Disclaimer of Representations and Warranties

Through a written agreement, participating individual state boards of nursing designate Nursys as a primary source equivalent database. NCSBN posts the information in Nursys when, and as, submitted by the individual state boards of nursing. NCSBN may not make any changes to the submitted information and disclaims any responsibility to update or verify such information as it is received from the individual state boards of nursing. Nursys displays the dates on which a board of nursing updated its information in Nursys.

This report is not sufficient when applying to another board of nursing for licensure. Use the "Nurse License Verification for Endorsement" service to request the required verification of licensure.

Contact the board of nursing for details about the Nurse Practice Act, which includes nurse scope of practice and privileges and information about advanced nursing practice roles (practice privileges, prescription authority, dispensing privileges & independent practice privileges).

UNENCUMBERED means that the nurse has a full and unrestricted license to practice by the state board of nursing.

All Discipline/final orders data are submitted by the primary source Boards of Nursing. Boards may choose whether or not to report discipline actions with accompanying NPDB codes and copies of final orders. No distinction should be drawn from the presence or absence of this supplementary information. Please contact the boards of nursing for all questions.
