Marc Holcomb Sr

My Mother informed me that you called her regarding your visitations with Josalyn. On our last conversation, when I informed you of our moving, you told me to put the visitations on hold for the time being. If you are interested in restarting the visitations please contact me and we can begin. We have no telephone in our trailer and we receive our mail through the company my husband works for. The address of the company is enclosed.

Please do not contact my mother for any reason that has to do with your visitation with Josalyn. This matter has caused her much stress as it has for all of my family.
