would acquire the assets "in order to restore competition". With the acquisition of another large california election machine company in the same timeframe, that gave Dominion an even bigger monopoly than Diebold ever had - yet no one has ever filed an anti-trust suit against them. Friends in high places indeed.

But the monopoly isn't necessarily the issue - it's the software. A piece of code was inserted such that, once ballots were fed into the database for tabulation, up to 3% of votes for Mr. Trump would automatically switch to Mr. Biden; this was capped at 3% because it was supposedly determined that anything higher than that would raise suspicions,

but that 3% would be enough to tip a tight race.

How was this done?

In conjunction with a company by the name of Scytl, which provides election night reporting (and other online election managment tools). You'd think that kind of hugely important software would developed and managed by a US company (or the US government itself), but...no, it's based in Spain. Which means it's the Spanish who decide who wins our elections and who doesn't. Or do they? It's a bit of a corporate shell game (with hundreds of companies involved) and while it appears that the ultimate parent company is actually British, I find it interesting that the owner is French. Here's a project for a curious investigative journalist to dig into.

You might want to see what ties Scytl company executives (all the way up the shell company food chain) have to the SSCI. Because that is the root of the root of everything here. The base of the pyramid, so to speak. In that respect, Daniel Jones - a Feinstein staffer - and his newly formed Penn Quarter Group, are the fulcrum.

(By the way, that magic sweet spot of 3% isn't arbitrary. That's what American Express charges merchants as a transaction fee...and also happens to be the cut that Jared Kushner gets from all donations to the GOP - which is line-itemed in the software he helped to create - with his brother, I think it was - as a transaction fee. I thought I'd throw that in there in the interest of fairness to both sides).

Anyway, there's also an issue with mail-in paper ballots. Not the absentee ballots, but the mail-in ballots arbitrarily sent to people; the ones that keep mysteriously appearing in the middle of the night. The paper used to print those does NOT have a special watermark as is being reported; instead, the paper fibers were embedded with anti-counterfeiting security features to detect fraud...much like how the Treasury embeds security features into paper money. I'll bet it's digital DNA - nanotechnology.

Detection is easy: simply use the same marker to detect fake \$100 bills. Or at least, that's ONE of the anti-counterfeit features in place. Either way, it was done by the US military. In fact, I'm told that Lt. Gen. Thomas McInerney briefed Mr. Trump on this last year.

Mr. Fitton's FOIA lawsuits to gain the kind of information he does is certainly helpful, but I think everyone at this point knows that the Department of Justice will do nothing. I mean, when they're handed the complete NSA database (what was it? 600 million pages of who, what, why, when, where, and how...terabytes of information on dozens of hard drives)...I suppose it takes a while to sort through it all. Or, maybe not. Ask Mossad and Shin Bet. They have a software backdoor into every intelligence database in the US...and around the world.

Besides, as I've pointed out to the FBI myself (on an entirely different matter that is now proving to be related), technically, this is a matter in which the Pentagon - the US military - has original jurisdiction.

Along those lines, I always thought it curious how Mrs. Powell's case with General Flynn seemed more like a court martial, than a regular civilian court process.

As for Mr. Dobbs...are you award that Mr. Ailes, Mr. Murdoch, and the handful of other (non-US) owners of the major US media outlets secretly huddle most days to determine how best to portray Mr. Trump as badly as possible? The global hatred of the man has everything to do with the fact that, as a political outsider, Mr. Trump has disrupted a well-oiled global money laundering operation; one that revolves around the congress critters, lobbyists, and public relations firms. There are triillions at stake...never come between a thief and his money. The recent COVID relief bills are simply one mechanism to try to feed money they've lost out on over the past 4 years back into that system.

As an aside, I'll throw this out there just because it's so interesting...and related...SCOTUS Justice Scalia wasn't accidentally shot during a hunting trip on John Poindexter's Texas ranch. He was purposefully killed at the annual Bohemian Grove camp...a club for members of the Mega-Group, during a weeklong human hunting expedition. NEVER accept an invitation to be a guest at that camp. Ever.

That being said. Who am I? And how do I know all of this?

I spent most of my career (15+ years) as a successful technology analyst; an expert in the field of nanotechnology, which touches on *everything*. I was superbly accurate with my forecasts and ideas. I always thought I was just a really gifted that way, but it's turned out to be a bit more than that.

I've had the strangest dreams since I was a little girl. Most were just odd - others were clearly predictions. Over time, they became more...vivid...and more...interactive. About ten years ago, an event took place that seemed to amplify these abilities, by vastly more than an order of magnitude.

Although the most vivid "dreams" take place while dozing, they're not normal dreams; but I'm not sure the Native American term "visions" really fits, either. It's more like time-travel in a semi-conscious state; and all senses are involved. But that's not all - when I'm awake, I see what others don't see, and hear what others don't hear.

There's a movie, Thunderheart, in which the Native American sheriff explains it best to an FBI agent who is just learning to tap into his Native American heritage...he tells him to "listen to the wind". That makes sense to me.

Stranger still, I was in a car accident in 1992; and something took place that I've never been able to explain. For all intents and purposes, I was internally decapitated, and yet, I live. I breathe, I shop, I laugh, I get old, I walk the earth.

The Wind tells me I'm a ghost, but I don't believe it. Although, it appears that I was shot in the back shortly after submitting a tip to the FBI two years ago...at the time, I thought I just tripped and fell during a walk and bruised my ribs...but I had a vision about a year later in which I stood in the same spot and felt my soul leave my body. It was like having a band-aid being ripped off your skin. And yet, I continue to walk the earth.

Despite that, the wind tells me that no one can harm me; it protects me and keeps me safe.

Anyway, I've gotten a little off track, and I'll be the first to admit that while the last bit is pretty wackadoodle, it's relevant...and I can tell you this about everything else above:

Time always...eventually...proves me correct.

Kindest Regards,

Mars

I find it inevitable, predictable, pitiful, slightly amusing, somewhat concerning. They don't like facts. But that had been building for a while. And they are angry about "news division". Trump never accepts blame. It always has to be someone else's fault.

That escalated on Saturday night when she gave a pretty wild interview on Newsmax.

[REDACTED]

ANAYTICS SUMMARY

Social media interactions were decidedly negative since his initial segment from online conservatives from Thursday night to Sunday afternoon, with 70% of Tucker-related tweets about the subject matter being conservative attacks, and just 3% being defenses.

These mentions have moved to significantly less negative, though still negative: since last night, the rate of positive social media interactions per hour from conservatives has increased 28% and the rate of negative social media interactions per hour has decreased 60.6%.

While mentions are trending in Tucker's direction, this isn't an audience that can easily be persuaded and are willing to believe just about anything.

Trump supporters gather to protest the election results at the Maricopa County Elections Department, Phoenix, Arizona, Nov. 6 Photo Courtney Pedroza/Getty Images

President Trump plans to brandish obituaries of people who supposedly voted but are dead — plus hold campaign-style rallies — in an effort to prolong his fight against apparent insurmountable election results, four Trump advisers told me during a conference call this afternoon.

What we're hearing: Obits for those who cast ballots are part of the "specific pieces of evidence" aimed at bolstering the Trump team's so-far unsupported claims of widespread voter fraud and corruption that they say led to Joe

Love the obits. Imagine what they could find if they had a competent operation.

Sent 2020-11-09 06:14:47 AM UTC FROM: Unknown - [REDACTED]

Sent 2020-11-09 06:16:36 AM UTC FROM: Unknown - [REDACTED]

I'm sure Trump campaign will put out ten obituary examples tomorrow. That is real evidence of something wrong with system but certainly not evidence that election was stolen.

Problem is like with Russia story the liberals interpreted the little true tidbits as meaning Trump actually colluded. And of course nuance is hard on cable. These will be a tough two months.

Sent 2020-11-09 06:24:42 AM UTC FROM: Tucker Carlson - [REDACTED]

Yep. All true. But it's bad for the country to have this much doubt and suspicion. This is exactly why people believe in conspiracies. We need some sort of audit to settle it, to the extent it can be settled. Is anyone responsible suggesting that?

Sent 2020-11-09 06:26:34 AM UTC FROM: Unknown - [REDACTED]

Sure some GOPers are calling for an "audit." I think Gaetz did. But I don't think that is possible before December 14 when electoral college meets. Also super unclear what an audit would look like. Elections are run by counties and states no real way to coordinate some effort. So an audit isnt really feasible.

Sent 2020-11-09 06:33:02 AM UTC FROM: Tucker Carlson - [REDACTED]

It would be good to propose a specific solution that puts some of the fears to rest. Not to help Trump win necessarily but to keep people from going insane. Let's find the clearest examples of apparent fraud and figure out the best way to see what really happened.

Sent 2020-11-09 06:35:58 AM UTC FROM: Unknown - [REDACTED]

Okay the ones I emailed are pretty concrete. Will add some more in AM if more comes out. I'm anticipating some of thr Trump campaign dead voter stuff to start dropping in morning. Senate hearings arent really worth much but GOP does control committees and they have investigative staff and subpoena power. They should be launching a probe. I do believe Michigan state legislature is doing some sort of review.

MARTHA MACCALLUM, FOX NEWS ANCHOR: Back here tomorrow night at seven. Tucker Carlson is up next. Have a good night, everybody.

TUCKER CARLSON, FOX NEWS HOST: Good evening and welcome to TUCKER CARLSON TONIGHT.

Rudy Giuliani and a number of the President's other lawyers held a press conference today on the topic of voter fraud. If you didn't actually see it, you've probably heard about it by now.

Giuliani along with a former Federal prosecutor called Sidney Powell and a number of others allege that the 2020 election was stolen from Donald Trump. To demonstrate that, they exhibited some of what they found after two weeks of investigating.

The presentation went on for 90 minutes with many different threads, which we will tell you about in a moment. How you viewed it dependent largely on who you voted for.

Trump voters seemed hopeful that it might change the election results. The left and virtually every single person in all of the news media immediately dismissed it as an embarrassing clown show, as well as a threat to the Republic. The very same people who swore that Vladimir Putin's agents controlled the U.S. government called it a conspiracy theory. Of course, we will have more on that in a minute.

But first and more important, there is another way to look at what we saw this afternoon, and you don't have to be a partisan or even interested in the election to understand it.

A lot of Americans believe this election was rigged. They're not saying that because they are crazy. They're not just saying it because they're mad. They mean it. And that's a potentially fatal problem for this country.

Elections aren't merely quote, "central to democracy." Elections are democracy. Voting is the way the public expresses its will. It's all people have.

If elections don't work, our entire system doesn't work. Everything in this country depends on fair elections, and it is obvious even now that we don't have them.

When access to basic information is restricted and weaponized by a partisan billionaire class, and it is, you can't

have a fair election. By definition, it is not possible.

Google and Facebook are far greater threats to our system than Russia has ever been and we need to fix that immediately.

In the meantime, though, the voting itself -- which was the topic of today's press conference -- let's assess what the President's lawyer said about it today.

Their allegations matter regardless of what the eventual outcome is. Rudy Giuliani began by saying the Democrats stole the election and they did it with a coordinated fraud in a number of states.

Giuliani did not conclusively prove that as every newsreader on television promptly informed you, but he did raise legitimate questions and in some cases, he pointed to what appeared to be real wrongdoing.

At one point, Giuliani held up an affidavit from a worker from the City of Detroit called Jessy Jacob. The affidavit alleges fraud in Detroit's polling places. Here's part of Giuliani's explanation.

(BEGIN VIDEO CLIP)

RUDY GIULIANI, PRESIDENT TRUMP'S PERSONAL ATTORNEY: She was assigned to voting duties in September, and she was trained by the City of Detroit, in the State of Michigan. She was basically trained to cheat.

She said that, "I was instructed by my supervisor to adjust the mailing date of these absentee ballot packages to be dated earlier than when they were actually sent in. The supervisor made that announcement for all workers to engage in that fraudulent practice." That's not me saying that. That's just American citizens saying that, under oath.

(END VIDEO CLIP)

CARLSON: The City of Detroit has denied that specific allegation, surprisingly or not. But what Rudy Giuliani said is correct. This is the sworn statement of an American citizen, apparently, an eye witness to it, made under oath under the penalty of perjury, so you cannot dismiss it out of hand.

Jacob goes on to say that her supervisor told her not to check the photo IDs of voters when they arrived. She says she saw city employees coaching voters on who to vote for as well as voters voting more than once.

Is any of that provable? Is it true? Well, we should find out and not because Michigan is a swing state. Voter fraud is a direct attack on our democracy. But the media don't want to know. They are not interested.

If you watched the coverage after the press conference then you saw credentialed reporters, some of whom we know and like actually refused even to acknowledge it. No mention whatsoever of the contents of what they described as quote, "What he says are sworn affidavits."

What he says? Well, why don't you check? Giuliani says that this affidavit from Detroit has been made public, but they can't be bothered to check. Instead, they launched into editorials about how dishonest and crazy Rudy Giuliani is, as if their job was to rebut Rudy Giuliani.

But that's not their job. Their job is to explain what just happened, preferably with some detail so that viewers at home can make up their minds. They didn't do that.

Behavior like this does not help anyone. It diminishes the news media's tiny remaining reserve of credibility. It certainly doesn't inform the public.

On some, of course, informing the public is last on the list of concerns. Watch one of the most reckless people on television go back to the Putin well and accused Giuliani yet again, of being a puppet of Russia.

(BEGIN VIDEO CLIP)

NICOLLE WALLACE, MSNBC HOST: A quick reminder, Rudy Giuliani now at the helm of Donald Trump's election

delegitimization effort was singled out by U.S. Intelligence agencies last year as the target of a likely Russian disinformation effort.

And earlier today, he held a wild news conference filled with falsehoods on voter fraud.

(END VIDEO CLIP)

CARLSON: Russian disinformation. Sometimes you wonder if there's anything the Democrats don't like in America from acid reflux to termite damage that they won't blame on Russia.

At some point, maybe five years from now, we all wake up from this stupor, a lot of people are going to be deeply embarrassed by a tape like that, so be sure to save it.

In fact, there was nothing Russian about a lot of what Giuliani said today. He claimed that voters in Philadelphia and Pittsburgh were allowed to change their ballots after the fact, cure the ballots, as it is known, by the Democratic Secretary of State and Republican counties were not.

That's checkable. He said dozens of Republican voting inspectors of Pennsylvania weren't allowed near mail-in ballots and have signed affidavits saying so. That's another concrete checkable claim.

Giuliani said that mail-in votes are easier to falsify and harder to verify than traditional voting is. That's clearly true. Everyone knows it's true, and it's a major problem. Pretending otherwise is a lie.

And then Giuliani got to the way votes are counted.

In this country, the process is mostly electronic. Giuliani suggested that electronic vote counting is an invitation to fraud, and he is right. That's why Canada for example, doesn't do it.

All of which brings us to the bombshell at the center of today's press conference that was delivered by former prosecutor Sidney Powell, who also serves as General Mike Flynn's lawyer.

For more than a week, Powell has been all over conservative media with the following story. This election was stolen by a collection of international leftists who manipulated vote tabulating software in order to flip millions of votes from Donald Trump to Joe Biden.

The other day on television, Powell said of Trump that when the fraud is finally uncovered, quote, "I think we'll find he had at least 80 million votes." In other words, rigged software stole about seven million votes in this election. Here's some of what Powell said today about the software.

(BEGIN VIDEO CLIP)

SIDNEY POWELL, MEMBER OF TRUMP LEGAL TEAM: One of its most characteristic features is its ability to flip votes. It can set and run an algorithm that probably ran all over the country to take a certain percentage of votes from President Trump and flipped them to President Biden, which we might never have uncovered had the votes for President Trump not been so overwhelming in so many of these states that it broke the algorithm that had been plugged into the system.

And that's what caused them to have to shut down in the states they shut down in.

(END VIDEO CLIP)

CARLSON: That was a few hours ago. But Sidney Powell has been saying similar things for days. On Sunday night, we texted her after watching one of her segments. What Powell was describing would amount to the single greatest crime in American history. Millions of votes stolen in a day. Democracy destroyed. The end of our centuries' old system of self- government, not a small thing.

Now to be perfectly clear, we did not dismiss any of it. We don't dismiss anything anymore, particularly when it's related to technology. We've talked to too many Silicon Valley whistleblowers. We've seen too much.

After four years, this may be the single most open-minded show on television. We literally do UFO segments, not because we're crazy or even been interested in the subject, but because there is evidence that UFOs are real, and everyone lies about it.

There's evidence that a lot of things that responsible people used to dismiss out of hand is ridiculous, are in fact real, and we don't care who mocks it. The louder the Yale Political Science Department and the staff of "The Atlantic" magazine scream conspiracy theory, the more interested we tend to be. That's usually a sign you're over the target.

A lot of people with impressive sounding credentials in this country are frauds. They have no idea what they're doing. They are children posing as authorities and when they are caught, they lie and then they blame you for it.

We see that every day. It's the central theme of this show and will continue to be.

So that's a long way of saying we took Sidney Powell seriously. We have no intention of fighting with her. We've always respected her work. We simply wanted to see the details. How could you not want to see them?

So we invited Sidney Powell on the show. We would have given her the whole hour. We would have given her the entire week actually and listened quietly the whole time at rapt attention. That's a big story.

But she never sent us any evidence, despite a lot of requests, polite requests, not a page. When we kept pressing, she got angry and told us to stop contacting her.

When we checked with others around the Trump Campaign, people in positions of authority they told us, Powell has never given them any evidence either nor did she provide any today at the press conference.

Powell did say that electronic voting is dangerous and she is right, we are with her there. But she never demonstrated that a single actual vote was moved illegitimately by software from one candidate to another, not one.

Why are we telling you this? We're telling you this, because it's true. And in the end, that's all that matters -- the truth. It's our only hope. It's our best defense. And it is how we are different from them. We care what's true, and we know you care, too. That's why we told you.

Maybe Sidney Powell will come forward soon with details on exactly how this happened, and precisely who did it. Maybe she will. We are certainly hopeful that she will.

What happened with the vote counting this month and at the polling places in Detroit and the polling places in Philadelphia, and so much else actually matters. It matters no matter who you voted for, it matters whether or not you think this election is already over.

Until we know the answers to those questions conclusively, and we can agree on them, this country will not be united.

Greg Gutfeld is the host of "The Greg Gutfeld Show" and we're happy to have him on tonight. Weirdly incurious media today about some of these allegations.

GREG GUTFELD, FOX NEWS HOST, THE GREG GUTFELD SHOW: Yes.

CARLSON: Some of them weren't proven, that's true. Some of them seem like pretty good leads. Why is no one following up?

GUTFELD: Yes, in fact, even if this stuff washes out, I don't see the problem in actually letting the process unfold. I mean, we were kind of at the mercy of a four-year process and we were pretty patient.

So if you -- if we gave you four years to undermine the democracy, i.e. an elected President, maybe give us four weeks, and I think that's what this story is really about for the voters.

It's not just about voter fraud. It's about the trust in a system that was undermined by the Democrats and the media for four years. They had the collusion hoax that they basically pummeled us with every day, then they damned the candidate as like a version of Darth Vader and Hitler combined into one package.

And we forget, like they sowed suspicion that he would manipulate the election using the Postal Service, which of course, that kind of just disappeared.

So no matter what, people have a right. This is what bugs me, people have a right to be suspicious right now because they've been treated like crap for four years.

So don't ridicule the viewer. Don't look down upon them because you think that this is absurd, and stupid, all right, because you've got to get in their shoes first and realize that they thought what you were doing for four years was a damn waste of their time that you made their lives miserable.

And so you know what, I'm small enough to admit that I want to make your life miserable for a couple of weeks, just a couple of weeks. That's all. Let's do this. See how it goes?

Because this by friends, was a different election. This wasn't Bush-Gore. This wasn't Romney-Obama. This wasn't even Reagan and that other guy. It wasn't Democrats versus Republicans.

This was a movement versus a resistance to a movement. And what was part of that resistance? You had media, you had tech platforms, you had the entertainment industry, you had the elite class, academia. They were all working together as part of a resistance against a movement, against 70 plus million people. And you think that maybe we might think you'd throw an election? Because you hate this guy so much.

You think he is Hitler. Hell, you -- we got rid of Gaddafi for less because we think Trump is worse than Hitler. Why wouldn't we?

I mean, my God, we've undermined elections in other countries for less. So why can't we be a little skeptical?

And the fact is, everybody hated this guy for four years. Why wouldn't they do it? So that's my thing.

You know? No, you nailed it. Right? It's almost kind of right now, let's see how this process goes. Let's see what the evidence is. But I'm not going to take anybody seriously about being impatient over this. What's the rush?

CARLSON: Well, let me ask you a question, since you're in the media. Why wouldn't people who are smart enough to have paying jobs in the news media -- not that it takes a super high IQ or anything -- but why wouldn't they understand that the center of their job is credibility?

So if you think the country is too volatile, I think all of us do think that. I certainly think that it is way too volatile. It's unhealthy. Why wouldn't you do all you can to assuage people's fears by giving them facts as credibly as you possibly could. I don't see anybody trying to do that.

GUTFELD: No, I guess, maybe they feel they don't have to because they all are -- instead of speaking truth to power, they are speaking truth to the bubble. It's not like their peers are expecting them to do it.

Now, the viewers would expect you to do it, like, you know, maybe do a special on what is election fraud? Does it exist? Where has it happened before? And what can we look forward to in the future if we have mail-in ballots or electronic ballots? That's something that, you know, reporters and investigators, investigative journalists could do.

But no one is putting any -- they are going to go into hibernation again, Tucker for four years. They did a lot of work writing those Trump jokes. And now, they don't want to do the work. All they want to do is say, hey, come on, it's Joe. Everything is going to be fine.

CARLSON: Totally.

GUTFELD: You know, now I can finally get to sleep. No more Trump tweets. I can finally sleep. Never mind that

there are no body bags coming home from foreign wars. We had a tremendous economy, low unemployment.

He created -- invented the moonshot for vaccines, which years from now will be looked back upon, as probably one of the biggest modern achievements. All things are happening. But that's all canceled out because I was up at night, you know, anxious over these tweets.

So that's where we are. The media allowed Trump to get to them emotionally. And I'm saying that as part of the media. I let him get to me emotionally early on when he was running.

I was like, I couldn't believe this guy. And then I learned to separate the deeds from the words. And once you do that, you see something pretty special, a phenomenon.

CARLSON: I think that's right. Greg Gutfeld. Great to see you. Thank you for that.

GUTFELD: Great to see you, Tucker.

CARLSON: So all this stuff is going on and behind it, a lot of other things are going on. They are not covered at all. For example, Joe Biden has been making some high level hires that could change the way we enforce the law for a long time.

Can you walk to the end of your block without fearing getting killed? That hangs in the balance?

Heather Mac Donald is here to explain how Police Departments should respond, next.

(COMMERCIAL BREAK)

CARLSON: You don't hear too much about Minneapolis anymore. That's kind of weird. Just a few months ago, it felt like every reporter in the country was there with the story of the century.

A man called George Ford, a convicted felon, had died and the world's Fortune 500 companies collectively found a culprit. It wasn't the fatal levels of fentanyl in his system with a blocked artery. It was systemic racism.

So naturally, Minneapolis burned for days. Democrats called for defunding the police. Then the media moved on.

Now, we know why they moved on and have never really returned. Defunding the police has been a disaster for every person in Minneapolis.

According to the Minneapolis Police Office, 100 cops have already left the force this year. That's more than double the usual number. Meanwhile, murders in Minneapolis are up 50 percent, 500 people have been shot in Minneapolis so far in 2020. That's the highest number in a decade.

Those numbers tell you a lot of things including why Democrats lost House seats across the country and particularly in Western Minnesota along with six State Senate races there.

People want security, it turns out. They want it above all and they will vote for any political party they think will provide it. That's why Richard Nixon won the single biggest landslide in American history in 1972, forty nine states. It wasn't because of his personality.

Nixon one because he promised what his opponent refused to promise: law and order. Not repression, not fascism, law and order. Simple concepts upon which all human civilization is built.

Local politicians in Minneapolis didn't understand that concept. It was too sophisticated for them. So this summer, we retreated to interviews like this one, which feels more like performance art that was accidentally somehow broadcast on television. Watch this.

(BEGIN VIDEO CLIP)

ALISYN CAMEROTA, CNN ANCHOR: Do you understand that the word dismantle or police free also makes

some people nervous. For instance, what if in the middle of the night, my home is broken into. Who do I call?

LISA BENDER, PRESIDENT, MINNEAPOLIS CITY COUNCIL: Yes, I mean, I hear that loud and clear from a lot of my neighbors. And I know -- and myself, too -- and I know that that comes from a place of privilege because for those of us for whom the system is working, I think we need to step back and imagine what it would feel like to already live in that reality, where calling the police may mean more harm is done.

(END VIDEO CLIP)

CARLSON: So only people with a certain sort of frivolous, overpriced education talk that way, as you well know. But more to the point, as a practical matter, if you want people to flee your city, that's exactly what you say.

We know that for certain 50 years ago, half of Brooklyn moved to Long Island within a year. Why? Because crime rose, so normal people split. Crime is the only thing -- not global warming, not systemic racism, not any other problem we may face -- it's the only thing that will make people leave the neighborhoods they grew up in, the neighborhoods they raise their children in, where their friends are, their churches are. They'll leave if their lives are threatened. Period.

And normal people are leaving. It's happening again all over New York.

