

## *CDU Operational Plan*

---

### UNITED STATES CAPITOL POLICE WASHINGTON, DC 20510-7218

January 5, 2021

**Event:** Joint Session of Congress-Electoral College **Vote Certification**

**Operational Period:** Sunday, January 3, 2021 through Saturday, January 9, 2021

**Overview:** (Special Event Assessment; 21-A-0468 v3 January 3, 2021 Final)

On Wednesday, January 6, 2021, the 117th United State Congress will gather for a joint session in the chamber of the House of Representatives to certify the counting of the electoral votes. The President of the Senate, Vice President of the United States (VPOTUS) Michael Pence, is the presiding officer. If a senator and a representative jointly submit an objection, each would retire to its chamber to consider it. The President and Vice President must achieve a majority of electoral votes (i.e., at least 270 votes) to be elected. In the absence of a majority, the House selects the President, and the Senate selects the Vice President.

#### **Expected Protests Overview:**

A number of individuals and groups are calling for their supporters to travel to Washington, DC, on or before January 6, 2021, to show support for POTUS and for overturning the election results. **The protests/rallies are expected to be similar to the previous Million MAGA March rallies in November and December 2020, which drew tens of thousands of participants.** It is also expected that members of the Proud Boys (who intend to wear plainclothes and not their traditional yellow and black clothing)<sup>13</sup>, white supremacist groups,<sup>14</sup> Antifa, and other extremist groups will rally on January 6, 2021. Multiple arrests were made as a result of clashes between pro-Trump and opposing groups during each of the November and December rallies. Charges included assault with a dangerous weapon, assault on police, simple assault, weapons violations, riotous acts, and destruction of property, disorderly conduct, resisting arrest, and crossing a police line. A number of law enforcement officers were injured in the skirmishes. Many of the confrontations occurred after the rallies ended.

#### **Threat Analysis:**

Member Threats:

At this time there are **no specific known threats** related to the Joint Session of Congress – Electoral College **Vote Certification.**

JOCC Operational TBD

**Communications:**

Main Ops 2

**Mission Objectives:**

1. To provide an environment in which lawful first amendment activity can be safely demonstrated.
2. To prevent any adverse impact to the legislative process associated with unlawful demonstration activity.
3. To effectively mitigate actions associated with civil disorder; safely respond to crimes of violence and destruction/defacing of property.
4. To safeguard and prevent any property damage directed at the US Capitol, West Front Inaugural Platform, and all Congressional buildings.
5. Establish and maintain a fixed march route while excluding access to counter-protestors to minimize potential for violent interactions.

Deployment strategies for CDU assets will include monitoring demonstration/protest activity and providing timely response to address and mitigate any threats posed. CDU Requirements; 4 Hard Platoons; less than lethal options to be deployed will include FN-303 and the PepperBall launcher systems; each provide chemical irritant capability and impact energy to address crowd dispersal requirements and/or to address violent offenders behavior.

**Legislative Considerations:**

The Department has not received formal notification of any Leadership, Members or Senators participating in protest activity. Any participating member is subject to similar enforcement action prescribed to all participants; information is provided for protective operations and Member security as outlined in USCP mission.

Actions taken by Congressional members inside of the Congressional buildings may be considered part of their official duties; as such, the on scene supervisor will consult with the Field Force Commander and the OGC before taking any enforcement actions.

The US Senate is expected to be in session during this operational period (excluding Sunday).  
DPD will provide information related to Senate Leadership that may require CDU consideration.

The US House is expected to be in session during this operational period (excluding Sunday).  
DPD will provide information related to House Leadership that may require CDU consideration.

**USCP Legal Team:** The OGC poc is Mr. Tad DiBiase; 202.631.4532; OGC will be on-call for this event on Sunday and on site as needed. Mr. Aaron Wilensky will be on site with an SOD commander for January 6, 2021 events.

