Subject: Embarrassing Staff Behavior

Good Morning,

I am a Veteran, a Retired Government Employee and a Father of a student that attends the University of Tennessee. I decided to send my child to your institute thinking that you represent good moral values and condemn violence. I did not know that your staff endorse and teach violence to get what every they are trying to get. When I look at the public schools educator I hold them to higher standards and don't expect them to scoop so low to get their point across.

I learned a disturbing information regarding one of your professor name Meghan Conley. She is calling for and enticing violence against Government and Law Enforcement employees. We should be teaching our kids to respect our Government employees and show the utmost respect to our law Enforcement Officers. Below is part of the email I received from one of my friend regarding Meghan Conley who is a co-director of a group called Allies of Knoxville's Immigrant Neighbors (AKIN).

"Please be aware the Antifa crowd that disrupted last year's 287g steering committee meeting in Knox County is planning another event this upcoming Saturday that they are calling a "trial" for ICE. Of course, they're only interested in "prosecuting" ICE and not having anyone there who could rebut their falsehoods.

Meghan Conley, a sociology professor at the University of Tennessee, is co-director this group – Allies of Knoxville's Immigrant Neighbors (AKIN). She was at the 287g steering committee meeting last year that resulted in threats and doxing of ICE employees, and from their deference to her there I think she was one of the organizers behind it.

Please note the effigy of ICE they've created has a noose around its neck. Given their prior doxing and overt calls to violence against ICE officers I personally consider this a threat and an incitement to physical violence toward ICE."

If she is not disciplined for this behavior I will be withdrawing my child from your institute and will make sure that the World knows the views you represent. I will be closely monitoring your actions against this and will be forwarding this email to the Board of Education and the Office of the Governor.
