Project Name *

RIG9 Real-Time Crime Center

Project Description (Max 1,500 characters) *

Violent crime is rising across the United States and law enforcement has worked diligently to find ways to curb the violence. Many cities have spent the last decade developing and perfecting the impact of Real-Time Crime Centers (RTCC) on violent crime. RTCC's are designed to staff personnel who have real-time access to CCTV, live CAD calls, Live911, LPR (license plate reader) data, UAS, and many other tools to help identify and apprehend violent criminals before, or as crime occurs. To provide an effective level of service to its citizens and ensure violent crime is curtailed, the early development stage of a RTCC is recommended. Spokane County's Regional Intelligence Group 9 (RIG9) will provide regional support to its law enforcement partners using Technology and Intelligence-Led Policing strategies.

Benefits of this project include Real-Time Intelligence, Quick Identification & Apprehension of Criminals, Video Evidence Enhancing Prosecution, Assists with Proper Resource Allocation/Management, Return on Investment Savings through Enhanced Efficiency & Lowered Violence, Crime Prevention/Crime Reduction, and Increasing the Community Perception of Public Safety in Spokane County.

There are currently over 200 Real-Time Crime Centers utilized by various agencies throughout the United States, in addition to other formal and informal intelligence centers (National Real-Time Crime Center Association).

Support Public Health

Subcategory: *

Amount being requested: *

1.11 Community Violence Interventions*^

\$3,997,000.00

Does this project include a capital expenditure?

No Yes

Choose the total value of the capital expenditure, including pre-development costs

Less than 1 million

Type of Capital Expenditure

- Work stations
- Computers & Software
- Center Renovation & office equipment in existing room in PSB
- Servers
- Software

Capital Expenditure Description

An existing office within the Public Safety Building will be renovated to upgrade the workspace to a modern intel communications center. The center will be equipped with workstations, computer systems, office furniture, server & software systems will be implemented to better support regional public safety and violent crime suppression.

Capital Expenditure Justification

These capital expenditures allow for the collaborative center to support operations in Real-Time, major incidents, as well as investigative services for local and regional public safety partners.

If this is evidence-based, please provide the dollar amount of the total project spending that is allocated towards evidence-based interventions: *

\$2,500,000.00

Number of workers enrolled in sectoral job training programs: *

0

Number of people participating in summer youth employment programs: *

0

Is a program evaluation of the project being conducted?

No Yes

Number of workers completing sectoral job training programs: *

0

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced *

The RTCC will be operated by the Sheriff's RIG9, which is in cooperation with the WA Fusion

Brief description of how a recipient's response is related and reasonably and proportional to a public health or negative economic impact of COVID-19 *

Violence in the community is a significant public health problem. New strategies and

What Impacted and/or Disproportionally Impacted population does this project primarily serve?

1 Imp General Public

Certify: I have read the below information on evidence-based interventions and project demographic distribution. If my project has either denotation, I have included the requirements and the dollar amount of the total project spending that is allocated towards evidence-based interventions and/or project demographic distribution in the verbiage of the project description. *
