1	1/29/23	Speech – Save Arizona Rally.	<p>“This is the image we’re supposed to have a 20-inch image on a 20-inch ballot, but Richer and, Richer and Gates and their crew printed an 19-inch image, the wrong image on the ballot, so that the tabulators would jam all day long. That’s exactly what happened. They did not want us to notice this. . . . You know, the only the only person, the only thing they wanted to notice this was the tabulators so that they would jam and spit out ballots, which is exactly what happened all day on Election Day. Ballots got spit out. They got spit out over and over again. And Richer and Gates, let’s show those two again, these two men. . . . Richer and Gates intentionally printed the wrong image on the ballot on Election Day so that those ballots would intentionally be spit out of the tabulators. . . . Well these guys are really, really terrible at running elections but I found out they’re really good at lying.” (47:22-52:57).</p>	<p>“First of all, let’s start with 300,000 ballots with zero chain of custody—I’m going to explain this in slow motion—real, in easy terms for the simpletons in the media back there. Testimony from our whistleblowers down at Runbeck proves that. 300,000 ballots lacked chain of custody. For those of you who don’t understand what chain of custody is, it is basically the law that ensures that illegal ballots don’t get counted and don’t infect our elections. And we know that 300,000 illegal ballots, because they didn’t have chain of custody, were counted in the final total.” (41:40-42:32).</p>

They realize that they couldn’t cheat in in some of the other ways that they cheated before so they had to do something as diabolical as intentionally printing the wrong image on the ballot on Election Day only. They had a 20-inch piece of paper, ballot paper, and they printed a 19-inch ballot rather than a 20-inch image on that ballot and that’s just a slight enough change that the voter would never detect that there was a problem. That’s exactly what happened. They did not want us to notice this. They didn’t want us to notice it. You know who they want – You know, the only the only person, the only thing they wanted to notice this was the tabulators so that they would jam and spit out ballots, which is exactly what happened all day on Election Day. . . . Testimony from our whistleblowers down at Runbeck proves that. 300,000 ballots lacked chain of custody. For those of you who don’t understand what chain of custody is, it is basically the law that ensures that illegal ballots don’t get counted and don’t infect our elections. And we know that 300,000 illegal ballots, because they didn’t have chain of custody, were counted in the final total.”</p>	<p>Tweet: “ICYMI: The last rally @KariLake held in Scottsdale was EPIC.
