Senator Mitch McConnell  
Republican Leader, US Senate  
S-230 US Capitol  
Washington DC 20510

Dear Sir:

My examination of you following your August 30, 2023 brief episode included several medical evaluations: brain MRI imaging, EEG study and consultations with several neurologists for a comprehensive neurology assessment. There is no evidence that you have a seizure disorder or that you experienced a stroke, TIA or movement disorder such as Parkinson's disease. There are no changes recommended in treatment protocols as you continue recovery from your March 2023 fall.

Very truly yours,

A handwritten signature in black ink, appearing to read "B.P. Monahan, MD". The signature is fluid and cursive, with the initials "B.P." being prominent.

Brian P. Monahan, MD, MACP, FRCP