(BEGIN VIDEO CLIP)

UNIDENTIFIED FEMALE: First came the pandemic and hundreds of thousands of New Yorkers reportedly fled the city temporarily. Now, even more are leaving, this time permanently, saying they don't feel safe in the city anymore.

Hairstylist Jodie Usher says she was harassed twice on her commute, so she moved her Family to Florida.

Others are following amid spikes in gun violence. Shootings up 177 percent this July compared to last July.

Then public displays of junkies shooting up in Midtown. People who work in the area say they called police, but their calls went unanswered.

(END VIDEO CLIP)

CARLSON: Yes, I wonder why people are leaving. Maybe it's the tax rates, right? No, it's the junkies and the muggers. That's the one thing people will not put up with.

So if you watched that video, you might conclude the Democratic Party is inept. They don't understand their job is to keep citizens safe. But it's not just them. We hate to tell you this, but it's true.

On Monday, the Republican House Minority Leader Kevin McCarthy of California, admitted to his party, too, has no idea what's going on in this country. None. Here's what McCarthy wrote in a tweet, quote, "Twelve Democrat incumbents lost their re-election to the House. Every one of them lost to a Republican woman, minority and/or veteran. The Republican Party is stronger because of our diversity." End quote.

Not against diversity, but we need to find the person who decided that tweet was a good idea and fire him immediately. If the Republican Party becomes the party of identity, any identity, that party will fail and it will deserve to fail.

The Republican Party at its core exists to defend the founding promise: life, liberty and the pursuit of happiness. And order is a prerequisite for all of those things.

The Republicans that Kevin McCarthy was talking about who won because of their diversity, their great strength, they understood that.

Carlos Gimenez picked up a seat in Florida. That's how. Michelle Steel, we talked to yesterday managed to win in California. That's how. She beat an incumbent by the way. It's how Nicole Malliotakis flipped a blue district in New York. She marched with police officers when Democrats abandoned the police. This is not complicated.

In the State of Indiana, Victoria Sparks defeated her opponent the very same way, running ads like this one.

(BEGIN VIDEO CLIP)

UNIDENTIFIED FEMALE: Liberal Christina Hale stands with radicals that want fewer cops on our streets. Hale is bankrolled by groups who want to defund our police. She even marched with dangerous extremists.

How did Hale describe their radical anti-police agenda? Productive.

Christina Hale. Too liberal, too extreme. She won't keep us safe.

(END VIDEO CLIP)

CARLSON: What's the last line of that spot? She won't keep us safe. Done. It's done.

If someone is not going to keep you safe, it doesn't matter if it's your dad or your congressman. You're not for that person. It's super simple. This is Human Nature 101.

And by the way, they're not keeping you safe. They're working against your safety. Oregon just decriminalized heroin in the middle of an opioid epidemic. Ha? George Soros is funding district attorneys who refuse to enforce the law and punish people who try to protect themselves.

What is the Republican Party doing about this? Not a lot. They're busy tweeting about the chromosomes of their newest members.

Two of Joe Biden's picks for senior White House roles are in favor of something called mandatory gun buybacks. What's that? Well, it is gun confiscation. Gun confiscation at a time when people are buying guns in ever larger numbers, historic numbers. Why? Because they love guns. They're crazy. No. Because they're afraid.

And they're trying to take them away. They're letting gun criminals out of jail. But planning to disarm law-abiding Americans. Chew on that for an afternoon and see what you conclude.

Jennifer O'Malley Dillon, for example, said last year that she wants to confiscate quote, "15 or 16 million firearms." Another incoming White House adviser, Cedric Richmond, uttered one of the most chilling quotes you'll ever hear from a politician. And we're quoting, "If it's a mandatory buyback, I think that you may run into some complications, but it sounds like something I could support." Gun confiscation? Okay.

And by some complications, you mean, of course that some law-abiding gun owners might get shot. But at the end of the day, Cedric Richmond can live with that.

Who is allowing this to go unchecked? Gun criminals are getting out of jail. Democrats are letting them out. On the other side of their mouth, they are telling you they're worried about gun violence and you who have never committed a crime must give your gun, which you use to defend yourself from the people they're letting out of jail for gun crimes in order to reduce gun violence. This is insane. And almost no Republicans understand it.

The Governor of Florida, Ron DeSantis understands it. It is one of the reasons people are moving to Florida. DeSantis is now pushing legislation that allows store owners to shoot looters.

It would also make it a felony to block traffic during a protest. So let's say ambulances could get by. Remember ambulances? Yes, they were one of the many casualties of BLM this year.

If the Republican Party wants to keep existing, it needs that kind of legislation. Tweets like the one we read, we don't want to be mean, but that doesn't keep us safe. Our constitutional rights keep us safe. And if DeSantis keeps talking like this, he has got a future.

In the meantime, Heather Mac Donald has thought more about the subject than maybe anyone in America. She's a fellow at the Manhattan Institute. We're happy to have her on tonight.

Heather, thanks a lot for coming on. Give us without scaring us too much, give us some sort of sense of what might be coming from the pro-crime left.

HEATHER MAC DONALD, FELLOW, MANHATTAN INSTITUTE: Well, the Biden criminal justice plan, Tucker, reads like a Black Lives Matter wish list. Among its most notable features, it's going to revive the Obama-era practice of slapping crippling costly Consent Decrees on Police Departments without any credible evidence that they're engaged in Civil Rights violations.

It's going to expand the Obama-era practice of Consent Decrees by going after prosecutorial offices if they actually prosecute crime. What's the agenda here? In Biden's own words, it's to eliminate so-called racial disparities in the law enforcement system.

Well, sadly, the only way you can eliminate racial disparities in law enforcement is to eliminate law enforcement itself. The police cannot go where people are most being victimized by mindless drive-by shootings and homicides without having a disparate impact.

Blacks die of homicide in this country between the ages of 10 and 43 at 13 times the rate of whites. That's a disparity that you would think Black Lives Matter activists and Biden and Kamala Harris would care about. They don't say a word about it.

Why do blacks die of homicide at 13 times the rate of whites? They're not being killed by the cops. They're not being killed by whites, they're being killed by other blacks. Blacks' homicide commission rates are equally disparate.

Now, the ultimate solution to that is to rebuild the black family, but short of that, we need the police, and when the police back off as you've seen, as you've brought up in Minneapolis and across the country, crime is going up. It's spreading.

Republicans have to start telling the truth about crime and above all, Police Chiefs have to because this narrative that policing is racist merely by going after criminals is going to send this country into an anarchy that is going to be very hard to pull back from.

CARLSON: I couldn't agree more. Defund the police is the most decadent slogan I've ever heard and I've heard a lot. Heather Mac Donald, we will see you again. Thanks for coming tonight.

MAC DONALD: Thanks, Tucker.

CARLSON: Big news out of Martha's Vineyard this week, a well-known Netflix producer called Barack Obama sat in the studio and talked about himself for 29 hours straight, possibly a world record.

Adam Carolla didn't listen to all of it, but he has thought through what you could do with 29 hours and he'll tell us after the break.

(COMMERCIAL BREAK)

CARLSON: Well, political intolerance is now the rule in schools, but some examples of it still manage to get our attention and shock us a little bit. Rick Leventhal has one for us tonight. Hey, Rick.

RICK LEVENTHAL, FOX NEWS SENIOR CORRESPONDENT: Hey, Tucker. La Jolla Country Day, one of the most prestigious private schools in the San Diego area. Tuition is almost 17 grand for first grade up to 37,000 for high school.

Students are allowed to wear hats on campus and there are no rules against political attire in the Parent-Student Handbook, but Make America Great Again hats, not okay.

The Head of School Dr. Gary Krahn sent an e-mail to all parents to let them know there would be no on campus classes the week after Thanksgiving. And then he added, "We also had a student wear a MAGA hat today. I have

talked with that student who now understands why that hat is offensive to our community. He will not wear it again."

In addition, " ... his mom said that she was embarrassed by his actions. She will fulfill her role as a parent. We will continue to grow as a community that sees and values the dignity of all people."

So I called Dr. Krahn and asked him about why he thinks that hat is offensive to his community? In what way it violates school policy? And why an e-mail to all parents was necessary? He didn't pick up. I left a message. And Tucker, I haven't heard back from him yet.

CARLSON: Amazing. This was not a setup. I actually didn't see that story coming. I've been writing all afternoon. I actually went to that school, La Jolla Country Day and it was less expensive and more tolerant when I was a little kid there. Sad.

LEVENTHAL: Yes?

CARLSON: Sad to hear it. Rick Leventhal, thanks so much.

LEVENTHAL: News we didn't know before.

CARLSON: And I didn't know it either. Amazing.

Well, if you had a few days of uninterrupted free time to do literally whatever you wanted, how would you spend it? We're not life coaches. We're just talk show hosts. But we do have a humble suggestion.

You might want to consider listening to Barack Obama talk about himself in his second autobiography for 29 hours straight. That sounds a little crazy. But listen to this sample from this new audio book, and try to ask yourself, are you not irresistibly attracted to that idea? Here it is.

(BEGIN AUDIO CLIP)

BARACK OBAMA, FORMER PRESIDENT OF THE UNITED STATES: She generally avoided talking to me about the horserace aspects of the campaign, which is why I was surprised when in bed later that night, she turned to me and said, "You're going to win, aren't you?" "A lot can still happen. But yes, there's a pretty good chance I will."

I looked at my wife. Her face was pensive as if she were working out a puzzle in her mind. Finally, she nodded to herself and returned my gaze. "You're going to win," she said softly. She kissed me on the cheek, turned off the bedside lamp and pulled the covers over her shoulders.

(END AUDIO CLIP)

CARLSON: Wasn't he supposed to be a great writer? Well, they always tell you, he is a great writer. Really? Too many adverbs. Too stilted. Reads like a PG-13 version of a Stacey Abrams soft core novel, which we strongly prefer.

Adam Carolla is the host of "The Adam Carolla Show." He has some ideas about how you might spend 29 hours for free time. He joins us tonight. Hey, Adam, how would you spend 29 hours? Not that you ever have it?

ADAM CAROLLA, COMEDIAN AND AUTHOR: Well, first off, let me tell you how big this book is. I downloaded it today and my phone got heavier.

CARLSON: Just on the ones and zeros? That's crazy.

CAROLLA: Yes. Yes. I think it's 19 bucks at Amazon, but shipping is \$1,700.00.

CARLSON: What? Look, he is not that much older than either one of us. He was President. I'll give him that, for two terms. That's great.

But two autobiographies before you're 60? I think we can say he doesn't have a self-esteem problem.

CAROLLA: No, you know, as I was sort of thinking about this subject, I thought it's interesting. So our current President, everyone accuses of being an insane narcissist. Everyone thinks he's an egomaniac narcissist.

But the reality is, is Obama is a bigger narcissist than Trump. Trump comes in a narcissist package. Trump comes in at narcissist package you can see from outer space. And Obama is kind of like a stealth fighter jet. But he's much more of a narcissist than Trump is.

And I know a lot of people would go, how's that possible? It is. I believe that if you took those guys and you squeezed them, and you got every drop of narcissism out of them, that Obama's beaker would be much more full of narcissism than Trump's.

CARLSON: It is a disgusting image. It's interesting, though. I mean, I wonder in the 29 hours, does he acknowledge that his mismanagement division that he caused within the country over eight years, pave the way for Trump. Does he ever take credit for that, I wonder?

CAROLLA: I don't know. I was only able to listen to the first 17 hours on the toilet this morning. So I haven't gotten to the rest of the book.

CARLSON: Okay. Are you clearing your schedule out?

CAROLLA: Yes, I am. The thing about Obama is nobody is better at saying nothing than Obama. If there was a Hall of Fame for people that delivered no message, but in a fantastic package, I think that's Obama.

CARLSON: I think that's right. But there was anger at the center of that. I think we're just starting to figure out Obama. It's taken a while. He's not stupid, I will say that.

Adam Carolla, great to see you. Thank you.

CAROLLA: Thanks, Tucker.

CARLSON: So kind of an amazing story. New York City shocked everyone including the Governor of New York apparently by shutting down all public schools this week. Now, no one was happy about that except for the teachers unions. They planned it.

No work, full pay. We'll tell you how they did it, just ahead.

(COMMERCIAL BREAK)

CARLSON: So New York City, the largest school district in the country shut down its schools this week with less than 24 hours' notice. They did that even though New York Public Schools have tested over 140,000 students and staff and as of Monday, they had a positive rate of 0.2 percent.

This is a bizarre story that affects a huge amount of people in the worst way. So what's going on here? Why did they do it?

Well, it turns out, teachers unions engineered it and they're not just doing that in New York. Libby Emmons has been on top of this story. She's a senior editor at the "Post Millennial" and she joins us now to explain.

Libby, thanks for coming on. This is one of those stories that hasn't gotten enough attention, but it really hurts people. Please tell us how would happen.

LIBBY EMMONS, SENIOR EDITOR, "POST MILLENNIAL": So yes, so in New York City, they shut down the schools with less than 24 hours' notice. And I had to tell my kid that he couldn't go to school the next day. He'd only been going to school two days a week anyway.

And when I told him, he was just like this -- you know, this really sucks.

What's going on basically, though, is that the powerful teachers unions in this country are holding our kids' education hostage to their special interest. And they are demanding \$175 billion for everything from raises to social justice curriculum and they're refusing to go back to work.

CARLSON: In New York, the teachers union apparently just endorsed the Black Lives Matter platform, including dismantling the nuclear family. It's all so perverse and sick and dark. It's hard to think this can continue.

I mean, I've got to ask you a macro question. A couple years ago, affluent liberals seemed to decide after they were waiting for the "Superman" movie that came out that they were skeptical of teachers unions, and that they were going to reduce their power. Whatever happened to that? They don't seem less powerful.

EMMONS: I don't think they're actually interested in reducing their power. And in fact, affluent liberals' kids are in school. The private schools are open. The daycares are open.

The public schools are closed and the difference is the teachers unions. And now that we have, you know, Biden and Kamala Harris who are looking to take over the White House, the teachers unions are coming to collect. They have endorsed Biden for a long time and they released their list of demands today. They call it a playbook.

But what it really has is a bunch of money that's being demanded from the Federal government, a bunch of oversight for curriculum, and all kinds of other things that they want to enforce at local levels to deny parents control. They want to take away charter schools. They want to take away private schools. They want the only option to be public schooling.

And they know that if they have any competition, they're just not going to measure up. And that's -- you know, that's why they want to do it.

This is a power thing and we've seen this before with unions. The teachers union is the largest union in the country with about three million members. And already, we've seen that either the head of the UFT or the head of the NEA is going to be the head of the Department of Education.

And then what? Then what happens to all of the kids who actually need an education?

CARLSON: If you're a Democratic politician like the Governor of California and you're sending your children to private school, because you know it's better for them to be in class, and you're shutting down or allowing unions to shut down the public schools, I think you have to answer for that on some moral level. I think that's really wrong, don't you?

EMMONS: I think so as well. Yes. I called around yesterday. So my son is in fifth grade. And you know, I called around yesterday to see what was going on with the private schools, the ones that cost \$50,000.00 a year. They're all open.

A couple of them when I called to say, "Are you open?" They were like, yes. Wait, who are you? Why are you calling?

CARLSON: Exactly.

EMMONS: Because I want to know, why is my kid not getting educated?

CARLSON: That's true. I mean, I guess the good news, from your perspective is a lot of those \$50,000.00 a year schools are really, really bad. Really bad. Trust me.

Libby, it's great to see you. Thank you for coming on.

EMMONS: Thanks so much.

CARLSON: Well, Senate Republicans released a report today about communications between Joe Biden's son and the Communist Party of China. Other media organizations buried this story, we're not going to bury it. We'll tell

you what's in that report. Some of this is very interesting, next.

(COMMERCIAL BREAK)

CARLSON: The social media companies and corporate media tried to bury the story for weeks, but it's not going away because it's real.

Yesterday, Senate Republicans released a report on Hunter Biden's connection to a Chinese tycoon linked to the communist government of that country.

According to the report, Biden's business partner made \$6 million in two wire transfers from a Chinese entity tied to the Communist Party in 2017. What does this amount to exactly?

Sean Davis is the co-founder of "The Federalist." He has followed the story from day one. We're happy to have him tonight. Sean, thanks for coming. So what can we take from this report? What should we know?

SEAN DAVIS, CO-FOUNDER, "THE FEDERALIST": Well, I think you hit the most fascinating and interesting aspect of it, which is that Hunter Biden's business partner, who is also the spouse of Jill Biden's former top aide in the White House, got himself two \$3 million wire transfers from a Communist Chinese linked energy company, and this was done in 2017.

And you'll probably recall having, you know, been a consumer of the news for the past couple of years, all the accusations of collusion and treason because Donald Trump, Jr. had a 20-minute meeting with a Russian who was actually a client of a Clinton campaign contractor.

So if a 20-minute meeting is necessary and sufficient to have a multiyear investigation, I think it's time to have a pretty big investigation about the millions of dollars funneled to Hunter Biden and his friends.

CARLSON: And the partner who got this money wired to him knew Joe Biden. I mean, we put a picture on the air of them playing golf together. He was at the meeting between Biden and Tony Bobulinski in Los Angeles at the Milken Conference. I mean, this is someone who is not separated by too many degrees of separation from Joe Biden.

And presumably he was getting the money because of his connections to Biden. Is there any other reason? Was he an energy expert?

DAVIS: Not that I can tell. I mean, we know Hunter Biden certainly is not an expert in international energy or commodities markets. I think it's obvious to anyone who has a lick of commonsense what was going on here is that they were using Joe Biden's name, the Biden family name as bait for getting access and money from these people who wanted their hooks into the U.S. government and it worked for them.

CARLSON: It's not a small thing since, I mean, China and the United States will intersect in really profound ways over the next four years without question.

DAVIS: Right and you really have to wonder, again, looking at Biden's China policy. He certainly thinks China is a friend of ours, he wanted Trump to go easy on them.

You have to wonder, given all of this Chinese money that was flowing to Hunter Biden and his friends whether that has an impact on the Biden foreign policy with America's number one geopolitical foe in the world right now.

CARLSON: Yes, that's exactly right. A virus mysteriously emerges from Central China. Totally rearranges the entire western economy. And Biden and friends first response is, don't call it Chinese. That's racism.

I mean, I don't know. Maybe some effect.

DAVIS: Yes, it's like leave China alone. It's not like they control a whole bunch of money and/or antagonistic towards our foes, dumping products here to put our companies out of business.

CARLSON: Right.

DAVIS: You really have to wonder what the Biden's have with them and what the Chinese have on the Biden's at this point.

CARLSON: Yes. Where does all the fentanyl come from that's killing a hundred thousand Americans?

Sean Davis, great to see you tonight. Thank you.

DAVIS: Thank you.

CARLSON: We appreciate your watching tonight. Thanks for trusting us. We appreciate it.

Sean Hannity from New York this evening.

Sidney Powell spoke exclusively with Maria Bartiromo today on "Sunday Morning Futures." They discussed the latest on her investigation into Dominion Voting Systems, used to tally votes in 1200 jurisdictions in 30 states on election day, and why she believes there's enough evidence, including sworn affidavits, of wrongdoing to overturn the 2020 election results.

SIDNEY POWELL ON SMARTMATIC PRESIDENT PETER NEFFENGER

Maria Bartiromo [10:17:46] We just heard about the software made by Smartmatic from Rudie. And I want to get your take on what you report, what you and I spoke about just a few minutes ago, and that is a gentleman named Peter Niffenegger. Tell me how he fits into all of this.

Sidney Powell [10:18:15] Yes, well, he is listed as its former admiral, Peter Niffenegger, or retired Admiral Peter Effinger, he is president and on the board of directors of Smartmatic. And it just so happens he's on Mr. Biden's presidential transition team. That's going to be non-existent because we're fixing to overturn the results of the election in multiple states. And President Trump won by not just hundreds of thousands of votes, but by millions of votes that were shifted by this software that was designed expressly for that purpose. We have sworn witness testimony of why the software was designed. It was designed to rig elections. He was fully briefed on it and he saw it happen in other countries. It was exported internationally for profit by the people that are behind Smartmatic and Dominion. They did this on purpose. It was calculated. They've done it before. We have evidence from twenty sixteen in California. We have so much evidence. I feel like it's coming in through a firehose.

SIDNEY POWELL ON WHY SHE CAN PROVE ELECTION FRAUD BY DEC DEADLINE

Maria Bartiromo [10:19:47] The elections are supposed to be certified in early December. Do you believe that you can present this to the courts and be successful within this just a couple of weeks?

Sidney Powell [10:20:03] Well, let me put it this way, first of all, I never say anything I can't prove. Secondly, the evidence is coming in so fast I can't even process at all. Millions of Americans have written, I would say by now, definitely hundreds of thousands have stepped forward with their different experiences of voter fraud. But this is a massive election fraud. And

I'm very concerned and involved not only Dominion and it's Smartmatic software, but that the software essentially was used by other election machines. Also, it's the software that was the problem. Even their own manual explains how votes can be wiped away. They can put it's like drag and drop Trump votes to a separate folder and then delete that folder. It's absolutely brazen how people bought the system and why they bought this system. In fact, every state that bought Dominion for sure should have a criminal investigation or at least a serious investigation of the federal of the officers in the states who bought the software. We've even got evidence of some kickbacks, essentially kickbacks.

SIDNEY POWELL ON ALLEGATIONS GOV'T OFFICIALS GOT KICKBACKS FOR USING DOMINION

Maria Bartiromo [10:24:21] Before we went to the break, we talked about how you said that there may have been kickbacks to some people who accepted the Dominican software. Tell me what you mean.

Sidney Powell [10:24:38] Well, I mean, we are collecting evidence now from various whistleblowers that are aware of substantial sums of money being given to family members of state officials who bought the software. I mean, we're talking about a hundred-million-dollar packages for new voting machines suddenly in multiple states and benefits ranging from financial benefits for family members to sort of what I would call election insurance, because they know that they can win the election if they are using that software. It's really an insidious, corrupt system. And I can't tell you how livid I am with our government for not paying attention to complaints even brought by Democrats Carolyn Maloney, Elizabeth Warren, Amy Klobuchar over the last several years in written letters with expert reports and some documentation of how corrupt the software is. And nobody in our government has paid any attention to it, which makes me wonder how much the CIA has used it for its own benefit in different places and why Dana Haspel is still there. And the CIA is beyond my comprehension. She should be fired immediately.

SIDNEY POWELL ON CIA & FBI'S ROLE IN DOMINION INVESTIGATION

[10:26:41] Well, the CIA and the FBI and other government organizations have received multiple reports of wrongdoing and failures and vulnerabilities in this company's product, their own manual. If you sat down and read, it would explain how and why no honest person would use the system. And it's not just Dominion. There are other companies in the voting machine business in this country, too, that may very well and are likely using the same software. We've detected voting irregularities that are inexplicable and along with these problems in other states that think they have valid systems. But the people who bought the Dominion system for sure knew exactly what they were getting. It should never have been installed anywhere. And we are going to show the public exactly how rotten the entire state is.

SIDNEY POWELL ON IF THERE ARE BACKDOORS IN DOMINION SOFTWARE

Maria Bartiromo [10:27:39] Now, I have spoken with a few whistleblowers myself this weekend, and one source who is an I.T. the specialist told me that he knows the software and specifically advised people in Texas, officials in Texas, not to use it. And yet he was overruled. He said that there was an unusual patch that was put into the software while it was live. And it's highly unusual to put a patch in there. Is that what you're referring to? Tell me how it's done and how these back doors work.

Sidney Powell [10:28:20] OK, that's part of it, they can stick a thumb drive in the machine or upload software to it, even from the Internet, they can do it from Germany or Venezuela even if they can remote access anything. They can watch votes in real-time. They can shift votes in real-time. We've identified mathematically the exact algorithm they used and plan to use from the beginning to modify the votes, in this case, to make sure Biden won. That's why he said he didn't need your votes. Now he would need you later. He was right. I mean, in his demented state, he had no filter and he was speaking the truth more than once, including when he said he had the largest voter organized voter fraud organization ever. Well, it's massive election fraud. It's going to undo the entire election. And they can do anything they want with the votes. They can have the machines not read the signature. They can have the machines not read the down ballot. They can make the machines read and catalogue only the Biden votes. It's like drag and drop, whatever you want, wherever you want. Upload votes. Yeah. In fact, we've got math and Michigan and Pennsylvania, I think it is that all of a sudden, hundreds of thousands of votes at a sixty-seven percent ratio for Biden. Twenty-three percent for Trump were uploaded multiple times into the system.

SIDNEY POWELL ON POTENTIALLY GAME-CHANGING DOMINION WITNESS AFFIDAVIT

Maria Bartiromo [10:29:46] And Sydney, you say you have an affidavit from someone who knows how this system works and was there with the planning of it, you believe you can prove this?

Sidney Powell [10:29:56] Yes. Oh. Oh, yes. We have a sworn statement from a witness who knew exactly how it worked from the beginning, why it was designed to work that way. And so when things started shutting down and they started stopping counting the votes here, that was the same play that had worked in other countries.

Sidney Powell was on Newsmax tonight, just wrapped up a bit ago. She called Tucker "abrasive" and "disrespectful" in text messages and claimed he had a "tantrum." The rest of the interview is totally nuts. She's claiming she's already submitted "irrefutable" and "hardcore" evidence (whatever that is). She's claiming thousands of people were involved in this conspiracy to steal the election.

