Any chance you have a tracking of ESG related statutes that have been enacted? We have about a dozen bills in our assembly on the subject and I want to simplify them to match what we are seeing pass (and hold legal muster) elsewhere

Sorry for the delayed response Thomas.

This is from one of our coalition partners: HB 1469 (pensions) and HB 1429 (contracts), both by Rep. Novak, are the two bills we are supporting. We aren't closely following the others. Treasurer Beadle could help by facilitating discussion on these two bills, particularly on HB 1469 to make sure it is right for ND.

Do you have dates for the fall conference yet?

Not quite— looking at last week of august in Dallas.