COVID Precautions as outlined by the Pandemic Working Group (PWG):

- Most importantly mask should/must be worn at all times. They may be removed if actively eating or drinking, but this should occur socially distant. Officers should be encouraged to not eat/take breaks in groups where masks are off and social distance is difficult (restaurants, break rooms, etc).
- The Squad Sergeants should ensure all members of their squad have all of the proper PPE...masks, gloves, sanitizer. Identify the Officers with N95 masks in case sick arrestees are encountered.
- All briefings related to these operations, roll call or otherwise, should be held virtually or by squad. Grouping everyone together should be avoided when possible, especially for staging or administrative reasons. We realize CDU operations in the field on the "line" must occur; which is why isolating by squads helps is contain potential exposures to a smaller group.
- While officers are staged, social distancing will need to be strictly enforced and masks should be worn at all times unless the officers are actively eating or drinking.
- **All COVID procedures for medically screening 61D detainees and/or custodial arrests need to be followed.** In regards to exterior pens/interview lines for 61D arrests, to the extent possible, there should be enough space to allow for 6 feet of space between prisoners during each stage of the process. Prisoners will be given a mask and directed to don it if they are not in possession of a mask.
- If buses are used to transport and stage officers during CDU operations, occupancy should be limited to 1 squad at a time. The bus driver should be supplied with antiseptic wipes that can be distributed to officers as they board so they can sanitize their seating areas. Masks should be worn at all times unless actively eating or drinking.
- It is very important that processing prisoners through the 61 D process eliminates the need for prisoner transports and the need for subsequent disinfection of transport vehicles. This will save time and reduce exposure to the public and employees
- If 67 K is used to house prisoners and their numbers do not allow for adequate social distancing within the garage, they may need to be staged in pens outside (similar to the 61 D process). Masks, hand sanitizer, and other appropriate PPE should be readily available.
- If USCP HQ is used to house prisoners, only 5 of them could be held in prisoner processing at one time. The remaining prisoners would need to be staged in pens outside

of USCP HQ (similar to the 61D process) or elsewhere within the building to allow for adequate social distancing. Masks, hand sanitizer, and other appropriate PPE should be readily available. (Bike racks are available at HQ)

- SOD has coordinating with PAMD to ensure sufficient PPE and hand sanitizer remain available. **SOD TO ENSURE TEMPGUN IS DEPLOYED WITH TRANSPORT VEHICLES DURING THIS EVENT.**

**Tactical Response/Counter-Sniper Over-watch**

CERT will deploy an 8-person counter-assault ground team and will stage on elevated platforms to provide counter-sniper operations; likely posts include US Capitol Dome; east and west sides.

Team Leader Sgt. Gallery: Intelligence note; numerous social media posts include promoting attending protest activity armed. CS teams will be monitoring for participants open carry and potentially concealed.

**HIRD CDU Support Branch:** HAZMAT/IED Event Commander: Cpt. Pickett Unit 600

HIRD Support Branch	Supervisor	Radio	Cell
HMRT Force Decon	Commander Sprilke	630	631-4316
HDS Response Team	Sgt. Gutierrez	622G	631.4494

**Cut/Extraction Team:**

Event site commander will assess incident and determine if within USCP capabilities; otherwise, DC Fire/EMS will be notified in the event protestors link themselves together or to fixed objects with chains. USCP will attempt to address any subjects who zip-tie themselves or handcuff themselves to another person(s) or item.

DC Department of Public Works will be contacted for relocating any vehicles that pose a risk or adversely impact this event; notification through the JOCC or direct line 202.737.4404; USCP will need to ticket vehicle.

**Use of Force (USCP Directive 1020.004)**

All officers and supervisors will follow the Department's Use of Force policy. Unless exigent circumstances justify immediate action, officers will not independently make arrests or employ force without command authorization.

For this event the CDU Field Force Commander will have the primary responsibility to authorize less than lethal options; exigent circumstances will dictate other lawful deployment of less than lethal options. Observed illegal actions will be documented over the radio, an announcement of a declared unlawful assembly with civil disorder will be announced and notification to officers will be provided of the pending deployments.