She claims Brian Kemp was paid off to use Dominion voting machines, and the GA filings they're planning to file will be "biblical."

ANCHOR: all right we now have city pal on the phone. we got the little. gremlins out of the system there whatever the problem was is it if you can hear it's great to talk with you tonight- how you doing and in the end it's good talking was always i want to start off with just the ruling the biggest news out tonight is this pennsylvania ruling from this. a federal district court judge what you make of that.

SIDNEY POWELL: yeah well you know each of the district court judges has their own particular perspective on things and i think that judge was appointed by president obama we really don't expect to win a lot of the district court cases but ultimately the court of appeals and the supreme court are will have to get it right we're very clear on the law and the facts on multiple issues and we haven't even begun 2% the big fraud case yet that i am still working on. and it's going to be a blockbuster.

ANCHOR: i mean it's interesting obviously i mean you guys said the news conference this week- there was a lot of compelling stuff in there it sounded like you guys were. making progress going down a road of investigation but as i think anybody understands when you're trying to lay out a case it takes time. to find out what you have you had a bit of a rubbed with- with tucker carlson this week- who basically said you didn't have any evidence when they ask you to come on what is the truth of the matter is that made a lot of news- yeah.

POWELL: well he sent me some very. abrasive and- disrespectful. emails or text messages. and i responded politely offering him into. a different person as a witness who could explain it not simply didn't have time to do it then and i sent him a copy of one of the- compelling affidavits. that we have and the k. apparently that wasn't sufficient for him he was having a little bit of a tantrum. but i didn't see or hear what he said and i haven't had time to listen to what he said after that i'm just perceiving on my course of getting the case ready to prove in a court which is where we prove cases of law. not in the media how

ANCHOR: what is your timeline as as you look at this you know what's the timeline you think before you can you can put out some of this evidence that can really. you know if you wanna if you wanna shut the media but they say that you guys have nothing when we have some of the stuff that's that's this hard core. evidence and paper writing.

POWELL: frankly the affidavits we've already introduced or hard core evidence there firsthand testimony of witnesses who saw. how and why the system was created and how it works to accomplish the objective for hugo shabeelle. they're people who saw ballots being destroyed we've got evidence from people it's all. thank ballots being created. we've got all kinds of different evidence and then we've got the tatistical and- mathematical evidence that. absolutely irrefutable. i mean the coin doesn't land on the same. side when you flip it a hundred ninety six thousand times. you can't just inject eighty six thousand biden votes and expect anybody to believe those are real and they're not when we send it only to delhi no matter how you analyze the statistics whether it's a predictive model or the actual. data as they come the young it it doesn't hold water and we've got other testimonial evidence that appears to be coming in now to indicate the democrats literally added. thirty five thousand votes to every democratic candidate.

ANCHOR: to begin with thirty five in in in in any particular state or you say thirty five thousand where.

POWELL: we've got it definitely all over one state and i would be willing to bet it happened everywhere. and when you when you lay all this out and you're gonna do this in court- it

ANCHOR: do you have what you think is irrefutable evidence that will that will make up the minds of millions of american people.

POWELL: well the burden of proof in court is only a preponderance of the evidence. it's not beyond a reasonable doubt that the criminal standard but frankly and with everything we've got. these should e criminal prosecutions. at a significant level for fraud and conspiracy to defraud beyonder provable beyond a reasonable doubt there are hundreds of thousands of people in our criminal system right now in present. who were convicted on far less evidence of guilt then we have here city power

MARK HALPERIN: wanted to react to something that the scene this is republican senator from pennsylvania pat toomey just said in reaction to the district court judge's decision the district court judges someone very close to pat toomey center to me says. the president trump has now quote exhausted all plausible legal options to challenge the results of the presidential race in pennsylvania is that true.

POWELL: no that's not true at all.

HALPERIN: can you explain why

POWELL: foreigners gun to fight can you explain the what why the senator wrong- well is wrong because transylvania was one of the hot bed of. many varieties of fraud and criminal acts that the department of justice frankly should be in there prosecuting. and we're gonna dump a whole lot of them and the evidence in our fraud case that we're going to found pennsylvania

HALPERIN: why do you think the justice department isn't being more aggressive in following up on what you see.

POWELL: i think the justice department has known about this issue for a long time and turned a blind eye to it. why then i wonder how much the cia. actually had a role in in. starting this kind of. program to begin well why we used on other countries

HALPERIN: why would donald trump's justice department not be interested in this.

POWELL: well you know i wish donald trump as much control over the justice department's people thank you doug- it's taken on a life of its own i don't think even bill barr has the control over the justice department that he would like to hang out. because there are so many lawyers and so many different places doing whatever it is they want to do and ignoring the standards and practices that. historically created the justice department to seek justice not convictions when i read a book about that back in twenty fourteen. i mean we've been on the- increasingly bad past four decades now and it's done nothing but get worse because nobody's told the truth. and stood up for the truth but americans are now. livid about there. and they could see it everybody thought election lightly thought. both being subtracted from president trump and appearing on the buying side of the scale and that's exactly what this dominion system was designed to do. and witness testimony to its entire creation for that very purpose. there have been i mean

ANCHOR: there have been warnings about this system we were talking about it earlier sydney i mean you had senators warning chlo bashar- is that that made a b ig stink about the twenty eighteen mid term sayng that they don't trust opinion. that they saw evidence that that votes could beswitched using the systems these are democrats. who ran bright resident what i don't understand is how how is how does this get ignorwed i mean this is a- this is a nationwide this is a democracy shocking scandal. if it is true it is and it's it is so big i can't wrap my head around. it i just wonder how does this happen.

POWELL: well that's exactly it happens because it's so big nobody wants to wrap their head around it nobody wants done. on hi all the little knocks that go into it but we have to if we're going to be a constitutional republic this cannot go on our votes must be counted fair in true every legal vote. is entitled to be counted in every illegal vote nullifies the vote of an american citizen and our our public will once we the people it's absolutely counter to everything this country was founded on. so we have got to get this fixed now we can't i can't unsee it i'll tell you that i'm certainly cannot unsee what i its thing and i'm gonna make sure everybody else knows everything up thing too. because we've got to hold our government institutions accountable and do better than deaths by each other and it does cut across both political parties it cuts across generations now or ever police multiple decades. of this kind of corruption it's got increasingly more sophisticated has anybody given you much the edge of a balanced again through the machine and at the ballot would be rejected. but now they can literally drag and drop hundreds of thousands of votes wherever they wanna. i mean in the end that they everybody knew when i bought the system and that was one of the features of the system. we caught people lying now and saying the- things that

happens that brand people. out of voting areas and- we've got tons of them after. it's some it's hard pull it off together

[https://mms.tveyes.com/transcript.asp?StationID=19340&DateTime=11/21/2020%209:24:22%20PM&playclip=true&pbc=search%3a%2b\(tucker\)](https://mms.tveyes.com/transcript.asp?StationID=19340&DateTime=11/21/2020%209:24:22%20PM&playclip=true&pbc=search%3a%2b(tucker))

ANCHOR: has had the i mean how big of a you know if this happen how big of a conspiracy how many people would have had to been in on something like this.

POWELL: oh gosh. probably of thousands including the people running the machines at each of the poem. that the polling centers we know for example that one of the higher ups of dominion went to detroit. the night of the election term. to handle things and self. and we also have evidence that there were any number of. gpn lines open to the internet for foreign actors to meddling in that

ANCHOR: has anybody given you an explanation and that that. as to why they had to turn the machines off you talk about how the machine

POWELL: our witness from venezuela who saw it all created and how it worked. said that he knew as soon as the machines were turned off and that's key straight it was because we the people in voting on. trump adding for trump in a landslide election is officially broken algorithms that have been pre programmed into the machine. so they had to stop counting in those states and areas and back filled the boat. with fraudulent mail in ballots or whatever means they used to do it whether they just injected numbers are trashed. those for trump otherwise and change the numbers i don't know exactly how they did it right now in a spot but that's essentially the way it worked

ANCHOR: let me ask you about the state of georgia obviously yesterday you know the governor there. he-certified the election for joe biden it's about twelve thousand votes in what you see will georgia switch.

POWELL: yeah that's a total farce. george is probably going to be the first state i'm gonna blow up and mister camp in the secretary of state need to go with it because they're in on the dominion scam what they're last minute purchase we're award of a contract to dominion of a hundred million dollars the state bureau of investigation for george ought to be looking into the financial benefits received by mr campaign. and the secretary of state stanley about that tom and another benefit dominion was created to award is what i would call election insurance that's why hugo chavez had it created in the first place but also wonder where he got the technology where it actually came from because i think it's hammering scorecard from the cia.

HALPERIN: just to clarify your saying the governor kemp who's been a longtime ally of the president is it is directly involved because the financial benefit in the conspiracy to defeat the president in georgia.

POWELL: we have certainly been told that there is evidence of that and what warren an investigation if anybody were actually going to do an honest investigate

HALPERIN: what more could you tell us about about alleged conspiracy a his the governors.

POWELL: i can't. yeah i can't give you any more details on that now but that would certainly warrants and investigation orders have been reported to me as a law enforcement officer i would be investigating it steadfastly.

HALPERIN: you know i know you say you want to be arguing in court you are an attorney united press secretary but you all did have a press conference last week. jordan sekulow said that there's gonna be a filing soon in georgia that would be explosive can you tell us anything can you make some news with us here tonight. tell us anything new that you're gonna present in that filing in georgia.

POWELL: well i'm i think and i can't. say that yet. but hopefully this week we will we will get it ready to. file city what's in it it will go it will be biblical.

ANCHOR: what is the state where you it where was it the worst from what you see in what you're alleging what state but was it will switch the most-

POWELL: that's really hard to say georgia is extremely bad- we've got. ballots being shredded ballots being thrown out in trash bags. whining people working in the center- the vote staying switched the algorithms being run. you name the manner of fraud and it occurred in georgia these are the only land area. counties those counties fulton the k. on deal and i think i think the algorithm ran most probably across the country can i say that for sure yeah no i can't say that for sure yeah but it looks that way. and it looks like it thirty five thousand votes were added to every democratic candidate.

ANCHOR: you also talked about this ability of the system and i thought this is so interesting when you said that it could take a vote. and it can make a vote for biden worth more than a vote for trump do you think that that happened or is that another part of the system that maybe wasn't used

POWELL: no i think that definitely happened i think that was the first step with the system. to wait the vote said that a biden vote is worth one point two three say. and a and a trump vote is worth the rest of the out. of and of the trump voters about three quarters and. biden both this one and a quarter. what in that way that's the can see the roof. said record of fresh. numbers for the vote. yeah it's not. it is i mean the everything you're

ANCHOR: everything you're alleging frankly is not which is why i think you're getting so much scrutiny and so much criticism but if it's true and we don't know and that's just a simple thing is that we don't know yet if it's true because we can't see what you've seen. i want to ask you about this again- michigan's a bigger margin than the rest of them it's like a hundred and maybe hundred fifty thousand- what are you seeing in michigan.

POWELL: we're seeing official who find things in michigan except larger number of ballots. being stuffed in it the old fashioned stopping the ballot box they're just doing it by computer instead of by paper. that's really all it is. they're dragging and dropping files the votes from one person to another instead of just stuffing paper ballots on the ballot box. you can use this you know corruption elections have been going on forever i'm remember lbj saying you know if and some guys down to the cemetery because those people if they were allowed to voted for me. and they take the and the birth date and that's what they do yet.

HALPERIN: so it's saturday night committed. can you prince are can you preview for isis bispecific lazy can't what's going to happen this coming week starting monday morning tell us where you're going to file. what you expect to happen by friday.

POWELL: well i don't personally i don't expect to follow anything on monday. from hoping we can get it ready by wednesday if not it should be ready by friday. but it's a massive project to pull this fraud claim together with the evidence that i want to study on so you very saying well they're going to file member it's not. this is a summary judgment motion where we actually have to produce any evidence now your typical lawsuit you just filed a statement of what the charges are without any affidavits or anything what do you think they're gonna find this maybe it's going about this is absolutely ridiculous and unreasonable to expect us to put evidence found right now. although we are we know election issue there on an expedited schedule that i could wait a month to fall the fraud case and everybody to have to undo their certifications because it's so bad

HALPERIN: when you say you're gonna fall the same cases in multiple jurisdictions or in one jurisdiction the- h.

POWELL: one was a little bit different. depending on what happened in the state. the death manner means the aspects that support each one. no got different affidavits from different witnesses in each of the states. so they're going to be some differences between them. but they're going to be claims that ours are. identical some of the legal claims are going to be identical. for example in a in a number of states the- there were modifications to the machine after the statutory cut off date. that should invalidate every vote cast on the machine. i mean georgia cannot they're not white georgia can proceed to have a election using this machine for the run off canada. that's absolutely absurd.

ANCHOR: as we as we wrap this up city i think everybody at home right now that wants to see this. they want to see what you say you've seen is that going to be possible at any point are we going to be able to see some of these problems and some of these issues the way these.

POWELL: the system is working the way this the dominion works. yeah then there's actually evidence on on. line now i mean we need to try to get our website up to date with the complaints that have already been filed. but exhibits are attached for example to lin was complaint in georgia. that are all remarkable and stunning including the affidavit of the young man from venezuela who saw he go shabeelle. create how they- did the software hire people to do it and get it done and then how it worked of make sure he won every election there after. so that's what it's designed to do better and better at their own. yeah handbook tells you that these things are features of their system are we supposed to think they didn't use the features. they use them. and then they use them against their own candidates the democrats used to against bernie sanders in two thousand sixteen and somebody even told him what had been done to him one hillary clinton won that primary and he didn't. and instead of standing up for the american people on the right to vote he sold out

ANCHOR: you're saying the million that the smartmatic dominion system was used in twenty sixteen when hillary bernie in the primary.

POWELL: yeah wow i don't think we heard that yet that's that's that's in india it's an incredible developing right there and you say he knows that bernie sanders knows that. yes the person who sent me the data tell me that they inform bernie sanders of all their findings and he didn't do anything except get enough money to buy another fabulous south. well i'm telling you it's been used for both parties one of the big problems is that we don't know who was selected by buying their election through dominion. i'm sure it crosses party lines. i'm not that's not an accusation against every politician it certainly not maintenance today but it means we don't know. which one. got elected that way and how much they knew about how it was being used for or against them certainly not against them but i'm reasonably certain at this point that john james was ripped out of his state. and he was entitled to have won that election by the real vote confined i think history for doug collins in georgia. and there's no telling how many congressional candidates should have won that lost by the addition of thirty five thousand votes for democrat or the algorithm that they were running against whoever they want to target i mean you can do it canada by canada. that is something else the minutes this just it's mind blowing city-

[https://mms.tveyes.com/transcript.asp?StationID=19340&DateTime=11/21/2020%209:35:13%20PM&playclip=true&pbcs=search%3a%2b\(tucker\)](https://mms.tveyes.com/transcript.asp?StationID=19340&DateTime=11/21/2020%209:35:13%20PM&playclip=true&pbcs=search%3a%2b(tucker))

ANCHOR: what what you're- i can't. i can't even imagine and i hope that you'll join us again to talk about what you continue to find as you continue to invest now

POWELL: i will do that and i'll try and get more stuff up online this week we've got some well just emailing to escorts people are trying to hack us and everything else but- democratic congresswoman carolyn maloney wrote. of the trailer the treasury secretary about this very issue. in two thousand three i think it was. seventy seven people have been complaining about it in the government's done absolutely nothing except. whatever it wants to do. so who is really pulling the strings here. and shooting the american. the president officials pursuant to this system. not the people of the united states of america and that's supposed to be who it is. it's just something else and like you said prominent democrat politicians have complained about the usage of the system in this country city power

ANCHOR: thank you so much for joining us tonight on the phone- i know how busy you are and we appreciate the time.

POWELL: thank you my pleasure okay.

Watching this thing won't change the outcome. But it ain't over. The outcome may or may not change-- but they're going to turn over a lot of stones in these states. If there's any merit to these stories about more votes than registered voters, or votes with no signatures, etc-- then what??? If Trump somehow flips it, they'll burn the country to the ground. They are not reasonable.

Subject: Smartmatic Confidential Queue Question

Hi All,

I received this question just now from Tom Lowell, cc'd here.

FOX is looking at a potential legal dispute with Smartmatic. (Dominion voting-related.)

We need to look at all the times Rudy Giuliani, Sydney Powell, Alan Dershowitz and Ronna McDaniel came on FNC/FBN and addressed the questions that were raised about Dominion voting and Smartmatic machines.

The potential legal dispute is claiming that we *didn't* challenge the narrative being put out by Giuliani, Powell et al that the Dominion vote machines / Smartmatic were responsible for switching votes and/or producing inaccurate results. Sometimes, we didn't. **But we are looking for the times we DID challenge this narrative.** It won't be shows like Dobbs, Hannity, etc. We need to specifically look at straight-er news shows.

This will have happened November 4-30.

My suggestion:

1. Pull all the times the aforementioned individuals were on FNC/FBN.
2. Pull transcripts of those segments
3. Keyword search "Dominion", "Smartmatic", "smart" and "machine*"

PLAN OF ATTACK:

- Emily – If you can start compiling air dates tonight if time allows, that would be great.
- Andrew – Please have you and/or the weekend team finish compiling all the air dates for the people below by the end of the weekend and compile transcripts for those dates.
- Joe & John – Andrew will send you a completed list of dates and transcripts. Please go through each of these transcripts and seeing which interviews we *did* challenge the narrative.

Andrew: Once you and the weekend team are don, please email myself, Joe Bland and John Escherich the complete list of dates and transcripts, and Slack us once you're done emailed it, so we have an extra notification.

Joe & John: Please pick one of you to compile and send to Tom.

THANK YOU ALL!

Please see below for the instances my team and I pulled together from transcripts of Dobbs, Bartiromo, Pirro, Hannity & Levin post-election. Each example is categorized under the talent who made the remarks and notes which show/day they occurred. There are also break outs for Newt Gingrich and Gregg Jarrett as we came across a few examples from them as well. Everything is in the google doc below:

LOU DOBBS

11/09/20 - Lou Dobbs Tonight

Lou Dobbs: "The radical Dems are also working with the corporate-owned left-wing national media doing their very best to nullify the votes of 71 million Trump voters. And let's be very direct. **many are trying to steal this election from President Trump.** There is no doubt about it."

11/10/20 - Lou Dobbs Tonight

Lou Dobbs: "Good evening, everybody. **It has been a week since the radical Dems tried to steal an election from President Trump,** or so it appears. And finally there is a signal of life coming from the Department of Justice."

"And to come out with cute words at the end of it, I wish Republicans, particularly Republican leaders at the R.N.C. level, the governors, I wish they would just start calling it like it is, because **this is an election that people know the Democrats really, really want to steal.**"

11/11/20 - Lou Dobbs Tonight

Rudy Giuliani: "No, no, I'm suggesting we do what we usually do when we're a decent American, put criminals in jail and they are a bunch of criminals. Not only in the way they carried out the election and the way they took money, millions, but now, this is probably the most crooked election ever run anywhere. I mean, it's impossible, Lou, that in 10 different jurisdictions that all are crooked Democratic machines, they did exactly the same thing. I mean, they didn't think of it themselves. Somebody told them, put the Republicans in corrals. Steal the votes. We have another situation in Michigan that is horrendous."

Lou Dobbs: "Rudy, I can't -- can with we save that for tomorrow night?"

Giuliani: "Sure. There will be more witnesses by tomorrow night."

Dobbs: "Because we are at the end of the broadcast right now. Thank you."

Giuliani: "Just 100,000 votes they stole."

Dobbs: "Yes, sir, Rudy Giuliani, thanks for being with us and thanks for everything you're doing."

11/13/20 - Lou Dobbs Tonight

Lou Dobbs: "Up next, the latest regarding those Dominion voting machines that Kayleigh mentioned **and what role they have played in the radical left's plot to steal an election.** Sidney Powell is among the President's foremost attorneys on their legal team. She joins us right after these quick messages. She has some fascinating revelations for us. You don't want to miss them."

11/17/20 - Lou Dobbs Tonight

Lou Dobbs: "Well, it's now been two weeks since Election Day, and the battle for the White House is underway and intensifying. President Trump keeping up his legal challenges and pointing to a number of developments across the country. **Evidence mounting, backing up claims that the Democrats tried to steal the election.**"

12/01/20 - Lou Dobbs Tonight

Lou Dobbs: "All right. The Attorney General is a smart man by all accounts, and not smart enough to be honest, but a smart man. It would be akin to a nice way in which you were excusing him, it would be like saying, I'll only steal \$900.00 from each person. That way, you won't have grand theft over \$1,000.00 and you can make quite a bit of money that way, couldn't you? The fact of the matter is that this is a crisis in our nation. We know that this is wrong. We know that the American people have been assaulted, maybe even by foreign entities at work in this as well as the radical Dems and the Deep State. But we do know this, we have as a nation have been violated. **The electoral system that is supposed to work has been absolutely defaced by the scum who have decided to steal this election.** What should we do now?"

12/02/20 - Lou Dobbs Tonight

Lou Dobbs: "We're joined this evening by some of this country's great Americans who are fighting for President Trump, fighting for a free and fair election. One of them is Dr. Linda Lee Tarver. She has seen **how the radical Dems have worked to steal this election in the State of Michigan**, how they've worked to steal elections over the past 25 years in her home state."

12/10/20 - Lou Dobbs Tonight

Lou Dobbs: "Our first guest tonight has new information regarding electoral fraud **in the radical left's efforts to steal an election**, and she charges four individuals as authors of what she calls a Pearl Harbor-style cyberattack on the 2020 presidential election."

12/14/20 - Lou Dobbs Tonight

Lou Dobbs: "Republicans' **last chance to challenge the electoral votes in each state will be January 6th when a joint session of Congress convenes to tally the electoral votes**, although the White House says that they would be able to contest right up until January 19th."

12/15/20 - Lou Dobbs Tonight

Lou Dobbs: "Also breaking, seven states have chosen a slate of electors for both Joe Biden and President Trump. They are Pennsylvania, Georgia, Michigan, Wisconsin, Arizona, Nevada and New Mexico. Now, if the House and the Senate cannot agree on which electors to accept, an untested constitutional procedure could result in each state being given one vote which they would allocate to either Biden or Trump. **And since the Republicans hold 26 of 50 statehouses, there would exist at least the mathematical possibility that President Trump could be named the constitutionally President.** However, if the electoral process isn't completed by January 20th -- get ready -- House Speaker Nancy Pelosi would be sworn in as the new President. Quite a mess we have on our hands, is it not?"

1/04/21- Lou Dobbs Tonight

Lou Dobbs: "Good evening, everybody. Happy New Year. It is great to be back with you on this week in which the fate of the Republic actually hangs in the balance. Two Senate races in Georgia will determine which party controls the U.S. Senate, and dozens of Republicans in Congress are expected to stand up for President Trump and to challenge Electoral College votes, at least some of them for Joe Biden. The events of this week are not borne out of a single campaign season. It is important for us all to remember that. All of this, all of these events are part of an ongoing, substantial and vigorous conspiracy that has spanned more than four years in an effort to block and overthrow President Trump. And of course, the radical left's thirst for power driving much of those efforts. The radical Dems, the RINOs, the left-wing national media, the Deep State, corporate America, politically corrupt judges, Wall Street and the tech titans of Silicon Valley all joining forces to undercut, to undermine this President for more than four years. Whether it was his campaign, whether it was Robert Mueller's special counsel investigation, the months of investigation that preceded that special counsel, a sham impeachment proceeding, or this -- **the latest effort to steal a presidential election.** Today, 174 of this country's top business leaders joined together -- as if they were not already joined -- to urge Congress to certify the Electoral College results in favor of Joe Biden. Aren't you astonished that the business establishment wants Joe Biden to be President? Arguing that "Attempts to thwart or delay this process run counter," in their words, "to the essential tenets of our democracy." Doesn't it an absolute effort to steal an election run counter to the tenets of this great democracy? Shouldn't that be considered as well? Not apparently in their opinion. An Obama-appointed judge today also rejected another lawsuit challenging the election results in five battleground states. Judge James Boasberg made that ruling. Judge Boasberg is serving still as the presiding judge of the FISA Court. Yes, the very same courts used -- and I do mean used -- to spy on President Trump, his 2016 Campaign and

members of his administration. The action of Judge Boasberg and the words of those 174 business leaders serve to suggest there was no election fraud. to move along, there is nothing to see here. About 60 judges have made that ruling, but of course, all of us know there was fraud. The questions are, how big, how important was the fraud? Can it be proved? And did it in effect, steal an election? Seventy four million Americans voted for President Trump. 10 million then voted for him only four years before. That's more than any President had ever received before. **The evening of November 3rd was shaping up to be a humiliating defeat, you may recall for Joe Biden, and it all turned around overnight. And almost simultaneously, it turned around in five battleground states.** Hundreds of sworn affidavits attest to midnight ballot drops and democrats strongholds including Detroit, Philadelphia, and Atlanta. Ballots were reportedly scanned numerous times through machines, and video shows what appeared to be election workers pulling out -- pulling out -- suitcases stashed beneath their desk, filled with ballots, and that occurred in Atlanta, Georgia. After Republican poll watchers were told to go home, and the counting was over. It turns out the counting was far from over. Whether in Atlanta, Maricopa County or Detroit, Wayne County, Michigan. All of those claims have been ignored by investigative Federal agencies and by courts, state and federal. **That has prompted 11 Republican senators to announce their support for a challenge to certain Electoral College votes for Joe Biden. That challenge will come Wednesday.** Senator Ted Cruz and 10 other Republicans said they would object to the 2020 election results. They are standing up for law and order and the Constitution. They want an emergency 10-day audit of the election results conducted and conducted straight away. Senator Josh Hawley, the first to stand up and demand -- demand -- integrity in our election of 2020 has separately announced his plans to object to the certification of certain states' electors, but the RINOs in Congress are baying at the moon all of a sudden, they've come out in opposition to the effort to ensure free and fair and accurate election counts.

