Exhibit I – Condensed Consolidated Financial Statements as of and for the Three and Nine-Month Periods Ended March 31, 2023 and 2022	23

Management Discussion and Analysis of Financial Condition and Results of Operations

Overview

CommonSpirit Health is a Colorado nonprofit public benefit corporation exempt from federal and state income taxes. CommonSpirit Health is a Catholic health care system sponsored by the public juridic person, Catholic Health Care Federation (“CHCF”).

As of May 15, 2023, subsequent to the February 2023 transaction discussed below, CommonSpirit Health owns and operates health care facilities in 22 states and is the sole corporate member (parent corporation) of other primarily nonprofit corporations that are exempt from federal and state income taxes. With its national office in Chicago, and a team of over 150,000 employees and over 25,000 physicians and advanced practice clinicians, CommonSpirit Health is comprised of approximately 2,300 care sites, including 143 hospitals, consisting of academic health centers, major teaching hospitals, and critical access facilities; community health services organizations; accredited nursing colleges; home health agencies; living communities; a medical foundation and other affiliated medical groups; and other facilities and services that span the inpatient and outpatient continuum of care. The unaudited condensed consolidated financial statements in Exhibit I include CommonSpirit Health and its direct affiliates and subsidiaries (together, “CommonSpirit”, or the “System”).

Forward-Looking Statements

Certain of the discussions in this document may include “forward-looking statements” which involve known and unknown risks and uncertainties inherent in the operation of health care facilities. Actual actions or results may differ materially from those presented herein, and past or current trends may not continue. Specific factors that might cause such differences include competition from other health care facilities in the service areas of CommonSpirit, federal and state regulation of health care providers, staffing shortages, organized labor initiatives, and reimbursement policies of the state and federal governments and managed care organizations. In particular, statements that are preceded by, followed by or include the word “believes,” “estimates,” “expects,” “anticipates,” “plans,” “intends,” “scheduled,” or other similar expressions are or may constitute forward-looking statements.

CommonSpirit has presented its operating results for the three and nine-month periods ended March 31, 2023 and 2022, in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and on a non-GAAP basis for EBITDA (earnings before interest, tax, depreciation and amortization, and nonoperating income). The non-GAAP financial measures are in addition to, not a substitute for, measures of financial performance prepared in accordance with GAAP.

CommonSpirit believes that its presentation of non-GAAP financial measures provides useful supplementary information to and facilitates additional analysis by investors. CommonSpirit uses certain non-GAAP financial measures to enhance an investor’s overall understanding of the financial performance and prospects for the future of CommonSpirit’s ongoing business activities by facilitating comparisons of results of ongoing business operations among current, past and future periods.

COVID-19 Pandemic and Stimulus Funding

After more than three years of managing the COVID-19 pandemic, the Public Health Emergency Declaration ended on May 11, 2023. COVID-19 census across CommonSpirit remains low; however, the impact of the pandemic lingers across the organization’s markets as volume recovery is only recently returning to pre-pandemic levels, albeit unevenly across the organization, and operational concerns continue to impact financial results, as noted further below.

The Coronavirus Aid, Relief, and Economic Security Act (the “CARES Act”) provided stimulus in the form of financial aid to cover extensive emergency funding to hospitals and providers through existing mechanisms to prevent, prepare for, and respond to COVID-19. For the nine-month periods ended March 31, 2023 and 2022, \$263 million and \$20 million has been recorded in other operating revenues in the condensed consolidated statements of operations and changes in net assets, respectively. These funds are not required to be repaid upon attestation and compliance with certain terms and conditions.

To date, CommonSpirit has received \$2.8 billion in funds under the Medicare Accelerated and Advance Payment Program. As of March 31, 2023, all but \$1 million has been repaid, which is recorded in current liabilities related to these Medicare advances.

CommonSpirit deferred \$416 million in employer payroll taxes pursuant to the Paycheck Protection Program and Health Care Enhancement Act, of which \$208 million was paid in December 2021, and \$208 million was paid in December 2022.

In total, funds received under the Medicare Accelerated and Advance Payment Program and the Paycheck Protection Program and Health Care Enhancement Act represent no days cash on hand as of March 31, 2023, but 11 days as of June 30, 2022.

California Provider Fee Program

In September 2022, the Centers for Medicare and Medicaid Services (“CMS”) approved the State Plan Amendment (“SPA”) and allocation model previously submitted by the State of California for the 12-month provider fee program beginning January 1, 2022. With the culmination of the program as of December 31, 2022, the State of California submitted a SPA to CMS for approval of a new 24-month provider fee program beginning January 1, 2023. CMS approval of the new program is expected to be received in the fall of 2023, and current modeling by the California Hospital Association (“CHA”) reflects a \$100 million annual increase in net income for the organization under the new program compared to the prior program. As a result of the CMS approval timing, EBITDA, operating revenues, and expenses for the three and nine-month periods ended March 31, 2023 and 2022, have been adjusted where indicated in this report to normalize the California provider fee program revenue and expenses.

The impact of the delayed approvals and normalizing provider fee net income for this program, reflecting the most recent modeling from CHA, is outlined below:

California Provider Fee Program						
(\$ in millions)	Three-Month Periods			Nine-Month Periods		
	Ended March 31,		Change	Ended March 31,		Change
	2023	2022		2023	2022	
California Provider Fee as Recorded						
Net patient and premium revenues	\$ -	\$ 11	\$ (11)	\$ 971	\$ 528	\$ 443
Operating expenses	-	(27)	27	471	228	243
Provider Fee net income	<u>\$ -</u>	<u>\$ 38</u>	<u>\$ (38)</u>	<u>\$ 500</u>	<u>\$ 300</u>	<u>\$ 200</u>
Normalized California Provider Fee						
Net patient and premium revenues	\$ 292	\$ 268	\$ 24	\$ 777	\$ 785	\$ (8)
Operating expenses	142	101	41	377	356	21
Provider Fee net income	<u>\$ 150</u>	<u>\$ 167</u>	<u>\$ (17)</u>	<u>\$ 400</u>	<u>\$ 429</u>	<u>\$ (29)</u>
Impact of Normalizing California Provider Fee						
Net patient and premium revenues	\$ 292	\$ 257	\$ 35	\$ (194)	\$ 257	\$ (451)
Operating expenses	142	128	14	(94)	128	(222)
Provider Fee net income	<u>\$ 150</u>	<u>\$ 129</u>	<u>\$ 21</u>	<u>\$ (100)</u>	<u>\$ 129</u>	<u>\$ (229)</u>

With the approval of the provider fee program in September 2022, CommonSpirit recorded provider fee net income totaling \$500 million (\$250 million related to the six-month period ended December 31, 2022, and \$250 million related to the six-month period ended June 30, 2022). CommonSpirit recorded \$300 million in net provider fee income during the nine-month period ended March 31, 2022, related to the six-month period ended December 31, 2021. With the approval of the calendar year 2023 provider fee program still pending and the timing of the approval of the prior program, other than true-ups to the prior program, no provider fee has been recorded for the three-month periods ended March 31, 2023 and 2022.

Cybersecurity Incident

On October 2, 2022, CommonSpirit experienced a ransomware attack (“the Cybersecurity Incident”) that impacted certain of its systems. Upon discovering the attack, CommonSpirit took immediate steps to protect its IT systems, contain the incident, begin an investigation, and maintain continuity of care. CommonSpirit engaged leading cybersecurity specialists to support its investigation, and notified law enforcement and the United States Department of Health and Human Services. CommonSpirit recently completed notifications to individuals whose data was potentially impacted by the Cybersecurity Incident.

The Cybersecurity Incident has had an estimated adverse financial impact of approximately \$160 million to date, which includes lost revenues from the associated business interruption, the costs incurred to remediate the issues and other related business expenses, and is exclusive of any potential insurance related recoveries. The incident did not have a material impact on the current quarter operating results. We have notified and continue to consult with our insurance carriers, but are unable to predict the timing or amount of insurance recoveries at this time.

Financial Highlights and Summary

CommonSpirit recorded operating losses of \$658 million and \$1.1 billion for the three and nine-month periods ended March 31, 2023, respectively, compared to operating losses of \$591 million and \$638 million for the same periods in the prior year. Normalized for the California provider fee program, operating losses for the three and nine-month periods ended March 31, 2023, respectively, were \$508 million and \$1.2 billion, compared to a \$462 million and \$509 million for the same period in the prior year. Operating results reflect revenue challenges, the continued impact of labor shortages and inflation, the Cybersecurity Incident, and the lingering effects of the pandemic.

Despite the growth in same store adjusted admissions of 4.6% for the nine-month period ended March 31, 2023, over the same period in the prior year, revenue per adjusted admissions on a normalized same store basis decreased 3.7%, primarily due to reduced higher acuity COVID-19 volume, an unfavorable shift in payor mix, and revenue cycle challenges. Meanwhile, expenses continue to grow with same store normalized salary cost per FTE increasing 2.0% over the same period in the prior year.

CommonSpirit's EBITDA decreased to a loss of \$188 million for the three-month period ended March 31, 2023, from a loss of \$110 million during the same period in the prior year. The EBITDA margin for the three-month period ended March 31, 2023, decreased to -2.3% from -1.3% for the same period in the prior year. Normalized for the California provider fee program, EBITDA for the three-month period ended March 31, 2023, was a loss of \$38 million with an EBITDA margin of -0.5%, compared to a gain of \$19 million with an EBITDA margin of 0.2%, during the same period in the prior year. The decrease is primarily related to the Cybersecurity Incident, declining acuity and rates, continued staffing and revenue yield challenges, special charges related to a reduction in force, and general inflation.

