politics because this time he went one ste
and a cripple, she has lupus disease.

Mrs. Evelyn Flynn
1286 Grant Street
Lincoln Park, Michigan 48146

Dear Mrs. Flynn:

Cindy

Thank you for your call to my District Office regarding the recent remarks of Secretary James Watt. I agree completely that the Secretary's characterization of the commission reviewing coal leasing policies was totally inappropriate. The comments, as you are well aware, provoked widespread criticism and condemnation far surpassing previous backlashes against the wilderness and other environmental policies of the Secretary. Most definitely, these latest divisive remarks do not befit the responsibilities of the Secretary's high public position in government.

With every good wish,

Sincerely yours,

John D. Dingell
Member of Congress