1/05/21 - Lou Dobbs Tonight

Lou Dobbs: "The radical Dems went after President Trump with their so-called Russia collusion fictions, you'll remember, and then the F.B.I. investigated Trump for 11 months. Then they proved the radical Dem accusations again baseless, and the radical Dems who would hurl those accusations absolutely conspiring to overthrow the President. Then the radical Dems, with the help of the Deep State invented that special counsel, the Mueller special counsel that wasted 50 million taxpayer dollars, again, proving only that their charges were baseless and fraudulent and that the President was innocent of all their scurrilous charges. And what happened then? Well, the only person to have been under Federal investigation throughout his nearly entire first term as President, he faced the radical left's pitiful impeachment efforts as well, their phony charges, the ridiculous pretense of an offense of abuse of power, and in one telephone conversation with the Ukrainian President, which turned out to be nothing. He was absolutely exonerated, and again defeated the radical Dems, who have only proved that this President has had nothing that could be proved against him by our Intelligence services, our law enforcement services, the radical Dems who control the House of Representatives. **They have been outrageously wrong and exposed themselves as the liars and cheats and thieves they are and have been throughout the past four years.** It is their nature, and there is no equivocation on my part, because the evidence is clear. The proof is staring everyone in the face. The Democrats are what they are. **They lie, they cheat, they steal, and they did their worst trying to unseat this President.** It is their nature. It is who they are. It is their pattern of conduct, as the criminologist would say, or, as we would say here, their pattern of misconduct throughout."

1/08/21 - Lou Dobbs Tonight

Lou Dobbs: "The supposedly inclusive Cabinet with a notable exclusion, and that is those who constitute half of the country, those who voted for Donald J. Trump for President. In a tweet today, President Trump reassured those 75 million Americans who voted for him in November, that he will not allow their voices to be silenced, saying, quote, 'The 75 million Great American patriots who voted for me for America First and Make America Great Again will have a giant voice long into the future. They will not be disrespected or treated unfairly in any way, shape, or form.' The President's message provides some much needed assurance to those millions of Americans who remain mightily frustrated with the swamp and the Democrats. Working men and women in this country who see Washington as a vessel used to boost and enrich the privilege left, **a town filled with self-serving government workers who conspired to steal an election in order to silence their voices.** President Trump may soon have a new address, but he will remain a dominant force in the Republican Party. And among the great shames is this. Two instances for President-elect Biden to reconcile any differences have escaped his grasp. Biden today did not denounce his party's calls for President Trump to be removed from office by using the 25th Amendment, nor did he put an end to any silly talk about a second round of impeachment. Instead, the President-elect told Democrats to do as they see fit."

MARK LEVIN

12/06/20 - Life, Liberty & Levin

Mark Levin: "And one way or another, Congress will have to resolve it on January 6th. But the U.S. Supreme Court

shouldn't just sit there and take a pass, when in fact, it is time for the U.S. Supreme Court to intercede, which is exactly what the petitioners are asking it to do."

12/20/20 - Life, Liberty & Levin

Mark Levin: "One more thing. I hear earlier -- earlier in the week, oh, the electors have met and the electors have voted. It's over. They don't even understand how the process works. **It's not over.** January 6th is when Congress meets jointly, the House and the Senate. It's the new Congress, the newly sworn in Congress that's sworn in on January 3rd by statute, and they sit and they count the electors from every state. A House member can object, a Senate member can object. This is under federal law, then they have a debate. **Depending on how the vote turns out, the matter can be thrown to the House of Representatives to choose a President. The Senate can choose the Vice President.** I'm not saying it's going to get to that point, but this idea that the media first proclaim the winner, and then, oh, now we count the electors and then we don't even wait for Congress to meet. Again, nobody has sat down in any newsroom on any Sunday show and explained to the American people how this process works."

1/03/21 - Life, Liberty & Levin

Mark Levin: "Hello, America. I'm Mark Levin and this is LIFE, LIBERTY & LEVIN. We are going to do something that we don't normally do on this program, although they do on others. I am going to start the program with a very important monologue. Our Declaration of Independence and Constitution are being destroyed by the Democratic Party and the media, and they want to destroy what is left of it. We know this because the Democrats have announced their intentions. If the two neo-Marxist Democrats running in Georgia are elected to the Senate, it will be 50/50 and then the neo-Marxists, they hope, the purported Vice President of the United States Kamala Harris -- she is not there yet -- but they hope she will be the 51st vote for the Democrats. So by the slimmest of margins, they are going to destroy our judiciary. They are going to destroy separation of powers. They are going to destroy the United States Senate by packing in the United States Senate. We are going to have a rogue legislator that will pass whatever it wants any time it wants and fundamentally alter every aspect of this society. Finally, they want to destroy the Electoral College so Republicans can never win and Republican areas of his country have lost it affect their franchise and their representation. That's how serious this is.

We are standing at the precipice and we are looking into the abyss because this is the target. This is the target. The Democratic Party never much liked the founding of this country. They never much liked the Declaration of Independence and certainly not the Constitution. Early on in our history, it sought to destroy the Constitution. That is what the confederacy was all about: slavery, nullification, segregation and they carried that through well into the 1900s and now, it is the party of the neo-Marxist. They have never liked Americanism. They've never liked the founding. They've never liked the limits placed on them by the United States Constitution. If we don't win at least one seat or both seats in the State of Georgia, which is supposed to be Republican State, this country will be changed forever. **If we don't fight on January 6 on the floor of the Senate and the House.** That is the joint meeting of Congress on these electors, we are done and I want to explain this very, very clearly. We have Republican Members of Congress who are going on CNN and MSNBC and anywhere else they can be heard saying this is an attack at the heart of democracy: Ben Sasse, Adam Kinzinger and others who should know better, Cornyn, Thune, McConnell and there are more. And of course, the media promote to them. The media say, look at this, look at this. They are trying to reverse the course of the election. They are trying to take the franchise away from the people. **Let me be abundantly clear about this. I wrote a piece about this the other day and you may want to check it out: "On January 6, we learn whether our constitution will hold and whether the Republicans care."** Let me be clear. Article II, Section 1, Clause 2 of the United States Constitution and we have talked about it here before has been intentionally violated, eviscerated by the Democratic Party and the United States Supreme Court, which is sitting on its pews. It is sitting on its quills. "Each state shall appoint in such manner as the legislature thereof may direct." Listen to this language. It's black-and-white. "The legislature may direct a number of electors equal to the whole number of senators and representatives to which the State may be entitled in Congress in relevant parts." So what had the Democrats done? Well, they knew in Pennsylvania the Republicans controlled the legislature. They knew in Michigan the Republicans controlled the legislature. They knew in Georgia the Republicans controlled the legislature and they knew in Wisconsin the Republicans controlled the legislature. So what did they do after 2016? First of all, they were trying to remove a constitutional elected President who they had spied on, who they had leaked on, on a phony outrageous fraudulent impeachment, an outrageous criminal investigation all fabricated by the Hillary Campaign and the Obama administration and I might remind you that Joe Biden was part of that administration. And so, Donald Trump, despite all his amazing achievements, every step of the way they were trying to kneecap him and destroy him with their friends in the media and the Democrats who are so-called journalists. What a joke. Now, Article II, Section 1, Clause 2, I just read it to you. So what happened in Pennsylvania? Between 2016 and this election? The Governor of the state, the Secretary of State of the state, two left-wing Democrats, the majority on the Supreme Court elected, five out of seven Democrats, all of them conspired to change state law that was passed by the state legislature to eliminate signatures, to eliminate signature comparisons, to eliminate deadlines on county mail-in votes, to eliminate postal marks, to prevent Republican observers in Democratic cities and it goes on and on and on. They destroyed the election laws in Pennsylvania to accommodate Joe Biden and the

Democratic Party particularly in the metropolitan areas. That is what happened in Pennsylvania and I don't have to find one damn fraudulent ballot to make the point that what was done in Pennsylvania by the Biden Campaign, by the D.N.C., by the state Democrats and by their officials violated the Federal Constitution. Period. Whether there is fraudulent votes or not -- and there are, and a lot -- but they violated the specific language of the Federal Constitution because they had a Republican legislature and they needed to go around them. The same thing happened in the State of Wisconsin. The same thing happened in the State of Michigan. Non-legislature public officials, Secretaries of State and even worse, in Wisconsin local officials in Milwaukee, local officials in Madison, local officials in other large Democrat states in the city, they made their own decisions. The Republican legislature had no say. In Michigan, the left-wing Democrat Secretary of State sent out seven million mail-in ballots unsolicited. Specifically violates state law where you have to request these ballots. What else did they do? In some of these states, they encouraged people to violate the law that they did not have to have IDs and other things that were taking place. That is four battleground states where the electors must not be counted if we are to uphold the Constitution and the franchise of the rest of the American people in this country, otherwise the electoral system is utterly lawless. They just read the legislature out of the Federal Constitution in that section where they are specifically mentioned. "The legislature shall direct," not the Governor, not the Secretary of State, not the Attorney General, not a State Court, not a Federal Court, no court. Where was the Supreme Court? You hear former prosecutors who don't know any of this stuff, professors, eggheads, who know none of the stuff because they don't like the Constitution. What did the Supreme Court do? Well, in the Michigan case, there was an appeal and a Federal Judge interfered with what was going on there and the Supreme Court said, you know what, Federal Judge, you can't do that. Gorsuch wrote that, State legislatures decide, not State Courts, not Federal Courts, not Governors. It says "legislatures shall direct." This is not even confusing. This is black and white. Even Joe Scarborough can read it and understand it, which is a very, very low level. Okay, that's what it says. So then we come to Pennsylvania, the Republican Party of Pennsylvania brought a lawsuit and said that the Supreme Court of Pennsylvania and the Governor and the State -- Secretary of State are all destroying the section of the Constitution and undermining the legislature. The legislatures actually objecting to this. So the Supreme Court does what? Nothing. John Roberts decides -- the Great Chief Justice of the United States. John Roberts says -- we will ask the Supreme Court of Pennsylvania, and maybe they can do these things. Is that what the Constitution says? I mean, even John Roberts, Mr. Obamacare, you would think he would be at least literate in the Constitution or maybe even English, that would help. It doesn't matter if it's a State Court or Federal Court or State official or Federal official. The state legislature, Mr. Chief Justice, decides. But he has gone Hollywood. He has gone political. He wants nothing to do with any of this. So, Sam Alito twice orders the Secretary of State to segregate those votes. That is any of those votes that are mail-in votes, segregate those votes. So you have people going on TV saying, well, that would not change the outcome of Pennsylvania. It's unconstitutional. What they did is unconstitutional and the Supreme Court, which uses judicial review to get involved in every damn aspect of our society, every single piece of it, we are not going to get involved in this. And so what do they say? Nothing. Nothing. So they've contributed mightily to the plight that we are in today. So there are two bodies under the Constitution then who are supposed to deal with this. In the first instance, it is the state legislature. The Democratic Party systematically attacked the Constitution and our election system successfully. Attacked it. Attacked it. They attacked it through lobbying their Democrat officials. They attacked it through litigation and so forth and you might say, well, look at Georgia. That was a Republican Secretary of State. I don't care if he's a Republican. I don't care if he's an Independent. I don't care if he's a communist or libertarian. It doesn't matter to me. He did not have the power to enter into a Consent Decree with Stacey Abrams' group and change the signature requirements, but it did not have an effect. Of course, it had an effect, but that doesn't matter. They violated the Constitution. People are violating an unconstitutional process as a result of what these Democrats pushed whether it is legislation, whether lobbying or whether it is RINOs, it doesn't matter. It doesn't matter. So right now, the baseline is for our next election, all this lawlessness and even though the Constitution says the legislature shall direct. The legislature now has no power because the State Court will decide or a Governor will decide or at least other states. In Wisconsin, bureaucrats will decide. Boards of Elections were deciding. They were changing the rules on COVID, oh COVID. Nothing to do with COVID. This was Nancy Pelosi's dream to turn the country into California when it comes to voting, so the Democrats can't lose, so they build supermajorities and then when they get in, what do they do? Do they play fair? Of course not. Remember, we can't comply with any of this unless we want to. No, we reject our founding, we reject our history. Remember the 1619 Project? Anything goes. We are progressives. We are neo-Marxists. We are statists. We are whatever they call themselves or whatever we call them. So this means nothing to them. They've told us what they intend to do if they win these Georgia seats. So I want to talk specifically to the people of Georgia. You are our last line of defense when it comes to the United States Senate. You are it. If you have any inclination to sit at home, you better stand the hell up. I'm not asking you to go to war. We are not asking you to put your lives on the line. We have brave young men and women who do that every single day. We are asking you to vote, not just for Georgia, but for the rest of us. We are asking you to vote for the rest of us, whether you like the Republican candidates or not, it doesn't matter. I would vote for an orange juice can over these radical left-wing coots particularly this guy, Raphael Warnock who is an anti-Semite, who is a race baiter, who clearly hates this country and the idea that he is going to serve in the United States Senate. Then you have the other kook who is basically a trust fund candidate. He is 33 years old. He is looking to run for offices. His financial activities with Communist China, he will not reveal, even went to the left-wing kook newspapers. I forget if it was

"The Post" or "The Times" who said, hey, you know, this could be an issue. Do we have to wait until after the election to find all of this stuff out? And Joe Biden and Kamala Harris are going into Georgia and campaigning for Warnock who is an anti-Semite, who has said outrageous things about Jews and the State of Israel. They are campaigning for them because the Democratic Party has an anti-Semitism problem, but they don't want to recognize it, and of course, the papers are going to defend them. I want to talk to the Republicans, particularly in the United States Senate, but also in the House. **Any Republican who does not stand up to this on January 6, win, lose or draw, it's the principal, it is the issue and the American people need to understand you are serious about defending the Constitution.** You are shredding the Constitution along with all those Democrats and the Democratic Party who put the nation in this position. Do you understand me, Mitch McConnell? John Thune? John Cornyn? The republican leadership in the Senate has been utterly pathetic. We're not taking election from anybody. They destroyed the election laws and are destroying the Constitution and you have taken an oath to uphold it. You need to protect that Constitution and you need to protect the American people and you need to stare down the left-wing media in this country and you need to stare down the people in that chamber who have done this to us. That is what you are required to do as far as I am concerned. And the House, you not need to listen to people like Adam Kinzinger and others who put out YouTube videos about how righteous they are. Or Ben Sasse, even worse. These people do not understand the Constitution and they are not defending it or supporting the Constitution. We have a chance in this country. It is left to Congress. **Despite what the media said on Election Night, their announcements did not choose the President, despite what the media said when electors were chosen by the states that does not choose the President. What happens in terms of choosing the President is on January 6 when both chambers of Congress meet jointly and determine which electors to count and which ones matter.** I understand it's a high hurdle. I understand that Congress has passed a statute a long time ago in the 1800s where it's a big hurdle for Republicans to get over because they don't control House and God forbid, I hope they do control the Senate. **But that doesn't mean you don't fight for the Constitution and the country and for a President of the United States who, in my view, was re-elected, otherwise why would these Democrats do all the things that they have done?** It was a strategic attack on the American people, the Constitution and our electoral system. It is time for everybody to stand up and be heard. Up next, do you see this? This is Joe Biden's plan for the future. I called it his Socialist Manifesto. It smells awfully like Stalin's Soviet Constitution.

MARIA BARTIROMO

12/18/20 - Mornings with Maria

Maria Bartiromo: "I think you make such an important point, Herschel, because we all want to see accountability in terms of the perpetrators who broke the law because they did not like Donald Trump." Christian, I want to play something that you posted on Instagram this week. I loved it. I played it over and over again. You posted this following the Electoral College vote. Let's take a watch.

(BEGIN VIDEO CLIP)

CHRISTIAN WALKER, SON OF HERSHEL WALKER: Let me break this down for any liberals who are being a little boisterous and out of control today. Article Two Section One of the Constitution, check into it. The electors might have cast their votes today. They're not counted until January 6th, when Congress meets.

And for your information, seven states sent their GOP electors to vote for Trump today: Pennsylvania, Georgia, Michigan, Wisconsin, Arizona, Nevada, New Mexico. **This preserves President Trump's right to remedy the fraud with his own electors. This isn't over yet.**

(END VIDEO CLIP)

Bartiromo: **"I just love that.** Christian, tell me about that. The president agrees, this is not over yet. How do you see this playing out? And what are you looking for, Christian, in terms of more information about uncovering fraud?"

C. Walker: "Well, I think it's really important for American citizens to understand that the Electoral College votes aren't certified until January 6th when Congress meets for a joint session with the vice president. The vice president then counts the votes. I think a lot of Democrats think the election is finalized and totally over **and it's simply not over.** We have to finish the process. A lot of American citizens are concerned with the integrity of this election. So it's important that we go through the process and see how things playing out. **This election is far from over.**"

Bartiromo: **"Yes, that is absolutely right.** And that's why there's so much concentration right now, Herschel, on Georgia.

because people are wondering, is there going to be fraud there? You're going to be campaigning, and you have been campaigning with Senators David Perdue and Kelly Loeffler. What's your take on where we are with the presidential election and what you're expecting in Georgia come January 5th, Herschel."

H. Walker: "Well, to be honest with you, I expect this president to be president for four more years. I think there's going to be a lot of things that's going to be brought out and I think a lot of people are going to -- I think they need to go to jail. I think there shouldn't be two laws, a law for the people and a law for the people in Washington that seem to be bad players. But I think this president here, one of the greatest legacies he can leave, it will leave us with a good -- good electoral system, meaning that everybody have a right to vote, a right to vote. And I think that's one of the best things he can leave for us is that because I think taking away our right to vote is the worst thing you can do. But this election in Georgia right now, I'm ashamed of what's going on in Georgia. I'm ashamed that the leaders decide not to be leaders but decide to hide and not protect the people. Right now this election's going to be tight, but everyone just has a legal vote to vote, need to get out and vote and not worry about what's going on in Washington. Let Washington take care of itself because I do trust in this president and I do think he's going to bring the bad players to justice. And I will be right there with him and I'll fight along with him as long as I need to fight with him because he's right, there was something that was done wrong. People need to be punished for it because I think that's the only way we can make this country free."

12/20/20 - Sunday Morning Futures

Maria Bartiromo: "And, Christian, you have also been talking a lot about the presidential election. I saw your post on Instagram, **which I thought was great**. You were basically underlining Section 1, Article 2 of the Constitution. Tell us about it."

C. Walker: "Well it's imperative that Americans understand that our Electoral College votes aren't certified until January 6, when Congress meets for a joint session, both the House and the Senate, with the vice president. A lot of Democrats right now are acting rather boisterous, braggadocios, **arrogant that the election is over. It's not over until it's over. January 6, the vice president will count the votes**. I know a lot of Americans are concerned with the integrity of this election. I am. And so I'd like to finish the process out before anyone is bragging about it and -- yes."

Bartiromo: "Yes, and that's pretty much what you said on Instagram, **which was great**. It went viral."

12/21/20 - Mornings with Maria

Peter Navarro: "So the bottom line here, Maria, look, if Joe Biden won this election with legal votes, I'm going to be the first one to congratulate him."

Bartiromo: "Yes."

Navarro: "But I've -- I've looked at the -- look, I got a Harvard PHD in economics, done a lot of legal research --"

Bartiromo: "Yes."

Navarro: "Poured through thousands of documents, done the homework that the media out there has not done. **My conclusion is that this election was likely stolen from Donald J. Trump**."

Bartiromo: "Yes."

Navarro: "And the people of America are not going to put up with that. Remember, Maria, in 1960 --"

Bartiromo: "Yes."

Navarro: "Mayor Richard Daley stole the election from John F. Kennedy for -- for John F. Kennedy on behalf of Nixon."

Bartiromo: "Wow."

Navarro: "History books are going to show that this was a much bigger, bigger effort. Bend, break the rules."

Bartiromo: "So extraordinary."

SEAN HANNITY

1/18/21 - Hannity

Sean Hannity: "Now, big tech's blatant abuse and bias is on full display again tonight, because while the platform has banned President Trump and other prominent conservatives, it has no problem letting the far left activists charged last week in the Capitol riots continued to tweet freely. Where is Mr. Free Speech @ Jack now?"

...
Sean Hannity: "Even so-called moderate Democrat, Joe Manchin, he's caved into the mob pressure. He wants to consider a plan to remove Senator Hawley and Senator Ted Cruz from Congress. He wants to use the 14th Amendment. In other words, bypass the will of the people in Texas and Missouri. Just totally ignore what they want, and again, **all because they supported what was a perfectly legal audit of the election results as part of an electoral challenge**, something the Democrats themselves did in 2000, 2004, 2016."

1/7/21 - Hannity

HANNITY: An important speech and as is the president's signature style, he fought as hard as he possibly could. After the actions of Congress last night, pretty much any remedy he had and what he's been fighting for have been exhausted.

President's right to do it. Law and order must always prevail. Calm must be restored. We must get on with the business of America, all true, and an important part of that business is fixing flaws in our election process. Every state legislature needs to get busy.

MATT GAETZ: You know what? Josh Hawley and Ted Cruz are patriots, because they saw something was wrong, they said something about it, we made our objections and now we all have an obligation to make sure we run clean elections in the future because it is still my belief, the people who actually showed up and voted, among the people who had identification tied to their ballot, Donald Trump won this election in a landslide.

1/6/21

HANNITY: At the same time, on the Senate floor, Senator Ted Cruz was leading an effort to force a 10-day emergency audit of the election results. Why? To address the concerns -- to, for example, look at the Gallup poll, 83 percent of Republicans, almost 30 percent of independents, millions of Democrats that saw irregularities and their strong belief the election was, in fact, fraudulent.

...
There are also serious claims of fraud in Wisconsin. In other words, the law in Wisconsin, a place like Michigan, well, state law, well, expressly prohibits early voting. Well, how come it occurred? Well, we had a powerful dissent in that 3-4 decision.

...
We do need an investigation into irregularities, fraud. We do need a way forward together. We need election security reforms.

1/5/21

HANNITY: Make no mistake, tonight's two races could not be any more important. As we speak, all eyes are on DeKalb, Fulton County, which were wrought with irregularities, claims of fraud and abuse during the general election.

...
And in that election, there were, just like this election, serious allegations of voter fraud in three states, in Florida, in Louisiana, and South Carolina.

And what did Congress do in 1877? Congress didn't throw up its hands and say, we have no solution here, we can't do anything, we've got to ignore these allegations of voter fraud. No.

12/24/20 - Hannity

HANNITY: "Now they want to lecture all of us, around 75 million, about the 2020 election. They want you, they want everybody to ignore any and all claims of fraud and abuse. That would mean they want you to forget about -- well, we've proven the case, **state laws were absolutely not followed. They were broken in many cases.**"

12/15/20 - Hannity

HANNITY: "Journalism. I said it in '07, is dead. They don't care about facts, they don't care about truth, **they only care about Democrats winning elections, and even if they have to cheat.** That's it. That's the mission. Fake news CNN, MSDNC, ABC, CBS, NBC, "The New York Times," Washington compost. That's Erik Pimple's paper. He's obsessed with us."

12/14/20 - Hannity

HANNITY: Now they want to lecture all of us, around 75 million, about the 2020 election. They want you, they want everybody to ignore any and all claims of fraud and abuse. That would mean they want you to forget about -- well, **we've proven the case, state laws were absolutely not followed. They were broken in many cases.**

12/11/20 - Hannity

RUDY GIULIANI: In the case of -- for example, of the state of Georgia, there's the videotape that in and of itself shows the election stolen right in front of your eyes, live on tape. You can't just discount that.

...
RUDY GIULIANI: Eight hundred and eighty-two thousand seven hundred and seventy ballots were counted in Philadelphia and Pittsburgh without a single Republican observer. I mean, that's outrageous. That's -- I mean, that's a landslide election stolen. President Trump, if you were to look at Pennsylvania, won Pennsylvania by 300,000 to 400,000 votes. It's been stolen from him and his people have not even had a chance to have a hearing to prove that. Well, we believe it's been stolen from us. We believe we have facts that allege that and we are not being given a chance to have a hearing on it. ... And this is going to leave a terrible, terrible division among the American people because there's no question that these allegations have not been resolved, they're wide open, they draw a line right in the middle of this election. We're talking about millions of votes, hundreds of thousands and millions of votes that were stolen. A hundred thousand votes driven into an arena in Detroit at 4:30 in the morning, taken off the truck with garbage pails and counted all for Biden.

...
HANNITY: How about the suitcases under the table after you kick out the media and you kick out observers and then you start counting when you say no more counting is going happen?

