

# Southeast U.S. Wood Pellet Plants Exporting to Europe and Asia

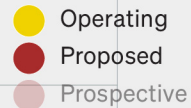

Large-scale burning of trees for energy harms our forests, the climate, and local communities across the South.

## Pellet Plant

Capacity\* (size)

Status (color)

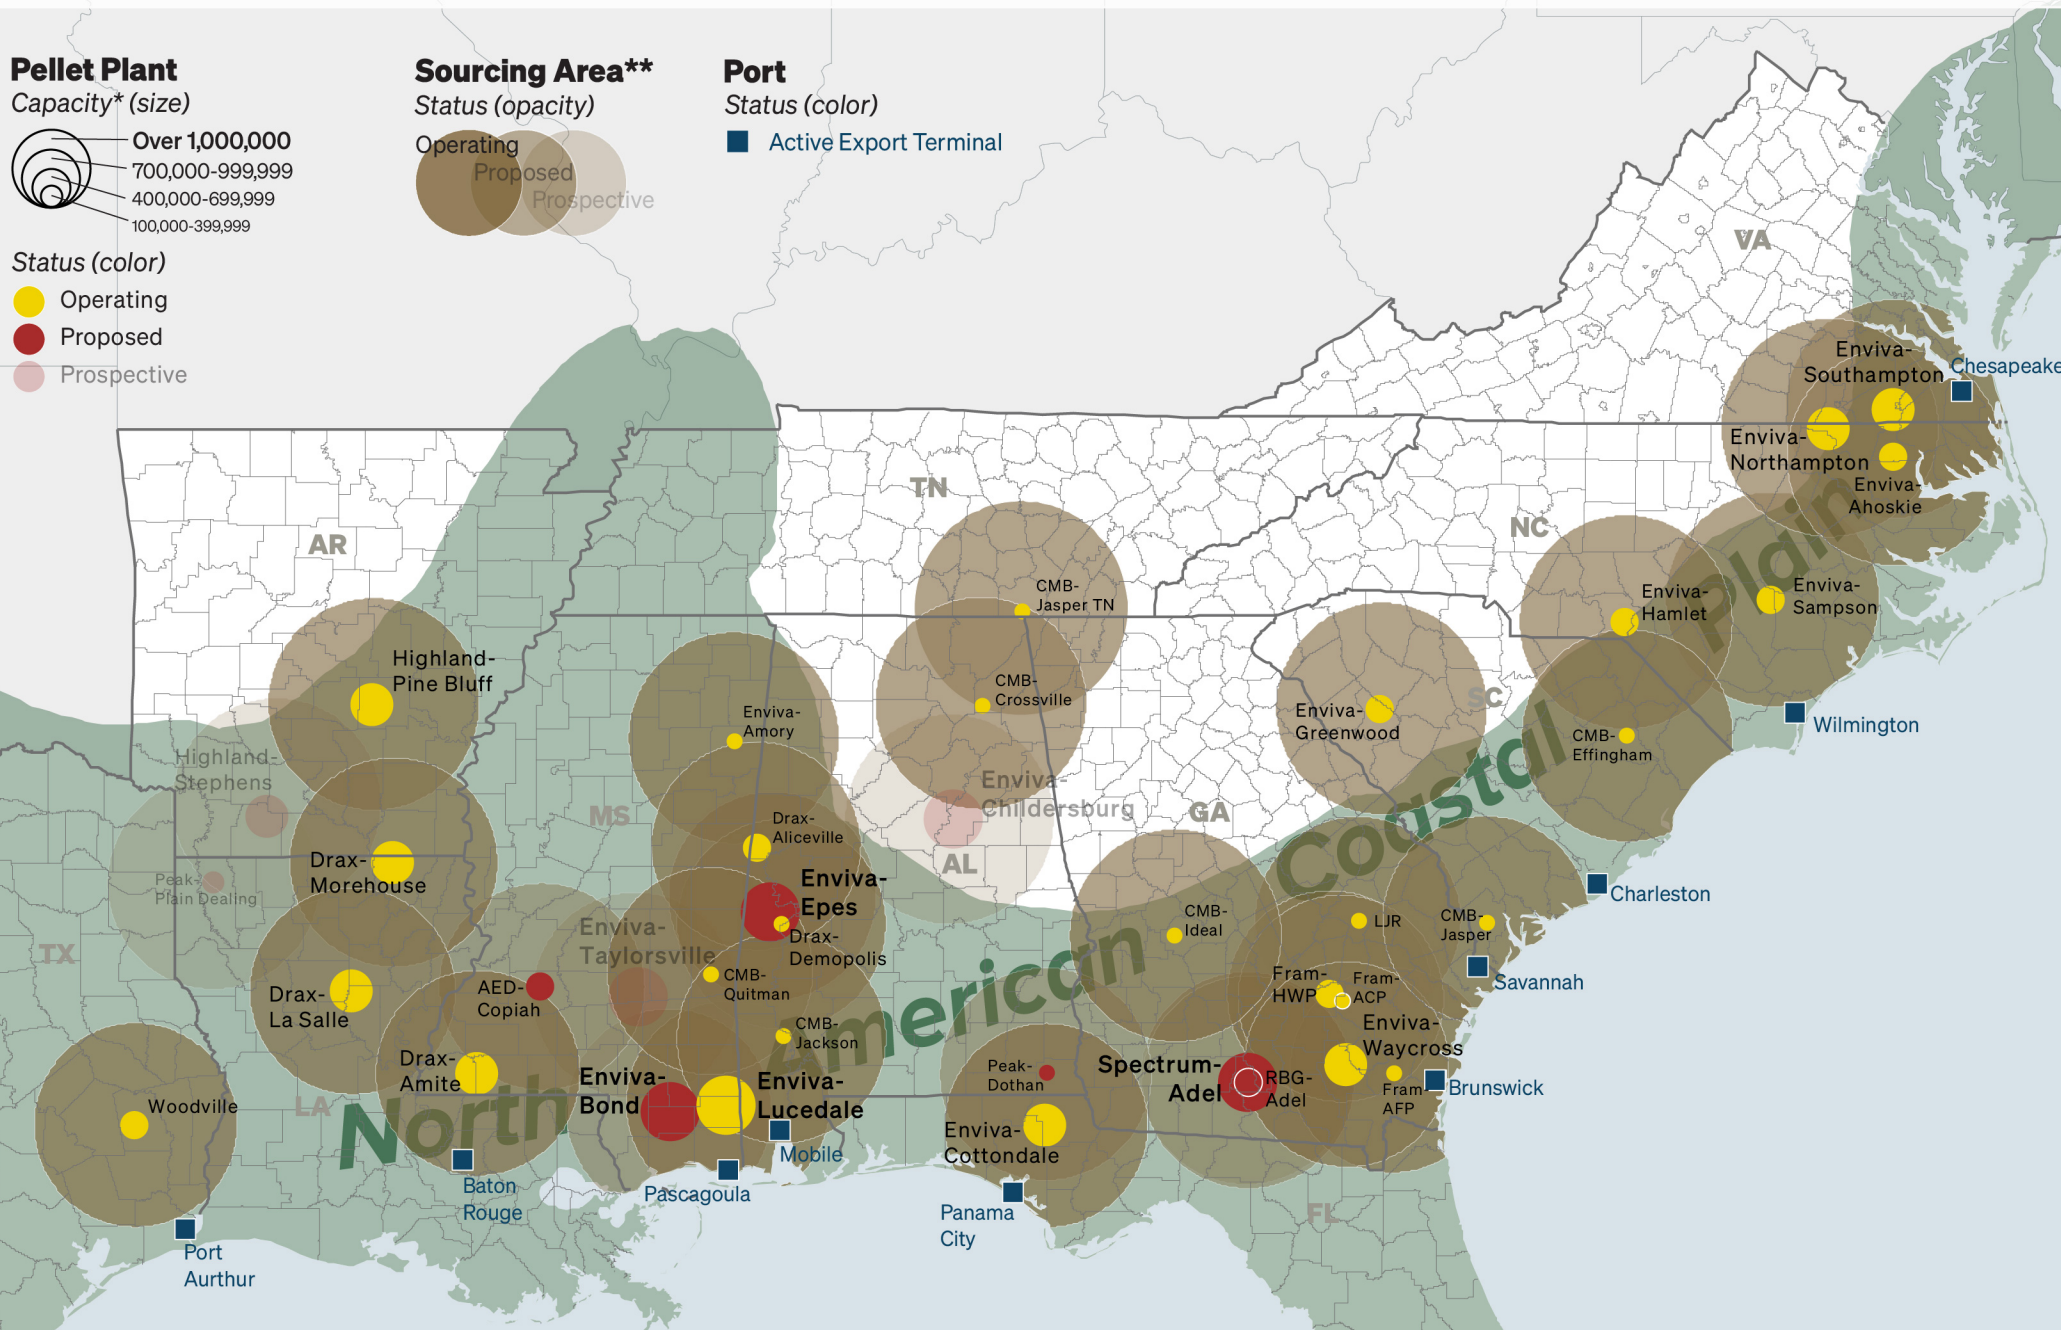

## Sourcing Area\*\*

Status (opacity)

## Port

Status (color)

\* = Capacity is shown in dry metric tons per year (DMTY).

\*\* = Sourcing areas are illustrative and represent 60 mile radii from plant sites. Actual sourcing can extend beyond 100 miles depending on supply.

Map and additional information available at <https://www.southernenvironment.org/topic/biomass-energy-threatens-southern-forests-and-communities/>
