Hosemann Voter	
2019	62%
2023	47%
McDaniel Voter	
2014/2018	35%
2023	32%

This Mississippi Today / Siena College Poll was conducted June 4 - 7, 2023, among 646 likely Mississippi Republican primary voters. Of the 646 respondents, 646 were contacted through a dual frame (landline and cell phone) mode. Telephone sampling was conducted in English via a stratified dual frame probability sample of landline and cell phone telephone numbers of likely Republican primary voters from the L-2 Voter list.

A likely-to-vote probability was computed for each respondent based on both their stated likelihood to vote as well as by virtue of the imputation of a turnout probability score based on past voting behavior applied to their specific voting history. This probability to vote was applied as a weight along with a weight by gender, region, age, race/ethnicity, and education to ensure representativeness. It has an overall margin of error of +/- 4.8 percentage points including the design effects resulting from weighting.

The Siena College Research Institute, directed by Donald Levy, Ph.D., conducts political, economic, social, and cultural research primarily in NYS. SCRI, an independent, non-partisan research institute, subscribes to the American Association of Public Opinion Research Code of Professional Ethics and Practices.