...
GIULIANI: I mean, listen to the facts, what are you so afraid of? What are you so afraid of? Listen to the facts. Let us play the tape. Let's show you how 70,000 votes were stolen that actually in of itself changed the result in Georgia. We can show that to you on tape.

...
HANNITY: All right. So, we just heard from Rudy. You have these pending state cases. The clock is obviously now a big factor on all of this moving forward. And -- but, you know, I will tell you and I agree with the 83 percent in Gallup and 77 percent in Quinnipiac, and I think FOX had a poll out today, 70 whatever percent, what percentage of Democrats. I think even Democrats see the irregularities that you and I pointed out on the show pretty much every night.

...
HANNITY: All right. This is a Fox News alert: the Supreme Court has rejected the Texas lawsuit, huge blow not only to the president but yeah, 83 percent of Republicans and 26 percent of independents and even 10 percent of Democrats that have watched and witnessed whistle-blowers and eyewitnesses and evidence and video and **have concluded this election was never done fairly, and more on that. I stand with them.** I have more on that.

...
Make no mistake, few exceptions -- there are no journalists at CNN, NBC, MSDNC, the media mob, anywhere -- they are all Democratic operatives. They're all an extension of all things Democratic socialist and Biden press operations, the same partisan liars, the same people that spread the Russian hoax almost four long years of lies and conspiracy theories, they've covered -- the same people who covered up for Hunter Biden when it mattered the most, and now, finally, telling you the American people to sit down and just shut up and accept the very flawed election results.

12/10/20 - Hannity

HANNITY: Let's break down why this Texas election challenge is so important and gaining momentum. This is the latest poll. It's out of Quinnipiac, **77 percent of Republicans believe they are in fact was widespread voter fraud, 77 percent, Gallup has it higher. They put the number over 83 percent. And to be very clear, I agree with all of you, all 77 and all 83 percent. I stand with you.**

12/9/20 - Hannity

HANNITY: "Look at this Marist poll, 24 percent of Republicans have confidence in election results, 62 percent, they don't even want the president to concede the election after this mess. A huge majority of Republicans -- well, **they now see that the election was fraudulent and corrupt.**"

12/8/20 - Hannity

HANNITY: "I had no idea hiding Biden was that popular. I'm having a hard time getting over that he got 15 million votes more than Barack Obama. **I don't know -- I'm kind of suspicious. I'm suspicious he got 15 million more votes than Hillary, too.** I don't know. He couldn't get 1,000 people for his virtual Thanksgiving message to sign up. Nobody on the campaign trail would go to any event that he did. And, of course, in every major city, except for Atlanta, Milwaukee, Detroit, Philadelphia, and out in Nevada, oh, it seems that Joe Biden underperformed with minority voters, but overperformed in these very, well, how conveniently happening cities I mentioned."

12/7/20 - Hannity

HANNITY: "Tonight, once again, we are tracking developments in multiple states where **claims of this election irregularities, they just stack up, stack up, all whistleblowers.**"

...
NEWT GINGRICH: "But also remember, as you know from this recent video, which they're trying to explain away, they have a security camera watching four Democrats after they sent all the Republican observers home open up these suitcases pull them off and open up these suitcases. **we have no idea to what degree that they were stealing votes.** But it's very strange how big the margin was for Joe Biden out of these suitcases."

12/3/20 - Hannity

HANNITY: "Tonight, we are tracking multiple stories, serious allegations of election irregularities all across the country tonight, a lot of news tonight. In Georgia, look at this new surveillance footage we'll be showing you. Mysterious suitcases potentially filled, we believe with ballots rolled out from under a table after partisan election observers were asked to leave the room."

...
HANNITY: "For weeks, the mob, the media, the Democrats, and everybody in one voice have been saying, there is no evidence of widespread election irregularities. Night after night, on this program, we've been telling you about all the affidavits. We told you about what the affidavit said. We've told you partisan observers could never observe and **now, we are getting to the mountain of evidence and you're hearing directly from the witnesses. That's called evidence.**"

12/2/20 - Hannity

HANNITY: "Now, the president is right. **We have a duty to investigate every legitimate claim of fraud and abuse. Every American should be shocked by what we heard to the core from witness after witness these last few days.** ... Total, completely ignoring what are very serious allegations of election fraud and abuse. It's not just Michigan, it's Nevada. We're now told that the 15 deposed witnesses will be coming forward with their allegations in the next day, including claims over 130,000 votes in that state were counted illegally."

12/1/20 - Hannity

HANNITY: "Tonight, we're going to do things on the show a little bit differently. Coming up, you're going to hear a little less for me in our opening monologue, more from your fellow American citizens. In other words, whistle-blowers from around the country who are now speaking out and coming forward and sharing what are their first-hand accounts of election irregularities. ... **The irregularities that they brought to light are unacceptable and, by the way, there are hundreds and hundreds and hundreds of sworn legal affidavits.** The American people in every state, we deserve better. All the states that got it right, we have full confidence in the integrity and the vote in the outcome. Well, they deserve a fair vote for their -- in every state for them too. In order to find a solution, we need to know what went wrong."

11/30/20 - Hannity

HANNITY: "They are nothing more than a glorified overpaid wing of the Democratic Party. They're the propaganda arm. They'll spread lies, conspiracy theories, have temper tantrums, give us the lectures, and I think we can take a few weeks to investigate election irregularities."

...
According to a poll, new "Politico" survey, nearly 80 percent of Trump voters believe this election was tainted with fraud. And you have every right not to have faith and confidence. ... **How come all these other states got it right? We have a right to be concerned. We'll follow the facts, we'll highlight concerning allegations and irregularities.**

So, yeah, I actually agree with "The New York Times." They highlighted the vulnerabilities and fraud that come with mail-in voting. I also agree in 2005, we had a report, James Baker, Jimmy Carter. It concluded absentee ballots remain the largest source of potential voter fraud.

...

HANNITY: So, all of you in the media mob, oh, this is a threat to democracy, asking questions about election irregularities -- save us your phony B.S. lectures. They are meaningless to the rest of us. You dragged this country through hell. You did it again with your phony Ukrainian impeachment witch hunt.

...

HANNITY: Quite frankly, the Georgia governor and Georgia secretary of state have been awful. They need to do more, like calling session of legislature and instill confidence in the voting process. For Georgia, this impacts the whole country. Serious questions need to be answered regarding valid irregularities in places like Fulton County. Why does the judge say, OK, we're going to not erase the Dominion machines. OK, you can erase, no, you can't erase them? What?"

11/26/20 - Hannity

HANNITY: "And, now, all of a sudden, we are supposed to submit to their power without being able to ask a legitimate question as people come forward and say, by the way, I wasn't allowed to follow the law and observe the vote counting and how this election was conducted, or just supposed to forget their vicious, vile attacks over the past four years. Well, excuse me, I'm sorry, that's not how this is going to work, at least not in this program, during this hour and other hours of friends of ours here. I won't and cannot -- **we cannot be intimidated into silence**. We're not going to be lectured by the same media frauds and Democrats, you know, the ones that called us clumps, irredeemable, deplorable, sexist, racist, Islamophobe, homophobes, smelly Walmart shoppers, yeah, we cling to our God, our guns, our Constitution, our religion, and bibles -- while they have been fueling a blind rage every second, every hour, of every day."

11/19/20 - Hannity

HANNITY: "Democrats, the mob and media, they refused to care, instead continue to dismiss, downplay any real evidence, real Americans talking about voter irregularities, election law violations. ... Where are you, Senator Warren? Senator Klobuchar? No longer care about election irregularities, as long as you get the result you want? You think the media mob would be doing it right now if thousands of uncounted ballots this week turned up in a close date for Joe Biden? Do you think the media would be silent? Do you think they would care at all? They don't seem to care at all."

11/18/20 - Hannity

HANNITY: "Now, the president wants to take a few weeks, count every legal vote, investigate every claim of fraud and abuse, and the media acts like the world is ending. Obviously, with amnesia the last four years. They don't care about the thousands of previously uncounted votes we're discovering just this week in Georgia. They don't care about the two men charged in California. Why? Submitting 8,000 ballot applications for fake or dead voters. Don't seem to care about the impending possible recounts in Wisconsin after allegations over voter fraud they are carried by election officials in two heavily Democratic counties. In fact, breaking tonight, Democrats are trying to change -- get this -- the state's recount rules in Wisconsin to actually make it more difficult to review mail in ballots, after the vote. Clearly, they don't care about the validity of any of those ballots. They don't care about partisan election observers blocked from polling locations. They don't care about the chaos causing widespread made in voting, and by the way mail-in voting. And they don't care about outdated voter rolls and the lack of voter ID. And that leaves states vulnerable to fraud and to abuse and how can anyone have confidence in any of this? They don't care about security, they don't care about the accuracy of voting machines that they themselves and "The New York Times" and Princeton professors, and the "A.P.", all criticized. They don't care about any of it because they got the result they wanted. And for them, that's all that matters."

11/13/20 - Hannity

HANNITY: "Every legal vote counted, and accurately. What happened to Speaker Pelosi? She now sounds like Donald Trump. Where are her cries for election integrity now? Instead of counting every legal vote, which she said she wanted to do then, Pelosi wants to take the election chaos now a step further with a so-called election reform bill, that would make it even harder to verify votes, even more mail-in ballots, less voter identification, and as we have documented for nearly two weeks on this program, there has been widespread reports of irregularities, arbitrarily discarded election laws, dead people -- oh, that's my favorite -- casting ballots. Millions of mail-in votes susceptible, as "The New York Times" reminded us, to fraud and abuse."

...

TAMMY BRUCE: "It is about knowing that our families will be safe, stopping this obscene use of a crisis and suffering, including the coronavirus, instilling fear, so that they can try to steal an election, all because they are embarrassed, because he's the holder of the secret, because with every success of his, he exposed their failure. Even to the point of the vaccine, Cuomo saying, well, it came out two months too early, in fact, no matter the suffering, they do not care, because Donald Trump showed everybody, not just the Democratic Party, what failure and frauds they were, but the entire system."

...

HANNITY: "And meanwhile, down in Georgia, we have an ongoing hand recount. There is only one election monitor, apparently, for every ten table vote counting. Now, does not inspire confidence in you? It doesn't to me. North Carolina, surveillance footage, you'll love this, showing the husband of a local Democratic candidate repeatedly escorting voters inside the polling location, to cast their ballots. One video actually shows him marking a voter's ballot. Oh, but we were told there is never any fraud."

11/12/13 - Hannity

HANNITY: "Tonight, we did reach out to Dominion and they were claiming that this was caused by a human error. It had nothing to do with their operating system. But according to several reports, there may be -- there may be a lot more to this story. For example, back in June, during Georgia's primary, there were a lot of serious issues surrounding the state's Dominion voting machines. According to "The New York Times", quote: In some cases, the new machines require too much extra power for aging polling locations, blowing fuses and never powering on. In others, workers who are still being trained just days before the election, they struggled with the set up. Then, "The Times" goes on to write, quote, the electronic poll books, also new, were plagued by freezing software and user error. Now, keep in mind, during the presidential election, Dominion voting machines, they were used in all of Georgia's 159 counties and as we all know, that is a state with a razor-thin margin. So, the question must be asked -- by the way, don't expect the media mob to ever ask it, are Dominions systems prone to human error? Seventy-two million Americans voted for Donald Trump. All of them, all of us deserve an answer, and that's not the only concern being raised. In 2018, let's go to the liberal "A.P." reporting that Dominion, quote, long skimped on security in favor of convenience making it more difficult to detect intrusions. In fact, Dominion voting systems were rejected three times by data communications experts for Texas secretary of state and attorney general's office for failing to meet basic simple security standards, once rejected in 2013, twice rejected in 2019. That would be last year. In 2018, a prominent tenured Princeton professor who specialized in election machinery, policy, security, his name is Andrew Appel, he issued an op-ed blasting Dominion over security concerns. And according to the professor, quote: The Dominion ImageCast Evolution looks like a pretty good voting machine but it has a serious design flaw. After you mark your ballot and after you review your ballots, the voting machine can print more votes on it. Yeah, that's a big problem. He then goes on, quote: Of course, the legitimate software installed by Dominion won't do that, but the machine is physically capable of it and fraudulent software can exploit that ability. And during a hearing on Capitol Hill 2017, Dr. Appel, remember, a tenured professor, Princeton, I would assume a pretty smart guy, explained how fraudulent software could be used to seriously alter elections. Wow, just two short years ago. Take a look."

(BEGIN VIDEO CLIP)

ANDREW APPEL, "PRINCETON UNIVERSITY: Each voting machine is a computer running a computer program. Whether that computer counts the votes accurately or makes mistakes or cheats by shifting votes from one candidate to another depends on what software is installed in the computer. Installing software is how you hack a voting machine to cheat. I wrote a vote stealing program that shifts votes from one candidate to another. Installing that vote stealing program in a voting machine takes 7 minutes per machine with a screwdriver. The software I built was not rocket science, any computer programmer could write the same code. Once it's installed, it could steal elections without detection for years to come.

(END VIDEO CLIP)

HANNITY: "Now, am I saying tonight this happened with Dominion in this cycle? No. How would I possibly know?"

11/10/20 - Hannity

HANNITY: "Coming up, we are going to show you examples of serious irregularities, also bring your report out of the state of Georgia tonight where the authenticity of certain absentee ballot is now being called into question. Let us be clear, with razor-thin margins in multiple states, we, you the American people, have a right to investigate every single claim of fraud and abuse and have a duty to count every single legal vote. And after years of being lied to, smeared, slandered, and frankly censored now by America's most powerful institutions, bureaucrats in the deep state, the hacks and the media mob, the 99 percent, we're not just going to take their word for anything. We know we can't trust them."

11/9/20 - Hannity

HANNITY: "But tonight, the mob that you know is, what do I say, the 99 percent media mob, the Washington swamp, Joe Biden, all desperate -- they want to just call it a day and stop you from asking legitimate, tough questions about the election, about the process, about your vote even as a razor-thin margins still separate the candidates in key important battleground states. And, oh, and people are actually saying things that say impropriety they witnessed and were part of, and people -- they watched it with their own eyes. Should they not be listened to? The president and his campaign -- they are vowing to

ensure every legal vote is counted and ensuring that we have free and fair elections, ensuring that all the laws of every state were followed. That is the basis of this great democratic republic. Democrats, their sycophants, the extension of their press room, the media mob, they just want to try and block any and all audit of what are now growing examples and, frankly, affidavits of ballot irregularities and outright illegality. Now, because, coming up, we have even more evidence of suspicious ballot counting, whistle-blower accounts of what has happened behind the scenes, Republican observers being blocked for monitoring vote counting which by the way we will show you is a violation of state election laws.”

JEANINE PIRRO

1/6/21 - Justice with Judge Jeanine

JUDGE JEANINE PIRRO: Happy New Year and welcome to the first show of JUSTICE this year, 2021 I'm Judge Jeanine Pirro. Thanks so much for being with us tonight. We've got a packed show and a lot of news. But first, my open. It may be a New Year, but I'm not so sure much has changed from 48 hours ago. The left's hypocrisy continues to know no bounds. **January 6, when the Electoral College vote will be formally counted is just a few days away. Yet how much do you even know about January 6th, and the congressional mechanism in place? The mainstream media doesn't talk about it. They prefer that the Joe Biden presidency be considered a done deal. Move on, you truth deniers.**

We're being told that it is futile, disruptive, an exercise in lunacy to even question the Joe Biden is the legitimately elected President of the United States. Almost laughable, given the left's refusal to accept Donald Trump as legitimately elected, even after their Russian collusion nonsense fizzled \$40 million and three years later. And Hillary Clinton, well, she's still moaning to anyone who will listen that she was robbed in 2016. But let's analyze the significance of this day, which follows every presidential election. This Wednesday at one o'clock in Washington, D.C., there will be a bicameral meeting of the new Congress. They will meet in this highly unusual joint session to count the electoral votes from the presidential race. Vice President Mike Pence will chair the roll call on this Electoral College certification process. The process begins with a call state by state. If there is a challenge by any House member and any senator claiming that something was wrong in the way the electors of that state were counted, the session is immediately halted.

The House and the Senate then go to their separate chambers and debate for two hours, after which they return and vote. Both chambers must agree to remove electors from that particular state in order to sustain an objection, and for it to even matter. Now, the power to invalidate electors rests solely within this joint session. If by chance, there is agreement of an irregularity and the Biden electoral count is reduced to under 270, then Congress elects the President. The House votes for President, the Senate votes for Vice President. The House votes by state. There are 30 Republican states and 20 Democrats. Now, this is nothing new. It's been the law since the 1880s. But to hear the Democrats you would think that the process itself is made up, unconstitutional, illegal and just plain unethical plot. The only thing that is new is the venom used to attack anyone who seeks to use this procedure in the manner in which it was legally intended. Now Senator Josh Hawley has already announced that at this electoral certification process, he will object to specific states failing to follow their own election laws.

(BEGIN VIDEO CLIP)

SEN. JOSH HAWLEY (R-MO): My view is this, that this is my opportunity to stand up and say something, to stand up and point out that there were irregularities in this election, and that there was fraud.

(END VIDEO CLIP)

Hawley is within his right to do so in spite of the fact Democrats claim that the Republicans are the disruptors, yet, it was the Democrats in 1969, in 2001, in 2005, and in 2017 who challenged the electors. Following the 2004 presidential election, California Senator Barbara Boxer objected to and delayed ratification and then enter the real disruptors, the Democrats, the ones that we all know and love, starting with hypocrite on high, Nancy Pelosi. She defended Boxer's objections. Take a listen.

(BEGIN VIDEO CLIP)

REP. NANCY PELOSI (D-CA): Today we are witnessing democracy at work. This isn't as some of our Republican colleagues have referred to it sadly as frivolous. This debate is fundamental to our democracy.

(END VIDEO CLIP)

PIRRO: And good old, get in their face. Maxine Waters charged at the Ohio election was stolen, saying, quote, "I'm ashamed to say an African-American man failed to pursue voter intimidation." Jerry Nadler, the bozo, the one who says that Antifa is a myth said in 2005, part of his objection to the electors was, quote, "The right to vote has been stolen from qualified voters." And yet we're the crazy ones. We are the truth deniers. We are the disruptors. Separate from Josh Hawley's objections, though, hours ago, a different group of G.O.P. senators led by Texas Senator Ted Cruz indicated that they will object to the Electoral College certification and demand an emergency audit. He is joined by the following senators: Senators Ron Johnson, James Lankford, Steve Daines, John Kennedy, Marsha Blackburn and Mike Braun as well as senator-elect -- senators-elect Cynthia Lummis, Roger Marshall, Bill Haggerty and Tommy Tuberville. **Now, these senators believe that the November 3rd election featured an unprecedented allegations of voter fraud and illegal conduct, whereas Senator Josh Hawley will object to the failure of some states to actually follow their own election laws.** Now, you know the states where laws were changed by partisan State Supreme Court Judge and Secretary of State. Now, it matters not which side of the aisle you sit, there are certain things which we, as Americans all believe: elections must be free of corruption even if there's a pandemic. No one has the right to intimidate us, shut us down, marginalize or threaten us as we fight for issues both the Constitution and the laws of Congress have actually permitted. You know, it was on New Year's Eve, on the frozen banks of the Delaware River, 245 years ago, the General George Washington soldiers were freezing cold. They were hungry without pay, facing almost certain defeat and no longer interested in fighting. They had one more day of their commission before they could go home. They weren't interested in fighting and they weren't even interested in the pay that Washington offered them. So Washington dismounted his white horse, looked them in the eye, and talked about their moment in history and fighting for freedom and justice. With three percent of the population fighting for independence against tyranny, domination and control, these hungry, tired, cold, defeated soldiers knew that it was their moment to stand up and fight for freedom. **To many, January 6th is such a moment.** It cannot be denied that all the bellwethers were upset, that the irregularities were beyond minimal, as we are all being told to simply shut up and move on. **January 6th will tell us whether there are any in Congress willing to battle for the America that those soldiers fought for, the one that you and I believe in.**

12/12/20 - Justice with Judge Jeanine

JEANINE PIRRO, FOX NEWS HOST: "Hello, and welcome to JUSTICE. I'm Judge Jeanine Pirro. Thanks so much for being with us tonight. Let's get right to my open. If you aren't convinced there's a Deep State after witnessing the antics of the mainstream media, Big Tech and the Democratic Party, so determined to destroy President Trump and get him out of office and prop up Joe Biden to get him into office, then come along with me. **They didn't just steal the election from Donald Trump, they stole it from all of you. There was a fraud in their inducement of all things Biden in order to con you. They conned you and they conned America. They wanted to win no matter what. Win at all costs. You didn't matter. You never mattered because it was never about you.** It was about power, their power, the kind of power that corrupts absolutely. People in office too long, so long they have a sense of entitlement. So convinced of their superiority, there's supremacy, they justify to themselves and occasionally to us, like when Speaker Pelosi in office for far too long admits she held off getting you PPP money so that Donald Trump wouldn't get credit. She was willing to have us suffer as she waited for Biden, because somehow she knew he would win. In spite of the fact President Trump wanted to give those hurting \$2 billion. She would have none of it. She stole that from you. The Deep State controlled the flow of information, the bad and the ugly about the Biden's as they made up information, bad and ugly about the Trump's. They not only hid the dirt that many of us were telling you about the Biden crime family, disgusting, ugly and treasonous. They made up lies and breathed never ending life into them to destroy a President fighting for us."

12/5/20 - Justice with Judge Jeanine

Jeanine Pirro: "More from President Trump's -- more from President Trump's raucous rally for Georgia's G.O.P. Senate candidates in a few minutes, but first, my open. When 100 million people vote before an election and a huge portion are mail-in ballots, extraordinary regulatory oversight is required. When election laws are changed for a presidential election on the eve of that election in violation of the Constitution, extraordinary regulatory oversight is required. Extraordinary times call for extraordinary measures and leaders. Unfortunately, the Attorney General Bill Barr has proven himself to be anything other than extraordinary. This week, Barr commented that he has not seen fraud on a scale that could have affected a different outcome in the election. Really? It's curious, Barr, the head of the D.O.J. would affirmatively make a statement regarding a pending investigation. As a former prosecutor for over three decades, I and virtually everyone similarly situated know that D.O.J. guidelines do not allow comments on investigations. They neither confirm nor deny the existence of any investigation, yet Barr actually goes beyond that and takes it upon himself in the midst of a presidential election before some states have certified as affidavits alleging fraud continue to come in before electors have even voted -- that there is not sufficient evidence. So why would Barr do that? Why would he not continue an investigation as the evidence continues to come in? Why would he even share information on a pending investigation? It's just not done. Now, before you made that

blanket conclusory statement, did you determine the answer Bill to these allegations? On Election Night, with the president comfortably ahead in many swing states, why was the counting stopped? Why were observers not permitted to reasonably observe ballot counting? Why were observers removed from counting areas? Why did counters cheer when Republican observers were removed? Why were windows boarded up in Detroit so that observers could not observe? Why when observers were allowed to re-enter was there an unusually large number of ballots with an unusually high percentage of 90 and above for Joe Biden? And why was there a failure to match signatures on mail in ballots? Why was there a destruction of mail-in ballot envelopes, which must contain signatures? Why does a Voter Integrity Project in Georgia estimate that over 20,000 people who no longer meet residency requirements were casting ballots in Georgia where Biden's margin is only 12,000 votes?

Why are there statistical anomalies in the chain of custody breakdowns? Why are there record numbers of dead people voting? How is it that ballots in pristine condition without creases suggesting they have not been in mail-in envelopes as required by law? **Why is Joe Biden the first candidate to lose Florida and Ohio and still become President?** Might it be that Florida and Ohio have safeguards in place, which the other states do not? Why are 18 of the 19 bellwether counties historically indicative of a presidential win won by Trump and not Biden? How is it that Biden underperformed Clinton in New York, Chicago and LA, but won in the swing states cities of Milwaukee, Atlanta, Detroit and Philadelphia, each known historically for voter corruption? **How is it that Joe Biden underperformed with African-American voters everywhere but in those swing states?** Why were ballot watchers in Pennsylvania not allowed to meaningfully observe to the point where they had to get a court order, and yet when they got one they still were not allowed to observe? How is it that "The New York Times" and Jimmy Carter and James Baker and all agree that absentee ballots are the largest source of fraud, allowing for changing votes, but now are suddenly secure? Bill, did you really have an answer to all those questions before you made your premature comments? Have your U.S. attorneys even finished their investigations? Now, you know many were impressed with you, Bill because you were unflappable. And you said all the right things, but you haven't done anything that makes you any different from your predecessor, the one who spent two years hiding under his desk, Jeff Sessions. And where is the Durham report? Where are the prosecutions of individuals referred to you by the Inspector General like James Comey for perjury and Andrew McCabe for perjury? How was it that as soon as you became Attorney General, you will affirmatively came out protecting Barack Obama and Joe Biden?"

