

Statement to Go Public from Kia Canada

Kia Canada is not able to provide comment on reports regarding confidential internal business matters, including the accuracy of any such reports.

In spite of ship delays, port strikes and railcar shortages, 2023 is a record vehicle delivery year for Kia Canada. Though these logistical issues persist into November and December 2023, we are tracking to have one of our best year end deliveries to Kia dealers in our company history.

The satisfaction of our customers remains our highest priority. We continue to work with our dealers to prioritize the fulfillment of customer orders sold in 2023. Furthermore, customers who have been impacted by a delay in their order will receive additional benefits from Kia in the month of January.

We remain committed to ensuring our customers timely delivery of their orders in 2023 and beyond.

Susan Bernardo
National Manager, PR
Kia Canada