CommonSpirit's EBITDA decreased to \$331 million for the nine-month period ended March 31, 2023, from \$834 million during the same period in the prior year. The EBITDA margin for the nine-month period ended March 31, 2023, decreased to 1.3% from 3.2% for the same period in the prior year. Normalized for the California provider fee program, EBITDA for the nine-month period ended March 31, 2023, was \$231 million with an EBITDA margin of 0.9%, compared to \$963 million with an EBITDA margin of 3.7%, during the same period in the prior year. The decrease is primarily related to an unfavorable shift in payor mix, the impact of the Cybersecurity Incident, declining acuity and rates, continued staffing and revenue yield challenges, special charges related to a reduction in force, and general inflation.

For the three and nine-month periods ended March 31, 2023, CommonSpirit's volumes on an adjusted admission basis were favorable to the same periods in the prior year by 5.5% and 2.1%, respectively. On a same-store basis, adjusted admissions were favorable to the same period in the prior year by 9.0% and 4.6%, respectively.

Adjusted patient days for the three and nine-month periods ended March 31, 2023, were lower than the same periods in the prior year by 0.7% and 2.8%, respectively. The acute average length of stay (ALOS) of 5.05 days and 4.99 days for the three and nine-month periods ended March 31, 2023, respectively, were lower than the same periods in the prior year of 5.38 and 5.25 days, respectively, primarily due to lower COVID-19 volumes.

Key Indicators Financial Summary

* Adjusted to normalize the California Provider Fee Program income.

** Comparing the nine-month period ended March 31, 2023, as adjusted, to the same period in the prior year as adjusted.

In September 2022, CommonSpirit sold the facilities and assets of MercyOne, a regional health system in Iowa, to Trinity Health for a gross purchase price of \$613 million. MercyOne had operated under a Joint Operating Agreement (“JOA”) between Trinity Health and CommonSpirit. A loss on sale of \$23 million was recognized during the nine-month period ended March 31, 2023. As of June 30, 2022, certain assets and liabilities of MercyOne were classified as held for sale, within other current assets and other accrued liabilities - current, respectively.

In February 2022, CommonSpirit entered into a definitive agreement to acquire two hospital facilities, one in western Kansas and one in northern Colorado, and the transaction was finalized in May 2022. The acquired facilities support the mission and strategy to expand the scope and quality of care in those rural and surrounding communities, and will be managed by Centura Health pursuant to an existing JOA. The purchase price is immaterial to the consolidated financial statements.

Same store results reported herein exclude the impact of the affiliation with the two facilities in Kansas and Colorado and the divestiture of MercyOne, as noted above.

In February 2023, CommonSpirit entered into an asset purchase agreement to acquire substantially all of the assets of a regional health system, including five hospitals, over 40 clinics, and other ambulatory services in Utah for total consideration of \$705 million and initiation of a 15 year master lease agreement for real property on which the primary health care facilities are located, with minimum annual payments of approximately \$95 million. The transaction closed in May 2023. The facilities acquired will support the mission and strategy to better serve the health care needs of the communities in Utah, and will be managed by Centura Health.

In February 2023, CommonSpirit and AdventHealth announced that they have agreed to transition to direct management of their respective care sites that comprise Centura Health (the “Transition”). Following the Transition, CommonSpirit will directly operate and manage its hospitals and affiliated clinics in Colorado, Utah and western Kansas, and AdventHealth will directly operate and manage its Adventist hospitals and their affiliated clinics in Colorado. Centura Health will continue in its management role of the hospitals, physician clinics, and other care sites through the Transition. The Transition is not expected to have a material effect on the financial condition or operations of CommonSpirit, taken as a whole.

Results of Operations

Operating Revenues and Volume Trends

Net patient and premium revenues increased \$84 million, or 1.1%, and \$117 million, or 0.5%, over the same periods in the prior year for the three and nine-month periods ended March 31, 2023. Normalizing the California provider fee revenues for the current three and nine-month periods ended March 31, 2023 and 2022, net patient and premium revenue increased \$119 million, or 1.5%, but decreased \$334 million, or 1.4%, respectively. On a same-store basis, normalized net patient and premium revenues increased \$332 million, or 4.3%, and \$175 million, or 0.7%, over the same periods in the prior year for the three and nine-month periods ended March 31, 2023, respectively. Same store normalized net patient and premium revenue per adjusted admission decreased 4.3% and 3.7% during the three and nine-month periods ended March 31, 2023, respectively. The decreases are primarily due to lower COVID-19 volumes and acuity, an unfavorable shift in payor and service mix, and the estimated impact of the Cybersecurity Incident.

Volumes	Three-Month Periods				Nine-Month Periods

Payor mix based on gross revenues for the nine-month period ended March 31, 2023, has softened compared to the prior year. The following chart represents the payor gross revenue mix for consolidated operations for the nine-month periods ended March 31, 2023 and 2022:

Payor Gross Revenue Mix

Same store adjusted admissions increased 9.0% and 4.6% during the three and nine-month periods ended March 31, 2023, respectively, compared to the same periods in the prior year, as COVID-19 cases declined and hospitals experienced increases in other volume.

The following table is a summary of key volume metrics experienced throughout the pandemic on a same-store basis:

All other operating revenues decreased \$69 million, or 14.0%, and \$223 million, or 13.2%, from the prior year for the three and nine-month periods ended March 31, 2023, respectively. Same store other operating revenues decreased \$39 million, or 8.5%, and \$82 million, or 5.2%, for the three and nine-month periods ended March 31, 2023, compared to the same periods in the prior year, respectively, primarily due to a gain on joint venture shares in the prior year, and grant revenues related to Employee Retention Credits received in the prior year, partially offset by CARES PRF grant revenue totaling \$263 million for the nine-months ended March 31, 2023, compared to \$20 million for the same period in the prior year.

Operating Revenues					
(\$ in millions)	Three-Month Periods Ended March 31,				
	2023	2023*	2022	2022*	Change**

Uncompensated Care						
(\$ in millions)	Three-Month Periods Ended			Nine-Month Periods Ended		
	March 31,			March 31,		
	2023	2022	Change	2023	2022	Change

Uncompensated Care:

Charity care, at customary charges	\$ 464	\$ 440	\$ 24	\$ 1,469	\$ 1,524	\$ (55)
Charity care, at cost, net	\$ 116	\$ 115	\$ 1	\$ 371	\$ 389	\$ (18)
Charity care, at cost, as a percentage						
of total expenses	1.3%	1.3%	0.0%	1.4%	1.5%	(0.1%)
Implicit price concessions	\$ 374	\$ 499	\$ (125)	\$ 1,172	\$ 1,351	\$ (179)

Charity care at customary charges for the nine-month period ended March 31, 2023, is lower than the same period in the prior year primarily due to a reduction in qualified charity care volumes.

Operating Expenses

Salaries and benefits decreased \$109 million, or 2.3%, but increased \$30 million, or 0.2%, for the three and nine-month periods ended March 31, 2023, compared to the same periods in the prior year, respectively. On a same-store basis, salaries and benefits increased \$42 million, or 0.9%, and \$354 million, or 2.7%, for the three and nine-month periods ended March 31, 2023, compared to the same periods in the prior year, respectively. Salaries and benefits per adjusted admission on a same store basis decreased 7.4% and 1.9%, for the three and nine-month periods ended March 31, 2023, respectively, primarily due to lower contract labor as the labor supply shortage softens and retention and hiring efforts are realized, and improvements in productivity, partially offset by inflation.

Supplies increased \$39 million but decreased \$116 million, or 2.9% and 2.7%, during the three and nine-month periods ended March 31, 2023, compared to the same periods in the prior year, respectively. On a same-store basis, supplies increased \$88 million, or 6.8%, and \$1 million, or 0.0%, over the same periods in the prior year, for the three and nine-month periods ended March 31, 2023, respectively. Supplies per adjusted admission on a same store basis decreased 2.1% and 4.4% for the three and nine-month period ended March 31, 2023, compared to the same periods

in the prior year, respectively. The decrease is primarily due to lower pharmaceuticals and laboratory supplies, partially offset by higher inflation.

Purchased services and other increased \$177 million and \$260 million, or 7.2% and 3.6%, when normalized for the California provider fee program costs, for the three and nine-month periods ended March 31, 2023, compared to the same periods in the prior year, respectively. On a same-store basis, purchased services and other increased \$247 million, or 10.4%, and \$420 million, or 6.0%, for the three and nine-month periods ended March 31, 2023, compared to the same periods in the prior year, respectively, primarily due to higher medical fees, utilities, special charges primarily related to severance for reductions in force, and inflationary pressures, partially offset by lower recruiting and travel costs.

Expense Management and Productivity								
	Three-Month Periods Ended March 31,				Nine-Month Periods Ended March 31,			
	2023	2023*	2022	2022*	2023	2023*	2022	2022*

Nonoperating Results

CommonSpirit recorded investment income, net, of \$443 million and \$645 million during the three and nine-month periods ended March 31, 2023, compared to investment losses, net, totaling \$183 million and investment income, net, totaling \$219 million during the same periods in the prior year, respectively, due to a rebound in the financial markets.