11/21/20 - Justice with Judge Jeanine

Jeanine Pirro: "The President's lawyers alleging a company called Dominion, which they say started in Venezuela with Cuban money and with the assistance of Smartmatic software, a backdoor is capable of flipping votes. And the President's lawyers alleging that American votes in a presidential election are actually counted in a foreign country. These are serious allegations, but the media has no interest in any of this. But you and I do as we should, because 73 million Americans voted for Donald Trump. Republicans took seats in the House they said would be won in a Democrat blue wave that never came, and so far we've held the Senate. They say the risk of our giving false hope should be enough to stop us two weeks later. I say the risk of not looking at what is staring us in the face is too great to not stop us. Now, the President's lawyers offered evidence by way of affidavits, which I told you last Saturday as a Judge, from a legal perspective, are sworn statements of individuals signed under penalty of perjury, meaning they know they face the penalty of prosecution and five years if they lie. These sworn statements are factual allegations are part of virtually every lawsuit. It's how you start a case. The President's lawyers have indicated that they have 250 such affidavits under oath, people ready to testify. People ready to face the hate that the left has inflicted upon all of us from day one. And you know what I'm talking about? Let's not kid ourselves. There's not a lot of violence going on right out there now because they believe they got their way. Forgive me. But I believe the only important thing is making sure that the American people and Lady Justice get their way, consequences be damned. On Thursday, Rudy Giuliani made clear the Democrats cities were targeted by crooked Democrats who stole votes. These were cities where they were comfortable with corruption, where political corruption ran through the bloodlines of cities like Pittsburgh and Philadelphia and Detroit. He described Election Night numbers going in the favor of Donald Trump, but by the next morning, absurd increases in Biden votes. Curious so many mail-in ballots for Biden with no down ticket vote. In Atlanta, a sworn affidavit under penalty of perjury. The affiant, a Fulton County observers says she observed absentee and mail-in ballots being counted, many of the boxes of ballots had voted for 100 percent Biden, zero Trump. The ballots appeared to be perfectly filled out as if they were pre-printed with the presidential candidate selected. Another declarant, who holds dual Doctorates in Economics and Engineering from Stanford states that Georgia uses Dominion Voting Systems, which has a history of technical glitches. And in Atlanta, these software glitches could have affected thousands of absentee mail-in ballots. On November 4, Biden received a batch of 134,886 votes at 6:30 in the morning. In Wisconsin, the day after the election, Biden received a dump of 143,000 votes at 3:42 a.m. The upshot in the graph is stunning. It suggests there was a pause, and then a filling in the needed votes to win. How do we know this? We knew it through affidavits, those sworn statements where you can actually go to jail if you don't tell the truth. Interesting, though, isn't it? Adam Schiff, and the Democrats can lie to us literally for years with no consequences to them. But American citizens who put themselves on the line and face the disdain, the hatred and threats of others, in a case like this, essentially, get prosecuted and witnesses are

putting themselves in the line of fire simply because they heard or saw something that was incredibly dangerous to speak of, but about which they chose to speak. Two individuals and one Dominion employee signed an affidavit, and yet there is a hue and cry by the media to see these affidavits, many of them are already on file in lawsuits across the country. But these witnesses, many of them are seeking protection and therefore their safety until the time that it is necessary for them to testify. Does anyone really believe that they are exaggerating when they say they are in fear? Does anyone really think that the group that brought us hysteria, division and chaos for four years while Donald Trump was President, and now is unusually calm? Wouldn't react to a narrative different than the one that they are comfortable with now? I ask you, what is the problem in seeking to confirm that this election had no irregularities? Why have we found thousands of ballots after the election was called? Why were observers not allowed to watch? Which was their legal right. And additionally, to make sure that everything was done correctly? As an aside, on November 5th, I tweeted that there were complaints of voter fraud. Where is the F.B.I. and the D.O.J.? The tweet was removed because some or all of the content was disputed, and might be misleading. I then asked my girlfriend, Jackie, to tweet the exact same thing. She did and her tweet has not been removed, leading me to believe that it's got nothing to do with algorithms, and that the censorship going on in this country is the censorship about individuals. Censorship of people is in full play now. **Why was there an overnight popping of the vote tabulation that cannot be explained for Biden? The issue now is, are there enough trend lines to overturn an election in an individual state? Can a court throw out thousands of votes because of instances of fraud or over voting?** How can we assess whether the provisional ballots are to be counted if a voter shows up to vote, and is told he or she has already voted by mail? How do we handle that? How do we handle the judges in Pennsylvania and the Secretary of State in Georgia who unilaterally changed the election law without the appropriate legislative authority? Should these states be able to certify when there is a constitutional issue, that clearly only the legislature can change the election rules? How is it that Biden underperformed Hillary in every city except before that Rudy accuse them -- the four cities that Rudy accused of being corrupt Democrat strongholds. These are the questions that aren't going away. For the sake of our Republic, we have an obligation to get honest and truthful answers, in fact, demand them. Stay tuned. And that's my open.

11/14/20 - Justice with Judge Jeanine

PIRRO: "We believe in free speech. We believe in accepting winners and not being sore losers. That still holds true. **But anyone who says this election doesn't deserve a closer look is a hypocrite.** If you want a free and fair election, there must be a resolution of the issues that so many people are swearing to in affidavits. A primer by the way, in the 2000 presidential race, the Democrats took their case in their candidate to the United States Supreme Court. The presidency then wasn't resolved until December 13th of that year, a month from where we are now. In 2016, Hillary may have conceded, but there were recount efforts in Wisconsin, and efforts in Pennsylvania and Michigan where Democrats challenged the votes. Certifications were not filed until December 13th, a month from now. Look, folks, under the cover of COVID, rules were changed, providing opportunities for wrongdoers. COVID cannot be used to run heard on our Constitution. COVID is not a prophylactic that prevents us from exercising our constitutional fundamental right to vote. And Joe Biden, well, he had his own view of the opportunity it presented."

(BEGIN VIDEO CLIP)

JOE BIDEN (D), PRESIDENT ELECT OF THE UNITED STATES: We have put together I think, the most extensive and inclusive voter fraud organization in the history of American politics.

(END VIDEO CLIP)

PIRRO: "So I ask, why were rules and procedures changed just before the election in Pennsylvania and Georgia because of COVID? There are affidavits and e-mails that prove that voters in Democrat counties are treated differently than voters in Republican counties. Whether the poll watchers who have a legal right to view were forced out, pushed back as far as 60 feet or not even allowed in to do what they have a legal right to do. **Why would the Democrats want to ban election observers as they count the ballots? Do they not think they could win honestly?** Why were there so many unsolicited ballots without verification signatures? Ballots without postmarks? Why did a judge in Pennsylvania go outside his power to extend the deadline to receive mail-in ballots after the legislature? The only constitutional body permitted to do so refused to do so? And why did a Trump-hating Secretary of State in Georgia agree with Stacey Abrams? And there is a lawsuit by Lin Wood in the United States District Court in Georgia contesting those decisions. Why were signature requirements loosened and mail-in valid signatures not required to match voter registration rolls? Pray tell. Now I believe in the resurrection, but dead people voting? I don't think so. Like the mother who swore that her dead son was indeed dead, but that he voted twice, I don't think so and neither did she.

And those voting machines created by Dominion, stay tuned. The best is yet to come. Now, the left talks about bringing the

country together after they created four years of chaos, accusing Trump of sowing doubt in our democracy, saying that his questioning of this election is a danger to America as if the election process being changed in the middle of an election is no big deal, as if a little fraud is okay. And they lash out on any voting challenge, casting it as a temper tantrum by us. Really? We are the ones having the temper tantrum? **The question ultimately is, will any of these allegations affect the sufficient number of votes to change the result of the election? Maybe yes, maybe no.** If the answer is President Trump did not win, then on January 20th, Joe Biden will be my President. **But until then, President Trump is my President because America has only one President at a time.** And in the meantime, please don't tell me that we cannot examine the ballots. Please do not tell me that we cannot pursue these irregularities. That's laughable. The left didn't stop on Election Day in 2016. And with all due respect, the left boycotted President Trump's inauguration. They marched in Washington in their pussy hats and had a hissy fit for four years."

NEWT GINGRICH

11/11/20 - Mornings with Maria

Newt Gingrich: "Look, if you back all the way out and look at the statistical basis of this, **Biden didn't do very well, everywhere except he's stealing it.**"

11/17/20 - Hannity

Newt Gingrich: "So, I just want you to know I'm **extremely concerned that this will be stolen** no matter how good the campaign is."

11/18/20 - Mornings with Maria

Newt Gingrich: "So I think the president owes it to the country. Forget not just his re-election, the president owes it to the American people to ensure that we understand how much corruption there has been and what -- **and how the left has rigged the game and how they've tried to basically steal the presidency.** And I think if they're allowed to get away with it, will try to steal the two seats in Georgia."

1/06/21 - Mornings with Maria

Newt Gingrich: "Well, look, I mean I think Vice President Pence is in a tough situation he presides but he doesn't control. And I think if he were to make a really bold, radical decision, he'd be over ridden by the Senate instantaneously. So he's got to figure out what -- what is his honest, constitutional duty and do it, whether it makes the president happy or not. Second, I think that what Ted Cruz is doing is actually basically right. The Constitution is very clear. The Federalist Papers explaining the Constitution are very clear. The Congress -- the founding fathers were terrified that a foreign government would manipulate our system to control the president. We see this very clearly. And I think they saw the Congress as the last place to judge, not just to be a clerk who receives, but to judge. In 1877, the Congress created a commission. Both in Jefferson's election and in John Quincy Adams' election, they took over a hundred days to decide ultimately on the electors. So this is not an automatic rubber stamp. And I think to say, couldn't we have 10 days without in any way affecting the date of the inaugural. So Biden can go ahead and draft his inaugural. Trump, who's a (INAUDIBLE), will go ahead and draft his inaugural. **But one of them will give an inaugural on the 20th of January.** Now, why can't we have -- when we have about 39 to 40 percent of the country believes this election's fraudulent, why can't we have some sort of time-out period here to get a commission to review the evidence and help the country come to grips with itself."

GREGG JARRETT

12/22/20 - Lou Dobbs Tonight

Gregg Jarrett: "We begin this evening with two critical battles that will define the future of the country. President Trump's Chief of Staff, Mark Meadows, tweeting about White House meetings with Members of Congress saying, 'Several or members of Congress just finished a meeting in the Oval Office with President Trump preparing to fight back against mounting evidence of voter fraud.' Stay tuned. **Those meetings come ahead of a critical January 6th meeting of Congress where they will vote to certify the Electoral College votes.** If a senator joins with a Member of Congress in challenging states' electors, **there is the potential those states' votes could be tossed out.**"

Subject: Result.

It's been suggested our prime time three should independently or together say something like "the election is over and Joe Biden won. We are all disappointed, but it happened. We love America and have to turn the page.
" We will now be the loyal opposition criticizing every liberal mistake the new administration makes. Their declared policies on domestic and foreign policies are naive at best, or worse, retreads of the failed Obama years.
And first, let's wear masks and unite to defeat the COVID plague".

Not those words, but a refinement would go a long way to stop the Trump myth that the election stolen. And the basis of his 2024 campaign.

Incidentally, Tucker was very good last night

No need to respond but we can talk tomorrow when we will have real figures from Georgia.

BEFORE ME, the undersigned authority, personally appeared John Poulos,
who being a credible person of lawful age first duly sworn according to law, deposes
and states as follows:

1. I am the CEO of US Dominion Inc., Dominion Voting Systems, Inc., and Dominion Voting Systems Corporation (“Dominion”). The testimony provided herein is based on my personal knowledge and, if called upon, I could and would competently testify thereto.

3. Dominion develops voting technology that utilizes an auditable, paper trail that enables Dominion's customers to test, verify and audit their election results.

4. By the end of 2009, Dominion had procured its first contract to provide voting machine technology in the U.S. market and incorporated a subsidiary, Dominion Voting Systems, Inc., in Delaware.

5. Today, Dominion's business is organized as US Dominion, Inc., a Delaware corporation, and its two wholly owned subsidiaries, Dominion Voting Systems, Inc. and Dominion Voting Systems Corporation.

6. Dominion has its headquarters in Denver, Colorado.

7. In the 2020 Presidential Election, Dominion served customers, typically counties, within 28 states and Puerto Rico.

8. Every state in which jurisdictions used Dominion voting machines in the 2020 Presidential Election certified the voting system prior to the election.

9. Dominion voting machines generated auditable paper ballots or a paper trail for votes cast in the 2020 Presidential Election in contested swing-state jurisdictions where the machines were used, including Arizona, Georgia, Michigan, and Pennsylvania.

10. In the 2020 Presidential Election, only one jurisdiction in Arizona used Dominion voting machines, Maricopa County, and every Georgia county used Dominion voting machines.

11. Dominion does not monitor votes, see votes in real-time, send votes overseas, or flip votes. Dominion did not do any of those things in the 2020 Presidential Election. It is not technologically feasible for Dominion to have done those things.

C796FC4A-BE1C-4EF2-9D39-CDB59B208153 --- 2023/01/16 12:11:47 -6:00 --- Remote Notary

12. Dominion does not provide extra ballots or “dump” ballots, nor did it do so in any jurisdiction in the 2020 Presidential Election.

13. Dominion voting machines used in the 2020 Presidential Election did not run or use Smartmatic software or technology.

14. Dominion did not engage in “corruption” or provide “significant benefits” to Georgia officials in exchange for “rushing” through a contract with Dominion. Dominion did not offer to any government official a bribe or “kickback,” any benefits to their family, or any assurance that they would win re-election, in exchange for contracting with Dominion, approving Dominion for use, or using Dominion voting machines in their jurisdiction in the 2020 Presidential Election.

15. On December 15, 2020, I gave sworn testimony before the Michigan Senate Oversight Committee. Attached as Exhibit “A” is a true and correct copy of Exhibit 1611, an exhibit marked by Fox’s counsel at my deposition in my individual capacity. The exhibit contains video of my sworn testimony.

16. During that testimony, I stated: “It is technologically impossible to see votes being counted in real time or to flip them.” I also stated: “Additionally, Dominion does not have any servers in Germany or Spain. No votes are sent overseas. Let me be clear. Ballots aren’t sent anywhere, not overseas, not over state lines, and not even over county lines. All the votes are counted by local bipartisan US election officials in the United States.” These statements are true and correct.

C796FC4A-BE1C-4EF2-9D39-CDB59B208153 --- 2023/01/16 12:11:47 -6:00 --- Remote Notary

I declare under penalty of perjury under the laws of Delaware and the United States of America that the foregoing is true and correct.

A. The rights, privileges, restrictions and conditions attached to the Class A Shares shall be as follows:

- i) The holders of Class A Shares shall not, as such, have any voting rights for the elections of directors. The holders of the Class A Shares shall, however, be entitled to notice of meetings of shareholders;
- ii) The Corporation may, upon giving not less than thirty (30) days notice, redeem the whole or any part of the Class A Shares on payment for each share to be redeemed the sum of \$1.00 (the "Redemption Amount"), together with all declared and unpaid dividends thereon. The Corporation shall give notice of such redemption to the registered holders of the shares to be redeemed, specifying the date and place or places of redemption. Such notice shall be given by means of ordinary prepaid first class mail. If notice of any such redemption be given by the Corporation in the manner aforesaid and an amount sufficient to redeem the shares be deposited with any trust company or chartered bank in Canada, as specified in the notice on or before the date fixed for redemption, dividends on the Class A Shares to be redeemed shall cease after the date so fixed for redemption, and the holders thereof shall thereafter have no rights against the Corporation in respect thereof except, upon the surrender of certificates for such shares, to receive payment therefor out of the moneys so deposited;
- iii) The holders of the Class A Shares may, upon giving notice as hereinafter provided, require the redemption of the whole or any part of their Class A shares, and receive payment of the Redemption Amount for each Class A Share, together with all declared and unpaid dividends thereon, calculated to but, excluding the date of redemption. Not less than thirty (30) days notice in writing of such requirement for redemption shall be given by mailing such notice to the Secretary of the Corporation, specifying the required date of redemption, and on the date of redemption, the holder shall receive payment of the Redemption Amount by the Corporation;
- iv) The holders of the Class A shares, in priority to the holders of the Common Shares, shall be entitled to receive and the Corporation shall pay thereon, as and when declared by the Board of Directors of the Corporation, out of any or all profits or surplus available for dividends, non-cumulative dividends at the rate of 5% of the Redemption Value of the Class A Shares per annum.
- v) In the event of the liquidation, dissolution or winding-up of the Corporation, whether voluntary or involuntary, or any other distribution of the assets of the Corporation among its shareholders for the purpose of winding up its affairs, the holders of the Class A Shares shall be entitled to receive the sum of \$1.00 per share before any amount shall be paid to the holders of the Class B Shares or the Common Shares. Except as provided above, the holders of the Class A Shares shall not be entitled to any further participation in the assets of the Corporation.

B. The rights, privileges, restrictions and conditions attached to the Class B Shares shall be as follows:

- i) The holders of Class B Shares shall not, as such, have any voting rights for the elections of directors. The holders of the Class B Shares shall, however, be entitled to notice of meetings of shareholders;
- ii) The Corporation may, upon giving not less than thirty (30) days notice, redeem the whole or any part of the Class B Shares on payment for each share to be redeemed the sum of \$1.00 (the "Redemption Amount"), together with all declared and unpaid dividends thereon. The Corporation shall give notice of such redemption to the registered holders of the shares to be redeemed, specifying the date and place or places of redemption. Such notice shall be given by means of ordinary prepaid first class mail. If notice of any such redemption be given by the Corporation in the manner aforesaid and an amount sufficient to redeem the shares be deposited with any trust company or chartered bank in Canada, as specified in the notice on or before the date fixed for redemption, dividends on the Class B Shares to be redeemed shall cease after the date so fixed for redemption, and the holders thereof shall thereafter have no rights against the Corporation in respect thereof except, upon the surrender of certificates for such shares, to receive payment therefor out of the moneys so deposited;
- iii) The holders of the Class B Shares may, upon giving notice as hereinafter provided, require the redemption of the whole or any part of their Class B shares, and receive payment of the Redemption Amount for each Class B Share, together with all declared and unpaid dividends thereon, calculated to but, excluding the date of redemption. Not less than thirty (30) days notice in writing of such requirement for redemption shall be given by mailing such notice to the Secretary of the Corporation, specifying the required date of redemption, and on the date of redemption, the holder shall receive payment of the Redemption Amount by the Corporations;
- iv) The holders of the Class B shares, in priority to the holders of the Common Shares, shall be entitled to receive and the Corporation shall pay thereon, as and when declared by the Board of Directors of the Corporation, out of any or all profits or surplus available for dividends, non-cumulative dividends at the rate of 5% of the Redemption Value of the Class B Shares per annum.
- v) In the event of the liquidation, dissolution or winding-up of the Corporation, whether voluntary or involuntary, or any other distribution of the assets of the Corporation among its shareholders for the purpose of winding up its affairs, the holders of the Class B Shares shall be entitled to receive the sum of \$1.00 per share before any amount shall be paid to the holders of the Common Shares. Except as provided above, the holders of the Class B Shares shall not be entitled to any further participation in the assets of the Corporation.

B. The rights, privileges, restrictions and conditions attached to the Common Shares shall be as follows:

- i) The holders of the Common Shares shall be entitled to receive notice of and attend all meeting of shareholders of the Corporation and shall be entitled to one (1) vote in respect of each share held by such holder;
- ii) The holders of the Common Shares shall be entitled to receive dividends if and when declared by the Board of Directors;
- iii) In the event of liquidation, dissolution or winding-up of the Corporation or other distribution of assets of the Corporation among its shareholders for the purpose of winding-up its affairs, the holders of the Common Shares shall be entitled (subject to the rights of holders of shares of any class ranking prior to the Common Shares) to receive the remaining property or assets of the Corporation.

8. The issue, transfer or ownership of shares is/is not restricted and the restrictions (if any) are as follows:
L'émission, le transfert ou la propriété d'actions est/n'est pas restreint. Les restrictions, s'il y a lieu, sont les suivantes .

No shareholders shall be entitled to sell, transfer or otherwise dispose of any share or shares in the capital of the Corporation without the unanimous prior sanction of the Board of Directors of the Corporation, expressed by a resolution passed at a meeting of the Board of Directors or by an instrument or instruments in writing signed by all the Directors of the Corporation.

9. Other provisions if any:

Dear Senators:

Thank you for your letter dated March 26, 2019 to Dominion Voting Systems. We appreciate your interest in our company and its products.

As a major provider of election products and services to counties and states across the U.S., we take our commitment to providing our customers with secure, transparent and auditable certified election systems very seriously. We also are extremely dedicated to product innovation. Your letter provides us with an opportunity to describe these commitments in further detail.

Election systems are receiving an upgrade in many communities across the United States. However, while many jurisdictions have updated their systems, others have been unable to overcome existing barriers to do the same. We believe that additional federal support and effective public-private collaborations are important elements to overcome some of these barriers.

Please find our responses to your questions accompanying this letter. We welcome the opportunity to further brief you and your staff to the extent you have any additional questions.

Regards,

Company Priorities for Federal System Certification Efforts

Dominion Voting Systems is working closely with states and localities that are seeking to replace their legacy or end-of-life systems by 2020 with certified solutions that produce paper ballots or paper audit trails for auditing and resilience. We also follow U.S. Election Assistance Commission (EAC) recommendations to maintain optimal performance of older legacy systems.¹

Our systems are designed to meet the diverse and ever-changing requirements of state and local jurisdictions. All systems are tested using an independent, federally-accredited Voting Systems Test Laboratory (VSTL) in order to meet certification standards promulgated by the EAC in conjunction with the National Institute of Standards and Technology (NIST), as well as specific requirements set forth by individual states, to include source code reviews, penetration testing, post-election auditing and more.² These certified software packages and systems are the only versions allowed to be deployed for voting by law.

Dominion has submitted systems for state certification that meet or exceed standards in the federal VVSG 1.1 framework, and our election customers have been working with us to expand features for security, auditability and accessibility.³ We have also been actively engaged with the EAC and other stakeholders in the ongoing work to finalize VVSG 2.0 guidelines. We remain hopeful that VVSG 2.0 will provide a more effective process for introducing innovations and maintenance of deployed systems. However, detailed requirements and testing criteria are crucial to moving ahead with substantive development and certification efforts under VVSG 2.0.

Congress may wish to support the EAC in efforts to modernize the current federal framework for certification and testing of election equipment. The complex pathway from lab to market impacts the pace at which new or updated solutions can be introduced. While much of the current effort around VVSG has understandably focused on establishing thorough and comprehensive testing criteria for systems, there must also be clear mechanisms for streamlined certification updates and security-focused patching.

We commend Congress and the White House for recent actions to establish a full quorum of EAC commissioners, which benefits the elections community as a whole. We urge our federal and state partners to work together to help remove additional barriers that exist for jurisdictions that want to replace their older or end-of-life voting systems. Congress may be uniquely well-suited to respond to state and local requests for additional resources.

Company Commitment to Security

Dominion recognizes that maintaining our company security posture requires constant vigilance and engagement. In preparation for 2020, our companywide security program involves three key areas: 1) Comprehensive Organizational Security; 2) Product Security and Customer Support, and; 3) Situational Awareness and Preparedness.

Our company has decades of professional experience in supporting election officials with administering and securing elections. We are committed to investing in security and innovation efforts, tracking risk and threat information, engaging in peer learning, developing new capabilities, educating the public about election technology and supporting our customers. We work hard to promote a company culture of security and cyber hygiene, with mandatory employee background screening, training and companywide adoption of advanced digital protections.

Dominion employs a “Defense in Depth” approach to our internal infrastructure. Multiple layers of protection are in place spanning user endpoints, network and systems infrastructure and cloud systems, along with multi-factor authentication. Protection efforts include technology solutions and human reviews. We conduct continuous vulnerability scanning and utilize third-party services for threat hunting and breach detection. Dominion has also implemented email verification records for SPF, DKIM and DMARC to protect communications with associates and customers. We have mandated security awareness training for all employees and routinely do internal phishing tests.

Dominion has reinforced our in-house security expertise by employing a team of seasoned professionals with backgrounds in risk management, IT security, engineering and law enforcement. Our Chief Security Officer, who has extensive federal government work experience, is accountable for overseeing companywide risk management in conjunction with our IT and product security teams. We also use third-party providers, including federal government partners, to help inform and assess company practices and mitigate risk across our networks and systems. Valuable feedback that we receive from our customers guides this mission.

Dominion actively engages in coordinated emergency planning and information-sharing via the U.S. Department of Homeland Security (DHS) Sector Coordinating Council (EISCC) for Election Infrastructure and Information-Sharing and Analysis Centers (ISACs). We served as Chair of the EISCC from 2017-2018 and we currently lead the IT-ISAC Election Industry Special Interest Group (EISIG). Our company conducts security briefings and training sessions with state and local election officials who use our systems to educate and inform them of best practices for securing their voting equipment and chain of custody process. We are making great strides in enhancing our nation’s situational awareness and collective readiness posture.

We are working closely with states and localities seeking to replace their legacy or end-of-life systems by 2020 with federally-certified solutions that produce paper records for auditing and resilience.⁴ We offer hardware maintenance service and certified software/firmware updates on

⁴ All of the systems that we produce generate voter-verifiable paper receipts or ballots.

a regular basis, and we follow EAC recommendations designed for election officials to maintain optimal performance of older, legacy systems.⁵

Dominion presently adheres to a variety of federal and state reporting requirements, including the EAC's mandatory requirement for reporting system issues in federal elections.⁶ We have established clear internal protocols for handling incidents and working with government partners in appropriate fashion, per guidance from DHS.⁷ ISAC membership provides an ideal path for voluntary information-sharing with federal partners, including clear information-handling practices for Protected Critical Infrastructure Information (PCII) & other CI-related sharing.⁸

Dominion is currently working with other industry companies via the IT-ISAC Elections Industry Special Industry Group (EISIG) to identify options for establishing a voluntary Coordinated Vulnerability Disclosure (CVD) program designed to strengthen the security and resilience of our products. This work expands upon existing federal and state processes for certification, testing and reporting on risks and vulnerabilities regarding election infrastructure using an independent process.⁹ Government partners at all levels can help by supporting and incentivizing voluntary industry participation in this program.