Impact projectiles will not be fired indiscriminately into crowds.

Reporting requirements for Use of Force events will be completed by employees and USCP witnesses prior to release for their tour of duty; as in all cases, the Watch Commander will be notified upon each use of force event.

Platoon Commanders will immediately notify the Field Force Commander of any Use of Force events as they occur.

In any circumstance in which an officer physically controls any participants (marchers or counter-protestors) use of force protocol will be initiated.

#### **Medical Care (USCP Directive 1020.004 Use of Force)**

DC Fire will not be pre-staged on the Capitol Grounds for this event. FEMS has a command post set up with USPP at District 1. Notification through the USCP dispatch will be initiated for a medical response. However, if warnings are initiated for chemical munition deployment DC Fire is to be notified for response and staging. Additionally, the DC National Guard will stage a HAZMAT response team in the area of Washington Monument.

The attending physician's office will not be initiated for medical calls related to demonstration activity for this event.

Officers and supervisors are required to obtain appropriate medical aid as soon as possible or practical for individuals:

- a. Who show signs of any injury as a result of use of force
- b. Who complain of an injury as a result of use of force
- c. Who become unconscious either during or following any use of force
- d. When the officer or supervisor believes an individual is in need of medical evaluation as a result of use of force

Appropriate medical aid may include increased observation to detect obvious changes in condition, flushing OC spray from the eyes, applying first aid, evaluation by paramedics, or for more serious or life-threatening incidents, immediate aid by medical professionals.

HMRT will be available for officer rehabilitation and related medical monitoring. HMRT will manage mobile field force decontamination capabilities.

#### **Crowd Management:**

Each shift a designated SOD official will monitor for crowd surges or movements associated with protest activity and will assign motors and scouts to allow for the safe passage of pedestrians. USCP will take appropriate measures to obtain compliance with the protestors with regards to using sidewalks and remaining off of the roadway to the extent possible. In the event the protest group size exceeds our capability to obtain compliance, motors and scouts will create

a “box” around the mobile protest group and will block approaching traffic to mitigate any vehicle pedestrian collision.

SOD will initiate traffic cuts along the march facilitating access into Area 15 Union Square from 3<sup>rd</sup> Street NW (Intelligence notes indicate there are no planned marches. However, we should anticipate participants marching from the Ellipse and National Mall at the conclusion of those events).

As platoons come in service they will respond to their designated areas of responsibility and sweep areas for hazards to include construction material and other potentially dangerous potential projectiles (ie bricks, stones, bottles, large branches, etc). Additionally, assigned platoons will ensure the bike rack along Constitution Ave. and Independence Ave. are in place correctly; to include pedestrian cutouts along the drives (bike rack is staged in those locations).

All counter-protestors will be relocated outside of the march perimeter (refer to map).

As counter-protestors traverse Capitol Grounds, SOD motors will trail the respective groups. Additionally, as they engage physical barriers (bike racks); Platoon Commanders will direct additional resources from their platoons as needed; SOD to support maintaining the integrity of the perimeter. Platoon Commanders need to be mindful of locations without bike rack or building structures serving as fixed barrier; counter-protestors will be expected to attempt to gain access by entering shrubbery and other natural fixtures. Platoon commanders will rapidly deploy officers to stop and provide verbal direction for them to exit the perimeter and physically remove counter-protestors as needed. Platoon commanders will update USCP communications on actions and observations related to crossing established barriers/police lines. Warnings will be initiated prior to arrests.

Bike Rack:

- Map attached for reference

Heavy Block Vehicles: Not requested for this operational period.

