Such documentation, spanning from April 2023 when this case was filed, to the latest reporting provided by the defendants from December 2023, is attached. This documentation further supports the plaintiff's motions for a preliminary injunction and class certification.

Among other things, this documentation reveals that, as of December 7, 2023, there was a backlog of 1,296 APA applications. This documentation also shows that the APA backlog has been growing in recent weeks.
