Hi Marianne,

You can remove the unsolicited junk emails from those specific email addresses you listed.

Thanks,

Colin Farnsworth, Attorney

Hi Colin,

Would you be ok with me removing some junk to get the pages down and it will help to get through review faster? I specifically mean unsolicited emails from these email addresses that include the search terms we used: CardioCareLive, NuInVite, Economist Impact Events, Fierce Health PM Tracker, Pro-CME, theCMEproject,

Thanks,  
Marianne

Hi Mr. Farnsworth,

I estimate that it may take three months. Based on the type of information requested, it could also include coordinating with external submitters and across multiple offices within NIH for review. I'll keep you posted, but feel free to check in when you want more updates.

Thanks,  
Marianne

Hi Marianne,

Thanks for all your work surrounding the processing of our FOIA request and offering modification suggestions. After speaking with our client, they are willing to modify the request to what you suggested below:

**“all emails sent or received by Anthony Fauci on or after January 1, 2011 that include (“Johnson & Johnson” or “J&J” or “Janssen”) w/5 (fund\* or grant or donat\* or paid or money).”**

Let me know if you if you have any more questions.

Lastly, now that our request has been properly modified, pursuant to 5 U.S.C. § 552 (a)(7)(B)(ii), would you please provide an estimated date on which the agency will complete its action on the request.

Sincerely,

Colin Farnsworth, Attorney

Dear Mr. Siri,

I haven't heard from you. I've thought of one additional search option that hopefully gets you closer to what you are looking for. How about: all emails sent or received by Anthony Fauci on or after January 1, 2011 that include (“Johnson & Johnson” or “J&J” or “Janssen”) w/5 (fund\* or grant or donat\* or paid or money).

Basically having the second part found within 5 words of the first. It's still about 5000 pages.

Let me know.

Thanks,  
Marianne

Dear Mr. Siri,

I want to apologize for the delays in reaching out to you on this request. We've searched for records responsive to your attached request and found the results to be voluminous. Quite honestly, we are picking up so many things that are beyond the desired scope that we really need to discuss what you need and hope to locate. Just running a search of just from Dr. Fauci for this time period leads to over 21,000 pages with the attachments.

Some thoughts on what might help: Would it be possible to limit this request to just *from* Fauci without the attachments? From there, you'll have a better idea of what you might really need. I am concerned that this review will take forever based on the original quantity. Or, since some time has passed, if you want to take a look at the search terms initially provided and add additional terms, change the time frame, etc., I'd be happy to try some things out and see what we get. I'd hate to have you wait even longer for things, types of items you are not really seeking. We are picking up random CVs, articles, and nothing to do with direct contact with J&J, etc.

Thanks,  
Marianne
