| (A) On 14 March we ce the wall locker drop an would turn, when and I went through canopy per the timeline with a NL conducted the same related A/C. I spoke with the timeline of canopies, Hounder of canopies and potentially be coholding area. Because I seen this in the past and pohind me. I turned look for the canopy but the look for the canopies was. We see trucks head then I ask who is gethe DZ because it does back. When the ambut the look for the canopies is does back.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | conducted a full dress reher to went through the plotting how to flip 180, and track a procedures and the landing. T 0345 show time for the hearsals as the day prior. Whe aircrew and gave them to IARP, jump profile, timing ascent or when the jumpe meant by "the first issue" in I don't believe it is an issue in the holding area I didn't worry too much. But to look behind me but cout to look behind me but cout could never see him. I sattime I did not know whose aded towards the other cancoing to pick hintby(p) 10 US happen sparingly. The primance comes back I spealoy.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | arsal for the nig g and spotting p away. We rehead procedures. The 15 March operate loaded the bushe data for our just. We took offers exited the air a your initial sweet because in the etime it was not thought he was ecause SFC Cauld not make him we two canopies it was). Once I opy and I move ic 130 by (c) (6) firmary MEDIC (c) (6) firmary MEDIC (c) (c) (d) (d) (d) (d) (d) (d) (d) (d) (d) (d                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | ht jump (H/N/C/C) recedures, condured actions in the state action.