Income tax expense amounted to \$8 million and \$28 million during the three and nine-month periods ended March 31, 2023, compared to income tax credit of \$4 million and income tax expense of \$72 million during the same periods in the prior year, respectively.

The change in market value and cash payments of interest rate swaps was an unfavorable result of \$12 million and a favorable result of \$44 million during the three and nine-month periods ended March 31, 2023, compared to favorable results of \$95 million and \$117 million during the same periods in the prior year, respectively.

Net periodic postretirement costs amounted to \$4 million and \$11 million of expense during the three and nine-month periods ended March 31, 2023, compared to \$69 million and \$210 million of income during the same periods in the prior year, respectively.

** Adjusted to normalize the California Provider Fee Program revenues.

*** Comparing the nine-month period ended March 31, 2023, as adjusted to the same period in the prior year as adjusted.

Following are the significant division performance drivers related to operating revenues normalized for the California Provider Fee, compared to the same period in the prior year for the nine-month periods ended March 31, 2023:

- Southern California Division – normalized operating revenues increased \$194 million from the same period in the prior year, primarily due to Cares PRF revenue and higher volumes, partially offset by softer payor mix. Adjusted admissions increased from the same period in the prior year by 6.0%.
- Northern California Division – normalized operating revenues increased \$122 million from the same period in the prior year, primarily due to Cares PRF revenue and a 4.8% increase in adjusted admissions, partially offset by softer payor mix.
- Pacific Northwest Division – operating revenues increased \$90 million from the same period in the prior year, primarily due to Cares PRF revenue and higher volumes, partially offset by softer payor mix, and lower acuity. Adjusted admissions increased from the same period in the prior year by 6.2%, partially offset by the impact of the Cybersecurity Incident.
- Southwest Division – operating revenues decreased \$105 million from the same period in the prior year, primarily due to an unfavorable shift in payor mix, partially offset by higher volumes and Cares PRF revenue. Adjusted admissions increased from the same period in the prior year by 4.0%.
- Southeast Division – operating revenues decreased \$40 million from the same period in the prior year, primarily due to lower revenue from health-related activities, and lower surgical volume, partially offset by higher Cares PRF revenue. Adjusted admissions increased from the same period in the prior year by 2.6%, partially offset by the impact of the Cybersecurity Incident.

- Midwest Division – operating revenues increased \$39 million from the same period in the prior year, primarily due to higher Cares PRF revenue and higher volumes, partially offset by reduced yields, and softer payor mix. Adjusted admissions increased from the same period in the prior year by 4.0%, partially offset by the impact of the Cybersecurity Incident.
- Colorado Division – operating revenues increased \$42 million from the same period in the prior year, primarily due to a 10.4% increase in same store adjusted admissions, partially offset by unfavorable shift in payor mix and lower Cares PRF and other grants revenue.
- Texas Division – operating revenues decreased \$40 million from the same period in the prior year, primarily due to an unfavorable shift in payor mix, partially offset by Cares PRF revenues. Adjusted admissions increased from the same period in the prior year by 2.5%, partially offset by the impact of the Cybersecurity Incident.
- Iowa Division – operating revenues decreased \$719 million from the same period in the prior year, primarily due to the MercyOne transaction.

The table below reflects the same-store adjusted admissions (excluding the impact of the affiliation with two facilities in Kansas and Colorado and the divestiture of MercyOne) as a percentage of the same period in the prior year, for the nine-month period ended March 31, 2023:

Same-Store Adjusted Admissions as a % of Prior Year

Balance Sheet Metrics

The following table provides key balance sheet metrics for CommonSpirit:

Key Balance Sheet Metrics			
(\$ in millions)	March 31, 2023	June 30, 2022	Change
Consolidated Balance Sheet Summary			
Total assets	\$ 49,375	\$ 50,314	\$ (939)
Total liabilities	\$ 28,829	\$ 29,285	\$ (456)
Total net assets	\$ 20,546	\$ 21,029	\$ (483)
Financial Position Ratios			
Unrestricted cash and investments	\$ 15,044	\$ 16,247	\$ (1,203)
Days cash on hand	161	176	(15)
Total debt	\$ 16,337	\$ 15,427	\$ 910
Debt to capitalization	47.1%	45.1%	2.0%

Liquidity

Unrestricted cash and investments were \$15.0 billion at March 31, 2023, and \$16.2 billion at June 30, 2022. The decrease is primarily due to the recoupment of Medicare advances, payments of deferred payroll taxes, and changes in operating cash flows. CommonSpirit is actively monitoring liquidity given the operational disruption related to inflationary pressures, payor mix shifts, continued concerns of a looming recession, and the impact of the Cybersecurity Incident on receivables.

Liquidity and Capital Resources			
(\$ in millions)	March 31, 2023	June 30, 2022	Change
Cash	\$ 1,465	\$ 2,592	\$ (1,127)
Short-term investments	410	596	(186)
Long-term investments, excluding assets limited as to use	13,169	13,059	110
Total unrestricted cash and investments	<u>\$ 15,044</u>	<u>\$ 16,247</u>	<u>\$ (1,203)</u>

Capital Resources

Cash used in operating activities totaled \$1.8 billion for the nine-month period ended March 31, 2023, compared to cash provided of \$389 million for the same period in the prior year. Significant activity for the nine-month period ended March 31, 2023, includes the following:

- Investments increased \$165 million during the nine-month period ended March 31, 2023, compared to a decrease of \$2.2 billion during the same period in the prior year, due to a turnaround in the investment market in the current year.
- Medicare advances to be withheld from future Medicare fee-for-service payments decreased \$805 million during the nine-month period ended March 31, 2023, compared to a decrease of \$1.0 billion during the same period in the prior year.
- Accrued salaries and benefits decreased \$117 million during the nine-month period ended March 31, 2023, compared to a decrease of \$326 million during the same period in the prior year.
- Provider fee assets and liabilities, net, increased \$339 million during the nine-month period ended March 31, 2023, compared to a decrease of \$90 million during the same period in the prior year.
- Accounts receivable, net, increased \$766 million during the nine-month period ended March 31, 2023, compared to an increase of \$508 million during the same period in the prior year, the increase is primarily due to a challenged collection environment and the impact of the Cybersecurity Incident.
- Accounts payable, net, increased \$40 million during the nine-month period ended March 31, 2023, compared to a decrease of \$151 million during the same period in the prior year.
- Other accrued liabilities increased \$143 million during the nine-month period ended March 31, 2023, compared to a decrease of \$3 million during the same period in the prior year.

Cash used by investing activities totaled \$195 million for the nine-month period ended March 31, 2023, compared to cash used of \$740 million for the same period in the prior year, primarily due to the following:

- Capital expenditures were \$774 million during the nine-month period ended March 31, 2023, compared to \$982 million during the same period in the prior year. Such capital expenditures primarily relate to general maintenance of facilities, equipment and systems additions and replacements, and various other capital improvements.
- Proceeds from asset sales were \$553 million during the nine-month period ended March 31, 2023, compared to \$271 million during the same period in the prior year.
- Cash distributions from health-related activities were \$131 million during the nine-month period ended March 31, 2023, compared to \$70 million during the same period in the prior year.
- Investments in health related activities were \$56 million during the nine-month period ended March 31, 2023, compared to \$54 million during the same period in the prior year.

Cash provided by financing activities totaled \$851 million for the nine-month period ended March 31, 2023, compared to cash used of \$106 million for the same period in the prior year, primarily due to the following:

- Net borrowings of debt were \$892 million during the nine-month period ended March 31, 2023, \$450 of which was drawn on the working capital line of credit to address collection shortfalls in the wake of the Cybersecurity Incident, compared to net repayments of \$69 million during the same period in the prior year.

Debt Portfolio

The CommonSpirit Obligated Group represents approximately 87% of consolidated revenues of CommonSpirit as of March 31, 2023. The debt portfolio remains well diversified, with a high proportion of long-term fixed rate debt providing stability.

The chart below depicts CommonSpirit's debt mix as of March 31, 2023, as compared to June 30, 2022:

In October 2022, CommonSpirit issued \$807 million of taxable fixed rate bonds, the proceeds of which were used to refund \$800 million of taxable fixed rate bonds and pay cost of issuance expenses, and issued \$497 million of tax-exempt fixed rate bonds, the proceeds of which were used to reimburse for prior capital expenditures and to fund future capital expenditures.

Strategic Focus and Priorities

In fiscal year 2022, CommonSpirit introduced its first five-year integrated strategic plan, CommonSpirit 2026. CommonSpirit 2026 is grounded in our mission, vision and values, informed by the dynamic environment around us, and mobilizes CommonSpirit's prior, current and future work around a common set of strategic priorities and focuses on where CommonSpirit can have the greatest impact. The plan repositions CommonSpirit to lead and transform health care to meet the evolving needs of our communities and consumers, particularly given the rapidly changing health care landscape. CommonSpirit 2026 provides flexibility for our diverse operations and communities across 22 states to come together around a common direction and creates a path to maintaining long-term sustainability for the organization.

CommonSpirit 2026 is how we will deliver on our promise and is encapsulated in the form of three pillars, Our People, Our Excellence and Our Future, as described below. Each of these pillars includes a range of initiatives which are typically long-term in nature. Metrics within each pillar and for specific initiatives have been developed and are reported to the CommonSpirit Board on a regular basis. Examples of third quarter fiscal year 2023 activity through March 31, 2023, are noted below.