SOD Block Vehicles: For march arrival; supplement MPD on 3<sup>rd</sup> Street SW and NW as needed

Barricades A,B,C and D to be posted by SOD. Authorized permit holders allowed access onto Maryland Ave. SW, Pennsylvania Ave. NW and First Street SW/NW. Assigned officers will restrict pedestrian access to outside of the bike rack perimeter. CDU to support as requested based on crowd convergence. Assigned platoons will ensure the bike rack is put in place to reinforce restricted access leading to the West Front; bike rack is staged outside Maryland Ave. walkway and Pennsylvania Ave. walkway.

Emergency No Parking Request: Not requested for this operational period.

For this event it is anticipated that a march will likely progress into the Capitol Grounds from the NW with an MPD escort. USCP SOD will coordinate the hand-off at Third Street and will continue to provide a box around the march participants. Designated CDU platoons will move

with the marchers; if counter-protest groups are present the CDU teams will mirror the counter-protest groups movements and will enforce a denial of entry into the designated march route and destination (Area 15) the USCP is facilitating; SOD motors will support any march as well. For this event we will NOT facilitate a march around the US Capitol. Women For America will be directed to assemble in Area 15. If an attempt to march continues CDU and SOD will initiate a wall and redirect onto sidewalks and park areas; with temporary traffic closures as needed to ensure pedestrian safety. Platoon commanders will discuss with event marshals their intended destination and provide alternate options around the avenues.

In the event the protestors implement a road closure tactic the CDU commander will direct sufficient CDU resources to establish a perimeter and monitor the crowd while attempts to ascertain intent from event organizers is initiated by the assigned or responsible Platoon commander. Arrests for incommoding and blocking passage will be determined by the IC in consultation with the Field Force commander.

The CDU truck will remain operational and in-service during this operational period. Based on intelligence and observed actions a need to pre-stage shields at strategic locations will be made.

#### **Deployment Strategy:**

Hard Platoons will pre-stage their protective gear in proximity to their staging locations (busses). Hard platoon members and OSB CDU support will have access to their laser eyewear protection on their person. The primary focus will be to maintain the security perimeter of the United States Capitol and the security perimeter established for the march route entering US Capitol Grounds from the NW with an arrival destination to the Area 15.

A determination to don hard gear will be made daily; depending on the presence of counter-groups and the reported interactions between the opposing groups.

Each platoon will have an arrest kit immediately available. Platoon commanders will have bull-horns or vehicle pa systems immediately available to provide warnings, give direction and to facilitate crowd movement and egress.

The IC will record over the USCP radio documenting the establishment of any police lines.

SOD patrols will manage US Capitol monument/grounds security operations; for example The Grant Memorial, Peace Memorial, Garfield Memorial, Taft Memorial, and surrounding Congressional parks and gardens. SOD will have approximately 20 officers supporting operations and routine.

CSS will be pre-deployed and ready to document as needed.

CERT will have deploy counter-sniper teams capable of monitoring events on the West and East Front.

If the intended destination of the Women for America First is Arca 15 Union Square. In the event of an attempted or anticipated West Front action; CDU squads will be deployed to establish a police line using the excess bike rack at the west end of each walk-way. A police line will be established prior to the walk-ways in order to utilize the existing Olmstead Wall as an additional physical barrier to manage the crowd convergence. **The line will be held and access will be denied to the West Front.**

Squads assigned to the Plaza will be mindful of demonstration activity such as banner hanging and will prevent attempts and/or direct the removal of existing banners/signage (not including hand-held).

Platoons assigned to the East Front will monitor the crowd for criminal activity; ie open carry firearms, concealed carry, assaults, etc. **Members of Congress are expected to speak at events in area 8 and 9.** CDU will support the safe movements of the Members of Congress and work directly with DPD in the event any leadership participate.

Additionally, less than lethal grenadiers will be pre-positioned to address crowd dispersal requirements in the event of an attempted breach of the East and West Front restricted area poses an immediate risk to officers on the police line and the demonstrated potential for violence and damage to property; in particular the Inaugural Platform.

The CDU Truck will pre-stage shields at key locations as determined on a daily basis.

