<b>Internal Incident Number:</b>	<b>Date/Time of Incident:</b>	<b>DOC Location:</b>	
	August 06, 2021 @ 10:00 AM	[REDACTED]	
<b>Reporting Staff:</b>	Smith, Savannah	<b>Title/Shift:</b>	Canine Sergeant S. Smith, A Break, Day
<b>Date Reported:</b>	08/06/2021	<b>Time:</b>	04:42 PM
<b>Offenders Involved:</b>			
<b>Staff Involved:</b>	Hoover, Trina C	Canine Corrections Officer	
	Robbins, Christopher D	Canine Lieutenant	
<b>Visitors Involved:</b>		<b>Others Involved:</b>	
<b>Type of Incident:</b> Other: Patrol Canine acting abnormal.			
<b>Location of Incident:</b>	N/A		
<b>Gang Related:</b>	No	<b>Confidential:</b>	No
		<b>PREA:</b>	No
<b>Description of Incident:</b>			
<p>On the above date and approximate time I K9 Sgt. Smith observed Canine Cajos #888-01-0436 in the Patrol kennels acting abnormal from his usual behavior. Canine Cajos #888-01-0436 was refusing to eat his food/medicine, drinking water but vomiting it up, very weak, and bleeding from both his anus and penis. I immediately called Colonial Heights Vet Hospital at 10:00 AM and communicated the on going issues with little to no improvement. The receptionist said we can come in and they will recheck Canine Cajos. I then called Major M. Bernocco at 10:11 AM and advised him about Canine Cajos worsening behavior and that we were on the way to Colonial Heights Vet Hospital. At 11:46 AM I called Major M. Bernocco with the update from the Doctors findings. The Doctor advised that Canine Cajos body was internally shutting down from his prior heat stroke the day before. The doctor advised we could send him to the emergency Vet with a low chance of survival rate based on his age/him suffering from the day priors heat exhaustion or we had the option to euthanize him. Major M. Bernocco called me at 12:04 PM with the authorization to euthanize Canine Cajos. I advised the Doctor about this decision. Canine Cajos was then euthanized by the Doctor at Colonial Heights Vet Hospital. END OF REPORT.</p>

<b>Description of Incident:</b>			
On August 5, 2021 at approximately 11:30 am I Canine Officer T. Hoover was conducting Canine in service Training at [REDACTED] in 1D pod when my assigned canine began to breath heavily, vomit, and diarrhea. I rest my assigned canine and gave him water. The problem continued my assigned canine began to walk wobbly then became unable to walk lying on the floor vomiting blood. Myself, Lt. Robbins and K9 Sgt Smith put my assigned canine on a flat bed and carried him out of the institution. I and k9 Sgt Smith immediately took my assigned canine to the vet. The vet informed us that it was sever heat exhaustion. Therefore this report is being written.