Our People: Nurture our people by creating an environment and culture in which our diverse workforce can thrive while living their calling.

- Nurturing and investing in our employees and providers is the greatest strength CommonSpirit has with a focus on their well-being and development while creating a safe and caring environment to bring out their best.
- Focus on system redesign, new care models, and technologies that align with clinicians' interests, respond to increasing patient demands, and make CommonSpirit a clinician's first choice of partner.
- Attract and retain leaders who find purpose in their work, and build competencies that reflect CommonSpirit's focus on well-being across a continuum of care and the enhanced importance of an agile, collaborative culture.

The national nursing shortage, exacerbated by high turnover related to the COVID-19 pandemic, is expected to continue. In response, CommonSpirit is focused on bolstering its nursing workforce. In alignment with a national strategy for nurse residency, CommonSpirit developed a national nurse residency program ("NRP"), which is anticipated to train approximately 1,000 nurses within the first year, with a goal of expanding the NRP each year thereafter. The NRP utilizes preceptors, in collaboration with unit leaders, clinical educators, and mentors, to support nurse residents through the first two years of their careers at CommonSpirit. CommonSpirit has five hospitals with national accreditation by the American Nurses Credentialing Center Practice Transition Accreditation Program (Baylor St. Luke's Medical Center, TX, CHI Memorial Hospital, TN, Bakersfield Memorial Hospital, CA, St. Joseph's Hospital and Medical Center, AZ, and St. John's Regional Medical Center and Hospital, CA).

In February 2023, 14 training sites launched in Arizona and Texas where new graduate nurses are hired. An additional 23 sites are expected to launch by the end of FY 2023, with another 97 sites planned to launch in FY 2024. As of April 2023, 61 nurse residents were enrolled, 691 preceptors have or are completing training, 67 educators and managers received training on a learning platform provided by Dignity Health Global Education, and 134 educators and managers have administrator access to the platform.

CommonSpirit has also put in place a range of programs to support employee wellness, resilience and retention. We introduced MyWellness in July 2022, a holistic wellness program that uses a mix of technology, support programs and cultural practices.

- Since the launch of the program in July 2022, over 60% (78,458) of employees enrolled in MyWellness, with over 66% of enrolled employees actively engaging with the program (vs 45% goal). For those employees who have engaged with our MyWellness program, we see a 13% lower attrition rate than those employees who have not engaged.
- In December 2022, CommonSpirit launched a new mental health program, partnering with Lyra, to connect employees and their families to mental health coaches or therapists. Previously there were over 13 different vendors offering these services. Since the launch, over 13,000 employees and their family members have signed up for the Lyra program, and 93% of our employees and their families who have sought mental health care have been able to start care within two weeks, which is significantly improved versus prior vendors.

- In January 2022, CommonSpirit held its first Well-Being Summit with over 600 leaders attending. The virtual gathering of leaders across CommonSpirit’s ministry contributes, operationalizes or influences our well-being efforts in support of CommonSpirit 2026.

As a large, national organization, CommonSpirit has a variety of locations and roles within the system, which provides opportunities for growth for our employees. One piece of our retention strategy has been to offer employees professional development to grow their careers within CommonSpirit.

- CommonSpirit offers employees more than 3,000 career development courses, books, and events on topics in leadership and communication at no cost.
- Through our tuition reimbursement program, eligible employees can earn a degree for as little as zero out of pocket expense. CommonSpirit has curated partnerships with schools that offer discounts, some resulting in a tuition free education.
 - With these and other discounts, CommonSpirit employees have saved more than \$1 million dollars in tuition.
- CommonSpirit is also designing specific programs that advance underrepresented groups, including employees who have never been to college.
 - While more than half of our tuition reimbursement program participants are seeking nursing degrees in a variety of specialties and at all levels, CommonSpirit also has many participants in other areas such as business and IT where we need to develop and retain our talent to lean into growth areas such as digital health.

CommonSpirit is also investing in workforce development programs that enable us to grow our future leaders and clinicians. Nearly 200 providers and 80 future nurse leaders have participated in leadership academies designed to elevate clinical leaders. We recently launched an academy for senior operations leaders with 50 participants. These programs advance several goals, including building leadership pipelines in clinical and operational service lines across the system through internal promotion, increasing leadership retention.

Our Excellence: Build on our foundation of growth and health equity through superior clinical quality, efficient capital and operations, and organizational agility to respond to shifting landscapes and health care disparities.

- Excel in consistent clinical excellence by rapidly scaling best practices from innovators in and outside of CommonSpirit to create a high quality, consumer–centric patient experience.
- Shape the industry with a commitment to serve, advocate, and partner to meet the holistic health needs of diverse communities through focusing on the social determinants of health.
- Build an efficient, unified system through standardized ways of working, an agile operating model, controlled IT risk, and unified brand strategy.
- Strengthen the balance sheet and improve CommonSpirit’s margin through optimizing the portfolio of patient care sites, reducing operating expenditures, and increasing capital efficiency.

CommonSpirit is organized under a single operating company model that facilitates identifying, standardizing and scaling best practices across the System. At the corporate level, common services and practices include centralized financial services and purchasing, supply chain, corporate financial planning, budget and capital allocation processes, and centralized cash, debt and investment management. Other functions that are coordinated centrally, with varying degrees of local implementation, include clinical quality and patient safety, managed care strategies and contracting, strategic innovation and partnerships, community health strategies, marketing management, advocacy, and communications. System-wide performance metrics have been established utilizing standardized data sources and are being used to track a range of metrics in clinical quality and patient experience, growth, engagement, financial performance, service to the community, and other areas.

An example of how a unified CommonSpirit approach can improve efficiency and effectiveness is the Clinical Command Centers. CommonSpirit’s Clinical Command Centers enable our divisions to advance unified clinical

standards, offer enhanced services and new ways to deliver care, and more efficiently manage resources across larger geographies within CommonSpirit. The Clinical Command Centers provide communication, coordination and clinical services, including remote patient monitoring, virtual care services, coordination of inter- and intra-facility transfers, staffing and care transition management, and other services. CommonSpirit has six Clinical Command Centers located in the Arizona, Pacific Northwest, California/Nevada, Midwest, Southeast and Texas Divisions providing centralized services across our Divisions, three of which provide these services across state lines. Two of the Clinical Command Centers (PNW and AZ) are able to virtually transfer patients to each other, maximizing productivity and services. Services offered through the Clinical Command Centers include the following:

- The Virtual Care Continuum RN (vccRN) serves patients in CA, KY, AR, and TX.
- Consolidated Centralized Communication Services in AZ serves Sacramento to Phoenix.
- Virtual companion services are offered across ten states (CA, NV, TX, WA, TN, AZ, KY, AR, NE, and OR) and have expanded from six to 41 locations since 2020. We have improved quality and patient safety through fall reduction and sentinel events prevention, and improved transitions of care, decreasing readmissions and length of stay in specific locations.
- The Virtual Companion has monitored more than 20,000 patients and we estimate that over 30,000 adverse events have been avoided through this enhanced monitoring.
- CommonSpirit believes the Clinical Command Centers will generate a strong return on investment over the next five years.

As part of CommonSpirit's commitment to excellence and an expression of its mission and values, in November 2021, the organization announced an industry-leading commitment to achieve net-zero greenhouse gas emissions by 2040 with an interim target to cut operational emissions in half by 2030. As one of the nation's largest, most diverse and leading health systems, CommonSpirit's pledge will impact the climate crisis by delivering more sustainable, resilient, and climate-smart health care across its 22-state footprint. CommonSpirit is focused on systematic efforts to track and report on its Net Zero initiatives as well as other Environmental, Social and Governance (ESG) initiatives. CommonSpirit incorporated a new ESG disclosure section as part of its 2022 public bond offering. CommonSpirit's FY 2022 Sustainability Report is expected to be completed by June 30, 2023. The 2021 report can be found on the CommonSpirit.org website.

Financial sustainability is a critical component of excellence and supports the ministry's achievement of its strategic objectives. As part of this, CommonSpirit strives to maintain strong operating performance and a prudent capital structure, as well as 'A' category credit ratings that support capital access. In September 2022, Fitch upgraded its credit rating on CommonSpirit to 'A-', and Standard & Poor's affirmed its 'A-' rating, both with Stable outlooks. Moody's Investor Service maintained its 'Baa1' rating on CommonSpirit and also maintained its Positive outlook, indicating the potential for a higher rating should the organization improve its financial operations and maintain balance sheet strength as planned. More recent accomplishments that form a foundation of our long-term financial sustainability include:

- Adjusting our portfolio in areas where the community is better served with another partner – a recent example is Mercy One, which closed in 2022.
- Working to address labor inflation and labor management, achieving an approximate 33% reduction in contract labor from the peak in mid-2022.
- Demonstrating strong capital access, successfully issuing \$1.3 billion in taxable and tax-exempt bonds in October 2022 during a time with very volatile market conditions.

CommonSpirit continues to make progress toward its original synergy goal of \$2 billion. A total of over \$1.3 billion in synergies has been achieved through June 30, 2022, since the formation of CommonSpirit Health in 2019 in areas such as vendor consolidation and vendor management, creation of a single GPO, productivity improvements, insourcing various functions and consolidating other functions. Management has set a goal of \$500 million in synergies realization and operational best practice implementation for fiscal 2023. The largest areas of synergy potential include purchased service and real estate optimization, ancillary services standardization, pharmaceutical spend management, and continued improvements in labor productivity, supply chain, and revenue cycle operations.

