Description of Incident:			
Synopsis: On this date 7.29.2022 at 1700hrs Inmate [REDACTED] Inmate refused to remove contraband (mattress) away from the cell window, not allowing staff to visual make security rounds.			
Narrative:			
Inmate [REDACTED] cell 4 was observed with his cell window completely covered. When directed to respond and take down the covering to conduct a wellness check, he would not respond. Multiple CCIT Staff, the Watch Commanders, Major, Chap and The Warden, all attempted to get inmate to comply, each time he would place one hand in the tray slot to be restrained but would not produce the other, this was an attempt to take the cuffs and use as a weapon.			
Warden T. Darden gave approval to crack the cell door and deployed one half second burst OC Spray. Inmate still would not comply, A Second half second burst of OC Spray was utilized again, and still it was ineffective. A Third half second burst was utilize with very little affection to the inmate and at this time Cell Extraction Team was assembled and Approval			

to enter the cell was granted from Warden T. Darden. Cell Extraction team entered the cell and Inmate [REDACTED] was continually being disruptive and not complying to direct orders from the cell extraction team, staff could not secured his right wrist in the cuffs due to his strength and continual fighting. Leg Irons were placed on the inmate and he was pulled onto the pod. Once on the Pod he continued to resist being restrained. K9 was on the scene and gave numerous direct orders to cease fighting. At that time K9 Handler Office [REDACTED] engaged K9 [REDACTED] his arm and this did not have any effect. K9 Handler [REDACTED] engaged K9 [REDACTED] a second time to his leg with very little result. K9 Handler Office [REDACTED] reengaged K9 [REDACTED] and he began to allow staff to place his other hand in restraints. During this time the inmate had placed the leg irons around the K9 [REDACTED] neck attempt to choke the dog. The handler was able to release the dog without injury.

Restraints were successful applied to Inmate [REDACTED] and he was escorted to medical. Once in medical Inmate was decontaminated and treated for bite wounds. RN [REDACTED] assessed this inmate with minor injuries. Inmate [REDACTED] was Place in Ambulatory Restraints without injuries and reassigned to ISO #1 cell. No Injuries to staff. RN [REDACTED] neck restraints for compliance and stated everything was successful applied. Inmate have be placed on 15 minute watch. Inmate reported to MH that he is seeing shadows. All Notification have been made.
