Subject: [EXTERNAL] Shot spotter

Hi Kelly, I wanted to do a story about shot spotter. I know that Columbus police will be doing shot spotter testing tomorrow at the old Cooper Stadium. I wanted to find out how many shot spotters we currently have and how is it working to help police respond more quickly to shots that are fired.
Are we looking to expand the number that we have?
Are you able or know someone who is able to do a zoom interview with me before 1030 this morning or later this afternoon? Thank you.