Our Future: Cultivate an ecosystem that is consumer-centered and committed to meeting the holistic needs of each consumer and improving the health of our communities.

- Serve as a reputable leader in Catholic health care through active engagement, servant leadership, and measurable impact in the communities CommonSpirit serves.
- Implement a patient-centered, personalized care experience that is easy to access, understand and navigate, and is grounded in consumer journeys – with a focus on a broad range of access points and care modalities.
- Scale integrated care across the continuum with strong provider alignment and an ecosystem of partners and owned assets.
- Advance CommonSpirit’s portfolio of diverse investments to transform care delivery, be a preferred partner in a new health care landscape, and thrive in an ever-changing health care environment.
- Establish CommonSpirit as an at-scale adopter of value-based arrangements through enhanced population health capabilities and a broader continuum of care.

CommonSpirit is leveraging our scale to improve clinical integration, care coordination and access for a seamless customer experience. We have built a national physician enterprise, which is advancing national connection centers, revenue cycle teams, population health data and technology, clinical standards, and quality platforms, to foster a system approach to clinical integration, patient experience and quality.

CommonSpirit’s Patient Connection Centers are an example of initiatives to enhance “front door” access for patients to access care in our facilities. The Patient Connection Centers are designed to deliver best practices in appointment scheduling, authorization and referral management, nurse triage, and prescription refills. CommonSpirit now has 5 regional hubs that use our national infrastructure to help coordinate care and improve network integrity.

- Patient Connection Centers create a single point of access for the 38 million calls we receive across the organization that were previously managed differently across 1,100 locations.
- Patient Connection Center calls are answered faster – 90% of calls addressed customer needs in significantly less time than the national average, and 88% of the time, patient needs are resolved with that first phone call, well ahead of national averages.
- In addition to improving access and customer experience, our Patient Connection Centers improve efficiency for our caregivers and support teams, including better coordination between front and back offices.
- Helping patients access care at our facilities also contributes to volume growth and productivity; after going live with our Patient Connection Centers, we have seen significant improvement in both patient access and physician productivity.

Despite the challenging times the industry and CommonSpirit are facing, CommonSpirit continues to focus on growth and investing in our strong markets. On May 1, 2023, CommonSpirit purchased the operations of five hospitals, over 40 medical group clinics (140+ physicians), a clinically integrated provider network, and interests in JV imaging centers and urgent care sites from Steward Health Care in Utah. This acquisition is an example of how CommonSpirit continues to deliver on our promise to lead and transform health care to meet the evolving needs of our communities and consumers through financial stewardship, to be the convener and thought leader in Catholic health care, to further develop integrated delivery networks, and promote growth and diversification. We have identified opportunities to further scale the market by improving access, quality, payor partnerships, competitiveness, and delivering on profitable organic growth. The acquisition provides development opportunities along the I-70 corridor (Denver to Salt Lake City) and the I-15 corridor (Las Vegas to Salt Lake City).

COMMONSPIRIT HEALTH

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. ORGANIZATION

CommonSpirit Health is a Colorado nonprofit public benefit corporation exempt from federal and state income taxes. CommonSpirit Health is a Catholic health care system sponsored by the public juridic person, Catholic Health Care Federation (“CHCF”).

As of May 15, 2023, subsequent to the transaction disclosed in Note 3, CommonSpirit Health owns and operates health care facilities in 22 states and is the sole corporate member (parent corporation) of other primarily nonprofit corporations that are exempt from federal and state income taxes, and is comprised of approximately 2,300 care sites, consisting of 143 hospitals, including academic health centers, major teaching hospitals, and critical access facilities, community health services organizations, accredited nursing colleges, home health agencies, living communities, a medical foundation and other affiliated medical groups, and other facilities and services that span the inpatient and outpatient continuum of care. CommonSpirit Health also has offshore and onshore captive insurance companies. The accompanying unaudited condensed consolidated financial statements include CommonSpirit Health and its direct affiliates and subsidiaries (together, “CommonSpirit”).

CommonSpirit Health and substantially all of its direct affiliates and subsidiaries have been granted exemptions from federal income tax as charitable organizations under Section 501(c)(3) of the Internal Revenue Code.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation – The accompanying unaudited condensed consolidated financial statements of CommonSpirit were prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) and include the accounts of all wholly-owned affiliates and affiliates over which CommonSpirit exercises control or has a controlling financial interest, after elimination of intercompany transactions and balances. These unaudited condensed consolidated financial statements do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. For further information, refer to the audited consolidated financial statements as of and for the years ended June 30, 2022 and 2021. Operating results for the three and nine-month periods ended March 31, 2023, are not necessarily indicative of the results to be expected for the year ending June 30, 2023.

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. CommonSpirit considers critical accounting policies to be those that require more significant judgments and estimates in the preparation of its condensed consolidated financial statements, including the following: recognition of net patient revenue, which includes contractual discounts and adjustments; price concessions and charity care; fair value of acquired assets and assumed liabilities in business combinations; recorded values of depreciable and amortizable assets, investments and goodwill; reserves for self-insured workers’ compensation and professional and general liabilities; contingent liabilities; and assumptions for measurement of pension and other postretirement benefit liabilities. Management bases its estimates on historical experience and various other assumptions that it believes are reasonable under the particular circumstances. Actual results could differ from those estimates.

Patient Accounts Receivable and Net Patient Revenue – Patient service revenue is reported at the amounts that reflect the consideration CommonSpirit expects to be paid in exchange for providing patient care. These amounts are due from patients, third-party payors (including health insurers and government programs), and others, and include consideration for retroactive revenue adjustments due to settlement of audits and reviews. Generally, performance obligations for patients receiving inpatient acute care services and outpatient services are recognized over time as services are provided. Net patient revenue is primarily comprised of hospital and physician services.

CommonSpirit determines the transaction price based on standard charges for services provided, reduced by contractual adjustments provided to third-party payors, discounts provided to uninsured and underinsured patients in accordance with CommonSpirit’s financial assistance policy, and implicit price concessions provided to uninsured and underinsured patients. CommonSpirit determines its estimates of contractual adjustments and discounts based on contractual agreements, its discount policy, and historical experience. CommonSpirit determines its estimate of implicit price concessions based on its historical collection experience with these

classes of patients using a portfolio approach as a practical expedient to account for patient contracts as collective groups rather than individually. CommonSpirit relies on the results of detailed reviews of historical write-offs and collections in estimating the collectability of accounts receivable. Updates to the hindsight analysis are performed at least quarterly using primarily a rolling eighteen-month collection history and write-off data. Subsequent changes to estimates of the transaction price are generally recorded as adjustments to net patient revenue in the period of the change.

Subsequent changes that are determined to be the result of an adverse change in a third-party payor's ability to pay are recorded as bad debt expense in purchased services and other in the accompanying unaudited condensed consolidated statements of operations and changes in net assets. Bad debt expense for the nine-month periods ended March 31, 2023 and 2022 was not significant.

Agreements with third-party payors typically provide for payments at amounts less than established charges. A summary of the payment arrangements included in net patient revenue follows:

Medicare: Payments for inpatient services are generally made on a prospectively determined rate based on clinical diagnosis. Certain facilities receive cost-based reimbursement. Hospital outpatient services are generally paid based on prospectively determined rates. Physician services are paid based upon established fee schedules.

Medicaid: Payments for inpatient services are generally made on a prospectively determined rate based on clinical diagnosis or on a per case or per diem basis. Hospital outpatient services and physician services are paid based upon established fee schedules, a cost basis reimbursement methodology, or discounts from established charges.

Commercial: Payments for inpatient and outpatient services provided to patients covered under commercial insurance policies are paid using a variety of payment methodologies, including per diem and case rates.

Self-Pay and Other: Payment agreements with uninsured or underinsured patients, along with other responsible entities, including institutions, other hospitals and other government payors, are based on a variety of payment methodologies.

Net patient revenue includes estimated settlements under payment agreements with third-party payors. Settlements with third-party payors are accrued on an estimated basis in the period in which the related services are rendered and adjusted in future periods as final settlements are determined. These settlements are estimated and evaluated based on the terms of the payment agreement with the payor, correspondence from the payor, and historical settlement activity.

Special Charges - Included within purchased services and other are certain non-routine, nonrecurring costs that are unusual in nature. These costs, referred to as special charges, primarily relate to impairment of long-lived assets, certain contract termination costs, certain integration activities that are specific to long-term value capture efforts, and severance costs related to system-wide reductions in force.

Subsequent Events – CommonSpirit has evaluated subsequent events occurring between the end of the most recent fiscal quarter and May 15, 2023, the date the condensed consolidated financial statements were issued. See Notes 3, 10 and 11.

3. ACQUISITIONS, AFFILIATIONS AND DIVESTITURES

Iowa – In September 2022, CommonSpirit sold the facilities and assets of MercyOne, a regional health system in Iowa, to Trinity Health for a gross purchase price of \$613 million. MercyOne had operated under a JOA between Trinity Health and CommonSpirit. A net loss on sale of \$23 million was recognized in the nine-month period ended March 31, 2023. As of June 30, 2022, certain assets and liabilities of MercyOne are classified as held for sale, within other current assets and other accrued liabilities - current, respectively, in the accompanying condensed consolidated balance sheet.