Like other areas of technology and critical infrastructure, we have a well-established personnel oversight and supply chain standardization process, which creates repeatable, reviewable outcomes to reduce risk. In keeping with company security practices, all Dominion certified software is developed in-house by company employees. We screen new hires to identify potential security concerns among personnel involved in product development and we conduct rigorous internal testing of new software. All purpose built tabulators are assembled in the U.S. and submitted to the EAC and state election authorities for further review, testing and certification. Like other voting systems manufacturers, our company provides a detailed "bill of materials" to the EAC as part of required submissions for federally certified systems, which includes all component manufacturer and sourcing information for hardware.

We are also tracking the progress of the DHS National Risk Management Center's newly-established ICT Supply Chain Risk Management Task Force in order to better understand how its recommendations can be applied to efforts for protecting election supply chains.

Company Investments & Innovations

Dominion's product innovation priorities reflect the values of our state and local customers, with a focus on providing secure, reliable, quality systems that offer cutting-edge features at reasonable cost. This evolution includes product features such as encryption, multi-factor authentication and trusted-user protections, as well as an auditing module for election officials who want to publicly sharing post-election ballot images and other data with the public.¹⁰ Company commitment to R&D has ranged from 10 to 20 percent of revenue over the past few years. A key measure of our commitment to excellence is best exemplified by the fact that Dominion has gone from a single state certification to 30+ state certifications in less than a decade.

Dominion offers various types of voting solutions, all of which produce paper ballots or paper audit trails. We must note that election officials make the final determination with their voters and other key stakeholders as to the specific type of voting method they prefer in their jurisdiction. Our systems can support the use of hand-market paper ballots, as well as other voting methods. Every method requires its own set of policies and procedures to ensure security and integrity in the process. Jurisdictions must also ensure federal protections for equal voting rights and accessible options for disabled voters, military and overseas voters, language minority voters and others who may require some form of assistance in casting their ballot.¹¹

Dominion's election management software currently assists election officials in designing and producing ballots according to industry best practices, including the EAC's recommended design guidelines.¹² Our systems allow for ballot production in 22 different languages in varying formats for official, sample and UOCAVA ballots, provisional ballots and absentee/vote-by-mail ballots. Our systems allow for the export of machine-readable data in JSON and other formats while maintaining voter privacy, including Cast Vote Records. They fully comply with requirements of Risk-Limiting Audits (RLAs) and other forms of routine, post-election audits.¹³

We currently offer a ballot-marking device that produces a barcode summary for tabulation, in addition to a human readable ballot summary for voter verification. While we are confident in the ability of our BMD system to ensure trustworthy and accurate election results, we are well aware of perceived concerns regarding the use of marked ballots that feature barcodes. As a result, Dominion is working with election officials to offer different options, including ballot marking functionality without the use of a barcode summary.

Finally, along with our state and local government customers, we are eager to learn more about the defense department's (U.S. Defense Advanced Research Projects Agency) decision to build a public voting system prototype, which reportedly endorses migration to an open source, federally-supported hardware architecture for secure voting.¹⁴

¹⁰ Dominion's Democracy Suite systems have always required MFA and encryption.

CERTIFICATE OF INCORPORATION
OF
DOMINION VOTING SYSTEMS, INC.

FIRST: The name of the Corporation is: Dominion Voting Systems, Inc.

SECOND: The address of the Corporation's registered office in the State of Delaware is Corporation Trust Center, 1209 Orange Street, in the City of Wilmington, County of New Castle. The name of its registered agent at such address is The Corporation Trust Company.

THIRD: The nature of the business or purposes to be conducted or promoted by the Corporation is to engage in any lawful act or activity for which corporations may be organized under the General Corporation Law of Delaware.

FOURTH: The total number of shares of stock which the Corporation shall have authority to issue is 3,000 shares of Common Stock, \$0.001 par value per share.

The number of authorized shares of Common Stock may be increased or decreased (but not below the number of shares thereof then outstanding) by the affirmative vote of the holders of a majority of the stock of the Corporation entitled to vote, irrespective of the provisions of Section 242(b)(2) of the General Corporation Law of Delaware.

FIFTH: The name and mailing address of the sole incorporator are as follows:

<u>NAME</u>	<u>MAILING ADDRESS</u>
John Poulos	215 Spadina Avenue, Suite 200 Toronto, Ontario Canada M5T 2C7

SIXTH: In furtherance of and not in limitation of powers conferred by statute, it is further provided:

1. The business and affairs of the Corporation shall be managed by or under the direction of the Board of Directors.
2. Election of directors need not be by written ballot.
3. The Board of Directors is expressly authorized to adopt, amend, alter or repeal the By-Laws of the Corporation.

SEVENTH: Except to the extent that the General Corporation Law of Delaware prohibits the elimination or limitation of liability of directors for breaches of fiduciary duty, no director of the Corporation shall be personally liable to the Corporation or its stockholders for monetary damages for any breach of fiduciary duty as a director, notwithstanding any provision

of law imposing such liability. No amendment to or repeal of this provision shall apply to or have any effect on the liability or alleged liability of any director of the Corporation for or with respect to any acts or omissions of such director occurring prior to such amendment.

EIGHTH: The Corporation shall provide indemnification as follows:

1. Actions, Suits and Proceedings Other than by or in the Right of the Corporation. The Corporation shall indemnify each person who was or is a party or threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the Corporation) by reason of the fact that he or she is or was, or has agreed to become, a director or officer of the Corporation, or is or was serving, or has agreed to serve, at the request of the Corporation, as a director, officer, partner, employee or trustee of, or in a similar capacity with, another corporation, partnership, joint venture, trust or other enterprise (including any employee benefit plan) (all such persons being referred to hereafter as an "Indemnatee"), or by reason of any action alleged to have been taken or omitted in such capacity, against all expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by or on behalf of Indemnatee in connection with such action, suit or proceeding and any appeal therefrom, if Indemnatee acted in good faith and in a manner which Indemnatee reasonably believed to be in, or not opposed to, the best interests of the Corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that Indemnatee did not act in good faith and in a manner which Indemnatee reasonably believed to be in, or not opposed to, the best interests of the Corporation, and, with respect to any criminal action or proceeding, had reasonable cause to believe that his or her conduct was unlawful.

2. Actions or Suits by or in the Right of the Corporation. The Corporation shall indemnify any Indemnatee who was or is a party to or threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the Corporation to procure a judgment in its favor by reason of the fact that Indemnatee is or was, or has agreed to become, a director or officer of the Corporation, or is or was serving, or has agreed to serve, at the request of the Corporation, as a director, officer, partner, employee or trustee of, or in a similar capacity with, another corporation, partnership, joint venture, trust or other enterprise (including any employee benefit plan), or by reason of any action alleged to have been taken or omitted in such capacity, against all expenses (including attorneys' fees) and, to the extent permitted by law, amounts paid in settlement actually and reasonably incurred by or on behalf of Indemnatee in connection with such action, suit or proceeding and any appeal therefrom, if Indemnatee acted in good faith and in a manner which Indemnatee reasonably believed to be in, or not opposed to, the best interests of the Corporation, except that no indemnification shall be made under the Section 2 in respect of any claim, issue or matter as to which Indemnatee shall have been adjudged to be liable to the Corporation, unless, and only to the extent, that the Court of Chancery of Delaware shall determine upon application that, despite the adjudication of such liability but in view of all the circumstances of the case, Indemnatee is fairly and reasonably entitled to indemnity for such

expenses (including attorneys' fees) which the Court of Chancery of Delaware shall deem proper.

3. Indemnification for Expenses of Successful Party. Notwithstanding any other provisions of this Article, to the extent that an Indemnatee has been successful, on the merits or otherwise, in defense of any action, suit or proceeding referred to in Sections 1 and 2 of this Article EIGHTH, or in defense of any claim, issue or matter therein, or on appeal from any such action, suit or proceeding, Indemnatee shall be indemnified against all expenses (including attorneys' fees) actually and reasonably incurred by or on behalf of Indemnatee in connection therewith.

4. Notification and Defense of Claim. As a condition precedent to an Indemnatee's right to be indemnified, such Indemnatee must notify the Corporation in writing as soon as practicable of any action, suit, proceeding or investigation involving such Indemnatee for which indemnity will or could be sought. With respect to any action, suit, proceeding or investigation of which the Corporation is so notified, the Corporation will be entitled to participate therein at its own expense and/or to assume the defense thereof at its own expense, with legal counsel reasonably acceptable to Indemnatee. After notice from the Corporation to Indemnatee of its election so to assume such defense, the Corporation shall not be liable to Indemnatee for any legal or other expenses subsequently incurred by Indemnatee in connection with such action, suit, proceeding or investigation, other than as provided below in this Section 4. Indemnatee shall have the right to employ his or her own counsel in connection with such action, suit, proceeding or investigation, but the fees and expenses of such counsel incurred after notice from the Corporation of its assumption of the defense thereof shall be at the expense of Indemnatee unless (i) the employment of counsel by Indemnatee has been authorized by the Corporation, (ii) counsel to Indemnatee shall have reasonably concluded that there may be a conflict of interest or position on any significant issue between the Corporation and Indemnatee in the conduct of the defense of such action, suit, proceeding or investigation or (iii) the Corporation shall not in fact have employed counsel to assume the defense of such action, suit, proceeding or investigation, in each of which cases the fees and expenses of counsel for Indemnatee shall be at the expense of the Corporation, except as otherwise expressly provided by this Article. The Corporation shall not be entitled, without the consent of Indemnatee, to assume the defense of any claim brought by or in the right of the Corporation or as to which counsel for Indemnatee shall have reasonably made the conclusion provided for in clause (ii) above. The Corporation shall not be required to indemnify Indemnatee under this Article EIGHTH for any amounts paid in settlement of any action, suit, proceeding or investigation effected without its written consent. The Corporation shall not settle any action, suit, proceeding or investigation in any manner which would impose any penalty or limitation on Indemnatee without Indemnatee's written consent. Neither the Corporation nor Indemnatee will unreasonably withhold or delay its consent to any proposed settlement.

5. Advance of Expenses. Subject to the provisions of Section 6 of this Article EIGHTH, in the event of any action, suit, proceeding or investigation of which the Corporation receives notice under this Article, any expenses (including attorneys' fees) incurred by or on behalf of an Indemnatee in defending an action, suit, proceeding or investigation or any appeal therefrom shall be paid by the Corporation in advance of the final disposition of such matter;

provided, however, that the payment of such expenses incurred by or on behalf of Indemnatee in advance of the final disposition of such matter shall be made only upon receipt of an undertaking by or on behalf of Indemnatee to repay all amounts so advanced in the event that it shall ultimately be determined that Indemnatee is not entitled to be indemnified by the Corporation as authorized in this Article; and further provided that no such advancement of expenses shall be made under this Article EIGHTH if it is determined (in the manner described in Section 6) that (i) Indemnatee did not act in good faith and in a manner he or she reasonably believed to be in, or not opposed to, the best interests of the Corporation, or (ii) with respect to any criminal action or proceeding, Indemnatee had reasonable cause to believe his or her conduct was unlawful. Such undertaking shall be accepted without reference to the financial ability of Indemnatee to make such repayment.

6. Procedure for Indemnification. In order to obtain indemnification or advancement of expenses pursuant to Section 1, 2, 3 or 5 of this Article EIGHTH, an Indemnatee shall submit to the Corporation a written request. Any such advancement of expenses shall be made promptly, and in any event within 60 days after receipt by the Corporation of the written request of Indemnatee, unless (i) the Corporation has assumed the defense pursuant to Section 4 of this Article EIGHTH (and none of the circumstances described in Section 4 of this Article EIGHTH that would nonetheless entitle the Indemnatee to indemnification for the fees and expenses of separate counsel have occurred) or (ii) the Corporation determines within such 60-day period that Indemnatee did not meet the applicable standard of conduct set forth in Section 1, 2 or 5 of this Article EIGHTH, as the case may be. Any such indemnification, unless ordered by a court, shall be made with respect to requests under Section 1 or 2 only as authorized in the specific case upon a determination by the Corporation that the indemnification of Indemnatee is proper because Indemnatee has met the applicable standard of conduct set forth in Section 1 or 2, as the case may be. Such determination shall be made in each instance (a) by a majority vote of the directors of the Corporation consisting of persons who are not at that time parties to the action, suit or proceeding in question (“disinterested directors”), whether or not a quorum, (b) by a committee of disinterested directors designated by majority vote of disinterested directors, whether or not a quorum, (c) if there are no disinterested directors, or if the disinterested directors so direct, by independent legal counsel (who may, to the extent permitted by law, be regular legal counsel to the Corporation) in a written opinion, or (d) by the stockholders of the Corporation.

7. Remedies. The right to indemnification or advancement of expenses as granted by this Article shall be enforceable by Indemnatee in any court of competent jurisdiction. Neither the failure of the Corporation to have made a determination prior to the commencement of such action that indemnification is proper in the circumstances because Indemnatee has met the applicable standard of conduct, nor an actual determination by the Corporation pursuant to Section 6 of this Article EIGHTH that Indemnatee has not met such applicable standard of conduct, shall be a defense to the action or create a presumption that Indemnatee has not met the applicable standard of conduct. Indemnatee’s expenses (including attorneys’ fees) reasonably incurred in connection with successfully establishing Indemnatee’s right to indemnification, in whole or in part, in any such proceeding shall also be indemnified by the Corporation.

8. Limitations. Notwithstanding anything to the contrary in this Article, except as set forth in Section 7 of this Article EIGHTH, the Corporation shall not indemnify an Indemnitee pursuant to this Article EIGHTH in connection with a proceeding (or part thereof) initiated by such Indemnitee unless the initiation thereof was approved by the Board of Directors of the Corporation. Notwithstanding anything to the contrary in this Article, the Corporation shall not indemnify an Indemnitee to the extent such Indemnitee is reimbursed from the proceeds of insurance, and in the event the Corporation makes any indemnification payments to an Indemnitee and such Indemnitee is subsequently reimbursed from the proceeds of insurance, Indemnitee shall promptly refund such indemnification payments to the Corporation to the extent of such insurance reimbursement.

9. Subsequent Amendment. No amendment, termination or repeal of this Article or of the relevant provisions of the General Corporation Law of Delaware or any other applicable laws shall affect or diminish in any way the rights of any Indemnitee to indemnification under the provisions hereof with respect to any action, suit, proceeding or investigation arising out of or relating to any actions, transactions or facts occurring prior to the final adoption of such amendment, termination or repeal.

10. Other Rights. The indemnification and advancement of expenses provided by this Article shall not be deemed exclusive of any other rights to which an Indemnitee seeking indemnification or advancement of expenses may be entitled under any law (common or statutory), agreement or vote of stockholders or disinterested directors or otherwise, both as to action in Indemnitee's official capacity and as to action in any other capacity while holding office for the Corporation, and shall continue as to an Indemnitee who has ceased to be a director or officer, and shall inure to the benefit of the estate, heirs, executors and administrators of Indemnitee. Nothing contained in this Article shall be deemed to prohibit, and the Corporation is specifically authorized to enter into, agreements with officers and directors providing indemnification rights and procedures different from those set forth in this Article. In addition, the Corporation may, to the extent authorized from time to time by its Board of Directors, grant indemnification rights to other employees or agents of the Corporation or other persons serving the Corporation and such rights may be equivalent to, or greater or less than, those set forth in this Article.

11. Partial Indemnification. If an Indemnitee is entitled under any provision of this Article to indemnification by the Corporation for some or a portion of the expenses (including attorneys' fees), judgments, fines or amounts paid in settlement actually and reasonably incurred by or on behalf of Indemnitee in connection with any action, suit, proceeding or investigation and any appeal therefrom but not, however, for the total amount thereof, the Corporation shall nevertheless indemnify Indemnitee for the portion of such expenses (including attorneys' fees), judgments, fines or amounts paid in settlement to which Indemnitee is entitled.

12. Insurance. The Corporation may purchase and maintain insurance, at its expense, to protect itself and any director, officer, employee or agent of the Corporation or another corporation, partnership, joint venture, trust or other enterprise (including any employee benefit plan) against any expense, liability or loss incurred by him in any such capacity, or arising out of

his status as such, whether or not the Corporation would have the power to indemnify such person against such expense, liability or loss under the General Corporation Law of Delaware.

13. Savings Clause. If this Article or any portion hereof shall be invalidated on any ground by any court of competent jurisdiction, then the Corporation shall nevertheless indemnify each Indemnitee as to any expenses (including attorneys' fees), judgments, fines and amounts paid in settlement in connection with any action, suit, proceeding or investigation, whether civil, criminal or administrative, including an action by or in the right of the Corporation, to the fullest extent permitted by any applicable portion of this Article that shall not have been invalidated and to the fullest extent permitted by applicable law.

14. Definitions. Terms used herein and defined in Section 145(h) and Section 145(i) of the General Corporation Law of Delaware shall have the respective meanings assigned to such terms in such Section 145(h) and Section 145(i).

NINTH: The Corporation reserves the right to amend, alter, change or repeal any provision contained in this Certificate of Incorporation, in the manner now or hereafter prescribed by statute and this Certificate of Incorporation, and all rights conferred upon stockholders herein are granted subject to this reservation.

Dominion Voting

Dominion is a company that has distinguished itself while pursuing excellence in customer service by implementing a technical culture focused on achieving the highest levels of accuracy, reliability and transparency. In 2010, Dominion deepened its roots as a leading company in the elections industry with the acquisition of assets from both Premier Voting Solutions and Sequoia Voting Systems. Today, Dominion’s human resource pool of more than 240 employees, consisting of seasoned election veterans and engineering experts has well over 2,000 years of combined elections experience conducting accurate and successful elections with our customers.

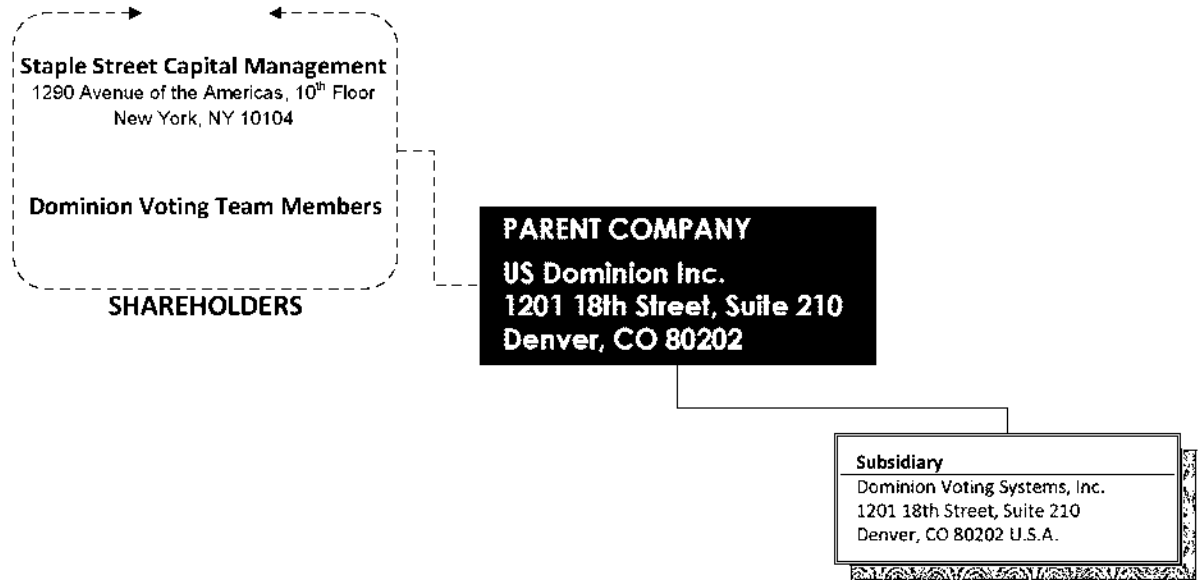

Dominion is headquartered in Denver, CO, with office locations in Toronto, ON, Jamestown and Endicott, NY, McKinney, TX, and San Leandro, CA. Dominion is strategically positioned in all 4 U.S. continental time zones to support its customer base of over 3,000 jurisdictions. Dominion is one of the largest and most trusted providers of elections technology solutions in the United States and the world. As an example, during the U.S. Presidential Elections in November 2016, roughly 35% of registered American voters cast their ballots using our equipment.

Below we provide the Executive-level organizational chart for Dominion:

Dominion Voting Systems, Inc. is a corporation and is wholly owned subsidiary of US Dominion, Inc., which is incorporated under the laws of the State of Delaware, USA. Dominion Voting System, Inc. does not have any subsidiaries.

KNOWiNK

About KNOWiNK

KNOWiNK is a sole-proprietorship headquartered in St. Louis, Missouri with regional sales offices in California and Canada.

We have a warehouse and full-time staff dedicated to configuring, kitting and shipping your devices. Our headquarters in St. Louis includes a large warehouse facility to configure, kit and ship your Poll Pads. Our warehouse manager and his team have deployed over 35,000 units across 23 states and Washington, D.C.

Commercial-off-the-shelf hardware for affordable and easy to access products

The iPad, carrying case, printers and printer paper are all commercial-off-the-shelf (COTS) hardware. This allows the State to quickly receive their Poll Pad kits while keeping the price low.

Experienced election administrators, trainers and IT professionals

The Poll Pad solution is supported by a dedicated team of former election administrators. The 10 former election administrators on our team boast over 120 years of combined election administration experience. Our team offers the benefit of a vendor with experience on both the government side and vendor side, allowing us to understand client perspectives, goals and needs while communicating, implementing and supporting the project plan effectively.

Unquestionably secure application

Jurisdictions enjoy peace of mind and cost savings from not having to take on the responsibility of testing the security of the Poll Pad solution. Last year, the State of California reviewed the entire line-by-line code of the Poll Pad application, found it secure, and certified the Poll Pad for use in California elections. United States jurisdictions are also benefiting from our relationship with Elections Canada; specifically, that the Communications Security Establishment, the Canadian equivalent of the U.S. National Security Administration, has gone through every line of code for the application and determined that it is functional and secure.

KNOWiNK's Organization

The State can be confident in KNOWiNK's capacity and capability to meet its EPoll requirements. Our 46-person team is comprised of former election authority leadership, application developers, and regional customer support leads to ensure every detail of the project plan and all client requests are promptly addressed. Our team and Election Coordinator are available 24/7 during active elections to support the State, ensuring the Poll Pad solution functions optimally at all times.

About Dominion

How The Voting Process Works

Case Study

About Dominion Voting Systems

Dominion Voting Systems is proud to serve election officials in 28 states plus Puerto Rico

U.S. COMPANY

250+ EMPLOYEES

1,200+ CUSTOMERS

100,000+ TABULATORS

Dominion's customers are **election officials** in “red” and “blue” states

Dominion Voting Systems IS NOT...

1 Foreign-owned

Founded in Canada, Dominion is now a U.S. company headquartered in Denver, CO. It has been majority owned since 2018 by a New York private equity firm.

2 Tied to foreign governments

Dominion has no ties to Venezuela, Cuba, or China. This has been confirmed by independent, third-party fact checkers and U.S. government authorities, including the Department of Homeland Security.

3 Tied to Smartmatic

Dominion and Smartmatic are two different companies. They do not have any relationship or financial ties. Smartmatic confirms it "never owned any shares or had any financial stake in Dominion" and "never provided [Dominion] with any software, hardware or other technology."

Dominion Voting Systems DOES NOT...

- ✗ Administer mail-in voting
- ✗ Register voters
- ✗ Run elections
- ✗ Conduct signature checks
- ✗ Have unauthorized access to or control over voting machines and tabulators

Local election officials have complete control over the entire voting process. Dominion is in no way involved in the chain-of-custody that secures voting machinery, or the ballots themselves.

English Demo 5.5 EAC

The primary function of Dominion's touchscreen Ballot Marking Devices (BMDs) is to create 100% auditable paper-based ballots.

Dominion's tabulators count voter-verified, hard-copy paper ballots that are 100% fully auditable.

Swing states like Arizona, Georgia, Michigan, and Pennsylvania have paper ballot records for every vote cast on a Dominion machine.

Dominion Voting Systems Supplies Local And State Election Officials With:

Ballot Marking Devices (BMDs)

**Ballot Marking Devices (BMDs)
so that voters can produce
paper ballots.**

Tabulators

**Tabulator machines that
tally completed ballots.**

Why Use Machines?

Ballot Marking Devices (BMDs)

To create paper-based ballots.

BMDs facilitate accurate counts.

Ballot Marking Devices correct for voter issues with hand-marked ballots such as not fully filling in a bubble or over-voting.

BMDs facilitate accessible voting.

More than 35 million Americans with disabilities are eligible to vote in the United States. Voting technology has facilitated independent voting for people with mobility, communicative, and physical impairments.

Tabulators

To count paper-based ballots.

Tabulators facilitate accurate counts.

Studies have shown that hand counting of votes in postelection audit or recount procedures can result in error rates of up to 2%.