### **Crowd Dispersal**

Before ordering forced dispersal of a civil disturbance, the IC will consider lesser alternatives to achieve order; ie containment and dialogue with event organizers.

Prior to forced dispersal the IC will ensure all potentially necessary law enforcement, fire and EMS equipment and personnel are on hand to successfully carry out the tactical operation. Additionally, the IC will announce on the USCP radio observed behaviors and will request the CSS Documentation Team and will request the WC fix the security cameras on their location prior to forced dispersal operations.

Crowd dispersal methodology will include verbal commands using amplification methods (ie bull horn/PA system). In the event violent agitators are observed; and or a riot is declared the CDU commander will notify communications as such and will initiate a warning to the violent crowd; thereafter if compliance has not been achieved and the violence continues an order to utilize the Pepperball and FN-303 systems may be issued. Non-direct and direct-fired munitions from the systems will be deployed to disperse the crowd and to support efforts to effect arrests of the violent agitator(s).

Violent agitators will be addressed with either the Pepper Ball system or the FN-303 for purposes of immediately stopping their violent actions and for marking purposes for safe apprehension attempts most likely by a designated armored-up arrest team. Officers equipped with personal-carry Saber Red will utilize in accordance with Use of Force policy.

**Mass Arrest:** Arrests are not anticipated for this event; as such mass arrests remains on standby but all attempts to process arrestees in an exterior location will be made. Note, supervisors should anticipate reports of assault and be prepared to assign officers to take the police report.

At this time, the city has not identified any specific facility or location designed or designated to secure a large number of arrestees outside of our normal arrest processing procedure.

**Medical Plan:**

DC Fire/EMS will not be staged on the Capitol Grounds for this event. Request for medical services will be managed through USCP communications.

**Field Force Protection/Rehabilitation:**

USCP HMRT will remain operational and available for force decontamination, medical health/welfare and responder rehabilitation to the extent possible. DC Fire/EMS will remain the primary medical health care provider.

On January 6, 2021, PAMD will pre-stage 20 cases of water on the north side of the north skylight on the Plaza 0800 hrs. Platoons will secure cases of water as they take their posts; additional to be stored on their respective busses/vehicle platforms.

**Weather:**

Wednesday January 6, 2021

Sunrise 0726 hours  
Mostly Sunny 46 degrees F  
Winds 10-20 MPH NW  
6% chance of rain

Sunset 1701 hours  
Partly Cloudy 30 degrees F

4% chance of rain

**Facilities and Logistics:** (Director Tom Madigan is the designated poc 202.369.2531-on-call for Sunday)

67 Kst will serve as the mass arrest location for more than 20 prisoners; absent a 61 D process

USCP HQ will serve as the prisoner processing location for less than 20 prisoners

VMD has provided light towers; 1 at each skylight on the Plaza and 1 on the south portion of the West Front and 1 on the north portion of the West Front.

VMD operational 0600-1700 hrs.  
PAMD operational 0600-1700 hrs.  
OFL operational 0900-1700 hrs.

**Mutual Aid:**

Internal support for intelligence dissemination will continue through the Protective Service Bureau. Pin color for the week of January 3 is WHITE. Plainclothes officers will be operations and will be serving in an intelligence collection capacity. Plainclothes officers may also alert USCP communications of observed criminal activity requiring uniformed officers to initiate stops/contacts/preliminary investigations/arrests.

Intelligence Section POC Captain Mitchell 202.384.8720

**CDU Staffing Plan:**

The Resource Tool has been populated by the USB divisions; Platoon commanders will provide the field force commander a daily roll call sheet providing accountability of those assigned to their platoons soon after completion of roll call. Those failing to report for their CDU assignment should be documented in accordance with existing procedure.

**Demobilization:** The CDU field force commander will release the platoons back to their divisions at the conclusion of the protest activity. This operation may include a 16 hour period of operation for each CDU platoon; the Field Force Commander will and/or Watch Commander will determine the release of activated units.
