Less than Bachelors' degree	78%
Bachelors'+	21%
<b>Child in HH</b>	
Yes	35%
No	64%

This Siena College Poll was conducted April 16 - 20, 2023, among 783 Mississippi registered voters. Of the 783 respondents, 509 were contacted through a dual frame (landline and cell phone) mode and 274 respondents were drawn from a proprietary online panel (Lucid). Telephone calls were conducted in English and respondent sampling was initiated by asking for the youngest person in the household. Telephone sampling was conducted via a stratified dual frame sample of landline and cell phone drawn from the L-2 database of registered voters within Mississippi weighted to reflect known population patterns. Data from collection modes was statistically adjusted by region, age, race/ethnicity by congressional district, education, and gender to ensure representativeness. It has an overall margin of error of +/- 4.3 percentage points including the design effects resulting from weighting.

The Siena College Research Institute, directed by Donald Levy, Ph.D., conducts political, economic, social, and cultural research primarily in NYS. SCRI, an independent, non-partisan research institute, subscribes to the American Association of Public Opinion Research Code of Professional Ethics and Practices.