Tabulators facilitate efficient reporting.

With nearly 230 million eligible voters living in the United States, reliable, secure technology is a necessity for determining election results quickly and efficiently.

Dominion Systems Are Government Certified

The U.S. Election Assistance Commission (EAC) is the independent federal agency that oversees a rigorous certification process for all voting technology manufacturers.

In addition, 28 states and Puerto Rico have independently certified Dominion equipment according to their own regulations and requirements.

Dominion Systems Meet Rigorous Technological Standards For Federal And State Certification

Federal Certification: Voting systems must meet U.S. EAC Voluntary Voting System Guidelines (“VVSG”) for federal certification, including VVSG standards for secure software design.

- **Voting Systems Testing:** Voting systems are tested by an independent, federally-accredited Voting System Test Laboratory (“VSTL”).

- **Software Independence:** Voting systems must be software independent, meaning they must be auditable, and the system tabulation record cannot be based solely on its software.

- **Software Updates:** Certified software packages are the only versions allowed to be used for voting. All major changes require a new round of certification.

- **System Validation:** Hash values are generated by the VSTL for system files, which can be validated during pre- and post-election audits.

State Certification: Voting systems undergo additional rounds of testing and standards compliance at the state level.

Dominion designs and builds its own software code. It does not use code from other companies.

Dominion Systems Meet Stringent Vendor Disclosure Requirements For Federal And State Certification

Federal Certification: Voting technology manufacturers must disclose ownership and system source code reviews to the U.S. EAC.

- **Bill Of Materials:** Voting technology manufacturers must submit a Bill of Materials, including all component and hardware sourcing information.
- **U.S. EAC Quality Monitoring Program:** Voting technology manufacturers must report any system malfunctions in federal elections to a U.S. EAC oversight program.

State Certification: Voting technology manufacturers must meet additional state reporting requirements.

- **State And Local Quality Monitoring:** Voting technology manufacturers submit mandatory state and local disclosures for confirmed or suspected breaches and cybersecurity incidents.

Elections Officials In Counties And States Conduct Logic And Accuracy Testing Before Every Election

Logic and accuracy tests of voting systems and ballots are generally done in public and serve a dual purpose:

Demonstrates that the voting system is working accurately and reliably as intended.

Can be observed by the public and bipartisan teams of political party representatives.

As of the March 2020 Presidential Preference Poll, the 2019, Adams County voters only begin using new voting equipment for the first time in nearly 20 years. The new system is paper-based while still using secure technology for code and ballot. The new system is managed by the Georgia Secretary of State's office to ensure the integrity, confidentiality, and security of the process and the system.

Federal Agencies And Officials Have Confirmed The Legitimacy Of Votes, Validating The Election Results

“ There was no indication or evidence that there was any sort of hacking or compromise of election systems on, before, or after November 3rd...That's confirmation that the systems used in the 2020 election performed as expected, and the American people should have 100% confidence in their vote.”

- Chris Krebs, Trump-appointed former director of the Cybersecurity and Infrastructure Security Agency

“ There's been one assertion that would be systemic fraud and that would be the claim that machines were programmed essentially to skew the election results. And the DHS and DOJ have looked into that, and so far, we haven't seen anything to substantiate that.”

- William Barr, Trump-appointed U.S. Attorney General

“ There is no evidence that any voting system deleted or lost votes, changed votes, or was in any way compromised.”

- Election Infrastructure Government Coordinating Council Executive Committee and Sector Coordinating Council

“ We, as the only federal agency completely dedicated to election administration, have confidence in the state and local election administrators who ran the 2020 election and the voting systems certified by the EAC.”

- U.S. Election Assistance Commission

Local Election Officials Administering The Election Process With Dominion Machines Have Certified The Accuracy Of The Results

“ Georgia's historic first statewide audit reaffirmed that the state's new secure paper ballot voting system accurately counted and reported results.”

- Brad Raffensperger,
Georgia Secretary of State

“ The ridiculous things – claims – in some of these lawsuits are just that. They're insanity. Fever dream. Made-up. Internet cabal. However many words I can use to say how crazy some of these things are. Nothing was shipped overseas, no votes were switched. We did a hand audit that proved no votes were switched – I mean that in and of itself should've been enough to make people understand that. So the idea that somehow there was a machine switching votes didn't happen.

- Gabriel Sterling, Voting System Implementation Manager, Georgia Secretary of State

“ The evidence overwhelmingly shows the system used in Maricopa County is accurate and provided voters with a reliable election...The Dominion tabulation equipment met mandatory requirements during logic and accuracy testing before the Presidential Preference Election, the Primary Election and the General Election. And after each of these 2020 elections, the hand count audit showed the machines generated an accurate count.”

- Clint Hickman, Chairman of the Maricopa County Board of Supervisors

“ For us here in York County, it was important to get it right and I do believe we got it right...I feel confident that what we are sending to the state does accurately reflect the voters in York County.”

- Julie Wheeler, York County President
Commissioner

Courts And Elected Officials Have Rejected Challenges To Election Results

“ [T]his Court has been presented with strained legal arguments without merit and speculative accusations...and unsupported by evidence. In the United States of America, this cannot justify the disenfranchisement of a single voter, let alone all the voters of its sixth most populated state.”

- Judge Matthew Brann, U.S. District Court for the Middle District of Pennsylvania

“ With today’s decision by Judge Matthew Brann, a longtime conservative Republican whom I know to be a fair and unbiased jurist, to dismiss the Trump campaign’s lawsuit, President Trump has exhausted all plausible legal options to challenge the result of the presidential race in Pennsylvania.”

- U.S. Senator Pat Toomey (R-Pa.)

“ Calling an election unfair does not make it so. Charges require specific allegations and then proof. We have neither here.”

- Judge Stephanos Bibas, Trump-Appointed US Court of Appeals for the Third Circuit

Respected Commentators Have Stated There Is No Evidence To Support The False Claims Made About Dominion

An electronic pause would not work in the United States, where voting procedures and methods vary not only from state to state but even county to county (in fact, sometimes even between precincts in the same county). So, notice how the fraud narrative differs here: We are to believe that there were hundreds of thousands of fraudulent paper ballots ready to be secretly inserted into the count if, by chance, the 'algorithm broke.'"

- Andrew C. McCarthy, senior fellow at National Review Institute

But so far there's no good evidence of voting problems that would come close to Mr. Biden's lead of 73,000 votes in Pennsylvania or 145,000 in Michigan."

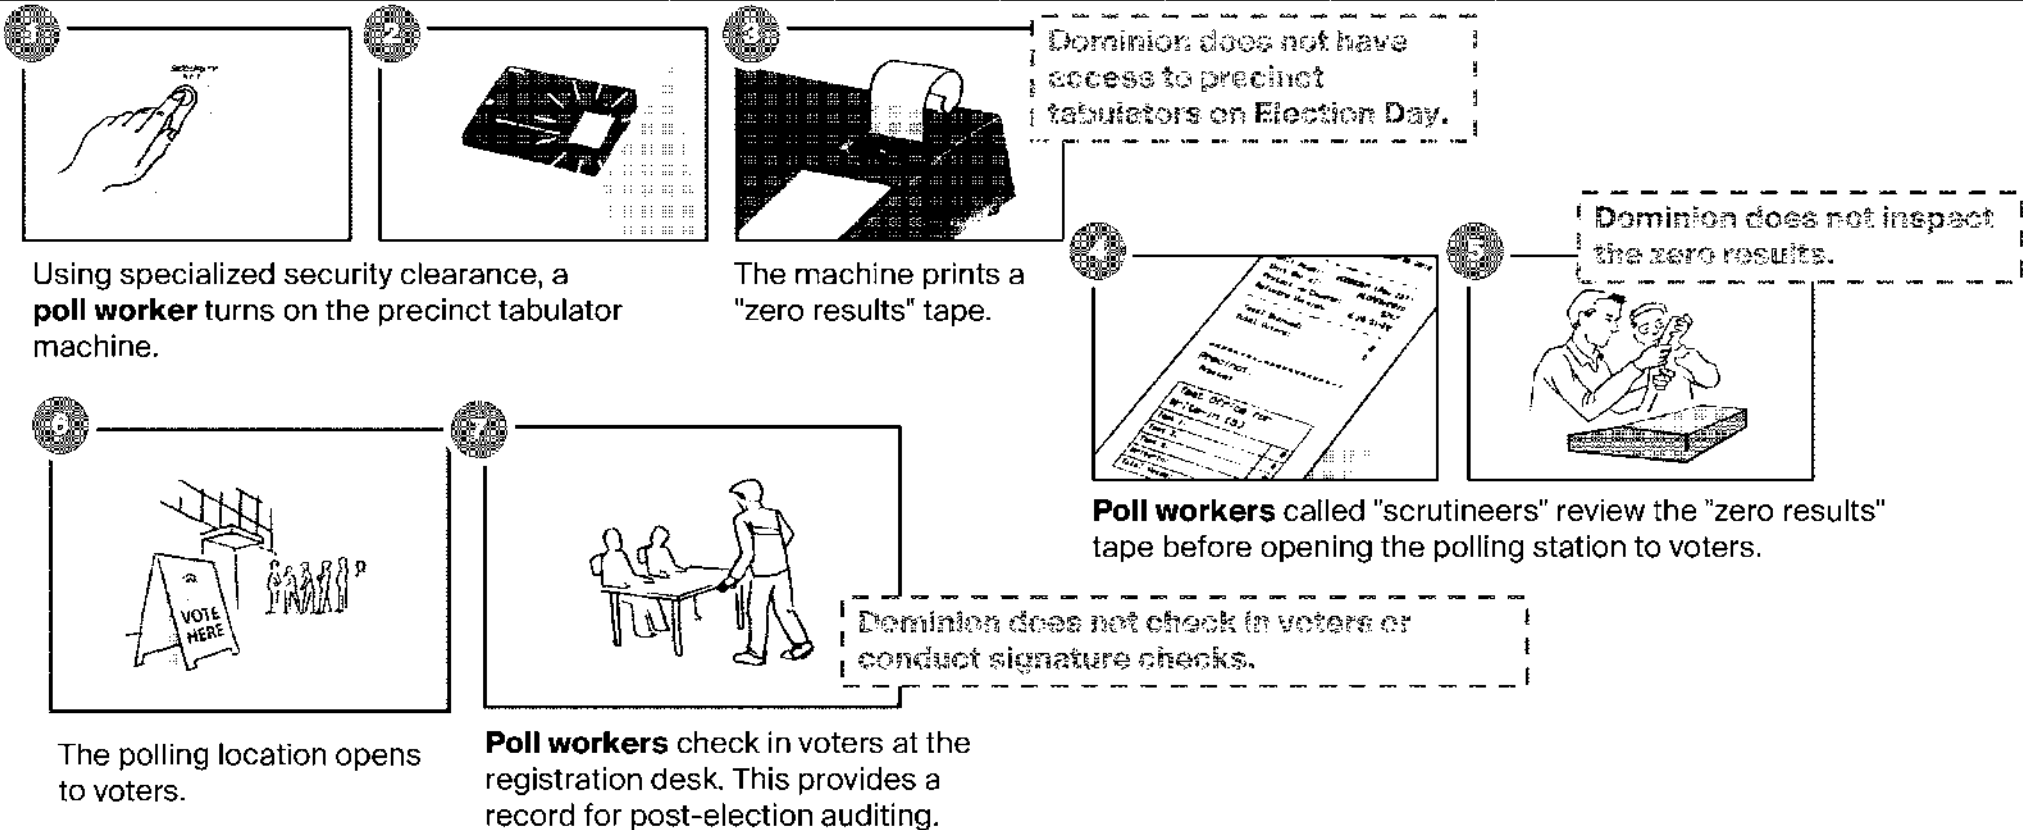

- The Editorial Board, Wall Street Journal

[T]he Dominion Systems machines create paper record back-ups for each vote, making wholesale vote manipulation all but impossible. Confronted with this reality, the false claims about Dominion crumbled under their own weight and seemed to fade away."

- Paul Rosenzweig, senior fellow in the National Security and Cyber Security Program at the R Street Institute

Local Poll Workers — Not Dominion — Oversee Election Day Machine Preparation And Voter Check-In

Poll Workers At The Registration Desk – *Not Dominion* – Hand The Voter A Paper Ballot Or An Activation Card

Depending on whether a precinct uses hand-marked ballots or Ballot Marking Devices, the next two steps take different forms.

Hand-Marked Ballot

After checking the voter rolls to identify the correct ballot, a **poll worker** hands the voter a paper ballot and an approved writing utensil, such as a Sharpie.

Ballot Marking Device

After checking the voter rolls, a **poll worker** hands the voter a one-time use activation card programmed to display that voter's correct ballot.

Voters Mark And Review Their Ballot

Ballot Marking Devices ("BMDs") are a useful, fully accessible way of capturing voter intent while still producing a paper ballot. BMDs help to reduce errors that may not be caught using hand-marked ballots, such as mis-marked ballots, or over-voting.

Hand-Marked Ballot

The voter marks his or her candidates on the paper ballot. The voter reviews the ballot.

Ballot Marking Device

The voter selects his or her candidates on the touchscreen. After confirming that the choices are correct, the Ballot Marking Device prints out a **readable paper ballot** with the voter's choices written out. The voter reviews the ballot.

Paper ballots are preserved by local officials for audits and recounts, as needed.

Voter Takes The Marked Paper Ballot To The Precinct Tabulator

Ballots—both hand-marked and those printed on paper from a BMD—are counted by tabulator machines. Tabulators are **stand alone (not connected to the internet) and are secured, operated, and controlled by election officials—NOT Dominion.**

Dominion does not
operate or have
unauthorized access
to tabulators.

The voter inserts the paper ballot into the tabulator, and it drops into the secure box. These paper ballots provide a paper trail for later reference if necessary.

Ballots Are Kept In A Secure Lockbox Overseen By Local Poll Watchers From Both Political Parties – *Not By Dominion*

Ballots are securely stored in a ballot box until polls close.

Representatives from both political parties are present in the room for oversight.

At The End Of The Day, Local Poll Workers – *Not Dominion* – Close The Polls And Machines And Print The Tally Results Sheet

13

Using specialized security clearance, a **local poll worker** turns off the precinct tabulator machine.

14

15

Dominion does not have access to the tally results sheet.

The machine prints the precinct's tally results.

Poll Workers – *Not Dominion* – Review The Tally Sheet And Compare The Counts At The Voter Registration Desk

16

Dominion does not compare the tally sheet to voter roll counts.

ALL VOTES are counted in the U.S.

Scrutineers compare the number of results on the tally sheet to the counts at the voter registration desk.

Local election officials are responsible for reporting election tallies.

Certification Of Election Results

Post-election canvassing allows election officials to identify and resolve discrepancies, validate vote counts, and take actions to ensure the completeness and accuracy of vote totals for certification

Post-election audits can include reconciling ballots issued and cast, verifying chain of custody or other procedures, and validating vote tabulation.

Certification is the official confirmation of results. The chief state election official, governor and/or board of canvassers typically oversee this final step. Deadlines vary by state.

Georgia's Historic Hand Count Of Every Ballot Case In The Presidential Race Showed The Accuracy Of Dominion's Machines

Georgia election workers hand-counted the entire 5 million votes cast, all on paper, in the presidential race.

The vote margin between the hand count results and the machine count results varied by only .0099%.

This differential is well within the 2% expected margin of human error that occurs when hand-counting ballots.

Lots of conservative criticism of the AZ call. Tweet from Gov. Ducey:

Doug Ducey
@dougducey

It's far too early to call the election in Arizona. Election Day votes are not fully reported, and we haven't even started to count early ballots dropped off at the polls. In AZ, we protected Election Day. Let's count the votes — all the votes — before making declarations.

Chris what has surprised you the most about this election cycle before you own news Max you were a member of the media yourself I think the the print media you've been around this process you've watched elections what about this election cycle has surprised you the most

CHRISTOPHER RUDDY: what's interesting when you started off the segment Michael **talking about Fox news I am shocked about what Fox news has done and you and I are on the same page about Chris wallace I think if Trump loses a close election blame Chris Wallace Fox news because that debate was very pivotal had it was Donald Trump versus Biden and Chris wallace animal Criswell did everything to make the President look bad and that's one of the top people Fox.** Kristin welker is a liberal nbc reporter I sort of know I've talked to her she let go but she did a good job she moderated the debate fairly the second debate and Donald Trump clearly wanted and I think that debate was very hard for them a lot of early voting took place and then after people in the second debate which is a fair debate there was a huge search online how do I change my vote of Google searches Yeah but I think it's the the amount I get it that the liberals don't like Trump ABC CBS nbc I get that

you know **my friend Todd Starnes said perhaps best when he said after that Fox news has lost its way there's still some good programming on there but I think that has opened up a lane for you and your team and I think that's healthy I think you make Fox better I think you make the rest of the media better and it's better form of of the Republic works when we have proper journalism and you have to have competition in journalism in order to ensure the best quality journalism**

RUDDY: well I think you needed diversity and they certainly movement I mean we saw in this situation and effort where they didn't even want to put up the president's Twitter put amassed just for the should close that down new York Post which had an article looking into some of the Hunter Biden Steph just looking into it that's saying that they were certainly buying everything happened within there and they were closed down by Twitter is a very dangerous thing going on in the American media all for the sake of trying to destroy Donald Trump and Newsmax vision no was we had 10 million people tuned into Newsmax TV were tarred by every major cable channel I know we're down in Texas on spectrum on Xfinity direct TV channel 3 49 dish to 16 every major cable systems around the country is now carrying us 70 million homes I think it's a reason why we've been growing in minutes OK Mo Over we have a show with my cocould be a number of other people have come over Benny Johnson on Newsmax Sean Spicer I mean it's incredible lineup

SOCIAL MEDIA ANALYTICS ON ELECTION NIGHT

TOP LINE ANALYTICS

- From last night into this morning, Twitter showed a sharp spike in conservative criticism of Fox (about half of the top 100 tweets) driven by Decision Desk race calls and complaints about other Fox coverage.
- The most shared FB posts and online articles mentioning Fox do not show the same trend, as only a much smaller slice of these pieces are from conservatives critical of Fox. However, these metrics lag and may move in this direction later today. We will monitor and update.

TWITTER ANALYTICS

Fox News and top Fox News talent received 1,321,354 mentions on Twitter across all of Election Day and up until 9 AM ET Wednesday.

The top Twitter mentions of Fox News were overwhelmingly negative. Two-thirds of the top 100 tweets mentioning Fox News did so negatively. About half of the negative tweets were general attacks from conservatives that didn't mention a specific complaint ("Fox News is in the tank for Biden," "Fox News sucks now," etc.) Of conservative tweets making specific complaints, the most common were:

- Fox News' early call of Arizona for Biden
- Fox News early call of Virginia for Biden
- Fox News featuring liberal commentators, such as Juan Williams
- Fox News' Decision Desk being run by registered Democrat Arnon Mishkin

Six of the sixty-eight negative tweets were from liberals attacking Fox News for being in the tank for Trump or mocking Fox News' exit polls showing voters endorsing liberal views. But 85% of all negative engagement was from tweets sent by conservatives.

<i>Negative/Positive</i>	<i>Reasoning</i>	Tweets Engagements % of Total Engagements		
Negative	Arizona race call	17	78,230	20.86%
	Arnon Mishkin	2	9,080	2.42%
	Exit polls	4	28,940	7.72%

Florida delayed race call	2	4,120	1.10%
General conservative attack	32	106,410	28.37%
Liberal commentators	4	12,550	3.35%
Pennsylvania delayed race call	1	5,820	1.55%
Support for Donald Trump	2	9,850	2.63%
Virginia race call	4	13,420	3.58%
Negative Total	68	268,420	71.56%
Neutral/Positive Total	31	106,660	28.44%
Deleted	1	N/A	N/A
Grand Total	100	375,080	100.00%

FACEBOOK ANALYTICS

There have been 6,083,537 million interactions with posts mentioning Fox News across all of Election Day and up until 9 AM ET Wednesday.

Unlike Twitter, negative commentary about FNC on Facebook is far less widespread. Only four of the top 100 posts most engaged Facebook posts mentioning Fox News are negative commentary from conservatives. The total engagements from posts critical of Fox make up just 5.1% of total engagements.

For context, 18 of the top 20 Facebook posts after the Chris Wallace debate were negative commentary from conservatives.

Just wanted to let you know that I/we are taking major heat over the AZ call. The Campaign insists that that Trump has the votes for him to win. That may or may not be true but hanging onto the call that was made on Tuesday night - as the gap is narrowing is really beginning to hurt us as a network. I am hearing from people that I have never heard from before, and not just flame throwers. Our viewers are also chanting "Fox News sucks", something I have never heard before anywhere, except perhaps at a democratic rally.

I know You guys are feeling the pressure. But this situation is getting uncomfortable. Really uncomfortable. I keep on having to defend this on air. And ask questions about it. And it seems we are holding on for pride (I know the confidence you say you had and the numbers - but it's at least within the realm of possible that he closes the gap now). And It's hurting us. The sooner we pull it - even if it gives us major egg. And we put it back in his column. The better we are. In my opinion.

This email from a viewer :

“Votes overnight -

1,444,213....1468951....24,738...40.7 % went to Biden
T: 1,365,040....1400951....35,911...59.3 % went to Trump

60,649 new votes overnight.

So in the last vote adds to AZ last night Trump got 59 %. The campaign said that they think they will get 60 % of the outstanding ballots yet to be counted....and if they only get 57% then they will win AZ. So if they are

right....and you have to think that the campaign knows more about where their votes are than any analyst...AZ will flip. Then the issue goes back to PA —assuming Trump holds GA. NC looks safer.

This thing is not over yet and all media needs to be more responsible and quit talking about all Biden needs is Nevada.

I know that you have to support your fellow employees....but the ramifications of such an early prediction by Fox for AZ is huge. When that happened Tuesday night....the narrative changed across the country. The Trump campaign was really pissed and that was before Wisconsin and Michigan started to move.

I really think that Fox reputation as fair and balanced is being impacted. I realize that the network strategy is to move more to the middle as other major channels are so far left....but this is huge. Fox can't afford to miss this.

Yes, the country wants this election over.... but seriously our form of democracy is now in question if we don't get this right. These states are all close...and while a network calling a state is not official....it might as well be as the average Joe does not understand the certification process.

Back off AZ.....the earlier that you do it the less damage.

My two cents. I support you guys. But this is really uncomfortable. Just being honest.

We worked really hard to build what we have. Those fuckers are destroying our credibility. It enrages me.

Sent: 2020-11-06 01:18:00 AM UTC FROM: Unknown - [REDACTED]

They are destroying Fox's. We still have a brand of our own and tonight's show should protect it. But yeah it's insane. NYPOST has also turned on trump...

"Downcast Trump makes baseless election fraud claims in White House address"

Sent: 2020-11-06 01:19:02 AM UTC FROM: Unknown - [REDACTED]

WASHINGTON — President Trump repeated his unfounded claim that political foes were trying to steal the election from him during a briefing on Thursday evening as he trailed his opponent and remaining swing states were leaning toward a Joe Biden presidency.

Just one reporter not edit page so might be too early to declare something but interesting nonetheless

They're highly upset.

A podcast could be an avenue to connect with that audience that is upset with Fox. 100k subscribers at \$5 a month for a TC app/website hosted by Fox would bring in \$6 million a year. Between podcast/newsletter/ocassional column with promo on Fox/Twitter etc I'm sure we could get those subscribers.

Also that Philly guy was sort of nuts but for sure will help with that audience as well. Clip is already doing well online

A combination of incompetent liberals and top leadership with too much pride to back down is what is happening.

Not true.

Sent: 2020-11-06 03:59:18 AM UTC FROM: Unknown [REDACTED]

The more days this election drags on the worse it is for Fox. At this point it would help the network for it to be called ASAP. Can't imagine what weakened coverage will be like.

Sent: 2020-11-06 04:59:47 AM UTC FROM: Unknown [REDACTED]

but I guess Nevada being called is the worst as Arizona then contributes to win. PA win is cleanest

Sent: 2020-11-06 04:00:22 AM UTC FROM: Tucker Carlson [REDACTED]

True. At this point we're getting hurt no matter what.

Sent: 2020-11-06 04:57:30 PM UTC FROM: Unknown [REDACTED]

It's a hard needle to thread, but I really think many on "our side" are being reckless demagogues right now.

The downside of the news business is that a lot of the time, you don't get to choose the news. But you're required to react to it. So actually we do earn our salaries.

One thought I had today is a joint venture of sorts between a Tucker Carlson LLC and Fox News. Podcasts generally are free and are ad-supported. We could have a Fox backed podcast promoted on channel etc that has one free episode a week. At the same time, we repurpose tuckercarlson.com to host the podcast and create a TC podcast app. This would all be done by Fox News. Then on the site

and app we host another episode that airs every week that is only available to subscribers. We could let Fox get the ad money from the free edition and you would get the lion's share of money from the subscriptions. So one free episode a week and one paid episode. The free episode effectively serves as promo to get the most dedicated fans to subscribe. Obviously lots of details would have to be worked out, but I know you've always preferred a model where you get a cut of subscription money and this is is a way to do it.

One the bright side --- Trump has a pretty low rate at success in his business ventures.

That's for sure. All of them fail. What he's good at is destroying things. He's the undisputed world champion of that. He could easily destroy us if we play it wrong. It's so obvious. [REDACTED]
