## **BOIL ADVISORY** **For Immediate Release**

PWS Name: LPWD NORTH PRODUCTION FACILITY

PWS Id No.: 105517

Date: March 27, 2023

The Water System has experienced problems with our water supply system due to the necessity of a waterline repair.

The customers affected are those who live along the following roads: La. Hwy. 1252 at its' intersection with Kidder Rd. then easterly along Hwy. 1252 to the intersection of La. Hwy. 1252 and Magellan Rd. and also includes all of Clooney Rd. and Magellan Rd.

Because of these problems, the water produced by our water supply system is of questionable microbiological quality. Therefore, as a precaution, the Water System is issuing a BOIL ADVISORY effective immediately. This BOIL ADVISORY is to remain in effect until rescinded by the Water System. It is recommended that all consumers disinfect their water before consuming it (including fountain drinks), making ice, brushing teeth, or using it for food preparation or rinsing of foods by the following means:

Boil water for one (1) *full* minute in a clean container. The one minute starts after the water has been brought to a rolling boil. (The flat taste can be eliminated by shaking the water in a clean bottle, pouring it from one clean container to another, or by adding a small pinch of salt to each quart of water that is boiled.)

Again, please be sure to disinfect your own water prior to consumption until you have been advised otherwise.

The Water System will rescind this Boil Advisory upon notification from the Louisiana Department of Health and Hospitals - Office of Public Health that additional water samples collected from our water supply system have shown our water to be safe.