A summary of major classes of assets and liabilities held for sale is presented below as of June 30, 2022 (in millions):

Cash and cash equivalents	\$ 35
Patient accounts receivable, net	148
Other current assets	50
Long-term investments	70
Property and equipment, net	362
Right-of-use operating lease assets	121
Ownership interests in health-related activities	117
Other long-term assets, net	<u>5</u>
Total assets held for sale	<u><u>\$ 908</u></u>
Current portion of long-term debt	\$ 1
Accounts payable	16
Accrued salaries and benefits	49
Medicare advances	32
Other accrued liabilities - current	45
Operating lease liabilities	104
Other accrued liabilities - long-term	2
Long-term debt, net of current portion	<u>1</u>
Total liabilities held for sale	<u><u>\$ 250</u></u>

Other – In February 2022, CommonSpirit entered into a definitive agreement to acquire two hospital facilities, one in western Kansas and one in northern Colorado, and the transaction was finalized in May 2022. The acquired facilities support the mission and strategy to expand the scope and quality of care in those rural and surrounding communities, and will be managed by Centura Health pursuant to the existing JOA. The purchase price is immaterial to the condensed consolidated financial statements.

In February 2023, CommonSpirit entered into an asset purchase agreement to acquire substantially all of the assets of a regional health system, including five hospitals, over 40 clinics, and other ambulatory services in Utah for total consideration of \$705 million and initiation of a 15 year master lease agreement for real property on which the primary health care facilities are located, with minimum annual payments of approximately \$95 million. The transaction closed in May 2023. The facilities acquired will support the mission and strategy to better serve the health care needs of the communities in Utah, and will be managed by Centura Health.

In February 2023, CommonSpirit and AdventHealth announced that they have agreed to transition to direct management of their respective care sites that comprise Centura Health (the “Transition”). Following the Transition, CommonSpirit will directly operate and manage its hospitals and affiliated clinics in Colorado, western Kansas and Utah, and AdventHealth will directly operate and manage its Adventist hospitals and their affiliated clinics in Colorado. Centura Health will continue in its management role of the hospitals, physician clinics, and other care sites through the Transition. The Transition is not expected to have a material effect on the financial condition or operations of CommonSpirit, taken as a whole.

4. COVID-19 PANDEMIC

In December 2019, a novel strain of coronavirus, known as COVID-19, was first detected. The virus spread worldwide and in March 2020 was declared a pandemic by the World Health Organization. The Centers for Disease Control and Prevention confirmed the first case in the United States in February 2020, and with the rapid spread across all 50 states, the United States government passed new laws designed to help the nation respond to this pandemic.

The CARES Act Provider Relief Funds (“CARES PRF”) funds provide stimulus in the form of financial aid to cover extensive emergency funding to hospitals and providers through existing mechanisms to prevent, prepare for, and respond to COVID-19. For the nine-month periods ended March 31, 2023 and 2022, CommonSpirit has recognized approximately \$263 million and \$20 million, respectively, under CARES PRF in the form of grants as reimbursement through the Public Health and Social Services Emergency Fund for lost revenues attributable to COVID-19. These funds are not required to be repaid upon attestation and compliance with certain terms and conditions, and are recorded within other operating revenue as earned. As of March 31, 2023 and June 30, 2022, \$1 million and \$9 million, respectively, of deferred revenue is included within other accrued liabilities - current, in the condensed consolidated balance sheets. CommonSpirit will continue to monitor the terms and conditions of CARES PRF funding and the impact of the pandemic on revenues and expenses.

Additional relief to address the continued impact of COVID-19 was provided through the American Rescue Plan Act of 2021 (“ARP Rural”), in addition to the CARES PRF funds. CommonSpirit received approximately \$149 million in ARP Rural funds in June 2022 in the form of grants recorded as other operating revenues. No additional ARP funds have been received in fiscal year 2023.

To date, CommonSpirit also received \$2.8 billion in funds under the Medicare Accelerated and Advance Payment Program, which was received in the entirety prior to fiscal year 2023. These payments are advances that were recouped by withholding Medicare fee-for-service payments for claims, until such time as the full accelerated payment had been recouped. As of March 31, 2023 and June 30, 2022, the terms and conditions in effect at that time prescribed that any outstanding balance remaining after 29 months from date of receipt are subject to interest of 4%. As such, as of March 31, 2023, \$1 million is recorded as a current liability in Medicare advances. As of June 30, 2022, \$793 million was recorded as a current liability in Medicare advances, and \$32 million was recorded in current liabilities held for sale.

CommonSpirit had deferred approximately \$416 million of employer payroll taxes through March 31, 2023, pursuant to the Paycheck Protection Program and Health Care Enhancement Act, of which \$208 million was paid in December 2021, and \$208 million was paid in December 2022.

CommonSpirit recorded \$64 million of Employee Retention Credits under CARES PRF during the three-month period ended September 30, 2021. These funds relate to qualified wages paid between April 1, 2020, and June 30, 2020, and are recorded in other operating revenue. No additional amounts have been recorded in fiscal year 2023.

While the aid received from the programs above provides much needed assistance during this crisis, CommonSpirit is unable to assess the extent to which the amounts and benefits received, or to be received, will offset the negative impacts on its results of consolidated operations and financial position arising from the COVID-19 pandemic.

5. NET PATIENT REVENUE

Patient revenue, net of contractual discounts and adjustments and implicit price concessions, is comprised of the following (in millions):

	Three-Month Periods Ended		Nine-Month Periods Ended	
	March 31,		March 31,	
	2023	2022	2023	2022
Government	\$ 3,593	\$ 3,528	\$ 11,933	\$ 11,374
Contracted	3,294	3,274	9,334	9,812
Self-pay and other	635	677	1,822	1,951
	<u>\$ 7,522</u>	<u>\$ 7,479</u>	<u>\$ 23,089</u>	<u>\$ 23,137</u>

Government payor type includes Medicare fee for service, Medicare capitated, Medicare managed care fee for service, Medicaid fee for service, Medicaid capitated and Medicaid managed care fee for service patient accounts. Contracted payor type includes contracted rate payors and commercial capitated patient accounts.

6. OTHER CURRENT ASSETS

Other current assets consists of the following (in millions):

	As of March 31,	As of June 30,
	2023	2022
Inventories	\$ 797	\$ 795
Receivables, other than patient accounts receivable	690	583
Broker receivables for unsettled investment trades	227	576
Assets held for sale	-	908
Prepaid expenses	408	372
Other	64	62
Total other current assets	<u>\$ 2,186</u>	<u>\$ 3,296</u>

7. CASH AND INVESTMENTS

CommonSpirit's cash and investments include consolidated membership interests in the CommonSpirit Health Operating Investment Pool, LLC ("CSH OIP") as of March 31, 2023 and June 30, 2022. Short-term and long-term investments also include assets limited as to use set aside by CommonSpirit for future long-term purposes as outlined below (in millions):

	As of March 31, 2023	As of June 30, 2022
Cash and cash equivalents	\$ 1,465	\$ 2,592
Short-term investments	410	596
Long-term investments	<u>16,496</u>	<u>16,087</u>
Total cash and investments	<u>18,371</u>	<u>19,275</u>
Less:		
Held for self-insured claims	1,817	1,758
Under bond indenture agreements for debt service	179	78
Donor-restricted	600	579
Other	<u>731</u>	<u>613</u>
Total assets limited as to use	<u>3,327</u>	<u>3,028</u>
Unrestricted cash and investments	<u>\$ 15,044</u>	<u>\$ 16,247</u>

8. FAIR VALUE MEASUREMENTS

CommonSpirit accounts for certain assets and liabilities at fair value or on a basis that approximates fair value. A fair value hierarchy for valuation inputs categorizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of the three levels and is determined by the lowest level of input that is significant to the fair value measurement in its entirety. These levels are:

Level 1: Quoted prices are available in active markets for identical assets or liabilities as of the measurement date. Financial assets in this category include money market funds, U.S. Treasury securities and listed equities.

Level 2: Pricing inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Financial assets and liabilities in this category generally include asset-backed securities, corporate bonds and loans, municipal bonds, and derivative instruments.

Level 3: Pricing inputs are generally unobservable for the assets or liabilities and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require management's judgment or estimation of assumptions that market participants would use in pricing the assets or liabilities. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

The following represents assets and liabilities measured at fair value or at the net asset value (“NAV”) practical expedient on a recurring basis as of March 31, 2023 and June 30, 2022, respectively (in millions):

	March 31, 2023			
	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Assets				
Cash and short-term investments	\$ 2,042	\$ 233	\$ -	\$ 2,275

Real estate	28	1	-	29
Community Investment Program	-	-	127	127
Other investments	172	177	-	349
Assets measured at fair value	<u>\$ 7,302</u>	<u>\$ 2,080</u>	<u>\$ 191</u>	9,573
Assets at NAV				9,772
Less: Assets classified as held for sale included above				<u>(70)</u>
Total assets				<u>\$ 19,275</u>
Liabilities				
Derivative instruments	\$ -	\$ 234	\$ -	\$ 234
Other	1	-	100	101
Total liabilities	<u>\$ 1</u>	<u>\$ 234</u>	<u>\$ 100</u>	<u>\$ 335</u>

Assets and liabilities measured at fair value on a recurring basis reflected in the table above are reported in short-term investments, long-term investments, current liabilities and other liabilities – long term in the accompanying condensed consolidated balance sheets.

