Reader's Guide to Federal Temporary Assistance for Needy Families (TANF) and State Maintenance-of-Effort (MOE) Financial Data

These tables display federal TANF and state MOE expenditure data. As a condition of receiving federal TANF funds, states are required to spend a certain amount of their own funds (MOE) on TANF-allowable categories. Expenditures are grouped into 20 main categories, as defined below. *Transitional Services for Employed* and *Job Access* expenditures, which can be found in the tab *F. Appendix*, are also defined below. For more information about the expenditure categories and the new financial reporting form ACF-196-R, see the *Instructions for completion of State Financial Report Forms: ACF-196R and ACF-196* https://www.acf.hhs.gov/sites/default/files/ofa/acf 196r instructions final.pdf.

Basic Assistance (excluding Payments for Relative Foster Care, and Adoption and Guardianship Subsidies): includes payments on behalf of children for whom the child welfare agency does not have legal care and responsibility who are living with caretaker relatives and child support pass-through payments.

Relative Foster Care Maintenance Payments and Adoption and Guardianship Subsidies: basic assistance provided on behalf of a child or children for whom the child welfare agency has legal placement and care responsibility and is living with a caretaker relative, or child or children living with legal guardians; ongoing adoption subsidies; and expenditures for payments made to foster parents standing in loco parentis, if state law provides. Note: All expenditures are for cases that are not eligible for IV-E foster care assistance or subsidies.

Assistance Authorized Solely Under Prior Law

Activities that are not otherwise consistent with the purposes of TANF and/or with the prohibitions in section 408, but are allowable expenditures of federal TANF funds as activities that were in effect on September 30, 1995, or (at the option of the state) August 21, 1996.

Note: states may not report MOE expenditures in this category; all state MOE expenditures must be consistent with the purposes of TANF.

Juvenile Justice Payments: assistance payments on behalf of children in the state's juvenile justice system, authorized solely under section 404(a)(2) of the Act and referenced in a state's former AFDC or Emergency Assistance plan.

Non-Assistance Authorized Solely Under Prior Law

Activities that are not otherwise consistent with the purposes of TANF and/or with the prohibitions in section 408, but are allowable expenditures of federal TANF funds as activities that were in effect on September 30, 1995, or (at the option of the state) August 21, 1996.

Note: states may not report MOE expenditures in this category; all state MOE expenditures must be consistent with the purposes of TANF.

Includes costs related to providing work experience and community service activities, job search assistance and job readiness, related services (such as employment counseling, coaching, job development, information and referral, and outreach to business and non-profit community groups).

Work Supports

Assistance and non-assistance transportation benefits, such as the value of allowances, bus tokens, car payments, auto repair, auto insurance reimbursement, and van services provided in order to help families obtain, retain, or advance in employment, participate in other work activities, or as a non-recurrent, short-term benefit. Also includes goods provided to individuals in order to help them obtain or maintain employment, e.g., tools, uniforms, fees to obtain special licenses, as well as bonuses, incentives, and work support allowances (that do not meet the definition of "assistance") and expenditures for job access.

Non-EITC Refundable State Tax Credits

Refundable portions of other tax credits provided under state or local law that are consistent with the purposes of TANF (e.g., state refundable child care tax credit). If the state is using an intercept to recoup a debt owed to the state, only the portion of the refundable tax credit that is actually received by the family may be considered a federal TANF or MOE expenditure.

Other

Non-assistance activities that were not included in any of the above categories.

Transferred to Child Care and Development Fund (CCDF) Discretionary

Funds that the state transferred to the Discretionary Fund of the CCDF during the federal fiscal year. These funds are subject to the rules and regulations of that Fund in place for the fiscal year at the time when the transfer occurs. A state can transfer up to 30 percent of its block grant to CCDF.

Transferred to Social Services Block Grant (SSBG)

Funds the state transferred to the SSBG during the fiscal year. All funds transferred to the SSBG program are subject to the statute and regulations of the SSBG program in place for the fiscal year at the time when the transfer occurs and shall be used only for programs and services to children or their families whose income is less than 200 percent of the income official poverty line (as defined by the Office of Management and Budget). A state can transfer up to 10 percent of its TANF funds to the Social Services Block Grant.

Transitional Services for Employed

Section 411(a)(5) of the Social Security Act requires states to report expenditures on transitional services for families who have ceased to receive assistance because of employment. This can exclude expenditures from a variety of individual categories, e.g., child care or supportive services; to avoid double-counting, these expenditures are reported as a separate line item apart from the other expenditure categories.

Job Access

Expenditures of federal TANF block grant funds to meet the matching requirements for the Department of Transportation Job Access program. These expenditures are also included in "Work Supports." To avoid double-counting, the Job Access expenditures are reported as a separate line item apart from the other expenditures categories. The amount of TANF funds expended on Job Access programs that may be used as non-federal matching under the Job Access program is limited to the difference between 30 percent of TANF block grant funds and the total amount transferred to SSBG and the Discretionary Fund of CCDF.

Transitional Services for Employed: Section 411(a)(5) of the Social Security Act requires states to report expenditures on transitional services for families who have ceased to receive assistance because of employment. This can exclude expenditures from a variety of individual categories, e.g., child care or supportive services; to avoid double-counting, these expenditures are reported as a separate line item apart from the other expenditure categories.

Job Access: Expenditures of federal TANF block grant funds to meet the matching requirements for the Department of Transportation Job Access program. These expenditures are also included in "Work Supports." To avoid double-counting, the Job Access expenditures are reported as a separate line item apart from the other expenditures categories. The amount of TANF funds expended on Job Access programs that may be used as non-federal matching under the Job Access program is limited to the difference between 30 percent of TANF block grant funds and the total amount transferred to SSBG and the Discretionary Fund of CCDF.
