Bite Narrative

On 1/14/2018 at approx. 6:27am I K9 officer [REDACTED] responded to a fight called in C4 pod. Upon entering pod Canine [REDACTED] had to be drug through the sallyport gates. Offenders [REDACTED] 2 and [REDACTED] were actively fighting on the pod floor. I gave several warnings to stop fighting or canine would be utilized. Offenders did not comply with orders given and I attempted to place canine [REDACTED] on Offender [REDACTED] left leg and the canine failed to engage and tried to back out of his collar. Then I tried to place canine [REDACTED] on [REDACTED] left arm two separate times canine still failed to engage and still attempted to back out of collar to get away from the offenders. During the incident Canine [REDACTED] showed no aggression. I then proceeded to physical separate the offenders by pulling [REDACTED] away from [REDACTED]. Officer [REDACTED] restrained both offenders and were escorted to shu.