The Level 2 and 3 instruments listed in the fair value hierarchy tables above use the following valuation techniques and inputs:

For marketable securities, such as U.S. and foreign government securities, U.S. and foreign corporate bonds, U.S. and foreign equity securities, mortgage and asset-backed securities, and structured debt, in the instances where identical quoted market prices are not readily available, fair value is determined using quoted market prices and/or other market data for comparable instruments and transactions in establishing prices, discounted cash flow models and other pricing models. These inputs to fair value are included in industry-standard valuation techniques, such as the income or market approach. CommonSpirit classifies all such investments as Level 2.

For private equity investments where no fair value is readily available, the fair value is determined using models that take into account relevant information considered material. Due to the significant unobservable inputs present in these valuations, CommonSpirit classifies all such investments as Level 3.

The fair value of collateral held under securities lending program is classified as Level 2. The collateral held under this program is placed in commingled funds whose underlying investments are valued using techniques similar to those used for the marketable securities noted above. Amounts reported do not include noncash collateral of \$622 million and \$56 million as of March 31, 2023 and June 30, 2022, respectively.

The fair value of assets and liabilities for derivative instruments, such as interest rate swaps classified as Level 2, is determined using an industry standard valuation model, which is based on a market approach. A credit risk spread (in basis points) is added as a flat spread to the discount curve used in the valuation model. Each leg is discounted and the difference between the present value of each leg's cash flows equals the fair value of the swap.

Investments that are measured using the NAV per share practical expedient have not been classified in the fair value hierarchy. The NAV amounts presented in the table above are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the consolidated balance sheets.

Related to investments valued using the NAV per share practical expedient, management also performs, on a regular basis when information is available, various validations and testing of NAV provided and determines that the investment managers' valuation techniques are compliant with fair value measurement accounting standards.

The following table and explanations identify attributes relating to the nature and risk of investments for which fair value is determined using a calculated NAV as of March 31, 2023 (in millions):

		NAV		Redemption	Redemption
		Practical	Unfunded	Frequency (If	Notice
		Expedient	Commitments	Currently Eligible)	Period
Private equity	(1)	\$ 1,379	\$ 724	-	-
Multi-strategy hedge funds	(2)	2,617	-	Weekly, Monthly, Quarterly, Semi-annually, Annually	3 - 100 days
Real estate	(3)	1,259	81	Quarterly	45 - 90 days
Commingled funds - debt securities	(4)	1,088	50	Daily, Monthly, Quarterly	1 - 90 days
Commingled funds - equity securities	(5)	<u>3,144</u>	<u>-</u>	Daily, Weekly, Bi-Weekly, Monthly, Bi-Monthly, Quarterly	2 - 90 days
Total		<u>\$ 9,487</u>	<u>\$ 855</u>		

(1) This category includes private equity funds that specialize in providing capital to a variety of investment groups, including, but not limited to, venture capital, leveraged buyout, mezzanine debt, distressed debt, and other situations. There are no provisions for redemptions during the life of these funds. Distributions from each fund will be received as the underlying investments of the funds are liquidated, estimated at March 31, 2023, to be over the next 15 years.

- (2) This category includes investments in hedge funds that pursue diversification of both domestic and foreign fixed income and equity securities through multiple investment strategies. The primary objective for these funds is to seek attractive long-term, risk-adjusted absolute returns. Under certain circumstances, an otherwise redeemable investment or portion thereof could become restricted. The following table reflects the various redemption frequencies, notice periods, and any applicable lock-up periods or gates to redemption as of March 31, 2023:

Percentage of the Value of Category (2)		Redemption	Redemption	Redemption	Redemption
Total	Subtotal	Frequency	Notice Period	Locked Up Until (if applicable)	Gate % of Account (if applicable)
5.9%	5.9%	Annually	60 days	up to 2 years	up to 50.0%
43.7%	2.3%	Quarterly	30 - 45 days	up to 2 years	up to 20.0%
	26.6%	Quarterly	55- 65 days	up to 1 year	up to 10.0% - 25.0%
	14.8%	Quarterly	90+ days	-	up to 12.5% - 25.0%
45.4%	8.3%	Monthly	5 days	-	up to 20.0%
	27.8%	Monthly	30 - 50 days	-	up to 16.7 - 25.0%
	9.3%	Monthly	60 - 90 days	-	up to 20.0%
3.6%	3.6%	Weekly	3 days	-	-
1.4%	1.4%	Daily	1 day	-	-

- (3) This category includes investments in real estate funds that invest primarily in institutional-quality commercial and residential real estate assets within the U.S. and investments in publicly traded real estate investment trusts. Investments representing 16% of the value of investments in this category do not have provisions for redemptions during the life of these funds. Distributions will be received as the underlying investments of the funds are liquidated, estimated at March 31, 2023, to be over the next 10 years.
- (4) This category includes investments in commingled funds that invest primarily in domestic and foreign debt and fixed income securities, the majority of which are traded in over-the-counter markets. Also included in this category are commingled fixed income funds that provide capital in a variety of mezzanine debt, distressed debt and other special debt securities situations. Investments representing approximately 19% of the value of investments in this category do not have provisions for redemptions during the life of these funds. Distributions will be received as the underlying investments of the funds are liquidated, estimated at March 31, 2023, to be over the next six years.
- (5) This category includes investments in commingled funds that invest primarily in domestic or foreign equity securities with multiple investment strategies. A majority of the funds attempt to match or exceed the returns of specific equity indices.

The investments included above are not expected to be sold at amounts that are materially different from NAV.

9. OTHER LONG-TERM ASSETS, NET

Other long-term assets, net, consist of the following (in millions):

	As of March 31, 2023	As of June 30, 2022
Notes receivable, primarily secured	\$ 53	\$ 50
Goodwill	366	358
Intangible assets - definite-lived, net	112	120
Intangible assets - indefinite-lived	657	657
Donor-restricted assets	518	521
Other	285	243
	<u>1,991</u>	<u>1,949</u>
Total other long-term assets, net	<u>\$ 1,991</u>	<u>\$ 1,949</u>

Goodwill is measured as of the effective date of a business combination as the excess of the aggregate of the fair value of consideration transferred over the fair value of the tangible and intangible assets acquired and liabilities assumed.

Intangible assets consist primarily of trademarks, trademark agreements, noncompete agreements, certificates of need, and other contracts, and are recorded at fair value using various methods based on the nature of the asset. Definite-lived intangible assets are amortized using the straight-line method over the estimated useful lives of the assets.

Goodwill and intangible assets whose lives are indefinite are not amortized and are evaluated for impairment at least annually or when circumstances indicate a possible impairment may exist.

The aggregate amortization expense related to intangible assets is \$2 million and \$8 million for the three and nine-month periods ended March 31, 2023 and 2022, respectively and is recorded in depreciation and amortization in the accompanying unaudited condensed consolidated statements of operations and changes in net assets.

10. DEBT

2023 Financing Activity - In October 2022, CommonSpirit issued \$807 million of taxable fixed rate bonds at par, with repayments of \$507 million and \$300 million to be made in November 2027 and 2052 respectively. Proceeds were used to refund \$800 million of taxable fixed rate bonds and pay cost of issuance expenses.

In October 2022, CommonSpirit issued \$497 million of tax-exempt fixed rate bonds, at a premium. Proceeds were used to reimburse for prior capital expenditures and to fund future capital expenditures. The bonds mature in November 2052.

In November 2022, CommonSpirit drew \$150 million on its syndicated line of credit for working capital purposes.

In December 2022, CommonSpirit drew \$300 million on its syndicated line of credit for working capital purposes.

In December 2022, CommonSpirit issued \$297 million of taxable commercial paper notes to redeem in full, the California Health Facilities Financing Authority Revenue Bonds, Series 2014B.

In March 2023, CommonSpirit renewed its \$900 million syndicated line of credit. This credit facility expires March 2028.

In March 2023, CommonSpirit renewed and renegotiated its single bank line of credit facility used to issue standby letters of credit. The credit facility amount was reduced from \$85 million to \$35 million and will expire in March 2028.

In April 2023, CommonSpirit entered into two short-term loans of \$350 million and \$345 million with two separate banks.

In May 2023, CommonSpirit renewed the \$90 million Colorado Health Facilities Authority Variable Rate Direct Placement bonds, Series 2013C to December 2028.

In May 2023, CommonSpirit redeemed in full \$9 million of the Colorado Health Facilities Authority Variable Rate bonds, Series 2015A.

2022 Financing Activity – In November 2021, CommonSpirit drew \$102 million on its syndicated line of credit for the redemption in full of the Kentucky Economic Development Finance Authority Fixed Rate Put Bonds, Series 2009B, and the Colorado Health Facilities Authority Fixed Rate Put Bonds, Series 2008D-3.

