

CNN New Hampshire Primary Poll Methodology

These findings are based on the latest CNN New Hampshire Primary Poll, conducted by the University of New Hampshire Survey Center. Two thousand, one hundred and seven (2,107) Granite State Panel members completed the survey online between September 14 and September 18, 2023. The margin of sampling error for the survey is +/- 2.1 percent. Included in the sample were 801 likely 2024 Democratic Primary voters (margin of sampling error +/- 3.2 percent) and 2,018 respondents who make up the potential 2024 electorate, all of whom indicated they intend to vote in the 2024 general election (MSE +/- 2.2 percent). There were 953 unweighted likely Democratic Primary voters. In addition to potential sampling error, all surveys have other potential sources of non-sampling error including question order effects, question wording effects, and non-response. These MSE's have not been adjusted for design effect. The response rate for this CNN New Hampshire Primary Poll is 34%. The design effect for the survey is 2.6%.

The Granite State Panel is a probability-based web panel of New Hampshire residents. Approximately 6,500 New Hampshire adults have been recruited from phone, text-to-web, or mail-to-web surveys sent to randomly-selected phone numbers or addresses. Panelists are then asked to participate in online surveys sponsored by the UNH Survey Center.

Data were weighted by respondent sex, age, education, and region of the state to targets from the most recent American Community Survey (ACS) conducted by the U.S. Census Bureau, as well as party registration levels provided by the NH Secretary of State and to 2020 election results in New Hampshire. Surveys were taken in English, all respondent data included passes Qualtrics data quality checks, and single-use survey links were used to prevent multiple submissions by respondents. The number of respondents in each demographic below may not equal the number reported in cross-tabulation tables as some respondents choose not to answer some questions. Due to rounding, percentages may not sum to 100%. All coding of open-ended responses is conducted by human coders.

For more information about the methodology used in this CNN New Hampshire Primary Poll, contact Dr. Andrew Smith at (603) 862-2226 or by email at andrew.smith@unh.edu.

Support or Oppose NH 24 Week Abortion Ban with Exceptions

The New Hampshire Legislature approved a bill in 2021 which banned abortion in the state after 24 weeks except in cases of medical emergency. The law allows doctors to be charged with a felony if they perform an abortion procedure after 24 weeks. Do you support or oppose this law or do you not know enough to say?