11. DERIVATIVE INSTRUMENTS

The following table shows the outstanding notional amount of derivative instruments measured at fair value, net of credit value adjustments, as reported in the accompanying condensed consolidated balance sheets (in millions):

	Maturity Date of Derivatives	Interest Rate	Notional Amount Outstanding	Fair Value
As of March 31, 2023				
Derivatives not designated as hedges				
Interest rate swaps	2024 - 2047	3.2% - 4.0%	\$ 1,877	\$ (171)
		SIFMA plus		
Total return swaps	2024 - 2030	spread	487	-
Total derivative instruments			2,364	(171)
Cash collateral			-	69
Derivative instruments, net			\$ 2,364	\$ (102)
As of June 30, 2022				
Derivatives not designated as hedges				
Interest rate swaps	2024 - 2047	3.2% - 4.0%	\$ 2,003	\$ (234)
	2025 - 2029 with extension	SIFMA plus		
Risk participation agreements	options	spread	497	-
		SIFMA plus		
Total return swaps	2024 - 2030	spread	321	-
Total derivative instruments			2,821	(234)
Cash collateral			-	84
Derivative instruments, net			\$ 2,821	\$ (150)

CommonSpirit held \$1.9 billion notional amount of interest rate swaps and \$487 million notional amount of total return swaps at March 31, 2023, which have a negative fair value of \$171 million and a fair value deemed immaterial, respectively. CommonSpirit posted \$69 million of collateral against the fair value of the interest rate swaps as of March 31, 2023.

CommonSpirit's interest rate swaps mature between 2024 and 2047. CommonSpirit has the right to terminate the swaps prior to maturity for any reason. The termination value would be the fair value or the replacement cost of the swaps, depending on circumstances. The derivative agreements have certain early termination triggers caused by an event of default or a termination event. The events of default include failure to make payment when due, failure to give notice of a termination event, cash on hand dropping below a specified number of days, and defaults

under other agreements (cross-default provision). Termination events can include credit ratings dropping below a defined minimum credit rating threshold by either party.

CommonSpirit has \$160 million notional of interest rate swaps that are insured and have a negative fair value of \$24 million as of March 31, 2023. In the event the insurer is downgraded below a specified minimum credit rating, the counterparties have the right to terminate the swaps if CommonSpirit Health does not provide alternative credit support acceptable to them within 30 days of being notified of the downgrade. If both the insurer and CommonSpirit Health are downgraded below a specified minimum credit rating, the counterparties have the right to terminate the swaps.

CommonSpirit has \$1.7 billion notional amount of interest rate swaps that are not insured, of which the counterparties have various rights to terminate \$264 million notional. These include the outstanding notional amounts of \$104 million and \$100 million at each five-year anniversary date commencing in September 2023 and March 2028, respectively. Swaps in the outstanding notional amounts of \$60 million have mandatory puts in March 2028. The termination value would be the fair value or the replacement cost of the swaps, depending on the circumstances. These interest rate swaps with the optional and mandatory put options have a negative fair value of \$26 million as of March 31, 2023. The remaining uninsured swaps in the notional amount of \$1.5 billion have a negative fair value of \$145 million as of March 31, 2023.

CommonSpirit has total return swaps in the notional amount of \$487 million with a fair value deemed immaterial as of March 31, 2023.

In June 2022, CommonSpirit novated risk participation agreements in the notional amount of \$132 million to another counterparty.

In December 2022, CommonSpirit terminated a risk participation agreement in the notional amount of \$295 million. The risk participation agreement was terminated at par and no gain or loss was realized. The underlying bonds, the California Health Facilities Financing Authority Revenue Bonds, Series 2014B were redeemed in full in conjunction with the termination of the risk participation agreement.

In April 2023, CommonSpirit adhered to the ISDA 2020 IBOR Fallbacks Protocol.

In May 2023, CommonSpirit renewed a total return swap in the notional amount of \$255 million to March 2030.

12. LEASES

CommonSpirit enters into operating and finance leases primarily for buildings and equipment and determines if an arrangement is a lease at inception of the contract. For leases with terms greater than 12 months, CommonSpirit records the related right-of-use asset (“ROU”) and lease liability at the present value of lease payments over the contract term using a risk-free interest rate, subject to certain adjustments. CommonSpirit does not separate contract lease and non-lease components except for a class of underlying assets related to supply agreements, which include associated equipment. Certain building lease agreements require CommonSpirit to pay maintenance, repairs, property taxes and insurance costs, which are variable amounts based on actual costs incurred during each applicable period. Such costs are not included in the determination of the ROU asset or lease liability. Lease costs also include escalating rent payments that are not fixed at commencement but are based on the Consumer Price Index or other measure of cost inflation. Future changes in the indices are included within variable lease costs. Certain leases include one or more options to renew the lease at the end of the initial term, with renewal terms that generally extend the lease at the then market rate of rental payment. Certain leases also include an option to buy the underlying asset at or a short time prior to the termination of the lease. All such options are at CommonSpirit’s discretion and are evaluated at the commencement of the lease, with only those that are reasonably certain of exercise included in determining the appropriate lease term and lease type.

Following is supplemental condensed consolidated balance sheet information related to leases as of March 31, 2023 and June 30, 2022 (in millions):

Lease Type	Balance Sheet Classification	As of March 31, 2023	As of June 30, 2022
Operating Leases:			
Operating lease ROU assets	Right-of-use operating lease assets	\$ 1,681	\$ 1,715
Operating lease obligations - current	Other accrued liabilities - current	257	263
Operating lease obligations - long-term	Other liabilities: Operating lease liabilities	1,568	1,626
Finance Leases:			
Finance lease ROU assets	Property and equipment, net	\$ 313	\$ 299
Current finance lease liabilities	Current portion of long-term debt	38	38
Long-term finance lease liabilities	Long-term debt, net of current portion	341	305

13. INTEREST EXPENSE, NET

The components of interest expense, net, include the following (in millions):

	Three-Month Periods Ended March 31,		Nine-Month Periods Ended March 31,	
	2023	2022	2023	2022
Interest and fees on debt	\$ 138	\$ 118	\$ 398	\$ 364
Capitalized interest expense	(10)	(4)	(29)	(15)
Interest expense, net	<u>\$ 128</u>	<u>\$ 114</u>	<u>\$ 369</u>	<u>\$ 349</u>

14. RETIREMENT PROGRAMS

Total expense for all CommonSpirit retirement and post retirement plans includes service cost components and other nonservice net benefit credits. Service costs are recorded in salaries and benefits on the accompanying unaudited condensed consolidated statements of operations and changes in net assets. Other nonservice net periodic benefit credits are recorded in nonoperating income (loss) in the unaudited condensed consolidated statements of operations and changes in net assets. Total retirement and post retirement plans expenses includes the following (in millions):

	Three-Month Periods Ended March 31,		Nine-Month Periods Ended March 31,	
	2023	2022	2023	2022
Service cost	\$ 186	\$ 207	\$ 553	\$ 623
Other nonservice net benefit expense (credits)	(4)	(69)	(11)	(210)
Retirement and postretirement plans expense	<u>\$ 182</u>	<u>\$ 138</u>	<u>\$ 542</u>	<u>\$ 413</u>

15. COMMITMENTS, CONTINGENT LIABILITIES, GUARANTEES AND OTHER

The following summary encompasses matters related to litigation, regulatory and compliance matters, and developments thereto.

General – The health care industry is subject to voluminous and complex laws and regulations of federal, state and local governments. Compliance with such laws and regulations can be subject to future government review and interpretation as well as regulatory actions unknown or unasserted at this time. These laws and regulations include, but are not necessarily limited to, the rules governing licensure, accreditation, controlled substances, privacy, government program participation, government reimbursement, antitrust, anti-kickback, prohibited referrals by physicians, false claims, and in the case of tax-exempt organizations, the requirements of tax exemption. Management believes CommonSpirit is materially in compliance with all applicable laws and regulations of the Medicare and Medicaid programs. Compliance with such laws and regulations is complex and can be subject to future governmental interpretation as well as significant regulatory action, including fines, penalties and exclusion from the Medicare and Medicaid programs. Certain CommonSpirit entities have been contacted by governmental agencies regarding alleged violations of Medicare practices for certain services. Additionally, certain CommonSpirit entities have identified and self-disclosed potential instances of noncompliance with applicable regulations. In the opinion of management after consultation with legal counsel, the ultimate outcome of these matters will not have a material adverse effect on CommonSpirit’s consolidated financial statements.

In recent years, government activity has increased with respect to investigations and allegations of wrongdoing. In addition, during the course of business, CommonSpirit becomes involved in civil litigation. Management assesses the probable outcome of unresolved litigation and investigations and records contingent liabilities reflecting estimated liability exposure. Following is a discussion of matters of note.

Cybersecurity Incident – On October 2, 2022, CommonSpirit experienced a ransomware attack (“the Cybersecurity Incident”) that impacted certain of its systems. Upon discovering the attack, CommonSpirit took immediate steps to protect its IT systems, contain the incident, begin an investigation, and maintain continuity of care. CommonSpirit engaged leading cybersecurity specialists to support its investigation, and notified law enforcement and the United States Department of Health and Human Services. CommonSpirit recently completed notifications to individuals whose data was potentially impacted by the Cybersecurity Incident.

The Cybersecurity Incident has had an estimated adverse financial impact of approximately \$160 million to date, which includes lost revenues from the associated business interruption, the costs incurred to remediate the issues and other related business expenses, and is exclusive of any potential insurance related recoveries. We have notified and continue to consult with our insurance carriers, but are unable to predict the timing or amount of insurance recoveries at this time.

The organization is aware of lawsuits filed as potential class actions against CommonSpirit regarding the Cybersecurity Incident. There can be no assurance that the resolution of this matter will not affect the financial condition or operations of CommonSpirit, taken as a whole.
